# CHICAGO COLLEGE OF LAW.

The Law Department of Lake Forest University.  
ATHENÆUM BUILDING.

## FACULTY:

HON. THOMAS A. MORAN, LL.D.— Late Justice of Appellate Court, First District of Illinois.	HON. S. P. SHOPE— Ex-Justice of Supreme Court of Illinois.
HON. M. M. SHEPARD— Justice of Appellate Court, First District of Illinois.	HON. O. N. CARTER— Judge of County Court of Cook County.
HON. EDMUND W. BURKE— Judge of Circuit Court of Cook County.	HON. JOHN GIBBONS, LL.D.— Judge of Circuit Court of Cook County.
ADELBERT HAMILTON, LL. B. 'DARIUS H. PINGREY, LL. D.	
ELMER E. BARRETT, LL. B., Secretary.	

Sessions are held each week-day evening in the Athenæum Building.

Two and three year course.

Students qualified for admission to the bar in any state. Can be self-supporting while studying.

Degree LL. B. on those successfully completing the three-year course.

For further information address the Secretary.

ELMER E. BARRETT, LL. B.,  
Room 1501, 100 Washington Street.

## A PHENOMENAL COMPANY.

# Northwestern Life Assurance Company

OF CHICAGO, FOUNDED 1874.

**It is Without a Peer!!** Assets \$274 for every \$100 of liability—more than double the ratio of any legal reserve company, great or small.

**Most Remarkable!!** Over \$20,000,000 of death claims paid, more than \$1,200,000 of which were *paid out of its expense funds*—something of which no other insurance organization in America can boast.

**And Yet** its income for expense purposes has been, and is, far below that of any old-line company and less than that of most natural premium companies—a record of economy unparalleled.

**JAMES A. STODDARD, Manager,**  
Home Insurance Building, CHICAGO, ILL.

**DANIEL J. AVERY, President.**

**CHARLES A. CAPWELL, Secretary.**

The omission of the circulation figures for December is due to going to press before the end of the month. The circulation for the entire year will be given in all subsequent editions of the Almanac.

## "THE UNPUBLISHED COOKING LORE

of all parts of this vast country," says the Boston Globe, "has been culled and sifted and put together in THE CHICAGO RECORD COOK BOOK. The volume is unique in that it shows how a family may live well at small expense." Mailed postpaid on receipt of \$1.00 by THE CHICAGO RECORD, 181 Madison-st., Chicago.

## CIRCULATION THE CHICAGO RECORD.

## "One of the Cheapest Good Things

of the present day," says the American Grocer, New York, "is THE CHICAGO RECORD COOK BOOK. There is a menu for every day, with recipes gathered from housekeepers in all parts of the United States. It aims to furnish directions for good living adapted to the means of people with moderate incomes. It furnishes instructions for variety in diet, paying due reference to differences in tastes and desires." Mailed postpaid on receipt of \$1.00 by THE CHICAGO RECORD, 181 Madison street, Chicago.

## Suggestions

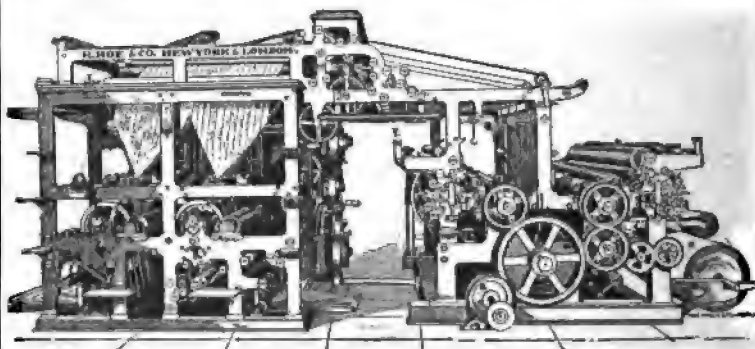

For The Daily News Almanac for 1899.

*Purchasers of THE DAILY NEWS ALMANAC are invited to send suggestions for its improvement to the Editor of The Chicago Daily News Almanac, 123 Fifth Avenue, Chicago.*

# R. HOE & CO.'S

## QUADRUPLE NEWSPAPER

# PERFECTING PRESS

THE CHICAGO DAILY NEWS HAS NOW IN OPERATION  
TEN OF THESE MACHINES.

Each prints and delivers, folded and counted, newspapers at the rate of:

**48,000 4, 6 or 8 Pages per hour.**

**24,000 10, 12, 14 or 16 Pages per hour.**

**12,000 20 or 24 Pages per hour.**

We manufacture Rotary Perfecting Presses of all sizes and for every variety of work, suited to the smallest as well as the largest circulation, also for the finest quality of magazine and book work.

Our Combined Newspaper and Color Perfecting Presses can be found in operation in many offices, also separate Color Perfecting Presses, printing in five colors and doing the best half-tone work.

Full particulars as to these and our other machines—Lithographic, Stop-Cylinder, and all other kinds of Flat-Bed Presses—also special machinery, and Printers', Lithographers', Electrotypers' and Stereotypers' materials will be furnished upon application to

**R. HOE & CO., 504 Grand-st., New York.**

**Also Mansfield Street, Borough Road, London, England.**

## PREFACE.

The year 1898 was one of the most interesting and important in the history of the United States and of the world. It was the year that witnessed the war between this country and Spain, in which the achievements of our army and navy astonished the entire world; the destruction of Spanish sovereignty in the West Indies; the loss to Spain of her colonial power in the Pacific; the annexation of the Republic of Hawaii to the United States; the first steps in a movement for the dismemberment of China; the rapid growth of a sentiment among the Jews looking to their return to Palestine; the initiative having for its object the disarmament of Europe; the disastrous culmination of the most gigantic wheat speculation in the history of commerce; the almost total absorption of the continent of Africa by the European powers; the obliteration of the last remnant of sectional feeling between the northern and southern portions of this country; the election of a new congress, and many other less important events that will be lasting in their bearing on our national history.

THE DAILY NEWS ALMANAC for 1899 has made every effort to cover all these various subjects and to deal with the facts involved in a fair and wholly impartial manner. The articles on the Philippines, Puerto Rico, Cuba, the Mariana islands and Hawaii are prepared with the purpose of giving the reader a concise and accurate view of their people, products, trade and commerce that will show their present and prospective importance. The section devoted to the war with Spain deals exclusively with the facts as they have been established, leaving to general history the speculations and opinions that have grown out of it.

Much important and valuable statistical matter has been added to the departments of agriculture, education and finance, while the army and navy have been given an enlarged space devoted to the increased importance of these branches of the national government.

The election returns are full, accurate and complete, showing the trend of political preferences in each of the states and territories, and no pains have been spared to make THE DAILY NEWS ALMANAC for 1899 of permanent value to its possessors.

January 1, 1899.

# Chicago Daily News Almanac 1899.

NOTE.—The time given in this Almanac is local mean time, except when otherwise indicated.

## ECLIPSES.

In the year 1899 there will be five eclipses, three of the Sun and two of the Moon.

I.—A Partial Eclipse of the Sun, January 11. Invisible here. Visible to the extreme North-western portion of Alaska, and to the greater portion of the North Pacific Ocean.

II.—A Partial Eclipse of the Sun, June 8. Not visible here; but visible to Great Britain, France, Germany, Denmark, Norway, Sweden, and all the Polar Regions.

III.—A Total Eclipse of the Moon, June 22-23. Invisible here; but visible generally: the beginning, in the eastern portions of Asia and throughout the Pacific Ocean, and the western portions of North America; and the end, in Asia, the middle and western Pacific Ocean, and the eastern portions of Africa.

IV.—An Annular Eclipse of the Sun, December 2. Not visible here. Visible to a portion of New Zealand, the extreme Southwestern part of Australia, and to a great portion of the South Pacific and Indian Oceans. The line of Annulus passes almost exactly through the South Pole.

V.—A Partial Eclipse of the Moon, December 16, occurring as follows:

STANDARD	EASTERN	CENTRAL	MOUNTAIN	PACIFIC
Moon enters Penumbra....	16d. 5h. 33m. A.	16d. 4h. 33m. A.	16d. 3h. 33m. A.	16d. 2h. 33m. A.
Moon enters Shadow.....	16d. 6h. 45m. A.	16d. 5h. 45m. A.	16d. 4h. 45m. A.	16d. 3h. 45m. A.
Middle of Eclipse.....	16d. 8h. 26m. A.	16d. 7h. 26m. A.	16d. 6h. 26m. A.	16d. 5h. 26m. A.
Moon leaves Shadow.....	16d. 10h. 7m. A.	16d. 9h. 7m. A.	16d. 8h. 7m. A.	16d. 7h. 7m. A.
Moon leaves Penumbra....	16d. 11h. 19m. A.	16d. 10h. 19m. A.	16d. 9h. 19m. A.	16d. 8h. 19m. A.

First contact of shadow 66 degrees from North point of the Moon's limb toward the East.  
Magnitude of Eclipse — 0.994. (Moon's diameter — 1.0.)

## THE FOUR SEASONS.

SEASON.	Begins.	Lasts.	D.	H.	M.
Winter.....	December 21, 1898, 0:59 P.M.	.....	89	0	47

NOTE.—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For Example: To know on what day of the week July 4 was in the year 1886, in the table of years look for 1886, and in a parallel line, under July, is figure 1, which directs to column 1, in which it will be seen that July 4 falls on Thursday.  
 \*1752 same as 1772 from Jan. 1 to Sept. 2. From Sept. 14 to Dec. 31 same as 1780 (Sept. 3-13 were omitted).—This Calendar is from W. H. Laker's London Almanack, with some revisions.

## IMPORTS OF MERCHANDISE WITH RATE OF DUTY.

For the fiscal year ended June 30, 1898, compared with the corresponding period of 1897.  
[Abbreviation: n. e. s., not elsewhere specified.]

## THE COTTON CROP AND PRICES.

The phenomenally low price of cotton recently reported, said to be the lowest point reached in many years, lends special interest to a series of tables just compiled by the treasury bureau of statistics, showing the remarkable increase in cotton production and coincidental fall in price. These tables show that the United States, the chief cotton producer of the world, has quadrupled her cotton production since 1873, and that the price of cotton in the same

period has fallen to about one-fourth that which prevailed in that year. In 1872 the cotton crop of the United States is shown to have been 1,384,084,494 pounds, with an average price of 22.19 cents per pound. In 1898 the crop is reported at 5,647,572,051 pounds, with an average price of 6.23 cents per pound. Thus the production of 1898 is more than four times that of 1872 and the average price but a little over one-fourth that of that year.

When it is considered that the other por-

tions of the world that grow cotton have not at all reduced their production meantime it is apparent that the increased cotton supply of the world in the quarter of a century under consideration has been very great and far in advance of the increase in population or consuming power.

Twenty-five years ago the United States produced 70 per cent of the cotton of the world; to-day she produces 85 per cent of the world's cotton. This increase in the percentage has been, not because of a reduction of the cotton produced in other parts of the world, but simply on account of the increase in our own. The cotton supply of the other cotton-producing sections of the world in 1873-3 was 1,667,000 bales and in 1897-8 1,665,000 bales. The average cotton production of other countries from 1872 to 1878 was 1,618,000 bales per annum and from 1890 to 1897 was 1,924,000 bales per annum, showing that there has also been a slight growth in cotton production in other parts of the world, while our own production has been increasing enormously.

Not only has the price of cotton fallen at about the same rate that the production has increased but there has also been a corresponding fall in the price of cloths manufactured from cotton. The reports of the bureau of statistics show that cotton "printing cloths" were quoted at 7.88 cents per yard in 1872, while reports just published show an average rate of 2.17 cents per yard in the cotton year 1898 for the same grade of cloths, the fall in the manufactured article thus having, in this case at least, nearly or quite kept pace with the fall in the price of raw cotton and the increase in production of that article.

It is proper to add that the prices quoted for the earlier years are based upon the currency values of that period, and if reduced to a gold basis would be slightly less. Cotton "printing cloths" whose prices are given in the table are of the quality manufactured for use in printing calicoes and accepted as a standard grade by which prices are constantly quoted:

## COMPULSORY SCHOOL LAWS IN THE UNITED STATES.

Twenty-nine states and two territories have passed compulsory school laws defining the ages to which the law shall apply, the annual term of school attendance, and the penalty imposed upon parents or guardians for violation of the law.

(Prepared by the United States bureau of education.)

STATE.	Age.	Annual period.	Penalty on parents or guardians.
Maine.....	8-15	16 weeks (2 terms of 8 weeks each, if practicable).	Fine, \$25 (maximum).
New Hampshire.....	6-16	12 weeks.....	Each offense, \$10 (maximum).
Vermont.....	8-15	20 weeks.....	Fine, \$10 to \$50.
Massachusetts.....	8-14 or 15	30 weeks.....	Each offense, forfeit not exceeding \$50.
Rhode Island.....	7-15	12 weeks; 6 consecutive....	Each offense, fine \$30 (maximum).
Connecticut.....	*8-14 or 15	8 to 13 years of age, 24 weeks; 13 to 14, 12 weeks.	For each week's neglect, fine \$5 (maximum).
New York.....	*8-14	8 to 12 years of age and unemployed youths 14 to 16, full term; for children 12 to 14, at least 80 days consecutive.	First offense, fine \$5 (maximum); each subsequent offense, \$50 (maximum) or imprisonment 30 days.
New Jersey.....	7-12	20 weeks; 8 consecutive....	Each offense, \$10 to \$35 or imprisonment 1 to 3 months.
Pennsylvania.....	*8-13	70% of the entire term.	First offense, \$2 (maximum); each subsequent offense, \$5 (maximum).
District of Columbia..	16-15	12 weeks; 6 consecutive....	Fine, \$30 (maximum).
West Virginia.....	8-14	16 weeks.....	Fine, not exceeding \$5.
Kentucky.....	7-14	8 consecutive weeks.....	Fine, \$5 to \$30 (first offense); \$10 to \$50 each subsequent offense.
Ohio.....	*8-14	20 weeks, city district; 16 weeks, village and township districts.	Fine, \$5 to \$30.
Indiana.....	8-14	12 consecutive weeks.....	\$10 to \$50; also, if court so orders, imprisonment 2 to 30 days.
Illinois.....	7-14	16 weeks; 8 consecutive....	Fine, \$3 to \$30.
Michigan.....	*8-14	16 weeks; 6 consecutive....	First offense, \$5 to \$10; each subsequent offense, \$10 (minimum).
Wisconsin.....	7-13	12 weeks.....	Fine, \$3 to \$30.
Minnesota.....	8-16	12 weeks; 6 consecutive....	First offense, \$10 to \$25; each subsequent offense, \$25 to \$50.
North Dakota.....	8-14	.....do.....	First offense, \$5 to \$30; each subsequent offense, \$10 to \$50.
South Dakota.....	8-14	.....do.....	Fine, \$10 to \$20.
Nebraska.....	8-14	12 weeks.....	Each offense, \$10 to \$50.
Kansas.....	8-14	12 weeks; 6 consecutive....	First offense, fine \$5 to \$10; each subsequent offense, \$10 to \$30.
Montana.....	8-14	.....do.....	Each offense, \$5 to \$30 or 30 days' imprisonment.
Wyoming.....	16-21	12 weeks.....	Each offense, \$25 (maximum).
Colorado.....	8-14	12 weeks; 8 consecutive....	Each offense, \$5 to \$25.
New Mexico.....	8-16	12 weeks.....	Fine, \$1 to \$35, or imprisonment for not more than 10 days.
Utah.....	8-14	16 weeks; 10 consecutive....	First offense, \$10 (maximum); each subsequent offense, \$30.
Nevada.....	12-14	16 weeks; 8 consecutive....	First offense, \$50 to \$100; each subsequent offense, \$100 to \$300.
Idaho.....	8-14	.....do.....	First, \$5 to \$30; subsequent offenses, \$10 to \$50.
Washington.....	8-15	12 weeks.....	Fine, \$10 to \$25.
Oregon.....	8-14	12 weeks; 8 consecutive....	First offense, \$5 to \$35; subsequent offense, \$35 to \$50.
California.....	8-14	Two-thirds of school term; 12 weeks consecutive....	First offense, \$30; each subsequent offense, \$50 to \$50.

\*To 16 if unemployed in labor.

†The law applies to youths 12 to 16 years of age if discharged from employment in order to receive instruction.

‡Law not enforced.

§In cities, 7 to 16.

¶Penalty imposed only for children 7 to 16.

## COMPULSORY EDUCATION IN FOREIGN COUNTRIES.

COUNTRY.	Age.	Attendance required.	Penalty.
Austria .....	6-14	Until scholar has acquired prescribed subjects, religion and reading, writing and arithmetic.	Fine \$3.50 (maximum) or imprisonment up to 2 days.
Bavaria .....	6-14	.....do.....	Fine \$11 (maximum) or 8 days' imprisonment.
Belgium .....	.....	No compulsory law.	.....
France .....	6-13	For 4 absences of half a day in a month the parent is summoned before local school committee.	First and second offenses, warning; subsequent, fine, \$3 (maximum) and imprisonment 5 days
England .....	5-13	Full school term unless by special arrangement.	Determined by local by-laws.
Scotland .....	5-13	.....do.....	Fine \$5 or imprisonment 14 days.
Holland .....	.....	No compulsory law.	.....
Hungary .....	10-12	8 months, country; 10 months, town.	Fine from 35 cents to \$1.50.
Italy .....	6-9	No fixed rule.	Each offense, 10 cents to \$2.
Norway .....	13	12 weeks per annum.	Fines.
Prussia .....	6-14	8 years, or until elementary education is completed.	Each offense, 70 cents (maximum) or imprisonment up to 3 days.
Saxony .....	7-15	Same as Austria.	Fine \$1.50 to \$7, or imprisonment from 1 day to 8 weeks.
Sweden .....	7-14	34½ weeks.	Fines and imprisonment.
Berne .....	6-15	Five-sixths of possible attendances.	.....
Geneva .....	6-15	4 days a week, 6 hours a day.	Do.
Neuchâtel .....	7-16	After 13 years of age, 10 hours a week.	Fine 38 cents (minimum) or imprisonment 30 days (maximum)
Tessin (Switzerland) ..	6-14	28 hours a week for 6 to 9 months.	Each offense 2 to 3 cents, and 4 hours' imprisonment.
Vaud (Switzerland) ..	7-16	38 hours a week.	Fines or imprisonment.
Grisons (Switzerland) ..	7-15	Every day; penalties for 10 absences.	Warnings; subsequently fines, 5 cents to \$3.
Zurich .....	6-16	Every school day.	Fine or imprisonment.
Württemberg .....	6-14	.....	Do.
British Columbia .....	7-12	No compulsory law.	.....
Cape Colony .....	.....	One-half the period during which the school is open.	Fine \$10 (maximum).
New Zealand .....	7-13	.....	.....
Nova Scotia .....	7-12	80 days a year.	Fine \$2.
Ontario .....	7-13	100 days a year.	\$1 per month for each of the child given not attending a school.
Prince Edward Island ..	8-13	18 weeks a year.	Fine.
Quebec .....	.....	No compulsory law.	.....
Queensland .....	6-13	60 days in each half-year, but law not yet enforced.	Fine \$5 to \$25, or imprisonment 7 to 30 days.
South Australia .....	7-13	35 school days a quarter.	Fine \$1.25 to \$5.
Tasmania .....	7-13	3 days a week.	.....

\*13 to 16 in secular Sunday schools. †12 to 15 continuation. ‡From 8 until confirmation; in town from 7 until confirmation. §Special dispensation after 7 years' attendance and 1 year's prolongation for ignorance.

## POPULATION OF EUROPE.

According to figures given by La Revue Française de l'Etranger, the total population of Europe, by calculations made on the latest census, is 350,000,000, which is a gain of 37,000,000 over that computed January, 1888. Here is a table showing the figures given in the Revue:

Bulgaria .....	3,000,000
Switzerland .....	3,000,000
Greece .....	2,400,000
Denmark .....	2,300,000
Servia .....	2,300,000
Norway .....	2,000,000
The density of the population according to each square kilometer (about .386 square mile) is thus reckoned: In Belgium, 230	
Italy, 169; Holland, 149; England, 126; Germany, 97; Switzerland, 73; France, 72; Austria, 69; Spain, 36; Russia, 20. While the	
annual increase of the population of Russia has been 1.45 for every 100 in the last ten years, that of Germany has been 1.15, of Austria-Hungary .96, of England .35, of Italy .45, of France .08. At this rate of	
augmentation in 100 years Russia would have 228,000,000 inhabitants, Germany 104,000,000, Austria 79,000,000, England 65,000,000, Italy 44,000,000 and France only 40,000,000.	
European Russia and Finland .....	106,250,000
Germany .....	52,300,000
Austria-Hungary .....	43,500,000
United Kingdom .....	39,800,000
France .....	38,000,000
Italy .....	31,300,000
Spain .....	18,000,000
Belgium .....	6,500,000
Turkey in Europe .....	5,500,000
Roumania .....	5,000,000
Portugal .....	5,000,000
Sweden .....	5,000,000
Holland .....	4,000,000

## QUALIFICATIONS FOR SUFFRAGE.

REQUIREMENTS AS TO CITIZENSHIP IN THE VARIOUS STATES.	PREVIOUS RESIDENCE REQUIRED.				Registration.	Ballot reform.	Excluded from voting.
	State.	County.	Town.	Precinct.			
ALABAMA—Citizens, or alien who has declared his intention; must exhibit poll-tax receipt.	1 y.	3 m.	30 d.	30 d.	Yes.	Yes.	If convicted of treason, embezzlement of public funds, malfeasance in office or other penitentiary offenses, idiots or insane.
ARKANSAS—Like Alabama.	1 y.	6 m.	...	30 d.	No.	Yes.	Idiots, insane, convicts until pardoned.
CALIFORNIA—Citizens by nativity; naturalized for 90 days or treaty of Quintanaro.	1 y.	90 d.	...	30 d.	Yes.	Yes.	Chinese, insane, embezzlers of public moneys, convicts.
COLORADO—Citizens, male or female, or alien who has declared his intention 4 months before offering to vote.	6 m.	90 d.	90 d.	30 d.	Yes.	Yes.	Persons under guardianship, insane, idiots, prisoners.
CONNECTICUT—Citizens who can read.	1 y.	...	6 m.	...	Yes.	Yes.	Convicted of felony or other infamous crime.
DELAWARE—Citizens paying \$1 registration fee.	1 y.	4 m.	1 m.	15 d.	No.	Yes.	Insane, idiots, felons, paupers.
FLORIDA—Citizens of United States.	1 y.	6 m.	...	...	Yes.	No.	Persons not registered, insane or under guardian, felons, convicts.
GEORGIA—Citizens who have paid all taxes since 1877.	1 y.	6 m.	...	...	(a)	No.	Persons convicted of crimes punishable by imprisonment, insane, delinquent taxpayers.
IDAHO—Citizens, male or female.	6 m.	90 d.	3 m.	30 d.	Yes.	No.	Chinese, Indians, insane, felons, polygamists, bigamists, traitors, bribers.
ILLINOIS—Citizens of United States.	1 y.	90 d.	30 d.	30 d.	Yes.	Yes.	Convicts of penitentiary until pardoned.
INDIANA—Citizens, or alien who has declared intention and resided 1 year in U. S.	6 m.	90 d.	90 d.	30 d.	No.	Yes.	Convicts and persons disqualified by judgment of a court.

The difference between the amount of money in the country and the amount in circulation represents the money in the treasury. Currency certificates, act of June 8, 1872, are included in the amount of United States notes in circulation in tables for years 1873 to 1891, inclusive; since 1891 they are reported separately.

## GOVERNMENT PAPER CURRENCY IN CIRCULATION.

JUNE 30.	Legal-tender notes.	Treasury notes 1890.	Currency certificates.	Gold certificates.	Silver certificates.	Total government paper.
1880	\$313,921,457		\$14,235,000	\$7,903,900	\$5,786,509	\$341,648,996

## MONETARY SYSTEM OF THE UNITED STATES.

[From Muhleman's Monetary Systems of the World.]

	Wgt.	Fine- ness.	Ra- tio to gold.	Limit of issue.	Denomi- nations.	Legal-ten- der qual- ity.	Receiv- able.	Exchange- able.	Redeem- able.
Gold coin.	25.8 gr. to dollar.	900-1000	.....	None.	\$20 10 5 2½	Unlimited	For all dues.	For certifi- cates under limitations.	.....
Gold cer- tificates.	.....	.....	.....	Issue sus- pended so long as free gold in treasury is below \$100,000,000.	\$10,000 5,000 1,000 500 100 50 20	None.	For all public dues.	For gold coin at treasury or any other money.	In gold coin at treasury.
Silver dol- lars.....	412.5 gr. to dollar.	900-1000	15.988 to 1.	Require- ment to redeem treasury notes.	\$1	Unlimited unless otherwise contracted.	For all dues.	For silver certificates or smaller coins at treasury.	Maybe de- posited for silver certifi- cates.
Silver cer- tificates.	.....	.....	.....	Silver dol- lars in use	\$1,000 500 100 50 2 1	None.	For all public dues.	For dol- lars or smaller coins.	In silver dollars.
U.S. notes.	.....	.....	.....	\$346,681,016.	Same as silver cer- tificates.	Same as silver dol- lars.	For all dues.	For all kinds of money ex- cept gold certifi- cates.	In coin at sub-treas- ury in N. Y. and San Francisco in sums of \$20 or over
Treasury notes of 1890.....	.....	.....	.....	\$156,044,615.	Same as silver cer- tificates.	Same as silver dol- lars.	For all dues.	For U. S. notes.	In coin at treasury.
Currency certifi- cates.....	.....	.....	.....	Same as U.S. notes.	\$10,000	None.	Not re- ceivable.	For U. S. notes.	In U. S. notes at subtreas- ury where issued.
National bk. notes.	.....	.....	.....	Volume of U.S. bonds and their cost.	\$1,000 500 100 50 20 10 5	None.	For all dues ex- cept du- ties and interest on public debt.	For silver and minor coins.	In lawful money at treasury or bank of issue.
Subsidiary coins.....	885.8 gr. to dollar.	900-1000	14.958 to 1.	Needs of the coun- try.	50c 25c 10c	Not to ex- ceed \$10.	To amount of \$10 for all dues.	For minor coins.	In lawful money at treasury in sums of \$20 or any multiple.
Minor coins.....	5-ct. pes. 77.16 gr. 1-ct. pes. 48 gr.	50-¾ copper ¾ nick- el. 1c-¾ per 5% tin and zinc.	.....	Needs of the coun- try.	5c 1c	Not to ex- ceed 25c.	To amount of 25c for all dues.	.....	In lawful money at treasury in sums of \$20 or over.

\*Duties on imports by regulation only.

## COINS OF THE UNITED STATES.

Authority for coining and changes in weight and fineness, total amount coined, legal-tender quality.

## GOLD COINS.

**Double Eagles**—Authorized to be coined, act of March 3, 1849; weight, 516 grains; fineness, .900. Total amount coined to June 30, 1897, \$1,357,496.046. Full legal tender.

**Eagles**—Authorized to be coined, act of April 2, 1792; weight, 270 grains; fineness, .916½; weight changed, act of June 28, 1834, to 258 grains; fineness changed, act of Jan. 18, 1837, to .900. Total amount coined to June 30, 1897, \$274,581,286. Full legal tender.

**Half-Eagles**—Authorized to be coined, act of April 2, 1792; weight, 135 grains; fineness, .916½; weight changed, act of June 28, 1834, to 129 grains; fineness changed, act of June 28, 1834, to .900. Total amount coined to June 30, 1897, \$234,370,045. Full legal tender.

**Quarter-Eagles**—Authorized to be coined, act of April 2, 1792; weight, 67.5 grains; fineness, .916½; weight changed, act of June 28, 1834, to 64.5 grains; fineness changed, act of June 28, 1834, to .900. Total amount coined to June 30, 1897, \$28,770,880. Full legal tender.

**Three-Dollar Piece**—Authorized to be coined, act of Feb. 21, 1853; weight, 77.4 grains; fineness, .900; coinage discontinued, act of Sept. 26, 1890. Total amount coined, \$1,619,376. Full legal tender.

**One Dollar**—Authorized to be coined, act of March 3, 1849; weight, 25.8 grains; fineness, .900; coinage discontinued, act of Sept. 26, 1890. Total amount coined, \$19,469,357. Full legal tender.

## SILVER COINS.

**Dollar**—Authorized to be coined, act of April 2, 1792; weight, 416 grains; fineness, .892.4; weight changed, act of Jan. 18, 1837, to 412½ grains; fineness changed, act of Jan. 18, 1837, to .900; coinage discontinued, act of Feb. 12, 1873. Total amount coined to Feb. 12, 1873, \$8,631,281. Coinage reauthorized, act of Feb. 28, 1878. Coinage discontinued after July 1, 1891, except for certain purposes, act July 14, 1890. Amount coined to June 30, 1897, \$400,024,981. Full legal tender except when otherwise provided in the contract.

**Trade Dollar**—Authorized to be coined, act of Feb. 12, 1873; weight, 420 grains; fineness, .900; legal tender limited to \$5, act of June 22, 1874 (rev. stat.); coinage limited to export demand and legal-tender quality repealed, joint resolution, July 22, 1876; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$35,965,924.

**Half-Dollar**—Authorized to be coined, act of April 2, 1792; weight, 38 grains; fineness, .892.4; weight changed, act of Jan. 18, 1837, to 392.5 grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 192 grains; weight changed, act of Feb. 12, 1873, to 12½ grains, or 192.9 grains. Total amount coined to June 30, 1897, \$134,933,136. Legal tender, \$10.

**Columbian Half-Dollar**—Authorized to be coined, act of Aug. 5, 1892; weight, 102.9 grains; fineness, .900. Total amount coined, \$2,301,052.50. Legal tender, \$10.

**Quarter-Dollar**—Authorized to be coined, act of April 2, 1792; weight, 104 grains; fineness, .892.4; weight changed, act of Jan. 18, 1837, to 103½ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 96 grains; weight changed, act of Feb. 12, 1873, to 64 grains, or 96.45 grains. Total amount coined to June 30, 1897, \$22,386,062. Legal tender, \$10.

**Columbian Quarter-Dollar**—Authorized to be coined, act of March 3, 1893; weight, 36.45 grains;

fineness, .900. Total amount coined, \$10,005.75. Legal tender, \$10.

**Twenty-Cent Piece**—Authorized to be coined, act of March 3, 1855; weight, 5 grams, or 77.16 grains; fineness, .900; coinage prohibited, act of May 2, 1878. Total amount coined, \$271,000.

**Dime**—Authorized to be coined, act of April 2, 1792; weight, 4.5 grains; fineness, .892.4; weight changed, act of Jan. 18, 1837, to 41¼ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 38.4 grains; weight changed, act of Feb. 12, 1873, to 2½ grains, or 38.5 grains. Total amount coined to June 30, 1897, \$29,428,613.90. Legal tender, \$10.

**Half-Dime**—Authorized to be coined, act of April 2, 1792; weight, 20.8 grains; fineness, .892.4; weight changed, act of Jan. 18, 1837, to 20¼ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 19.2 grains; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$4,880,219.40.

**Three-Cent Piece**—Authorized to be coined, act of March 3, 1851; weight, 12½ grains; fineness, .900; weight changed, act of March 3, 1853, to 11.32 grains; fineness changed, act of March 3, 1853, to .900; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$1,282,087.20.

## MINOR COINS.

**Five-Cent (nickel)**—Authorized to be coined, act of May 16, 1860; weight, 77.16 grains, composed of 75 per cent copper and 25 per cent nickel. Total amount coined to June 30, 1897, \$14,362,054.75. Legal tender for \$1, but reduced to 25 cents by act of Feb. 12, 1873.

**Three-Cent (nickel)**—Authorized to be coined, act of March 3, 1855; weight, 30 grains, composed of 75 per cent copper and 25 per cent nickel. Total amount coined, \$341,349.48. Legal tender for 60 cents, but reduced to 25 cents by act of Feb. 12, 1873. Coinage discontinued, act of Sept. 26, 1890.

**Two-Cent (bronze)**—Authorized to be coined, act of April 2, 1864; weight, 96 grains, composed of 96 per cent copper and 4 per cent tin and zinc. Coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$912,020.

**Cent (copper)**—Authorized to be coined, act of April 2, 1792; weight, 25½ grains; weight changed, act of Jan. 14, 1793, to 26 grains; weight changed by proclamation of the president, Jan. 26, 1793. In conformity with act of March 3, 1793, to 168 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$1,562,887.44.

**Cent (nickel)**—Authorized to be coined, act of Feb. 21, 1857; weight, 72 grains, composed of 88 per cent copper and 12 per cent nickel. Coinage discontinued, act of April 22, 1864. Total amount coined, \$2,047,720.

**Cent (bronze)**—Coinage authorized, act of April 22, 1864; weight, 48 grains, composed of 96 per cent copper and 4 per cent tin and zinc. Total amount coined to June 30, 1897, \$8,449,600.48. Legal tender, 25 cents.

**Half-Cent (copper)**—Authorized to be coined, act of April 2, 1792; weight, 132 grains; weight changed, act of Jan. 14, 1793, to 104 grains; weight changed by proclamation of the president, Jan. 26, 1793. In conformity with act of March 3, 1793, to 84 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$39,929.11.

9.....	147.484	.25485	6.881	3.17154					

The only authorized material standard of customary length is the Troughton scale belonging to this office, whose length at 59°.32 Fahr. conforms to the British standard. The yard in use in the United States is therefore equal to the British yard.

The only authorized material standard of customary weight is the troy pound of the mint. It is of brass of known density, and therefore not suitable for a standard of mass. It was derived from the British standard troy pound of 1758 by direct comparison. The British avoirdupois pound was also derived

from the latter, and contains 7,000 grains troy.

The grain troy is therefore the same as the grain avoirdupois, and the pound avoirdupois in use in the United States is equal to the British pound avoirdupois.

The British gallon = 4.54346 liters.

The British bushel = 36.3477 liters.

The length of the nautical mile given above and adopted by the United States Coast and Geodetic Survey many years ago is defined as that of a minute of arc of a great circle of a sphere whose surface equals that of the earth (Clarke's Spheroid of 1866).

1 Gunter's chain	=	20.1168	meters.
1 sq. statute mile	=	260.000	hectares.
1 fathom	=	1.829	meters.
1 nautical mile	=	1853.25	meters.
1 foot = .304801 meter,			
1 avoirdupois pound	=	437.595677	gram.
15432.35839 grains	=	1	kilogramme.

By the concurrent action of the principal governments of the world an International Bureau of Weights and Measures has been established near Paris. Under the direction of the International Committee two ingots were cast of pure platinum-iridium in the proportion of 9 parts of the former to 1 of the latter metal. From one of these a certain number of kilogrammes were prepared, from the other a definite number of meter bars. These standards of weight and length were inter-compared, without preference, and certain ones selected as international standards. The others were distributed by lot. In September, 1889, to the different governments and are called national prototype standards. Those apportioned to the United States were received in 1890 and are in the keeping of United States coast and geodetic survey.

The metric system was legalized in the United States in 1893.

The international standard meter is derived from the meter des archives, and its length is defined by the distance between two lines at 0° centigrade, on a platinum-iridium bar deposited at the International Bureau of Weights and Measures.

The international standard kilogramme is a mass of platinum-iridium deposited at the same place, and its weight in vacuo is the same as that of the kilogramme des archives.

The liter is equal to a cubic decimeter, and it is measured by the quantity of distilled water which, at its maximum density, will counterpoise the standard kilogramme in a vacuum, the volume of such a quantity of water being, as nearly as has been ascertained, equal to a cubic decimeter.

## WHEAT CORNER OF 1897-98.

The year 1898 marked the culmination and collapse of one of the most gigantic and spectacular operations in wheat ever inaugurated in this or any other country. The center of activity was Chicago, and the central figure was Joseph Leiter, a resident of that city. Operations were continued over a period of more than ten months, during which it is estimated that nearly 100,000,000 bushels of wheat were traded in by the party in interest, including what is generally known as his "scalping" operations, and the price was advanced from 35 cents at the start to \$1.55 a bushel before the end was reached, a net improvement of nearly \$1.20. The amount of cash wheat handled by one party, the capital involved and the wide interest excited were without precedent. The attention of the whole civilized world was attracted and the Chicago market was constantly watched by the people of all foreign lands, as well as by those of our own.

Prices were pushed to a dizzy height, but the collapse was sudden and disastrous. Joseph Leiter and his immediate following being the principal sufferers, those best informed estimating their losses at nearly, if not fully, \$10,000,000.

Joseph Leiter was a young man of 29, who had never been known as an operator in wheat, and was not even a member of the board of trade; he came of good mercantile stock, however, his father—L. Z. Leiter—having been for many years a leading and successful merchant in Chicago, finally retiring from the business with a large fortune, which was eventually increased to \$30,000,000 or more. The son was thought to have inherited the mercantile instincts of his father, and had already demonstrated in many ways his keen business sagacity. It is claimed, and generally admitted, that when Leiter ventured upon his first operations in wheat nothing was more foreign to his thoughts than the colossal transactions in which he eventually became the directing spirit. The idea of "speculation" he disclaimed from first to last, stoutly contending that he was simply a merchant, and a speculator only in the sense that he expected to sell what he bought at a handsome profit, and without resorting to any of the tricks known to the typical speculator.

A fortunate investment made early in September, 1897, was the humble beginning of the Leiter deal, which did not end until June 13, 1898. From the inception the transactions gradually grew in magnitude until every previous experience in that line was completely overshadowed, and the world watched its development with increasing wonder.

The reasons which led Leiter to think so favorably of wheat were found in the then prevailing conditions the world over, but more especially in Europe, and these he freely made known to the public. He attempted no deception, but openly warned every one of the folly of selling wheat at the then prevailing prices, and he at the same time proceeded to buy freely what the public seemed so greedy to sell, with the result that when the conditions he had foreseen came finally to be generally acknowledged, prices were greatly enhanced and the soundness of his judgment apparently vindicated.

The world's crop of wheat in 1897 was

much below the average. England, France, and other countries which found it necessary to import wheat, found also their harvests more than usually deficient; while Russia, India, Argentina and Austria-Hungary—countries which usually raise a large surplus for export—found this surplus greatly curtailed. So with enlarged necessities came diminished supplies, and the problem of feeding Europe soon began to attract attention in America. As figured out statistically, the breadstuffs situation, when the harvests in 1897 were gathered, compared with that of 1896 as follows:

—Wheat crop (bushels).—		
	1897.	1896.
France .....	248,000,000	337,000,000
Russia .....	232,000,000	319,000,000
Italy .....	88,000,000	132,000,000
Austria .....	36,000,000	41,000,000
Hungary .....	53,000,000	101,000,000
Roumania .....	29,000,000	69,000,000
Bulgaria .....	25,000,000	46,000,000
United Kingdom..	54,000,000	60,000,000

The above-named countries, with the minor ones not named, showed a deficiency in the European wheat production of 1897 of 356,000,000 bushels, as compared with the year previous. To offset this was an increase in the United States of about 120,000,000 bushels and about 20,000,000 bushels in other parts of the world, leaving a net shortage in the world's wheat supply of over 200,000,000 bushels. These figures early attracted Leiter's attention, and he argued openly that they foreshadowed an unusual demand for American wheat, and predicted an astonishing advance in values. So it was not long before he became a heavy buyer—simply as a merchant, he always protested, or as he would buy a piece of real estate when it was offered below its intrinsic value. He was in the market because the inexorable law of supply and demand must eventually enhance the price of wheat. Probably no man ever bought a bushel of wheat with more complete confidence in its legitimate value than did Joseph Leiter in his earlier dealings, and, despite his many disappointments and the serious obstacles he frequently encountered, his faith rarely wavered until the disastrous end of his long campaign was finally reached. In the whole ten months of its continuance he never descended to any of the tricks of the ordinary speculator, nor endeavored to take advantage of the seller by concealing his real purpose; he openly proclaimed himself on the "bull side," warned the trade of the danger of "selling short," and bought without limit whatever was offered for sale. In August, 1897, his presence in the market and his extensive operations began to attract attention; the price was then about 75½ cents, having sold at 64½ cents earlier in the season. As his accumulations went on prices were gradually enhanced. When the end of September approached, and the time was near at hand for the delivery of the wheat Leiter had bought for that month's delivery, it was found that there was little here, and to avoid the odium of running a corner he announced his willingness to transfer all his trades to December, but warned the trade that the price would be very much higher when that delivery matured. But the large traders—and especially that class known to

include the elevator interest—were almost uniformly "bears," and, confident that an amateur speculator, as Leiter was acknowledged to be, could not successfully carry through a campaign on the lines he had undertaken, all kept selling heavily, and Leiter kept on buying with equal persistency, prices in the meanwhile continuing to advance steadily.

By this time the world had become deeply interested and everybody was watching the course of prices on the Chicago board of trade, the up turn abroad having kept pace with that in America. As the end of December, 1897, drew near, the stocks of contract wheat in Chicago were found to be greatly depleted and nearly 6,000,000 bushels less than Leiter had bought in the meantime, and which must be delivered to him before the end of the month. Many, considering the situation hopeless for the shorts, settled and paid their differences. But the great elevator proprietors, who, as before stated, were the largest "shorts," determined to get the wheat and deliver it, evidently expecting that the delivery of 6,000,000 to 6,000,000 bushels practically in one lump—and which had to be paid for in cash on delivery—would financially embarrass the daring young operator. For this purpose the northwest was ransacked by the large and wealthy interests which had been caught "short," and wheat was bought wherever it could be found, with little regard to the price, and, favored by unusually open weather, millions of bushels were brought to Chicago by lake from Duluth and by car from Minneapolis. During the last days of December there were delivered to Leiter over 5,000,000 bushels of wheat, which was promptly accepted and paid for in cash, apparently without effort and without any unusual strain on his financial credit. This large delivery, with his other holdings, left Leiter the absolute owner of from 8,000,000 to 10,000,000 bushels of the cereal, though in the meantime he had been sending it forward very liberally to tidewater or to Europe. There was some expectation that the enormous demands made on Leiter's bank account by the delivery of so much property, on which instant payment was demanded, might prove too much of a load for the young speculator; but his father, L. Z. Leiter, promptly came to his assistance with his \$30,000,000 fortune, and his credit soon became practically unlimited.

For a moment Leiter hesitated at this juncture, but his indecision did not last long; he was the owner of a vast amount of grain which he felt forced to protect, and his only course now seemed to be to carry his campaign into May, 1898. At the same time he began those tremendous shipments abroad which soon became the wonder of the trade, and, with a single exception, finally eclipsed anything before known in the history of the grain trade. In order to guard against a repetition of his experience in December, 1897, he extended his operations into the northwest, and before long owned millions of bushels of wheat at Duluth and Minneapolis, in addition to his immense and daily increasing holdings at Chicago. But wheat was still offered freely; the farmers, attracted by the high prices, were selling everything they had stored, until the interior reserves were well-nigh exhausted everywhere. In the meantime prices had gone up by leaps and bounds, and the foreign markets were keeping pace with

those in this country. Yet Leiter's representatives still stood in the pit and demanded more wheat, though in the meantime his accumulations probably amounted to 20,000,000 bushels—a larger load than any single individual was ever before known to carry. But his faith had not yet begun to waver; "shorts" had become badly frightened, however, and with Leiter's aggressive confidence and the "shorts'" efforts to cover prices continued to soar.

The end of May, 1898, finally came, and Leiter's opponents again disappointed him; they had made the most strenuous exertions; had ransacked the country, and finally succeeded in delivering him 8,000,000 bushels, for which prompt payment was necessary; but his star was still in the ascendant, or at least his financial sky was unclouded, and payment was easily made. By this time, however, his holdings had enlarged to something like 25,000,000 bushels, representing not less than \$30,000,000 in cash—a staggering load for any one but Leiter. Yet, still undaunted, he at once commenced to buy wheat for July delivery, and this move was the beginning of the end. His skies darkened, the load became tiresome, and financial difficulties began to press more or less heavily, and his confident smile had departed. Prices abroad had risen to a point which restricted consumption, and the old world was driven to other markets. Argentina and India had begun to ship their bountiful crops, and the promise for this country for 1898 as well as for the old world generally was most brilliant. Every hour the burden became heavier for the man who had undertaken to fight the whole world. The speculative element fought him with frantic vigor, and every available bushel of wheat on both sides of the ocean was sold, so that the theoretical supplies which Leiter had figured on were enormously exceeded by the actual marketings. The end drew near; it came suddenly. On Monday, June 12, 1898, Leiter found himself with 30,000,000 to 35,000,000 bushels of wheat on hand, his ready cash gone and his credit with the banks shattered by the withdrawal of the financial support of L. Z. Leiter, which he had hitherto had.

Realizing at last the hopelessness of his battle, he struck his colors, threw all the wheat he had bought for July on to the market, and in little more than an hour had divested himself of fully 8,000,000 bushels. The price had also dropped 20 cents a bushel, aggregating fully \$7,000,000 on his entire holdings. The 15,000,000 bushels or more of cash wheat he held in this country and Europe then became a matter of grave concern. A general panic was likely to follow the forced marketing of such a vast amount of property, and to avoid such a calamity it was protected by the banks and finally placed in the hands of trustees to be sold at leisure when shortened supplies might warrant it or circumstances dictate. This eminently wise action prevented the disastrous consequences which would otherwise have followed such a complete collapse and minimized the ruin which might, without such precaution, have followed the Leiter fiasco.

It will no doubt be interesting to trace the course of prices each month during the ten months that Leiter was carrying on his campaign, or from Aug. 1, 1897, to June 12, 1898, comparing them with the current values the same month of the year previous,

the quotations being for cash wheat and embracing the entire range for the month:

Monthly price cash wheat.			
	1897.		1896.
August .....	\$0.74½ @ 1.03½	\$0.53 @ .63½	
September .....	.85¼ @ 1.01½	.55 @ .70	
October .....	.87½ @ .99½	.65¼ @ .81¼	
November .....	.91 @ 1.00½	.71 @ .94½	
December .....	.92 @ 1.09	.74½ @ .93½	
	1898.		1897.
January .....	.89¼ @ 1.10	.71¼ @ .94	
February .....	.96 @ 1.08	.71½ @ .81½	
March .....	1.00 @ 1.06½	.69½ @ .90½	
April .....	1.01 @ 1.23½	.64½ @ .97	
May .....	1.17 @ 1.86	.68½ @ .97½	

The price in June, up to the day of the collapse, had ranged at \$1.05 @ 1.20, and on the day that Leiter threw his holdings overboard the price fell to 85 cents, and a week later had fallen to 75 cents, a loss of \$1.10 from the top figure, \$1.85, which was reached in May.

The advance started wheat to Chicago from all over the country and the receipts were far in excess of what any one had calculated. From September to May, inclusive, the receipts each month compared with the same month the year previous were as follows:

Cass wheat a mo.			
	1897-98.		1896-97.
September .....	9,083	6,246	
November .....	4,044	2,055	
December .....	7,670	1,175	
January .....	1,187	839	
February .....	1,561	558	
March .....	3,352	505	
April .....	2,637	261	
May .....	7,711	303	
Total for 8 months..	37,195	11,961	

The exports from this country were also unusually heavy, for as soon as Leiter's operations became well understood not only was there a healthy legitimate foreign demand but Leiter himself was disposed to market his wheat abroad and used every effort to get it across the ocean. The monthly exports from and including January, 1898—when the foreign movement got well under way—to and including June, compare with former years as follows:

Wheat and flour (bushels).			
	1898.	1897.	1896.
January .....	16,653,000	11,670,000	13,523,000
February .....	12,239,000	8,151,000	11,678,000
March .....	15,520,000	7,895,000	8,575,000
April .....	16,492,000	6,285,000	7,722,000
May .....	17,151,000	8,774,000	8,331,000
June .....	17,771,000	7,997,000	10,932,000
Total .....	96,826,000	40,702,000	60,771,000

That the Leiter deal was of immense pecuniary benefit to the wheat growers of the world there can be no question, however disastrous it may have been to himself and his financial backers and followers. It created an unusual, even though it was partially fictitious, demand, which greatly enhanced the price. The persistent "short" seller, who had for so many years coined money by depreciating the price, found that he was for a time overmatched, and the wheat "bear" was, for the time being, out of fashion. Leiter's campaign added from 10 cents to 50 cents a bushel to the farmers' staple crop, and, while the aftermath was serious loss or absolute ruin to many, its good effects were felt on thousands of farms and will continue to be for years to come.

## THE ARMIES OF EUROPE.

**AUSTRIA-HUNGARY**—The imperial active army is made up of 13,129 officers, 329,112 men, 60,369 horses and 1,984 guns. Of these 1,642 officers and 22,664 men belong to the Austrian landwehr and 3,355 officers and 24,964 men to the Hungarian landwehr, the remainder (14,133 officers and 281,492 men) comprising the Austria-Hungarian army. The war footing of the empire is estimated at 1,853,327. The Mannlicher rifle is in use.

**BELGIUM**—The active army embraces 3,360 officers, 45,030 men, 9,044 horses and 254 guns. The war strength is estimated at 170,939. On a war footing the army is estimated at about 171,000 men. The Mauser rifle is in use.

**DENMARK**—The Danish active army has 834 officers and 27,720 men. Its war strength is estimated at 117,136. The Krag-Jorgensen rifle is in use.

**FRANCE**—The French active army is composed of 21,963 officers, 540,041 men, 123,000 horses and 3,048 guns. This is divided into 584 battalions of infantry, 448 squadrons of cavalry, 508 field, horse and mountain batteries, 103 batteries of foot artillery, twenty-two battalions of engineers and twenty squadrons of various other branches of the service. The war footing of the army is about 4,849,572. The Lebel rifle is in use.

**GREAT BRITAIN**—The British army consists of 7,721 officers and 213,148 men. This force is divided into 143 battalions of in-

fantry, 124 squadrons of cavalry, eighty-eight field batteries, twenty-two horse batteries, ten mountain batteries, ninety-three companies of garrison artillery, besides sixty-seven bodies of engineers, service and medical corps. The war footing of the army is estimated at 638,000. The army is raised by volunteer enlistments. The Lee-Metford rifle is in use.

**GERMANY**—The imperial active army of Germany consists of 18,750 officers, 528,696 men, 93,301 horses and 3,000 guns and comprises twenty corps. These are divided into 634 battalions of infantry, 465 squadrons (ninety-three regiments) of cavalry, 500 batteries of field and horse artillery, thirty-seven batteries of foot artillery, besides fifty-one battalions of pioneers and other troops. The war footing of the army is estimated at 5,166,582. The Mauser rifle is in use.

**GREECE**—The active army of Greece contains 12,824 infantry, 1,263 cavalry, 2,320 artillery, 6,186 engineers, or a total of 23,529 men. The reserve force is large, on paper, including 98,000 first reserves and 176,000 second reserves, making an estimated war strength of about 297,000 men. The Mannlicher rifle is in use.

**ITALY**—The active army of Italy consists of 10,993 officers, 219,625 men, 34,038 horses and 1,243 guns. These are divided into 283 battalions of infantry, thirty-six battalions

of rifles, twenty-two battalions of Alpini, 144 squadrons of cavalry, 186 batteries of field, sixteen batteries of horse and fifteen batteries of mountain artillery; seventy-six companies of seacoast and fortress artillery, besides forty-one companies of engineers, etc. The war footing embraces 54,407 officers and 2,127,300 men. The Carcano rifle is in use.

**NETHERLANDS**—The Dutch army is made up of 1,630 officers, 62,811 men, 5,290 horses and 120 guns. To this should be added the East Indian troops, about 38,000. There is also the militia, active and sedentary, which brings the total up to 3,786 officers and 191,783 men. The regular army, exclusive of militia, is divided into forty-five battalions of infantry, fifteen squadrons of cavalry, eighteen field and two horse battalions, forty companies of fortress artillery, besides engineer, torpedo, telegraph and other companies. The war strength is put at 234,000.

**PORTUGAL**—The active Portuguese army is made up of 2,543 officers, 25,668 men and 3,985 horses. The estimated war strength is about 100,000 men. The Kropatschek rifle is in use.

**RUSSIA**—The Russian active army consists of 23,700 officers, 893,900 men, 163,000 horses and 2,672 guns, besides 38,000 men classified as non-combatants. These are divided into 487,000 infantry, 112,300 cavalry, 110,444 artillery and 33,900 engineers and the remainder are in other branches of the service. On a war footing the army is estimated at 3,400,000. The Mouzin rifle is in use.

**SPAIN**—The Spanish army before the war with the United States consisted of an ac-

tive army of 64,314 infantry, 14,314 cavalry, 11,605 artillery and 5,102 engineers and other troops, making a total of 84,335 men. Besides these were the sanitary troops and administrative troops, 28,790; the West Indian establishment (Cuban and Puerto Rican forces), 201,312, and the Philippine establishment, 37,760. This gives a total of 352,197 as the peace strength of the army. Besides these are the first (160,000 men) and the second (1,000,000) reserves, giving a war footing of about 1,500,000. The Mauser rifle is in use.

**SWEDEN AND NORWAY**—The active army of the kingdom is 40,440 men. The war strength is estimated at 225,440. The Mauser rifle is in use.

**SWITZERLAND**—The active army of the Swiss republic is composed of sixty-nine general staff officers, 103,107 infantry, 3,758 cavalry, 21,633 artillery, 6,356 engineers, 4,980 sanitary troops, 1,580 administrative and 183 cyclists, making a total of 141,666. There are also the first and second reserves. The first includes 79,205 and the second 284,733 men of all classes and branches of the service, making the war strength about 490,000 men. The Schmit-Rubin rifle is in use.

**TURKEY**—The personnel of the sultan's active army comprises about 24,000 officers and 220,000 men, 30,000 horses and 1,458 guns, divided into 318 battalions of infantry, 197 squadrons of cavalry; 169 field, forty-four mountain, eighteen horse and twelve howitzer batteries; 430 companies of dismounted and 234 mounted gendarmes. The war strength is estimated at about 1,500,000 men. The Mauser rifle is in use.

\*Navy statistics are being constantly changed by the building of new ships, and repairing or retiring of old ones.

## PARTITION OF CHINA.

It was not until after the close of the war between China and Japan that the colonial empire attracted the aggressive cupidty of the colonizing nations of Europe. At the close of the so-called opium war in 1841 Hongkong, an island in the mouth of the Canton river, was ceded to Great Britain, and is now one of the strongest naval and military stations of the British empire in Asia, being known as the "Eastern Gibraltar." With this exception the Chinese empire remained practically untouched. The weakness displayed by the Chinese in the war with its insular neighbor and the total want of national coherency among the Chinese people themselves were simply an invitation to the stronger powers of Europe to enrich themselves at the expense of the Chinese empire.

At the close of the war with Japan a treaty was negotiated between the two nations which may be found in full in The Daily News Almanac for 1896, page 77, by virtue of which China surrendered to Japan Shashih, in the province of Hupeh; Chungking, in the province of Sze-chuen; Suchow, in the province of Kiangsu; Hangchow, in the province of Chehkiang; the Liau-Tong peninsula, besides the temporary possession of Wei-Hai-Wei, in the province of Shangtung.

Russia, joined by France and Germany, at once interfered to prevent the Japanese occupancy of the Liau-Tong peninsula. Russia took this course for the purpose of keeping open for herself a road through Manchuria and Liau-Tong to an open port on the Pacific, which she might convert into a great military and naval depot, giving her an outlet for the commerce of Siberia, which is becoming of vast size and importance. For centuries Russia has been making an attempt to reach an ice-free port on the Pacific, being blocked from progress for that purpose toward the Atlantic by England, France and Turkey. Russia lost no time in raising her flag at Port Arthur, in the province of Liau-Tong, and on the 27th of March, 1898, she secured from China the cession of that port. It was announced from St. Petersburg that the lease from China under which Port Arthur was held would not injure any foreign nation, but when the compact between Russia and China was published in full it was found that no such construction could be put upon the transaction, for the ports of Talien-Wan and Port Arthur were to be reserved for the exclusive use of Russian and Chinese war vessels, and that the remainder of the territory named in the cession, while open to merchant vessels, was closed to the war vessels of every other nation. France also received concessions in the re-forming of the boundaries of Tonquin which were of substantial benefit to her.

Germany, on the other hand, found that, while she was a party to the dual alliance, she had received little or no recognition from a division of the spoils which followed the breaking of the Japanese treaty. The incident at Yen-Chu-Fu furnished Germany an excuse for seizing a large area of territory. In November, 1897, at the above-named place, in the southern part of the province of Shangtung, a mission established by the German Roman Catholics was attacked by a mob of Chinese, and two missionaries were killed and one was disposed

of in a way yet unknown, while the mission buildings were destroyed. A few days later, on the 15th of November, 1897, a Chinese mob in the city of Wuchung, in the province of Hoo-Pec, made an attack upon the German minister to China and upon the commander of a German gunboat, insulting the German flag as well. Germany was prompt to resent this action, and on the 18th of November, 1897, a German fleet of four war vessels appeared at Kiao-Chau, a strongly fortified port in the province of Shangtung. A force of marines was landed and took a position which commanded the harbor. A demand for the surrender of the harbor was made and the Chinese garrison fled in haste. This was followed by a demand upon the Pekin government for compensation for the previous outrages on the missions and the German minister and officer. The German government demanded the punishment of the persons implicated in the murder of the priests, rebuilding of the destroyed mission houses, the payment of an indemnity of \$450,000 to the families of the murdered men, together with the payment of a very large sum to meet the expenses of the naval expedition and for the support of a military force at Kiao-Chau.

The Chinese government demanded the evacuation of Kiao-Chau before it would consent to negotiations, which demand the Germans refused to consider. The dispute was finally settled the very last of December, 1897, by China yielding all Germany demanded, giving a lease, in March, 1898, for ninety-nine years, of the territory that Germany had seized.

These movements produced a profound sensation in Europe, and at one time there was every appearance that a general war would follow. Great Britain felt that she had been "tricked" by Russia in the concessions that had been secured from China and in the wider influence the czar had acquired at Pekin; Russia herself did not approve of the transfer of Kiao-Chau to Germany, being desirous of securing that port for her own purposes; Japan felt sorely disappointed at being deprived of nearly all she had gained by her costly war with and complete victory over China, while European nations stepped in and took nearly everything that Japan coveted and had won; Germany, while satisfied with what she had seized, was suspicious that Russia had used her to further the schemes of the czar, while France was fearful of the strenuous opposition of Great Britain to the demands the republic was making in the southern portion of China bordering on Tonquin. Both Russia and France were using all their influence to prevent the loan of \$80,000,000 which China had negotiated in London. Great Britain, which controlled two-thirds of the entire trade of China, felt that she was being deprived of it by means that were unfair even in European diplomacy. Russia was the country that Great Britain was most disposed to criticize for the securing of Port Arthur as the southern terminal of the Siberian railway system, while the transforming of that port into a Gibraltar was calculated to give the czar a dominating influence both in China and Korea, which was a menace to Great Britain's most important commercial interests in Asia. The feeling in Great Britain was still further intensified by the removal of an

Englishman, Mr. Brown, who had been employed to supervise Korean finances, and the appointment of a Russian, Mr. Alexief, in his place, against the protest of Great Britain. Such an appointment would have placed Korea in the hands of Russia. Great Britain followed up her protest against this change by sending a strong fleet to Chemulpo, and the result was that a compromise was effected under which the Korean customs were administered by a joint commission of British and Russian officials. The seizure of the island of Hainan by the French in December, 1897, brought a protest from the British foreign office and a declaration by France that permanent occupation was not designed.

With her enormous interests involved in China, Great Britain could not remain passive to Russia's occupation of Port Arthur, which commanded the Gulf of Pe-chi-li, and, incidentally, the Chinese capital itself. So strongly opposed was the British government to the Russian occupancy that every effort was made to dissuade the czar from his purpose, the government pledging itself not to occupy any port in the gulf if Russia would abandon the Port Arthur scheme. Russia flatly refused to consider the British proposal, and in self-defense a demand was made upon China by the British government for a lease of the port of Wei-Hai-Wei, after it had been evacuated by Japan, which then held it as security for the unpaid war indemnity, and demanded it of China upon the same terms granted to Russia in the cession of Port Arthur. The demand of Great Britain was acknowledged, the indemnity was paid to Japan in May, 1898, and on the 20th of that month the British forces occupied the port.

By this movement Great Britain more than matched Russia, for the port of Wei-Hai-Wei is a more commanding position than Port Arthur. While the latter commands Peking, the former commands the Chinese capital by commanding the Gulf of Pe-chi-li and Port Arthur itself. While Port Arthur is of no value as a commercial point, Wei-Hai-Wei is of importance as a mercantile harbor and is capable of better defense than the Russian naval entrepot. It cannot be denied that in the Gulf of Pe-chi-li Great Britain holds a far stronger naval and commercial position than Russia does.

While these scrambles were going on in northern China, France was strengthening herself along the Tonquin frontier in the south. She acquired the lease of a large bay on the southern coast of China; the right to build a railroad between Tonquin and Yunnan-Fu, in the province of Yunnan, an important point on the road from Kwei-Yung-Fu to the western frontier of

China; a promise from China not to alienate any of the territory in the four southern provinces of the empire, which comprise about one-eighth of the entire domain; an agreement not to transfer to any other power the island of Hainan, which lies off the coast of the French possessions in Tonquin and commands the entire coast, besides some voice in the administration of the Chinese postal service, then under English control. The important part of this agreement to France is the railroad concession to Yunnan-Fu, in the center of that province, which is one of the richest in the Chinese empire. This road ending in French territory will be of inestimable value to France from a commercial point of view.

Of course Great Britain must have concessions in the south to equal those of France, as she had in the north to offset such as had been granted to Russia and Germany. The result was that China leased to Great Britain, for ninety-nine years, about 200 square miles of territory on the mainland north of Hongkong, taking in parts of Mirs bay on the east and Deep bay on the west, as well as the island of Lantau.

While the partition of China is yet in its infancy, it is plainly to be seen that so far British diplomacy and influence have been more than a match for Russian ambition; German greed and French aggression, much as those nations have already secured from China. No nation in Europe has been more fully aware of the inherent weakness of China than Great Britain, and the main desire she has had has been to strengthen her hold on the trade of the fabulously rich valley of the Yang-tse-Kiang, which embraces nearly one-half of the valuable area of the empire. The river is 3,350 miles in length, and drains, with its tributaries, nearly 800,000 square miles of territory, while they together furnish a system of inland waterways about 12,000 miles in length. The eastern portion of this rich valley, the province of Szechuen, borders British Burma. This entire valley is under British influence, while the footholds Great Britain has at Wei-Hai-Wei and Hongkong give her practically the control of the mouth of that mighty stream. With railroads entering this open back door of China, Szechuen, Great Britain can control the trade of the entire Yang-tse basin for its whole distance. In the northern provinces of Shansi and Honan there are immense deposits of coal, and these are controlled by an Anglo-Italian syndicate which has railroad concessions of great value and importance. This, with the financial obligations of China to Great Britain, gives the latter an influence that cannot be overlooked in the discussion of any plan proposed for the dismemberment of the Chinese empire.

### THE PARTITION OF AFRICA.

The scramble among the nations of Europe for colonial possessions in Africa is of comparatively recent origin. While the earliest explorations began in 1563, when a body of British merchants sent out in search of trade a few vessels to Guinea, there was no thought of anything more than an effort to find a new market for English productions. It was more than forty years later, in 1596, that the Dutch followed the English merchants in the attempt to establish a trading

station on the coast of Guinea. About the same time that the British traders began the exploration of the Guinea coast the French set out on the same errand and located at what is now known as French Guinea. Thus at the beginning of the seventeenth century nearly all the portions of Africa that were held by the nations of Europe were the three divisions of the coast of Guinea that were known respectively as British, French and Dutch Guinea.

Even at the end of that century England and France were the principal rivals for African trade, but at the close of the French wars France had lost nearly all her possessions in Africa as well as elsewhere. In this war Great Britain acquired the ascendancy in African affairs, which she stubbornly held for 200 years. Leaving the coast, England pushed into the interior, while France annexed Algeria, Senegambia and Sierra Leone. Generally the partition of Africa went on slowly and peaceably, and it was not until the Brussels conference in 1878 that the unrestrained scramble began that has resulted in the division of the entire continent among the different nations of Europe. Thus in 1878, while Great Britain, France, Spain and Portugal had located colonies on the coast of Africa, the interior was held by the wild tribes that occupied it against all foreign aggression. The Berlin conference in 1878 was the time at which the energetic division of the continent was inaugurated, and at the close of 1890 of the 11,900,000 square miles of territory composing the continent of Africa only some 1,500,000 remained open to seizure by the nations of Europe. There were even then some conflicting claims that had not been settled, as the conflicts between French, German and British interests on the Niger clearly testified. But these, together with the disputes between Portugal and England in the upper Zambesi, have been decided, or are in process of amicable settlement, and it is mainly the claims that arise out of the British occupation of Egypt and the Sudan that still appear to threaten war.

The following table shows the possessions held by each of the European nations, the area of each and the estimated population:

	Area sq. m.	Popula- tion.
Great Britain—		
Basutoland .....	10,293	218,902
Bechuanaland .....	170,000	60,376
Cape Colony .....	221,311	956,485

Spain—		
Ifni .....	27	6,000
Fernando Po .....	850	20,000
Sahara coast .....	243,000	100,000

Omitting area over which only a protectorate is established or maintained, the area owned by these countries in Africa may be roughly estimated as follows: Great Britain, 2,250,000 square miles; France, 3,500,000; Germany, 890,000; Portugal, 900,000; Italy, 600,000, and Spain, 250,000. Besides these possessions there are the Congo Free State, 850,000 square miles; Liberia, 37,000; the Boer republics, 162,640, and unappropriated territory, 1,500,000.

## THE WORLD'S PRODUCTION OF WINE.

According to the Monteur Vinicole, the world's wine production for 1896 and 1897, by countries, was as follows:

COUNTRIES.	1897.	1896.	COUNTRIES.	1897.	1896.
	Gallons.	Gallons.		Gallons.	Gallons.
France .....	854,713,420	1,179,811,520	Greece .....	81,704,000	55,903,000

## DISARMAMENT OF EUROPE—THE CZAR'S DECLARATION.

Following is the text of the note which was handed to the foreign diplomats at St. Petersburg Aug. 24, 1895, by Count Muraviev, Russian minister of foreign affairs, at the dictation of Emperor Nicholas. The czar's proposal in this note of a conference looking to the preservation of peace was the subject of world-wide discussion:

"The maintenance of general peace and the possible reduction of the excessive armaments which weigh upon all nations present themselves in existing conditions to the whole world as an ideal toward which the endeavors of all governments should be directed. The humanitarian and magnanimous ideas of his majesty the emperor, my august master, have been won over to this view in the conviction that this lofty aim is in conformity with the most essential interests and legitimate views of all the powers; and the imperial government thinks the present moment would be very favorable to seeking the means. International discussion is the most effectual means of insuring all peoples benefit—a real, durable peace, above all putting an end to the progressive development of the present armaments. In the course of the last twenty years the longing for general appeasement has grown especially pronounced in the consciences of civilized nations and the preservation of peace has been put forward as an object of international policy. It is in its name that great states have concluded between themselves powerful alliances.

"It is the better to guarantee peace that they have developed, in proportions hitherto unprecedented their military forces, and still continue to increase them without shrinking from any sacrifice. Nevertheless, all these efforts have not been able to bring about the beneficent result desired—pacification. The financial charges following the upward march strike at the very root of public prosperity. The intellectual and physical strength of the nations' labor and capital are mostly diverted from their natural ap-

plication and are unproductively consumed. Hundreds of millions are devoted to acquiring terrible engines of destruction, which though to-day regarded as the last word of science, are destined to-morrow to lose all their value in consequence of some fresh discovery in the same field. National culture, economic progress and the production of wealth are either paralyzed or checked in development. Moreover, in proportion as the armaments of each power increase they less and less fulfill the object the governments have set before themselves.

"The economic crisis, due in great part to the system of armaments a outrance, and the continual danger which lies in this massing of war material are transforming the armed peace of our days into a crushing burden which the peoples have more and more difficulty in bearing. It appears evident that if this state of things were to be prolonged it would inevitably lead to a very cataclysm it is desired to avert and the horrors whereof make every thinking being shudder in advance. To put an end to these incessant armaments and, to seek the means of warding off the calamities which are threatening the whole world—such is the supreme duty to-day imposed upon all states. Filled with this idea, his majesty has been pleased to command me to propose to all the governments whose representatives are accredited to the imperial court the assembling of a conference which shall occupy itself with this grave problem.

"This conference will be, by the help of God, a happy presage for the century which is about to open. It would converge into one powerful focus the efforts of all states sincerely seeking to make the great conception of universal peace triumph over the elements of trouble and discord, and it would at the same time cement their agreement by a corporate consecration of the principles of equity and right whereon rest the security of states and the welfare of peoples."

## TABLE OF WIND PRESSURES.

Adopted by the English navy. The following table, taken from London Engineering, was prepared by Mr. J. T. Conor, engineer-in-chief of the Portsmouth Dock Yard, and it gives the figures adopted by the English navy for the pressure of the wind due to various velocities. As the velocity table is in English knots, we have added a column of English miles.

Naut. No. Name of wind.	—Velocity—Force pr. sq.			Naut. No. Name of wind.	—Velocity—Force pr. sq.		
	Knots.	Miles.	ft. in lbs.		Knots.	Miles.	ft. in lbs.

## THE CUBAN REVOLT.

From Nov. 1, 1897, to April 25, 1898.

The record of events in the Cuban rebellion, in *The Daily News Almanac* for 1898, was brought down to Nov. 1, 1898. Active hostilities were resumed between the insurgent and Spanish forces at the beginning of the winter season. There was no yielding on the part of the rebel leaders, but they were wary and were watching the course of events in the United States, with the expectation that this government would intervene in their behalf. The reports of starvation and suffering in Cuba were so well attested that the American people were rapidly approaching a condition of sentiment which would ultimately force the government to espouse the cause of the Cubans upon humanitarian grounds if upon no other.

On the 8th of November Capt.-Gen. Blanco issued a proclamation of amnesty in the following terms:

"I pardon in full all those who have been prosecuted for the crime of rebellion. Rebels prosecuted for common crimes, independent of rebellion, such as spoliation, immorality and the like, will be pardoned as rebels, but judged for other offenses committed by them."

The proclamation of amnesty had no effect upon the rebels and passed without notice from them. Nor did the offer of autonomy, made by the Spanish government late in October, 1897, have any effect in placating the patriots or satisfying the conservatives. At a mass-meeting of the latter, held Oct. 26, it was unanimously resolved that the conservative party should energetically oppose autonomy and the policy of the Sagasta cabinet. The response of the insurgents to the offer of autonomy was more energetic and pronounced. Toward the end of October a proclamation was issued, signed by Capote, president of the republic of Cuba, and countersigned by Gens. Gomez and Garcia. The document declared that the war would soon end and in proof of the assertion presented the following facts:

1. That the public assembly at Guimarrilla for the election of a new president was duly announced to the whole world in spite of Spain's effort to prevent it.

2. The siege and capture of Victoria de las Tunas.

3. The regular collection of taxes throughout the island, due to complete civil and military organization.

4. The stability of the Cuban government in the free city of Cabañas, continually visited by noted journalists of the United States, England and France, and never by our enemy.

5. The regular arrivals from abroad of war materials, food and medical supplies, and diplomatic and political correspondence, papers, etc.

6. The establishment of diplomatic agencies of the republic of Cuba in the principal countries.

7. That out of 250,000 men sent to Cuba by Spain only 70,000 remain.

8. The lapse of two years and seven months since the glorious Feb. 24, during which time Spain has not been able to reconquer the island, to the astonishment of the great European powers, which cannot understand so long a war in our days.

Spain having at her disposal all the resources of an established power.

9. The impossibility of Spain's floating in Paris, London or Berlin a loan to continue the war in Cuba, and the exhaustion of the Spanish treasury.

10. The daily desertion from the Spanish ranks of her soldiers, the lack of food admitted by the Madrid press, and the fact that the Spanish treasury is eight months in arrears in the pay of her troops.

11. The noted failures of Gens. Calleja, Campos, Morin and Weyler.

12. The ruin of the interior and exterior trade of the towns still in Spain's possession and the paralyzing of farm work caused by the Cuban republic.

13. The inaction of the Spanish troops in Camaguey and in Santa Clara, where Gomez' headquarters are, Weyler having systematically refused to fight.

14. The uselessness of the reconcentration methods of Weyler.

The proclamation closes with a declaration that autonomy will never be accepted; that the assassination of their chiefs is not to be forgotten and that their memory will not be offended by surrendering to autonomy. The last sentence of the document is:

"Therefore, while rejecting the autonomy so lately offered by Spain, we do not believe it necessary to remind her that our laws punish as guilty of high treason all persons who come to the territory of free Cuba with overtures for the establishment of peace through autonomy." As might be expected, the Spaniards saw that autonomy was a failure from the first and little effort was made to establish it.

On Sunday, Nov. 21, the palace of the captain-general was fired upon by a party of rebels from Casa Blanca, some 600 yards across the entrance to the harbor. Gen. Rafael de Cadenas, with a band of fifty rebels, had effected an entrance to Casa Blanca shortly before midnight, and about 4 o'clock they retired, each man leading an extra horse loaded with booty of all kinds. During the month engagements were reported on the heights of Romero, in Pinar del Rio, and at La Cuchilla de los Calmitos, in which the rebels were defeated with slight loss. A little later several rebel camps at Aranjuez were broken up. Another engagement was reported at Piedra, in Santiago province, in which the insurgents were forced to retreat.

An important victory was gained by the rebels at Guisa, fifteen miles from Bayamo, under the command of Gens. Rabi and Klos, in which ninety Spaniards were killed besides the commanding officer and several blockhouses destroyed. A successful rebel raid was made Dec. 9 on Calmanera, the port of Guantanamo, and goods to the value of \$30,000 were carried off. About the same time a rebel force under Gen. Rabi besieged the town of Guamo, near Cauto, and the Spanish garrison was forced to retreat with a loss of 150.

## DEATH OF RUIZ.

One of the most tragic events of the war was the death of Joaquín Ruiz, who left Havana on the 16th of December for the purpose of consulting with the insurgent leaders with a view of inducing them to accept the proffered autonomy proposed by

Spain. Ruiz was a lieutenant-colonel of engineers in the Spanish army. He went to the camp of Gen. Nestor Aranguren for the purpose of inducing him to abandon the rebel cause and to accept autonomy. The two men were intimate friends and Ruiz had no doubt as to the success of his mission. Ruiz perfectly understood the fact that the proclamation of the president of the Cuban republic threatened with death any one who should enter their camps offering terms of peace upon any terms other than complete independence. As Ruiz did not return to Havana at the time specified upon his departure Gen. Blanco became alarmed for his safety and asked the aid of Consul-General Lee to obtain his release if he was a prisoner. Ruiz had already been executed and the following is the official report of the circumstances: "Col. Ruiz wrote to Aranguren saying he wished to have an interview with him, but Aranguren refused to enter into the proposition, knowing the purpose of his visit. In the face of this and in spite of the counsels of his friends in Havana, Ruiz went on his mission. Only four days previously Aranguren had solemnly bound himself by oath to fight to the death for independence. He only did his duty as a soldier in ordering an instant court-martial, which tried Ruiz and ordered him to be shot to death. Aranguren declares that Ruiz entered the Cuban camp accompanied by two guides who were deserters from the rebel army; that he bore no flag of truce, and that the moment he came into Aranguren's presence he broached the subject of autonomy and amnesty in the hearing of several of Aranguren's officers."

In answer to the criticisms passed upon Aranguren for this act the Cuban junta in New York made the following explanation in justification of Aranguren's conduct: "Col. Ruiz tried to avail himself of Aranguren's friendship to win the young Cuban chief over to the Spanish cause. He was warned by Aranguren not to take the fatal step, as he knew what the consequences would be. He did not heed his friend's advice and went. Now Ruiz was a military man and knew what military orders meant and how military men have to act in such cases. The Cuban war is no child's play and decrees are not made to be set aside at the pleasure of the first-comer. No military chief in the world would tolerate any emissary of the enemy to come freely among his men and promote desertion, destroy discipline and demoralize them with offers of any kind. Aranguren acted as any military man would have done in his place. Perhaps no one more than he deplores what has happened; yes, the case may be deplored, but it was justifiable. It was dire necessity."

The death of Ruiz was avenged on the 19th of January. Aranguren was in the habit of visiting a lady in the Tapaste hills, in the province of Havana. On this occasion he was betrayed by Claudio Morales, a negro camp follower of the insurgents. The house was surrounded and Aranguren, his mistress, her sister, Aranguren's body servant and a child were all killed.

Although an election had been held in September, at which Capote had been chosen president, another was ordered in December, at which Bartolome Masso was selected as his successor. This peculiar proceeding was due to the fact that the military leaders were distrustful of Capote in case terms of peace should be offered by Spain to the insurgents. The leaders were

opposed to any treating with Spain or to the reception of any proposals except independence from the mother country. On the 21st of January it was reported from Havana that Esperanza, the rebel capital in the Cubitas hills, had been captured by a Spanish force under Gen. Castello, with 2,600 troops. He is reported to have burned all the houses in the city, together with the government buildings, and that on the following day he met and routed a rebel force of 2,500 men in the Inferno forests.

The reversal of Weyler's orders respecting the reconcentrados on the 10th of November had no effect in improving the condition of those unfortunate or in relieving the distress and suffering of the pacificos. Early in 1898 several United States senators visited Cuba with the view of ascertaining the exact condition of affairs. The reports of these men electrified the whole country as well as congress, and the speeches of Senators Gallingher of New Hampshire, Thurston of Nebraska and Proctor of Vermont portrayed the actual condition of the starving, suffering people of Cuba. Senator Proctor made his report to the senate on the 17th of March in a long speech, from which the following is an extract:

"West of Havana is mainly the rich tobacco country; east, so far as I went, a sugar region. Nearly all the sugar mills are destroyed between Havana and Sagua. Two or three were standing in the vicinity of Sagua and in part running, surrounded, as are the villages by trochas and 'forts' or palisades of the royal palm, and fully guarded. Toward and near Cienfuegos there were more mills running, but all with the same protection. All the country people in the four western provinces, about 400,000 in number, remaining outside the fortified towns when Weyler's order was made, were driven into these towns, and these are the reconcentrados. They were the peasantry, many of them farmers, some land-owners, others renting lands, and owning more or less stock; others working on estates and cultivating small patches, and even a small patch in that fruitful clime will support a family. Some of them had houses of stone, the blackened walls of which are all that remain to show that the country was ever inhabited. The first clause of Weyler's order reads as follows: 'First—All the inhabitants of the country or outside the line of fortifications of the towns shall, within the period of eight days, concentrate themselves in the town so occupied by the troops. Any individual who, after the expiration of this period, is found in the uninhabited parts will be considered a rebel and tried as such.' Many doubtless did not learn of this order. Others failed to grasp its terrible meaning. Its execution was left largely to the guerrillas to drive in all that had not obeyed, and I was informed that in many cases a torch was applied to their homes with no notice and the inmates fled with such clothing as they might have on, their stock and other belongings being appropriated by the guerrillas. When they reached the town they were allowed to build huts of palm leaves in the suburbs and vacant places within the trochas, and left to live if they could. Their huts are about 10 by 15 feet in size and for want of space are usually crowded together very closely. They have no floor but the ground and no furniture, and after a year's wear but little clothing except such stray substitutes as they can extemporize. With large families or with more

than one in this little space, the commonest sanitary provisions are impossible. Conditions are unmentionable in this respect. Torn from their homes, with foul earth, foul air, foul water and foul food, or none, what wonder that one-half have died and that one-quarter of the living are so diseased that they cannot be saved!

"Of the hospitals I need not speak. Others have described their condition far better than I can. It is not within the narrow limits of my vocabulary to portray it. I went to Cuba with a strong conviction that the picture had been overdrawn; that a few cases of starvation and suffering had inspired and stimulated the press correspondents, and they had given free play to a strong, natural and highly cultivated imagination. What I saw I cannot tell so that others can see it. It must be seen with one's own eyes to be realized. The Los Pasos hospital in Havana has been recently described by one of my colleagues, Senator Gallinger, and I cannot say that his picture was overdrawn, for even his fertile pen could not do more. He visited it after Dr. Lescar, one of Miss Barton's very able and efficient assistants, had renovated it and put in cots. I saw it when 400 women and children were lying on the stone floors in an indescribable state of emaciation and disease, many with the scantiest covering of rags—and such rags!—and sick children, naked as they came into the world. And the conditions in the other cities are even worse.

"When will the need for this help end? Not until peace comes and the reconcentrados can go back to their country, rebuild their homes, reclaim their tillage plots, which quickly run up to brush in that wonderful soil and climate, and until they can be free from danger of molestation in so doing. Until then the American people must in the main care for them. It is true that the alcaldes, other local authorities and relief committees are now trying to do something, and desire, I believe, to do the best they can. But the problem is beyond their means and capacity, and the work is one to which they are not accustomed."

No accurate report has been made, and probably it is impossible to make one, that will give the number of deaths by starvation that followed Weyler's order for concentrating the non-combatants in the fortified towns held by the Spanish forces, but conservative estimates place the number at from 200,000 to 400,000 persons.

#### AN APPEAL TO THE PEOPLE.

On the 17th of March the Cuban junta in New York issued the following address:

"To the American People: The frequency with which there have lately appeared in the public press suggestions made by malicious or misinformed individuals that Cuba would accept or could be forced to accept autonomy, or anything short of independence, has impelled us to make a definite and final statement on this subject.

"From the first our motto has been 'Independence or death.' We are now more firmly than ever determined to carry out our programme. As we will not accept, we will not even discuss the proposals of autonomy. After three years of the most sanguinary, barbarous and uncivilized warfare of modern times, carried on by Spain, we are stronger than ever. It is for us to say what will satisfy us, not for others. Our ideals and our national honor we can confide to the keeping of ourselves alone.

"I cannot think that the American people have forgotten the principle laid down in their own declaration of independence, nor can I believe that any true American can be found who would advise us to forsake the ideal of republican government for the monarchical, even in its most liberal form.

"There is no way to compel the Cubans to accept autonomy except by force of arms. We have fought three years, not against Spain alone, but against the whole world. Not a helping hand was extended to us, no country gave us equal rights with Spain. The right to arm our people by purchasing weapons in this country and transporting them to Cuba is admitted, but although engaged in lawful traffic we had to run the blockade to get from these shores, and again run the gauntlet in Cuba. Our ships and cargoes were seized, subjected to delay, but invariably restored by the slow and costly process of the law. Nevertheless we never faltered. We always appreciated the fact that the sympathy of the American people was with us. Spain has proved impotent to compel us by force to accept autonomy. She now desires the aid of the United States to compel us to accept.

"I cannot believe that the American people would lend themselves to the most treacherous and bloodstained monarchy of history for such a purpose. Should such prove to be the case, however, I declare in the name of the Cuban people in arms that force alone can compel our submission. We, who have seen hundreds of thousands of our race and families exterminated by slow starvation by a cowardly decree of the most inhuman commander of sanguinary Spain, will fight against anything but independence, no matter who opposes us.

"If unfortunately, this incredible proposal be carried into effect, and American bayonets are arrayed against us in our struggle for freedom and in aid of the Spanish monarchy, we will fight on sadly but determinedly, and let history judge whether the vanquished had not a purer ideal of free institutions than the victors. In such case we will be exterminated, but future generations will again take up our flag and our aspirations and Cuba will yet be free. Nor will we ever agree to a truce until our independence is established. We will continue to fight, as did the Americans under Jackson at the battle of New Orleans, even after the treaty of peace is signed, if it should be necessary.

"The Cubans cannot be convinced that the United States will ever try to force us to remain under the Spanish flag, but I have deemed it my duty to appeal to the generosity, the sympathy and the patriotism of the American people, to the end that they may understand the justice and firmness of our demand for complete independence.

"TOMAS ESTRADA PALMA."

In the senate several resolutions were introduced which expressed the sense of that body upon the Cuban situation. On the 29th of March the following resolutions were offered. Those by Senator Allen (Pop.) of Nebraska were as follows:

"Whereas, The war now and for some time past being waged between the kingdom of Spain and the Cuban insurgents has fully demonstrated the total inability of the former to subdue the insurgents; and,

"Whereas, Said war has become one of extermination by starvation, and the duties of Christian civilization and common humanity alike demand the speedy cessation of hostilities and the immediate ter-

mination of the deliberately planned starvation now going on in the island of Cuba; and,

"Whereas, Under existing circumstances it is the bounden duty of the United States to intervene; and,

"Whereas, The assertion of the Monroe doctrine, forbidding interference of foreign powers in the affairs of any state or nation on the western hemisphere, creates an obligation on the part of the United States to guarantee the people thereof against unusual cruelties and barbarities and extermination by any such foreign power; and,

"Whereas, The Cubans have, in the opinion of the American people and of congress, by their valor and sacrifices during the four years of war, won their independence from Spain and are entitled to political recognition by the United States; and,

"Whereas, It is apparent that Spain can no longer govern or control the people of Cuba; therefore,

"Resolved, by the senate and the house of representatives. That the republic of Cuba, now and for some time maintained by force of arms, is hereby recognized by the United States of America as a separate and independent nation; that the United States shall immediately intervene and put an end to the war now being waged on the island of Cuba, and shall succor and release from imprisonment the people there concentrated for the purpose of starvation and extermination; and be it further

"Resolved, That for the purpose of enabling the president of the United States to provide for concentrated non-combatant Cubans with the necessary food, raiment and medicine for their immediate relief from starvation the sum of \$500,000, or so much thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated."

Senator Foraker (Rep.) of Ohio offered the following:

"Be it resolved by the senate and the house of representatives of the United States of America:

"1. That the people of the island of Cuba are, and of right ought to be, free and independent.

"2. That the government of the United States hereby recognizes the republic of Cuba as the true and lawful government of that island.

"3. That the war Spain is waging against Cuba is so destructive of the commercial and property interests of the United States and so cruel, barbarous and inhuman in its character as to make it the duty of the United States to demand, and the government of the United States does hereby demand, that she at once withdraw her land and naval forces from Cuba and Cuban waters.

"4. That the president of the United States be and hereby is authorized, empowered and directed to use if necessary the entire land and naval forces of the United States to carry these resolutions into effect."

Senator Frye (Rep.) of Maine presented these:

"Whereas, The war which has been waged in the island of Cuba for the last three years has been conducted by the Spanish government in violation of the rules of civilized warfare; said government has driven the unarmed and peaceable inhabitants from their homes and forced them within the armed camps, where it has permitted hundreds of thousands of men, women and children to die of starvation,

and as a result of this system of inhuman warfare tens of thousands of the helpless people are now dying for want of food; and,

"Whereas, The war has paralyzed and almost destroyed the large commercial relations which have heretofore existed between the United States and Cuba, and has rendered useless and brought to ruin the many millions of dollars of property of American citizens invested in the island; and,

"Whereas, The existence and prolongation of the hostilities have imposed heavy financial expenditures and burdensome official labors upon the government of the United States in the enforcement of its neutrality laws; and,

"Whereas, The consuls of the United States and other impartial and competent observers have reported that the Spanish government has lost control of much of the greater portion of the island; that it is powerless to restore its authority and bring about peace, and that a continuance of the contest will have no other effect than to increase the horrors, misery and starvation which now exist, to utterly extinguish the commerce with and destroy the property of American citizens and add to the expense and burdens of the government of the United States; therefore,

"Resolved, by the senate and house of representatives of the United States of America in congress assembled, That the president of the United States be and he is hereby directed and empowered to take such effective steps as in his discretion may be necessary to secure a speedy termination of the hostilities between the government of Spain and the people of Cuba, the withdrawal of the military and naval forces of Spain from said island and the complete independence of said people."

Senator Rawlins (Rep.) of Utah offered the following:

"Whereas, The war waged by the kingdom of Spain against the people of Cuba has destroyed the commerce between them and the people of the United States, and its revival will be impossible so long as such war may continue; and,

"Whereas, By the authority of that kingdom, in the course of such war, much American property has been destroyed and many American citizens, without just cause, have been imprisoned and some assassinated in their prison cells; and,

"Whereas, While our ship Maine was at anchor in the harbor of Havana, within the dominion and under the control of the kingdom of Spain, at a place designated by her authority that ship and most of the men on board in the service of their country, by the explosion of a submarine mine, were willfully, wickedly and treacherously mangled and destroyed; and,

"Whereas, The kingdom of Spain has proved herself incompetent to tranquilize the island of Cuba either by the methods of peace or by means of civilized warfare, and, accordingly, has proceeded to make desolate the homes of its peaceful inhabitants, driving men, women and children into guarded camps, detaining them there without making provisions to shelter, clothe or feed them, thus willfully causing their extermination to the number of hundreds of thousands by the slow and torturous process of starvation; and,

"Whereas, Against these wrongs, against these revolting acts of inhumanity, this government has time and again made peaceful protest to the kingdom of Spain, at the same time endeavoring by a helpful char-

ity to relieve those whom she has thus brought to such dire distress, and our repeated protests having been disregarded and our efforts of philanthropy having proved unavailing; and,

"Whereas, Firmly convinced that further peaceful protest will prove equally in vain and that the recognition of the independence of the republic of Cuba and armed intervention in its behalf by this government will alone be effective for the redress of past and the prevention of future wrongs; and,

"Whereas, While regretting the necessity—now imperative—for such action, but mindful of our duty to a neighboring people and to humanity, and with a clear consciousness as to the justness of our cause and that our action will meet with the approving judgment of all civilized peoples; now, therefore, be it

"Resolved, by the senate and house of representatives of the United States of America in congress assembled, That the independence of the republic of Cuba be and the same is hereby recognized, and that war against the kingdom of Spain be and the same is hereby declared, and that the president is hereby authorized and directed to employ the land and naval forces of the United States of America to wage such war to success."

The feeling in the house of representatives was as pronounced as in the senate, although less active. On the 30th of March Representative Mahany (Rep.) of New York presented the following:

"Whereas, It has been the immemorial spirit of the American republic to foster, with due respect to the just restrictions of international obligations, the growth of freedom everywhere in the world, and especially in the western hemisphere; and,

"Whereas, The kingdom of Spain has during the last three years failed utterly to maintain its dominion in the island of Cuba, or to exhibit the attributes of actual sovereignty, either in the conduct of the war or the civil administration of the law; and,

"Whereas, During the same period the Cuban insurgents have continuously had and victoriously defended nine-tenths of Cuban territory; and,

"Whereas, The war as now prosecuted by the Spanish forces in that island dooms uncounted thousands of non-combatants—old, helpless men, defenseless women and children—to the inconceivable horrors of death by starvation; now, therefore, be it

"Resolved, by the senate and house of representatives of the United States of America in congress assembled, That the American people impelled by a solemn sense of their duty to humanity and animated with a just regard for the rights of a people who have heroically sacrificed and

nobly battled to be free, do hereby recognize the republic of Cuba as a free and independent state and welcome her to the sisterhood of republics in the western world."

Similar resolutions were offered by Broderick (Rep.) of Kansas, Wheeler (Dem.) of Alabama, Adamson (Dem.) of Georgia, Todd (Pop.) of Michigan and others.

The result of these resolutions was a conference committee of the two houses of congress, when the following preamble and resolutions were agreed upon and adopted April 19, 1898:

"Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship, with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the president of the United States in his message to congress, April 11, 1898, upon which the action of congress was invited; therefore,

"Resolved, by the senate and house of representatives of the United States of America in congress assembled:

"1. That the people of the island of Cuba are, and of right ought to be, free and independent.

"2. That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

"3. That the president of the United States be, and he hereby is, directed and empowered to use the entire land and naval forces of the United States, and to call into the actual service of the United States the militia of the several states, to such an extent as may be necessary to carry these resolutions into effect.

"4. That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof; and asserts its determination, when that is accomplished, to leave the government and control of the island to its people."

Adopted by Senate—Yeas, 42; nays, 35.

Adopted by House—Yeas, 310; nays, 6.

This brings the record of the Cuban revolt down to the time when the patriots' cause was espoused by the United States and the war bill was passed by congress pursuant to the request of the president, as conveyed in his message to congress bearing date April 25, 1898.

## THE SPANISH-AMERICAN WAR.

In his message to congress, transmitted on the 6th of December, 1897, the president reviewed the history of the relations subsisting between the United States and the government of Spain in which the island of Cuba was involved for the last seventy-five or eighty years. This message may be found in *The Daily News Almanac* for 1898, page 216.

The war with Spain was not inspired on the part of this country either by a spasmodic outburst of sympathy for the Cuban patriots or by a sudden resentment against

Spain for her efforts to force the suffering insurgents again into a condition worse than that of servitude. Nor was it encouraged by the American people against a nation their inferiors in every way with the expectation or hope of acquiring territorial or financial gain or benefit. For more than half a century the people of the United States had witnessed the almost continuous efforts of the Cubans to free themselves from a government wholly infamous and universally detested by the vast majority of the inhabitants of the island. They had

seen the insurgents cruelly butchered after each failure to secure their freedom and basely cheated in all the promises that Spain had made to better their condition. They understood that Spain had become incapable of governing Cuba because the measures employed by her for that purpose were those of past centuries, which the civilized world had long ago outgrown and abandoned. They understood that Cuba was held by Spain only for the purpose of plundering and robbing her people for the benefit of the Spanish treasury and the corrupt and dishonest horde of officials sent by the home government to enrich themselves at the expense of a suffering race. Through all this long period public opinion in the United States was gradually becoming more and more in favor of freedom for the Cubans and for the extinction of Spanish tyranny on this continent. The government of the United States had been exceedingly conservative upon the subject of the various Cuban revolutions. Peace and friendly relations had long existed between the two countries, although the efforts of lawless individuals who sympathized with the insurgents in Cuba had several times nearly involved the government in war with Spain. It had come to be simply a question of time when the people of the United States would force the government to intervene in the affairs of Cuba and put a stop to the wars and disorders that had been increasing in number and severity for the last fifty years. Besides this, American interests in Cuba were increasing in value and importance, while the trade and commerce between this country and the island were becoming too important to be disturbed or sacrificed by the disordered condition of political affairs. It will thus be seen that the people of the United States, as well as their government, had reached the firm conviction that safety for themselves demanded that Spanish rule in Cuba must and should terminate. This was the universal sentiment in this country when congress met in December, 1897, the only difference of opinion being as to how such a desirable condition of things should or could be brought about.

A short synopsis of the various revolutionary movements in Cuba for the last seventy-five years may not be devoid of interest, as they tend to show the spirit and determination of the Cubans and the difficulty this country has had in preserving the friendly relations that existed unbroken between the United States and Spain. An English authority, in speaking of Cuba, said, as long ago as 1875, that "the deprivation of political, civil and religious liberty, and the exclusion from all public stations, combined with heavy taxation to maintain the standing army and navy, have resulted in a deadly hatred between the native Cubans and the mass of officials sent from Spain. This has manifested itself in frequent uprisings for greater privileges and freedom." Inspired by these acts of injustice the first revolution broke out in 1829 and is known in history as the conspiracy of the "Black Eagle." This was quickly suppressed and most of the participants who were taken alive were put to death. In 1844 the black population in the province of Matanzas revolted, but little or nothing was done that could give it the character of an armed revolution except the severity with which the Spanish government treated those who were supposed to have been involved in it. More than 1,300 persons were convicted

of complicity with the affair; about eighty were shot, a large number of others were variously punished and the incident was over. Of those convicted only fourteen were white, while 1,242 were free colored and some sixty were slaves.

The Lopez conspiracy was fomented in 1849. Narciso Lopez, a Venezuelan by birth but a Spanish officer by profession, made an attempt to invade Cuba with a small filibustering force, but was intercepted by the Spanish authorities and his efforts were held in abeyance. The next year he resumed operations and effected a landing at Cardenas with 600 men, but before he obtained a foothold he was compelled to abandon the undertaking and to re-embark his men. He was pursued to Key West by a Spanish vessel. In 1851 he attempted to take advantage of a revolt in Cuba and set out from New Orleans with 450 men and landed at Playitas, near Havana. Meeting a strong Spanish force he retreated into the interior and he and all his companions were captured. Lopez was taken to Havana, where he was garroted Aug. 18, 1851. Of his companions some were shot, but the most of them were transported and afterward pardoned.

In 1854 another filibustering expedition was set on foot by Gen. Quitman of Mississippi, who was a veteran of the Mexican war. The leaders were betrayed and the attempt wholly failed.

While the government of the United States did its best to prevent its citizens from engaging in these lawless adventures they served to seriously complicate the relations between the government and Spain. The Madrid government was displeased with the act of this country when, in 1852, it declined to join with France and Great Britain in a treaty guaranteeing to Spain the possession of Cuba, and this made her still more alert against all revolutionary movements on the island and watchful for American connection with them. This led to collisions between Spain and American citizens, of which the attack on an American steamer, the Black Warrior, by a Spanish war vessel was an instance. To put an end to all causes of trouble between Spain and the United States President Polk proposed to the Spanish government a transference of the island of Cuba to this country for the sum of \$1,000,000, which was refused. Ten years later a proposal was debated in congress to offer Spain \$30,000,000 for the island, but nothing came of it.

The breaking out of the revolution in Spain which resulted in the abdication of Queen Isabella. In 1868, encouraged the Cuban liberals to set on foot a new revolt. In October of that year Carlos M. de Cespedes collected a force of 125 men near Bayamo and issued a declaration of independence Oct. 16, dated at Manzanillo. The rebellion immediately assumed formidable proportions and within three weeks Cespedes had a rabble of nearly 15,000 poorly armed but determined men at his command. On the 15th of October, 1868, the city of Bayamo was taken, and on the 26th the jurisdiction of Holguin revolted. In November the insurgents defeated a Spanish force sent against them from Santiago de Cuba, and a number of Spanish-American republics recognized the belligerency of the Cuban patriots. For the first two years of the revolution the insurgents were almost uniformly successful. They maintained an army of 50,000 men, but they had great difficulty in supplying them with arms and am-

munition. The result was that in 1871 a large portion of the rebel forces in central Cuba laid down their arms. Gen. Agramonte, however, refused to do so, and, with his cavalry as a nucleus, he organized an army and kept up the war for two years until he was killed. In 1873 Cespedes, who had been chosen president of the republic of Cuba by the provisional congress, was deposed and Cisneros was chosen in his place. Cespedes was later killed by the Spaniards. In a desultory way the war was continued until 1878, when Gen. Martinez Campos on behalf of Spain brought it to a close by promises of concessions and reforms, and a treaty of peace was entered into near El Zanjón in February of that year. In this ten years of war Spain employed 235,298 men, of whom 81,098 died or were killed. No one of the promises made by Gen. Campos, as a condition for the surrender of the rebels, was ever kept.

The Virginian affair did more than any previous incident to arouse the American people against Spain. The Virginian was a blockade-running steamer that was taken during our civil war and sold as a prize. She was purchased by an American and given an American register. While cruising in Caribbean waters she was captured by the Spanish gunboat Tornado, Oct. 31, 1873, and taken into the port of Santiago de Cuba. She had on board 156 persons, some of whom were British and others American subjects. The men were immediately tried, and before Nov. 8 six British and thirty Americans had been shot. Further executions were prevented by the arrival of the British warship Niobe, commanded by Sir Lambton Lorraine, who threatened to bombard the city if the executions were not stopped. The United States government took the case in hand and instructed Gen. Sickles, our minister at Madrid, to demand satisfaction from Spain for the outrage. It was not until Gen. Sickles had demanded his passports from the Spanish government that an arrangement was effected. The result was that on the 19th of December, 1873, the Virginian and the surviving crew were surrendered to the United States and the sum of \$80,000 was paid by Spain as an indemnity to the American families who had suffered by the killing of their members. This brings the story of Cuba's efforts for freedom and America's connection therewith down to the revolution that broke out in February, 1895. It is unnecessary to go over the events of this revolt, as they have been given in detail in *The Daily News Almanac* for the years 1896, 1897, 1898 and in the present volume.

The devotion of the Cubans to their cause, the brutality and inhumanity with which the peaceable inhabitants of the island have been treated and the inability of our government to induce Spain to adopt reforms in the island that would be acceptable to the Cubans made intervention a duty the United States could not evade. It is possible that war might have been avoided had not a number of unfortunate circumstances prevented. The bitterness in Havana against this country, the insulting procrastination with which Spain treated every attempt of the United States to bring about an amicable settlement of existing difficulties, the avowed determination of Weyler to depopulate the island by starving the non-combatants, regardless of sex or age, and the sacrifice of all American interests in Cuba

aroused the people of this country to a pitch of feeling that was wholly new and irresistible.

The first event after the beginning of the new year (1898) to seriously disturb the public mind was the publication of a letter written by Senor de Lome, the Spanish minister at Washington, to Jose Canalejas, which contained very insulting and deprecatory references to the president. This letter was given out by the Cuban junta and published Feb. 8, 1898. Literally translated it was as follows:

"Legation de Espana, Washington.—Eximo Senor Don Jose Canalejas—My Distinguished and Dear Friend: You need not apologize for not having written to me. I also ought to have written to you, but have not done so on account of being weighed down with work and nous sommes quittes."

"The situation here continues unchanged. Everything depends on the political and military success in Cuba. The prologue of this second method of warfare will end the day that the colonial cabinet will be appointed, and it relieves us in the eyes of this country of a part of the responsibility for what may happen there, and they must cast the responsibility upon the Cubans, whom they believe to be so immaculate."

"Until then we will not be able to see clearly, and I consider it to be a loss of time and an advance by the wrong road, the sending of embassies to the rebel field, the negotiating with the autonomists not yet declared to be legally constituted and the discovery of the intentions and purpose of this government. The exiles will return one by one, and when they return will come walking into the sheepfold, and the chiefs will gradually return. Neither of these had the courage to leave en masse, and they will not have the courage to thus return."

"The message has undeceived the insurgents, who expected something else, and has paralyzed the action of congress, but I consider it bad. Besides the natural and inevitable consciousness with which he repeats all that the press and public opinion of Spain has said of Weyler, it shows once more what McKinley is, weak and catering to the rabble, and besides, a low politician, who desires to leave a door open to me and to stand well with the jingoes of his party."

"Nevertheless, as a matter of fact, it will only depend on ourselves whether he will prove bad and adverse to us. I agree entirely with you, without a military success nothing will be accomplished there, and without military and political success there is here always danger that the insurgents will be encouraged, if not by the government, at least by part of the public opinion."

"I do not believe you pay enough attention to the role of England. Scarcely all that newspaper cannibal which swarms in your hotel are English, and at the same time that they are correspondents of the Journal they are also correspondents of the best newspapers and reviews of London. Thus it has been since the beginning. To my mind the only object of England is that the Americans should occupy themselves with us and leave her in peace, and if there is a war, so much the better; that would further remove what is threatening her—although that will never happen."

"It would be most important that you should agitate the question of commercial relations, even though it would be only for

effect, and that you should send here a man of importance in order that I might use him to make a propaganda among the senators and others in opposition to the junta and to win over exiles.

"There goes Amblarad. I believe he comes too deeply taken up with little political matters, and there must be something very great or we shall lose.

"Adela returns your salutation, and we wish you in the new year to be a messenger of peace and take this New Year's present to poor Spain.

"Always your attentive friend and servant, who kisses your hands,

"ENRIQUE DUPUY DE LOME."

While there was some question as to how the letter came into the hands of the junta there was no doubt of its authenticity, and when De Lome was called before the secretary of state to explain the matter he promptly acknowledged the authorship and assumed full personal responsibility for the letter, which he declared Senor Canalejas had never received. De Lome at once cabled his resignation of office to Madrid, which was immediately accepted. While the Spanish government expressed the most profound regret for the misconduct of its representative, the incident increased the severe tension of the situation. The Spanish government at once appointed Senor Polo y Bernabe to succeed De Lome as its minister at Washington.

On the 24th of January the United States battleship Maine, commanded by Capt. C. D. Sigbee, was ordered to the harbor of Havana. The secretary of state, Mr. Day, took special pains to explain this order by publicly declaring that the vessel was sent to Cuba not as a menace to Spain nor for the purpose of protecting American interests at Havana, but simply as an evidence of "the resumption of friendly naval relations with Spain." In the orders issued to Capt. Sigbee it was expressly set forth that the vessel was only going to resume friendly calls at Cuban ports. That such was the full understanding of the order is attested by the declaration of the Spanish minister at Washington, who said, regarding the visit of the Maine to Havana, that "the only remote contingency which might lead to unpleasant consequences would be some overt act on the part of the insurgent sympathizers with the hope of embroiling Spain and the United States." In acknowledgment of the visit of the Maine to Havana, the cruiser Vizcaya was ordered by the Spanish government to visit American ports, and did come to New York for that purpose. The Maine had a crew of 354 men, and arrived at the harbor of Havana on the 25th day of January, 1898. The ship was assigned anchorage by the regular government pilot. On the 15th of February the Maine was destroyed by an explosion. Of her crew 266 men, including two officers, were killed or received wounds of which they afterward died. The explosion took place at 9:40 in the evening. An account of the affair was given in these words: "The night was intensely dark. At a distance of 200 or 300 yards from the doomed ship were anchored the Ward line's steamer City of Washington and the Spanish cruiser Alfonso XII. The men were asleep below; Capt. Sigbee was in his cabin. He had just finished writing a letter when the crash came. Capt. Sigbee said: 'The ship lurched heav-

ily to port and I knew in an instant what it meant—that my ship had blown up.' The force of the explosion shook the whole water front of the city and threw down many telegraph and telephone poles. The captain's first order was to flood the magazines, but they were already flooding themselves. A great flame broke out from the Maine, illuminating the whole harbor.

On the 8th and 9th of March congress voted to place in the hands of the president the sum of \$50,000,000 to be expended as he saw fit as an emergency fund to be used for the protection of the government. Most of this fund was expended in the purchase of war vessels and naval supplies and to put the army upon a war footing.

A naval court of inquiry was appointed to ascertain the cause of the destruction of the Maine, consisting of Capt. W. T. Sampson, U. S. N.; Capt. F. E. Chadwick, U. S. N.; Lieutenant-Commander A. Marx, U. S. N.; and Lieutenant-Commander W. P. Potter, U. S. N. Capt. Sampson was president of the court and Lieutenant-Commander Marx was the judge-advocate. The court began its investigations at Havana on the 26th of February, and after twenty-three days of continuous investigation transmitted its report, with the mass of testimony, to the president on the 21st of March. The report was as follows:

"United States Steamship Iowa, First Rate, Key West, Fla., Monday, March 21, 1898.—After full and mature consideration of all the testimony before it, the court finds as follows:

"1. That the United States battleship Maine arrived in the harbor of Havana, Cuba, on the 25th day of January, 1898, and was taken to buoy No. 4, in from five and one-half to six fathoms of water, by the regular government pilot.

"The United States consul-general at Havana had notified the authorities at that place the previous evening of the intended arrival of the Maine.

"2. The state of discipline on board the Maine was excellent, and all orders and regulations in regard to the care and safety of the ship were strictly carried out. All ammunition was stowed away in accordance with instructions, and proper care was taken whenever ammunition was handled. Nothing was stowed in any one of the magazines or shellrooms which was not permitted to be stowed there. The magazines and shellrooms were always locked after having been opened, and after the destruction of the Maine the keys were found in their proper place in the captain's cabin, everything having been reported secure that evening at 8 o'clock.

"The temperatures of the magazines and shellrooms were taken daily and reported. The only magazine which had an undue amount of heat was the after ten-inch magazine, and that did not explode at the time the Maine was destroyed.

"The torpedo war heads were all stowed in the after part of the ship under the wardroom and neither caused nor participated in the destruction of the Maine.

"The dry gun cotton primers and detonators were stowed in the cabin aft and remote from the scene of the explosion.

"The waste was carefully looked after on board the Maine to obviate danger. Special orders in regard to this had been given by the commanding officer.

"Varnishes, driers, alcohol and other combustible of this nature were stowed on or

above the main deck and could not have had anything to do with the destruction of the Maine.

"The medical stores were stowed aft under the wardroom and remote from the scene of explosion. No dangerous stores of any kind were stowed below in any part of the other storerooms.

"The coal bunkers were inspected. Of these bunkers adjoining the forward magazine and shellrooms four were empty, namely, B 3, B 4, B 5 and B 6. A 15 had been in use that day and A 16 was full of New River coal. This coal had been carefully inspected before receiving it on board. The bunker in which it was stored was accessible on three sides at all times, and the fourth side at this time, on account of bunkers B 4 and B 6 being empty. This bunker, A 16, had been inspected that day by the engineer officer on duty.

"The fire-alarms in the bunkers were in working order, and there had never been a case of spontaneous combustion of coal on board the Maine.

"The two after boilers of the ship were in use at the time of the disaster, but for auxiliary purposes only, with a comparatively low pressure of steam, and being tended by a reliable watch. These boilers could not have caused the explosion of the ship. The four forward boilers have since been found by the divers, and are in a fair condition.

"On the night of the destruction of the Maine everything had been reported secure for the night at 8 p. m. by reliable persons, through the proper authorities, to the commanding officer. At the time the Maine was destroyed the ship was quiet, and therefore least liable to accident caused by movements from those on board.

"3. The destruction of the Maine occurred at 9:40 p. m. on the 15th day of February, 1898, in the harbor of Havana, Cuba, being at the time moored at the same buoy to which she had been taken upon her arrival.

"There were two explosions of a distinctly different character, with a very short but distinct interval between them, and the forward part of the ship was lifted to a marked degree at the time of the first explosion.

"The first explosion was more in the nature of a report like that of a gun, while the second explosion was more open, prolonged and of greater volume. The second explosion was, in the opinion of the court, caused by the partial explosion of two or more of the forward magazines of the Maine.

"The evidence bearing on this, being principally obtained from divers, did not enable the court to form a definite conclusion as to the condition of the wreck, although it was established that the after part of the ship was practically intact, and sunk in that condition a very few minutes after the destruction of the forward part.

"The following facts in regard to the forward part of the ship are, however, established by the testimony:

"That portion of the port side of the protective deck which extends from about frame 30 to about frame 41 was blown up aft and over to port. The main deck, from about frame 30 to about frame 41, was blown up aft and slightly over to starboard, folding the forward part of the middle superstructure over and on top of the after part.

"This was, in the opinion of the court, caused by the partial explosion of two or

more of the forward magazines of the Maine.

"5. At frame 17 the outer shell of the ship, from a point eleven and one-half feet from the middle line of the ship and six feet above the keel, when in its normal position, has been forced up so as to be now about four feet above the surface of the water; therefore, about thirty-four feet above where it would be had the ship sunk uninjured. The outside bottom plating is bent into a reversed V shape, the after wing of which, about fifteen feet broad and thirty-two feet in length, from frame 17 to frame 25, is doubled back upon itself against the continuation of the same plating extending forward.

"At frame 18 the vertical keel is broken in two and the flat keel bent into an angle similar to the angle formed by the outside bottom plating. This break is now about six feet below the surface of the water and about thirty feet above its normal position.

"In the opinion of the court this effect could have been produced only by the explosion of a mine situated under the bottom of the ship at about frame 18 and somewhat on the port side of the ship.

"6. The court finds that the loss of the Maine, on the occasion named, was not in any respect due to fault or negligence on the part of any of the officers or members of the crew of said vessel.

"7. In the opinion of the court the Maine was destroyed by the explosion of a submarine mine, which caused the partial explosion of two or more of her forward magazines.

"8. The court has been unable to obtain evidence fixing the responsibility for the destruction of the Maine upon any person or persons.

W. T. SAMPSON,

Captain, U. S. N. President.

A. MARIX,

Lieutenant-Commander, U. S. N., Judge-Advocate.

"The court, having finished the inquiry it was ordered to make, adjourned at 11 a. m. to await the action of the convening authority.

W. T. SAMPSON,

Captain, U. S. N. President.

A. MARIX,

Lieutenant-Commander, U. S. N., Judge-Advocate.

"U. S. Flagship New York, March 22, 1898, off Key West, Fla."

"The proceedings and findings of the court of inquiry in the above case are approved.

M. STWARD,

Rear-Admiral, Commander-in-Chief of the U. S. Naval Force on the North Atlantic Station."

(In this connection see president's message on the same subject under the heading "Messages of the President," in this volume.)

While these investigations were in progress a court of inquiry was appointed by Spanish authority to make a similar examination to that conducted by the American court. The following is a synopsis of the report of the Spanish officers:

"The report contains declarations made by ocular witnesses and experts. From these statements it clearly deduces and proves the absence of all those attendant circumstances which are invariably present on the occasion of the explosion of a torpedo.

"The evidence of witnesses comparatively close to the Maine at the moment is to the

effect that only one explosion occurred; that no column of water was thrown into the air; that no shock to the side of the nearest vessel was felt, nor on land was any vibration noticed, and that no dead fish were found.

"The evidence of the senior pilot of the harbor states that there is abundance of fish in the harbor, and this is corroborated by other witnesses. The assistant engineer of works states that after the explosions made during the execution of works in the harbor he has always found dead fish.

"The divers were unable to examine the bottom of the Maine, which was buried in the mud, but a careful examination of the sides of the vessel, the rents and breaks, in which all point outward, shows without a doubt that the explosion was from the inside.

"A minute examination of the bottom of the harbor around the vessel shows absolutely no sign of the action of a torpedo, and the fiscal (judge-advocate) of the commission can find no precedent for the explosion of the storage magazines of a vessel by a torpedo.

"The report makes clear that, owing to the special nature of the proceedings followed and the absolute respect shown for the extra-territoriality of the Maine, the commission has been prevented from making such an examination of the inside of the vessel as would determine even the hypothesis of the internal origin of the accident. This is to be attributed to the regrettable refusal to permit of the necessary co-operation of the Spanish commission both with the commander and crew of the Maine and the different American officials commissioned to investigate the causes of the accident and later on with those employed in salvage work.

"The report finishes by stating that an examination of the inside and outside of the Maine as soon as such examination may be possible, as also of the bottom where the vessel rests, will prove that, supposing the remains [of the wreck] not to be totally or partially altered in the process of extraction, the explosion was undoubtedly due to some interior cause."

There was only one opinion in the United States regarding the responsibility for the loss of the Maine. The American people, while not asserting that the act was one of treachery on the part of the Spanish government, did believe that without complicity on the part of Spanish officials at Morro castle the vessel would not have been blown up by mines operated by electric batteries located within that fortification. As indicating the sentiment at foreign capitals the plea for peace made by six of the representatives of the leading governments of Europe was significant.

On the 6th of April Consul-General Lee was directed to leave Havana and return to the United States, closing the American consulate in that city. This he did on the 10th inst., turning over the affairs of this government to the British consul. This was deemed necessary on account of the threatening attitude of the Spaniards of the city, and the president believed that the life of the consul-general was in danger, an opinion which all the American residents in Cuba shared.

On the 7th of April, 1898, several diplomatic officials met at the British embassy shortly before noon and proceeded to the

president's mansion and the department of state. The party was made up as follows:

Sir Julian Pauncefote, the British ambassador, dean of the diplomatic corps.

M. Cambon, the French ambassador, and M. Thiebaud, first secretary of the French embassy.

Dr. Von Holleben, the German ambassador, with Baron Speck von Sternburg, first secretary of the German embassy.

Mr. Hengelmüller, the Austrian minister. Count Vincl, the Italian charge d'affaires.

Mr. de Wollant, the Russian charge d'affaires.

Arriving at the white house they were ushered into the blue room and there were received by President McKinley. After a social exchange and mutual well wishes Sir Julian Pauncefote said:

"Mr. President: We have been commissioned by the great powers of Europe, whom we represent here to-day, to approach your excellency with a message of friendship and peace at the present critical juncture in the relations between the United States and Spain, and to convey to you the sentiments expressed in the collective note which I have the honor to place in your hands."

The British ambassador then handed to President McKinley the collective note of the powers, which reads as follows:

"The undersigned, representatives of Germany, Austria-Hungary, France, Great Britain, Italy and Russia, duly authorized in that behalf, address, in the name of their respective governments, a pressing appeal to the feelings of humanity and moderation of the president and of the American people in their existing differences with Spain. They earnestly hope that further negotiations will lead to an agreement which, while securing the maintenance of peace, will afford all necessary guaranties for the re-establishment of order in Cuba.

"The powers do not doubt that the humanitarian and purely disinterested character of this representation will be fully recognized and appreciated by the American nation."

President McKinley then handed to Sir Julian Pauncefote the answer of the United States, as follows:

"The government of the United States recognizes the good will which has prompted the friendly communication of the representatives of Germany, Austria-Hungary, France, Great Britain, Italy and Russia, as set forth in the address of your excellencies, and shares the hope therein expressed that the outcome of the situation in Cuba may be the maintenance of peace between the United States and Spain by affording the necessary guaranties for the re-establishment of order in the island, so terminating the chronic condition of disturbance there which so deeply injures the interests and menaces the tranquillity of the American nation by the character and consequences of the struggle thus kept up at our doors, besides shocking its sentiment of humanity.

"The government of the United States appreciates the humanitarian and disinterested character of the communication now made on behalf of the powers named, and for its part is confident that equal appreciation will be shown for its own earnest and unselfish endeavors to fulfill a duty to humanity by ending a situation the indefinite prolongation of which has become insufferable."

On the 10th of April the Spanish minister presented to Assistant Secretary of State Day the final plea of his government for peace. It was as follows:

"The minister plenipotentiary of Spain has the honor to inform the honorable secretary of state of the United States of America that her majesty the queen regent, yielding to the reiterated requests of his boldness, and inspired by sentiments of peace and concord which animate her, has given proper instructions to the general-in-chief of the army of Cuba, in order that he should concede an immediate suspension of hostilities for such time as he shall deem proper for preparing and facilitating peace in that island.

"Gen. Blanco has published to-day the corresponding proclamation, and reserved to himself to fix in another term and other details of its execution, with the sole object of making sure that a measure of such transcendent importance may lead in the shortest possible time to the desired pacification of the Great Antilla. In the fixing of this term the general-in-chief, inspired by the most elevated sentiments, far from raising any difficulties or obstacles, is disposed to concede all possible facilities.

"The government of her majesty by this important measure has crowned its extraordinary efforts to obtain the pacification of Cuba by means of reason and right.

"The autonomic constitution, which grants to the inhabitants of the island of Cuba a political regime at least as liberal as that which rules in the Dominion of Canada, will shortly enter upon its complete development, when, the elections having taken place, the insular parliament shall meet in Havana on the 4th of May next, and such are the franchises and liberties granted to the Cubans that no pretext is left to them to ask for more ample concessions.

"Furthermore, as the island of Cuba is represented in the cortes of the kingdom, a privilege which is not enjoyed by any other foreign autonomic colony, the Cuban senators and deputies can there explain their aspirations, if they should have any.

"No one who knows the liberal spirit of the majority of the Spanish cortes recently elected and the patriotic attitude of the principal parties of the opposition can doubt that the Cubans will obtain such modifications as they may desire in justice within the limits of reason and of the national sovereignty, according to the solemn offer of the preamble of the royal decree of the 27th of November, 1897, while at the same time the government of her majesty declared that it would not withdraw, nor consent that there should be withdrawn, anything from the colonial liberties, franchises and privileges recorded.

"The repeal of the decree of reconcentration, the aid of all kinds which the government of her majesty has granted and has permitted to be given to the reconcentrados, have put an end to a lamentable state of affairs, which was the inevitable consequence of the bloody conflict provoked by a small minority of the sons of Cuba, directed and supported principally by foreign influences.

"No impartial mind which has full knowledge of the facts, so distorted as they have been, and are actually, in everything referring to the Cuban question, can, with justice, charge Spain with being remiss in seeking the means for pacifying the island or grudging in the concession of privileges, liberties and franchises for the welfare and happiness of the inhabitants.

"The government of her majesty does not doubt that the government of the United States must recognize this, as it will recognize the manifest injustice with which a part of public opinion in this country presumes to find responsibilities for Spain in the horrible catastrophe which occurred in the port of Havana on the unhappy night of Feb. 15 last.

"Her majesty the queen regent, her responsible government, the governor-general of Cuba, the insular government and all the principal authorities of Havana manifested from the first moment the profound sentiments of horror which the profound misfortune caused them, and the sympathy which on that most sad occasion bound them to the American government and people.

"The proofs of these were the visits of the charge d'affaires of his majesty to the illustrious president of the United States, those of the highest Spanish functionaries of state to Mr. Woodford, the unstinted aid given to the victims, as well as the funeral arrangements provided by the municipality of Havana, and the notes addressed to the department of state by this legation on the 16th and 17th of February and the 2d of this month, Nos. 12, 13, 14 and 33 respectively.

"The officers and crew of the vessels of war of her majesty near the Maine, disregarding the evident danger which threatened them, as the officers of that American battleship recognized, immediately lowered their boats and saved a number of the drowning, who only owe their lives to the prompt and efficacious aid of the Spanish sailors.

"It is strange that these notorious facts and these solemn manifestations appear to be forgotten by public opinion, which gives credit on the other hand to the most absurd and offensive hypothesis.

"The government of her majesty would be deeply grateful to the justice and courtesy of that of the United States if it should re-establish officially the truth of facts which appear to be ignored or not appreciated, and ignorance of which contributes so powerfully to maintain the extraordinary excitement which endangers, without any reason or motive, the friendly relations between the two nations.

"With reference to the question of fact which results from the diversity of opinion between the reports of the Spanish and North American commissions, the government of her majesty, which as yet does not know the official text of these opinions, has hastened to declare itself ready to submit the question to the decision of impartial and disinterested experts, accepting in advance the decision of the arbitrators named by both parties—an evident proof of the loyalty and good faith with which Spain proceeds on this as well as on all occasions.

"The minister of Spain trusts that these manifestations, inspired by the loyal desire for peace and concord which animates the government of her majesty, will be appreciated at their just value by the president and government of the United States.

"Washington, 10th of April, 1898."

At this time the feeling in the country was intense, while congress was becoming restive under the delay in declaring war against Spain. In many sections of the country the president was criticised for the check he imposed upon congress, in the hope of a peaceful settlement of the questions at issue between the two countries, but no

one recognized better than the president himself that he could not much longer hold back the people and their representatives from the adoption of the most radical measures, which meant immediate war. When he had exhausted every effort to prevent a resort to arms, and had failed, he sent to congress, on the 11th day of April, his war message, which will be found in full under the heading "Messages of the President" in this volume. An exciting debate followed the reception of this message in both houses of congress, the main question being recognition of the insurgent government established in Cuba. The two houses concurred on the 19th of April and passed the following joint preamble and resolutions, which were sent to the president and approved by him on the day succeeding:

"Whereas, The abhorrent conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating as they have in the destruction of a United States battleship with 266 of its officers and crew while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the president of the United States in his message to congress of April 11, 1898, upon which the action of congress was invited; therefore,

"Resolved, 1. That the people of the island of Cuba are of right ought to be free and independent.

"2. That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

"3. That the president of the United States be, and he hereby is, directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the United States the militia of the several states, to such extent as may be necessary to carry these resolutions into effect.

"4. That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island except for the pacification thereof, and asserts its determination, when that is accomplished, to leave the government and control of the island to its people."

The resolutions passed the senate by a vote of 42 yeas to 35 nays, and the house by a vote of 310 yeas to 6 nays. The following is the vote in the senate:

Yeas—Messrs. Aldrich, Allison, Baker, Burrows, Carter, Chandler, Clark, Cullom, Davis, Deboe, Elkins, Fairbanks, (rep.); Faulkner (dem.), Foraker, Frye, Gallinger, Gehr, (rep.); Gray (dem.), Hale, Hanna, Hansbrough, Hawley, (rep.); Kyle (pop.), Lodge, McBride, McMillan, Mason, (rep.); Morgan (dem.), Morrill, Nelson, Penrose, Perkins, Platt of Connecticut, Pritchard, Proctor, Quay, Sewell, Shoup, Spooner, Warren, Wilson and Wolcott, (rep.)—42.

Nays—Messrs. Allen (pop.), Bacon, Bate, Berry, (dem.); Butler (pop.), Caffery (dem.), Cannon (rep.), Chilton, Cockrell, Daniel, (dem.); Harris, Helfield, (pop.); Jones of Arkansas (dem.), Jones of Nevada, (rep.), Kenney, Lindsay, McEnery, McLaurin, Mal-

lory, (dem.); Mantle (rep.), Martin, Mitchell, Money, Pasco, (dem.); Pettigrew (rep.), Pettus, Rawlins, Roach, (dem.); Stewart (pop.), Teller (rep.), Turley (dem.), Turner (pop.), Turple and White (dem.)—35.

In the house the six negative votes were cast by:

Charles A. Boutelle (rep.) of Maine. Willis Brewer (dem.) of Alabama. John J. Gardner (rep.) of New Jersey. Henry U. Johnson (rep.) of Indiana. Eugene F. Loud (rep.) of California. Samuel W. McCall (rep.) of Massachusetts. On the same day (April 20) the following ultimatum was sent to Gen. Woodford, our minister at Madrid, to be delivered to the Spanish government:

"You have been furnished with the text of a joint resolution voted by the congress of the United States on the 19th inst., approved to-day, in relation to the pacification of the island of Cuba. In obedience to that act the president directs you to immediately communicate to the government of Spain said resolution, with the formal demand of the government of the United States that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters. In taking this step the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people under such free and independent government as they may establish.

"If by the hour of noon on Saturday next, the 23d day of April inst., there be not communicated to this government by that of Spain a full and satisfactory response to this demand and resolution, whereby the ends of peace in Cuba shall be assured, the president will proceed without further notice to use the power and authority enjoined and conferred upon him by the said joint resolution to such extent as may be necessary to carry the same into effect.

"SHERMAN."

On Thursday, April 21, the following reply was received from Gen. Woodford:

"Madrid, April 21, 1898. Received 9:02 a. m.—Sherman, Washington: Early this [Thursday] morning, immediately after the receipt of your open telegram, and before I had communicated same to Spanish government, Spanish minister for foreign affairs notified me that diplomatic relations are broken between the two countries, and that all official communications between their respective representatives have ceased. I accordingly asked for safe passports. Turn legation over to British embassy and leave for Paris this afternoon. Have notified consuls. WOODFORD."

The ultimatum was not, therefore, delivered. On the same day, April 20, about 11 o'clock a. m., the department of state served notice of the purposes of this government by delivering to Minister Polo a copy of an instruction to Minister Woodford, and also a copy of the resolutions passed by the congress of the United States on the 19th inst. After the receipt of this notice the Spanish minister forwarded to the state department a request for his passports, which were furnished to him in the afternoon.

It will be seen that it was Spain which broke off the relations between the two governments—first, by the act of the minister in demanding his passports from the secretary of state, and, second, by that government sending to the American minister his passports before receiving a request therefor.

On the 22d day of April the president issued the following proclamation:

"Whereas, By a joint resolution passed by the congress and approved April 20, 1898, and communicated to the government of Spain, it was demanded that said government at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters, and the president of the United States was directed and empowered to use the entire land and naval forces of the United States, and to call into the actual service of the United States the militia of the several states to such extent as might be necessary to carry said resolution into effect; and,

"Whereas, In carrying into effect said resolution, the president of the United States deems it necessary to set on foot and maintain a blockade of the north coast of Cuba, including all ports of said coast between Cardenas and Bahla Honda, and the port of Cienfuegos on the south coast of Cuba;

"Now, therefore, I, William McKinley, president of the United States, in order to enforce the said resolution, do hereby declare and proclaim that the United States of America has instituted, and will maintain, a blockade of the north coast of Cuba, including ports on said coast between Cardenas and Bahla Honda, and the port of Cienfuegos on the south coast of Cuba, aforesaid, in pursuance of the laws of the United States and the law of nations ap-

plicable to such cases. An efficient force will be posted so as to prevent the entrance and exit of vessels from the ports aforesaid. Any neutral vessel approaching said ports, or attempting to leave the same, without notice or knowledge of the establishment of such blockade, will be duly warned by the commander of the blockading forces, who will indorse on her register the fact and the date of such warning, where such indorsement was made; and if the same vessel shall again attempt to enter any blockaded port she will be captured and sent to the nearest convenient port for such proceedings against her and her cargo as prize as may be deemed advisable. Neutral vessels lying in any of said ports at the time of establishment of such blockade will be allowed thirty days to issue therefrom."

April 25 the president sent a message to congress asking that body to issue a formal declaration of war, which message will be found in full under the heading "Messages of the President," in this volume. On the same day both houses of congress passed and the president signed the following bill:

"A bill declaring that war exists between the United States of America and the kingdom of Spain.

"Be it enacted, etc.

"1. That war be and the same is hereby declared to exist and that war has existed since the 21st day of April, A. D. 1898, including said day, between the United States of America and the kingdom of Spain.

"2. That the president of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the United States the militia of the several states, to such extent as may be necessary to carry this act into effect."

## CHRONOLOGY OF THE WAR WITH SPAIN.

### APRIL, 1898.

21. Gen. Stewart L. Woodford, the American minister at Madrid, received his passports from the Spanish government and Polo y Bernabe, the Spanish minister at Washington, left the city. The navy department bought the Brazilian warship *Nittheroy* and the yachts *Corsair* and *Penelope*. The Spanish government ordered out 80,000 reserves.

22. The first prize is captured by the gunboat *Nashville*. It is the Buena Ventura. Cuban ports blockaded by the American squadron.

23. The president issued a call for 125,000 volunteers.

24. Spain issued a decree declaring that a state of war exists with the United States.

25. Congress passed a bill declaring that war exists between the United States and Spain.

26. The president by proclamation reaffirmed the intention of this government to "adhere to the declaration of Paris" in regard to privateering.

27. The first battle of the war was fought off Matanzas by Admiral Sampson, with the New York, the Puritan and the Cincinnati, in which the land batteries were silenced. Commodore Dewey left Mirs bay with his squadron for Manila.

29. The Spanish squadron, consisting of the cruisers *Maria Teresa*, *Almirante Oquendo*, *Vizcaya* and *Cristobal Colon*, and the torpedo-boat destroyers *Pluton*, *Terror*

and *Furor*, sail from the Cape Verde islands.

30. The battleship *Oregon* arrived at Rio de Janeiro from San Francisco. In accordance with instructions Capt. Clark sailed from San Francisco on March 19 on the journey around the Horn, and it is probable that no ship that ever made the trip attracted so much attention. Her first stopping place was Callao, whence she sailed again on April 6, making direct for Sandy point without stopping at Valparaiso. With 6,588 knots to her credit, everything in good order and all on board well, she passed through the Straits of Magellan and steamed north to Rio de Janeiro, which port she made on April 30 at 6 p. m. At Sandy point she picked up the gunboat *Marletta*, and as the smaller vessel could make only about twelve knots an hour the *Oregon's* progress to Rio was slower than it would have been had she gone alone. A third vessel, the *Buffalo*, joined the American ships at Rio, and they were reported safe at Bahla on May 9. The *Oregon* left Rio de Janeiro May 4 and arrived at Key West May 26, having without accident made a voyage of 16,764 miles.

### MAY.

1. Commodore Dewey steamed into Manila harbor at daybreak. His squadron consisted of the cruisers *Olympia* (flagship), *Raleigh*, *Baltimore* and *Boston*, and gunboats *Concord* and *Petrel*, and the revenue cutter *McCulloch*, with two trapsorts. Here he met

the Spanish fleet, consisting of the Reina Cristina, Castilla, Don Antonio de Ulloa, Isla de Luzon, Isla de Cuba, Gen. Lezo, Marquis de Duero, Cano, Velasco, Isla de Mindanao, some small gunboats and a transport. The American ships opened a heavy fire on the Spanish vessels. The total tonnage of the American fleet was 19,098 tons and that of the Spanish real fighting ships was 8,722 tons. The result of the battle was the entire destruction of all the Spanish vessels and the silencing of the land batteries. Commodore Dewey did not lose a ship nor a man, while the Spanish lost their entire fleet and from 600 to 700 men.

2. Commodore Dewey cut the cable communications between Manila and Hongkong, destroyed the fortifications at the entrance of Manila bay and took possession of the naval station at Cavite. He demanded the surrender of the city of Manila, which was refused.

4. The vessels of Rear-Admiral Sampson's fleet, consisting of the flagship New York and the battleships Iowa and Indiana, the monitor Puritan, the cruisers Cincinnati, Detroit and Marblehead, and the torpedo boat Mayflower, sailed from Key West, coaled, for a long voyage.

6. The French steamer Lafayette was captured while attempting to run the blockade at Havana.

7. Commodore Dewey was promoted to be rear-admiral and given the thanks of congress.

11. Spanish gunboats and shore batteries attacked the blockading vessels Wilmington, Hudson and Winslow at Cardenas, disabling the Winslow. Ensign Bagley and four sailors were killed and Lieut. Bernadon and two others wounded. Bagley was the first officer killed in the war. The cable at Cienfuegos was cut by American sailors and one was killed. The first land fight of the war took place at the harbor of Port Cabanas. The transport steamer Gussie, carrying members of the 1st infantry, made a temporary landing and had a brush with the Spanish troops.

12. A portion of the fleet under Admiral Sampson bombarded the batteries defending San Juan, Puerto Rico, inflicting great damage and losing two men. The Spanish squadron was sighted at Martinique, Windward islands.

13. The fleet known as the "flying squadron," under Commodore Schley, consisting of the cruiser Brooklyn, the battleships Texas and Massachusetts, the dispatch boat Scorpion and a collier, sailed from Hampton Roads.

14. The Spanish squadron was reported to be off the Venezuelan coast, near Curacao.

15. The entire Spanish cabinet resigned.

16. A new military department of the Pacific created, including the Philippines, and Gen. Merritt was assigned to the command. Camp Thomas, at Chickamauga, was occupied by volunteer troops.

18. The cruiser Charleston, Capt. Glase, bound for the Philippines to re-enforce Admiral Dewey, sailed from San Francisco.

19. The Spanish fleet under Admiral Cervera was reported to be at Santiago de Cuba.

21. The monitor Monterey ordered to Manila to re-enforce Admiral Dewey.

22. The 1st California regiment embarked on the City of Peking for Manila. This composed the first detachment of a brigade to be commanded by Brig.-Gen. T. N. Anderson.

25. The president called for 75,000 more volunteers. The transports City of Peking, City of Sydney and Australia sailed from San Francisco with 2,500 men and a year's supplies of ammunition and naval stores for the fleet at Manila.

26. The battleship Oregon arrived at Key West.

28. The Spanish reserve fleet left Cadiz for a practice cruise. A night attack of the torpedo-boat destroyers Pluton and Furor was made on Commodore Schley's fleet off Santiago de Cuba and repulsed.

30. A dispatch received from Commodore Schley at the navy department at 12:30 this morning says he had seen and recognized the Spanish fleet commanded by Cervera in the bay of Santiago de Cuba. Maj.-Gen. Miles, commanding the United States army, left Washington for Tampa, Fla.

31. The battleships Massachusetts and Iowa and the cruiser New Orleans of Commodore Schley's fleet engaged the Spanish flagship Cristobal Colon and four strong land batteries guarding the harbor of Santiago de Cuba and the batteries were silenced and some damage was done to the flagship.

#### JUNE.

1. Admiral Sampson joined Commodore Schley off Santiago de Cuba and took command of the united American fleets, comprising sixteen warships.

3. At 4 o'clock in the morning Lieut. Richmond P. Hobson, U. S. N., with a volunteer crew of seven men, sunk the collier Merrimac in the narrow channel at the entrance of the harbor of Santiago de Cuba. The seven men were: Osborn Deignan, George F. Phillips, Francis Kelley, George Charrette, Daniel Montague, J. C. Murray and Randolph Clausen. The eight men, after the sinking of the Merrimac, drifted ashore on a catamaran and were taken prisoners by the Spanish forces. By a flag of truce from the Spanish admiral, "sent in recognition of their bravery," Admiral Sampson was informed that all had been made prisoners of war and that two were slightly wounded. In offering to exchange them for Spanish prisoners Cervera said that "daring like theirs makes a bitterest enemy proud that his fellow-men can be such heroes."

6. Ten ships maintained a bombardment of the batteries at Santiago de Cuba. The forts were silenced and the Spanish warship Reina Mercedes was sunk. Later in the day the defenses at Aguadores, a town east of Santiago de Cuba, were destroyed.

7. The cruiser St. Louis, protected by the Marblehead and Yankee, cut the French cable off the port of Calmanera in Guantamano bay.

10. A landing is effected by 600 American marines from the transport Panther near the entrance of Guantamano harbor. The force was under the protection of the guns of the Oregon, Marblehead, Dolphin, Yankee, Yosemite, Porter and Vixen. A lodgment was effected on a small flat-topped hill and the camp was named McCalla.

11. Shortly after 5 o'clock in the afternoon the Spanish forces attacked Camp McCalla. A brisk skirmish was kept up until dark, during which the Americans lost four men. The Spanish loss is unknown.

12. Fighting at Camp McCalla was resumed, the Americans beginning the battle with fieldpieces. The Texas arrived and re-enforced the troops with forty marines and two Colt automatic guns, while the Marblehead shelled the woods on the south side of

the hill. The Spaniards opened fire with artillery, but the guns were soon silenced by the Texas. The camp was removed to the base of the hill. The fight was kept up during the night, the guns on board the Panther, Abarenda and Marblehead throwing shells. In the morning the Spanish troops retired.

13. A portion of the first military expedition left Tampa, Fla., for Santiago de Cuba, via Key West. Maj.-Gen. Shafter, who is in command of the expedition, reports the following as the troops composing his corps: Infantry—6th, 16th and 71st New York volunteers; 10th, 22d, 2d, 18th, 9th, 24th and 3th Massachusetts; 1st, 7th, 1st, 3d and 20th United States Infantry; 10,700 men and 561 officers. Cavalry—Two dismounted squadrons of four troops each from the 3d, 6th, 9th, 1st and 10th United States cavalry; two dismounted squadrons of four troops each from the 1st United States volunteer cavalry ("rough riders"), and one squadron of mounted, 3d cavalry; 8,155 men and 188 officers. Artillery—Light batteries E and K, 1st artillery; A and F, 2d artillery, and G and H, 4th artillery; 465 men and fifteen officers. Engineers—Companies C and E, 200 men and four officers. Signal corps—Forty-five men and two officers. The staff corps numbered fifteen officers. This made a total force of 14,564 men and 773 officers.

14. Scouting parties of marines and Cubans pursued the Spanish troops on Guantanamo bay, the Spanish loss being estimated at 200 killed and wounded.

15. The forts at Calmanera were bombarded by the warships Texas, Marblehead and Suwanee. The firing began at 2 o'clock and at 3 the forts and batteries were destroyed. The transport ships China, Colon, Zealandia and Senator, carrying 4,200 men, under command of Gen. F. V. Greene, sailed from San Francisco for Manila.

16. The forts at the Santiago harbor were again shelled by Sampson's fleet. The Spanish reserve fleet under Camara at Cadix sailed south.

17. Admiral Camara's fleet arrived at Cartagena.

18. United States troopships reached Santiago de Cuba. Gen. Shafter, Admiral Sampson and Gen. Garcia held a long conference at Aserradero in the afternoon.

19. Landing of troops from the transports began at Balquidri, seventeen miles east of Santiago de Cuba. The Spaniards on the island of Guam, one of the Mariana group, capitulated to the United States cruiser Charleston.

20. The auxiliary cruiser St. Paul attacked while off San Juan, Puerto Rico, by the Spanish torpedo-boat destroyer Terror; the St. Paul's fire disables the Terror, killing an officer and two men and wounding others.

21. The monitor Monadnock and the collier Nero sailed for Manila to re-enforce Admiral Dewey. Landing of the troops at Balquidri was completed.

22. In advancing from Balquidri Gen. Young's brigade of cavalry and the "rough riders" encountered a superior force of Spaniards at La Guasima, near Sevilla. A heavy fire was opened on the Americans and Sergt. Hamilton Fish, Jr., of the rough riders was killed and Capt. A. K. Capron mortally wounded. The enemy was finally driven from his position after the Americans had sustained a loss of sixteen killed and fifty-two wounded.

23. The Americans under Gen. Chaffee oc-

cupy Sevilla, which was abandoned by the enemy.

24. The advance guard of the American army reached San Juan, four miles distant from Santiago. This was the 7th regular infantry.

25. The third Manila expedition, consisting of the transport ships Indiana, Ohio, Morgan City and City of Para, commanded by Gen. Arthur McArthur, sailed from San Francisco.

26. The president issued a proclamation extending the blockade of Cuban ports to those of the southern coast, which extended also to the port of San Juan, Puerto Rico.

27. Maj.-Gen. Merritt sailed from San Francisco for the Philippines on board the Newport. Gen. Snyder's division, numbering more than 8,000 men, sailed from Tampa to re-enforce Gen. Shafter at Santiago de Cuba.

28. The cruiser Charleston, with three transports of the first Philippine expedition, arrived at Cavite in Manila bay.

## JULY.

1. The heights of El Caney and San Juan, overlooking Santiago de Cuba, are taken by the American troops. At 6 o'clock in the morning Capt. Capron's battery of four guns opened fire on El Caney from an elevation about a mile and a half distant. The guns were not heavy enough to destroy the enemy's works and at 8 o'clock Gen. Lawton's infantry of Chaffee's brigade, being the 7th, 12th and 17th regular infantry, assaulted the hill. They took it with more than 100 prisoners. At the San Juan hill a similar work was done. Grimes' battery opened the battle, while the charge was made by the 1st volunteer cavalry "rough riders" and the 1st and 10th regulars. The hill was carried and held. Gen. Linares, the Spanish commander, was wounded at El Caney and Gen. Vara del Rey, second in command, was killed. The next officer in rank was Gen. Jose Toral.

2. The Spaniards attempted to retake San Juan hill, but after severe fighting they were repulsed and Gen. Lawton extended the American lines to the north of Santiago de Cuba. The American losses in the two days' engagements were: Killed—Officers, 23; men, 208. Wounded—Officers, 80; men, 1,203; missing, 81 men. Several thousand Spanish re-enforcements succeeded in entering the city from the north.

3. The Spanish fleet under Admiral Cervera attempted to run out of the harbor of Santiago de Cuba. As the vessels appeared in line they were pursued by the Brooklyn, the Oregon, the Iowa and the Texas of the American squadron and the converted yacht Gloucester. The Spanish ships Maria Teresa, Almirante Oquendo and the Viscaya were within a few minutes forced ashore and surrendered. The Cristobal Colon made a desperate attempt to escape, but was run ashore and sunk about sixty miles from the mouth of the harbor. The two torpedo-boat destroyers Furor and Pluton were wrecked within four miles of the harbor. Admiral Cervera, Capt. Eulate and more than 1,300 officers and men were taken prisoners. The loss of life on the Spanish vessels was terrible, while on the American fleet only one was killed. None of the American vessels were injured seriously in the engagement. Gen. Shafter gave notice to Gen. Toral, commanding the Spanish forces at Santiago de Cuba, to remove from the city all non-combatants, as he was about to shell the city.

4. Truce was established between the two armies.

5. Gen. Toral was again called upon to surrender the city, but declined and the truce was extended.

6. The Spanish authorities exchange Lieut. Hobson and his seven men for prisoners taken by our troops.

7. An extension of the armistice at Santiago de Cuba is granted in order that non-combatants may leave the city and to permit the Spanish commander to communicate with Madrid in regard to capitulation. Gen. Miles left Washington for Santiago de Cuba via Charleston.

8. The Concord and the Raleigh of Admiral Dewey's fleet took possession of Isla Grande in Subig bay on the island of Luzon.

9. Gen. Miles sailed from Charleston on the Yale for Santiago de Cuba; with him went the 6th Massachusetts and the 1st battalion of the 6th Illinois, in all 1,720 men, to re-enforce Gen. Shafter. Gen. Toral offered to surrender the city of Santiago de Cuba if his troops were allowed to march out with their arms. The proposal was declined.

10. At 11:30 a. m. Gen. Shafter informed the Spanish commander that by the direction of the president the offer to surrender made yesterday was rejected and that the United States would accept no terms other than an unconditional surrender. Gen. Toral declined to discuss any other terms than those proposed by himself yesterday. About 5 o'clock the Brooklyn, Texas and Indiana, lying off Agadores, threw shells over the bluffs in an attempt to reach the city, which was about five miles distant. Re-enforcements arrive at Siboney for Gen. Shafter; these are the 1st Illinois, 8th Ohio, 1st District Columbia and 330 recruits, making 4,546 men. The "rough riders" practiced on the Spanish outposts with their dynamite gun. Capt. Roswell and one private were killed and four were wounded.

11. Gen. Miles arrived at Santiago de Cuba and conferred with Gen. Shafter. At 6 o'clock in the morning the American lines were ordered to open fire on the Spanish defenses. The firing was very effective and great damage was done. The fleet threw 166 shells, of which 101 were effective, at a distance of 8,500 yards. Camanes, northwest of the city, was taken possession of by Gen. Ludlow.

12. Flag of truce remained up all day while Gen. Toral considered the demands for surrender.

13. Gen. Miles reports: "At a meeting between the lines at which Gen. Shafter, Gen. Wheeler and Gen. Toral were present the latter claimed that he is unable to act without the authority of his government, but has received authority to withdraw and surrender harbor, port, munitions of war and eastern portion of Cuba. He urgently requests until tomorrow noon to receive an answer from his government regarding offer of our government to send his forces to Spain, which was granted."

14. Gen. Toral surrendered. A dispatch from Gen. Shafter to the war department says: "Have just returned from interview with Gen. Toral. He agrees to surrender upon the basis of being returned to Spain. This proposition embraces all eastern Cuba from Aserradero on the south to Sagua on the north, via Palma, with practically the 4th army corps. Commissioners meet this afternoon at 2:30 to definitely arrange terms." The agreement for the surrender of Santiago consists of nine articles, of which the following is the gist:

"1. That all hostilities shall cease pending the agreement of final capitulation.

"2. That the capitulation includes all the Spanish forces and the surrender of all war material within the prescribed limits.

"3. The transportation of the troops to Spain at the earliest possible moment, each force to be embarked at the nearest port.

"4. That the Spanish officers shall retain their sidearms and the enlisted men their personal property.

"5. That after the final capitulation the Spanish forces shall assist in the removal of all obstructions to navigation in Santiago harbor.

"6. That after the final capitulation the commanding officers shall furnish a complete inventory of all arms and munitions of war and a roster of all the soldiers in the district.

"7. That the Spanish general shall be permitted to take the military archives and records with him.

"8. That all guerrillas and Spanish irregulars shall be permitted to remain in Cuba if they so elect, giving a parole that they will not again take up arms against the United States unless properly released from parole.

"9. That the Spanish forces shall be permitted to march out with all the honors of war, depositing their arms, to be disposed of by the United States in the future, the American commissioners to recommend to their government that the arms of the soldiers be returned to those 'who so bravely defended them.'

15. The fourth Manila expedition, consisting of the steamships Peru and City of Puebla, with 1,700 troops, sailed from San Francisco under command of Gen. Otis.

16. Admiral Cervera and the captured officers of his fleet reached Annapolis as prisoners of war.

17. The city of Santiago de Cuba was formally surrendered to Gen. Shafter, and the United States flag was hoisted over the palace. Gen. Shafter and Toral, with their staffs, met at a point between the lines of the American and Spanish forces at 9 o'clock in the morning. The Spanish commander, with a brief statement to the effect that Santiago de Cuba—city and province—had now been delivered to the United States government, offered to give up his sword, but it was returned to him. The United States flag was hoisted at exact noon. The second military expedition to Manila arrived at Cavite.

18. The president issued his proclamation regarding the government of Santiago de Cuba. One sentence gives the key-note of the lengthy document. He said: "We come not to make war on the inhabitants of Cuba nor upon any party or faction among them, but to protect them in their homes, in their employments and in their personal and religious rights." The first troops for Puerto Rico, numbering 6,200 men, under Gen. Wilson, commenced embarking at Charleston. Gen. Schwan's brigade had already left Tampa for the same destination.

20. A dispatch from Gen. Miles said: "We have the Massachusetts, Dixie, Gloucester, Cincinnati, Annapolis, Leyden, Wasp, Yale and Columbia. We expect to sail [for Puerto Rico] at 3 o'clock." The number of troops conveyed from Guantanamo was 3,415.

23. Five troops of cavalry stationed at Camp Alger were ordered to Puerto Rico.

The City of Rio de Janeiro, with 890 men, sailed from San Francisco for Manila, under command of Gen. H. G. Otis.

25. The military expedition under Gen. Miles effected a landing on the island of Puerto Rico at Guanica, on the southern coast of the island, fifteen miles west of Ponce, after a skirmish between the Gloucester and a small Spanish force. About 35,000 men in all, sailing from various points, compose the army going to Puerto Rico. The Newport, with Gen. Merritt on board, arrived at Manila.

26. The French ambassador, M. Jules Cambon, on behalf of the government of Spain, and at the request of the Spanish minister of foreign affairs, presented to the president a message designed to inaugurate negotiations for peace.

27. The American troops advanced on Yauco, in Puerto Rico.

28. Gen. Brooke sailed from Newport News with his command for Puerto Rico. Another expedition composed of the 1st battalion of South Dakota volunteers and recruits for the Colorado and Minnesota regiments sailed for Manila. Ponce surrendered to Commander Davis, U. S. N.

29. The American troops advanced from Cavite toward Malate on the road to Manila. Jibara, on the northern coast of Cuba, outside the province not ceded by Gen. Toral, was taken by the gunboat Nashville, the Spanish garrison retreating to Holguin.

30. A statement embodying the views of the president as to the basis of peace acceptable to the United States was transmitted to Spain.

31. The Spanish troops attacked the Americans intrenched near Malate, between Cavite and Manila. The American loss was nine killed and forty-seven wounded, while the Spanish loss was very heavy.

#### AUGUST.

1. American troops in Puerto Rico advanced toward San Juan, Gen. Miles having formed a junction with Gen. Brooke and Schwan.

2. Gen. Merritt requested the war department to increase his command to 50,000 men. The troops with him and those on the way to join him amount to 20,000.

4. Five volunteer regiments of immunes are ordered to Santiago de Cuba for garrison duty.

5. The town of Guayama in Puerto Rico was captured by the 4th Ohio and the 3d Illinois after a slight skirmish.

6. Transports sailed from Santiago de Cuba with troops of Shafter's command ordered north.

7. Admiral Dewey and Gen. Merritt demanded the surrender of Manila, which was refused. Spain's reply to the president's statement of the terms of peace was sent to Paris for transmission to Washington. The note suggests that a suspension of hostilities would make negotiations easier.

8. Skirmish near Guayama, Puerto Rico, in which five of the 4th Ohio were wounded.

9. The town of Coamo, Puerto Rico, was captured. Our loss was one killed and six wounded, while the Spanish loss was the commander, two captains and nine privates killed, thirty-five wounded and 180 taken prisoners. Spain's reply to the peace proposition was presented to President McKinley by the French ambassador, M. Cambon.

10. Secretary Day and M. Cambon agreed on the terms of a protocol to be transmitted

to Spain for approval. Gen. Schwan drove back a strong force of Spaniards north of Mayaguez, Puerto Rico.

11. A protocol suspending hostilities between the United States and Spain was signed at 4:23 p. m. in Washington, M. Cambon having received authority to act in behalf of Spain. The following is the text of the document:

"Protocol of agreement between the United States and Spain, embodying the terms of a basis for the establishment of peace between the two countries, signed at Washington Aug. 12, 1898. Protocol: William R. Day, secretary of state of the United States, and his excellency Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington respectively possessing for this purpose full authority from the government of the United States and the government of Spain, have concluded and signed the following articles, embodying the terms on which the two governments have agreed in respect to the matters hereinafter set forth, having in view the establishment of peace between the two countries—that is to say:

"Article 1. Spain will relinquish all claim of sovereignty over and title to Cuba.

"Art. 2. Spain will cede to the United States the island of Puerto Rico and other islands now under Spanish sovereignty in the West Indies, and also an island in the Ladrões, to be selected by the United States.

"Art. 3. The United States will occupy and hold the city, bay and harbor of Manila, pending the conclusion of a treaty of peace, which shall determine the control, disposition and government of the Philippines.

"Art. 4. Spain will immediately evacuate Cuba, Puerto Rico and other islands now under Spanish sovereignty in the West Indies, and to this end each government will, within ten days after the signing of this protocol, appoint commissioners, and the commissioners so appointed shall, within thirty days after the signing of this protocol, meet at Havana for the purpose of arranging and carrying out the details of the aforesaid evacuation of Cuba and the adjacent Spanish islands, and each government will, within ten days after the signing of this protocol, also appoint other commissioners, who shall, within thirty days after the signing of this protocol, meet at San Juan, Puerto Rico, for the purpose of arranging and carrying out the details of the aforesaid evacuation of Puerto Rico and other islands now under Spanish sovereignty in the West Indies.

"Art. 5. The United States and Spain will each appoint not more than five commissioners to treat of peace, and the commissioners so appointed shall meet at Paris not later than Oct. 1, 1898, and proceed to the negotiation and conclusion of a treaty of peace, which treaty shall be subject to ratification according to the respective constitutional forms of the two countries.

"Art. 6. Upon the conclusion and signing of this protocol hostilities between the two countries shall be suspended, and notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces.

"Done at Washington in duplicate, in English and in French, by the undersigned, who have hereto set their hands and seals, the 12th day of August, 1898.

"WILLIAM R. DAY.  
"JULES CAMBON."

On the same day the president issued the following proclamation:

"By the president of the United States of America—A proclamation.

"Whereas, By a protocol concluded and signed Aug. 12, 1898, by William R. Day, secretary of state of the United States, and his excellency Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington, respectively, representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken; and

"Whereas, It is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces;

"Now, therefore, I, William McKinley, president of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this 12th day of August, in the year of our Lord one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-third.

"By the president:

"WILLIAM MCKINLEY,  
"WILLIAM R. DAY, Secretary of State."

12. The troops under Gen. Merritt and the fleet under Admiral Dewey made a simultaneous attack upon Manila. The brigades under Gens. McArthur and Greene carried the Spanish works with a loss in killed, wounded and missing of about fifty men. After six hours' fighting the Spaniards surrendered the city with about 7,000 prisoners.

17. The president named as commissioners to adjust the evacuation of Cuba Maj.-Gen. James F. Wade, Rear-Admiral William T. Sampson and Maj.-Gen. Matthew C. Butler.

For Puerto Rico, Maj.-Gen. John R. Brooke, Rear-Admiral Winfield S. Schley and Brig.-Gen. William W. Gordon.

19. Spain named as commissioners for Cuba Maj.-Gen. Gonzales Parrade, Rear-Admiral Pastor y Landers and Marquis Montoro. For Puerto Rico, Maj.-Gen. Ortega y Diaz, Commodore Vallarino y Carrasco and Judge-Advocate Sanchez Agulia y Leon.

20. The New York, Brooklyn, Massachusetts, Indiana, Texas, Oregon and Iowa joined in a grand naval parade in New York harbor.

25. Transports Rio de Janeiro and Pennsylvania arrived at Manila.

#### SEPTEMBER.

9. The president appointed as peace commissioners William R. Day of Ohio, Senators William P. Frye of Maine, Cushman K. Davis of Minnesota, George Gray of Delaware and Mr. Whitelaw Reid of New York.

17. The American commissioners sailed for Paris.

18. The Spanish government named as commissioners Senor Montero Rios, Senor Abarzuza, Senor Garnica, Gen. Cerero and Senor Villarrutia.

20. The evacuation of Puerto Rico commenced.

21. Mustering out of volunteers to begin at once.

24. The commission appointed by the president to investigate the conduct of the war met at Washington. The commission was composed of the following persons: Maj.-Gen. Grenville M. Dodge of Iowa, Col. J. A. Sexton of Illinois, Capt. E. P. Howell of Georgia, Maj.-Gen. J. M. Wilson, chief of engineers of the United States army; the Hon. Charles Denby of Indiana, late minister to China; ex-Gov. Urban A. Woodbury of Vermont, ex-Gov. James A. Beaver of Pennsylvania, Maj.-Gen. A. McD. McCook of the army (retired), Dr. Phineas S. Connor of Cincinnati. Gen. Dodge was elected chairman of the commission.

#### OCTOBER.

1. The American and Spanish peace commissioners held their first conference at the apartments of the French foreign office in Paris. It lasted ninety minutes.

18. United States flag was raised over San Juan, Puerto Rico, the Spanish evacuation having been completed.

#### CASUALTIES IN THE AMERICAN ARMIES.

Total casualties in killed and wounded during the war with Spain from May 1 to Sept. 30:

	Killed.		Wounded.	
	Off- cers.	Priv- ates.	Off- cers.	Priv- ates.
Cuba .....	23	237	99	1,332
Puerto Rico.....		3	4	36
Manila .....		17	10	96
Died of wounds	4	61	...	...
Total .....	27	318	113	1,464

Number of deaths by disease and accidents from May 1 to Sept. 30 was as follows:

Camp Thomas, Chickamauga Park, Ga.	425
Camp Cuba Libre, Jacksonville, Fla.	246
Tampa, Fla.	56
Cuba .....	427
At sea, en route from Cuba to Montauk Point .....	87

Manila, Philippine islands.....	63
Camp Wilkoff, Montauk Point, N. Y.	267
Puerto Rico.....	137
Camp Alger, Falls Church, Va.	107
Camps in San Francisco, Cal.	139
Camp Poland, Tenn.	23
Camp Shipp, Ala.	12
Camp Meade, Pa.	64
Camp Hamilton, Ky.	29
Camp Wheeler, Ala.	35
At posts and minor camps.	373
Officers .....	80
Total .....	2,566

Grand total of deaths, all causes...2,910

The total force was 274,717 men and the loss by death from all causes was 1.069 per cent.

## QUOTAS OF THE STATES UNDER THE TWO CALLS FOR TROOPS.

(From the Report of the Adjutant-General of the Army, Nov. 1, 1898.)

## FIRST CALL, 125,000 MEN.

Alabama, 2 regiments and 1 battalion of infantry.  
 Arkansas, 2 regiments of infantry.  
 California, 2 regiments and 2 battalions of infantry, 4 batteries of heavy artillery.  
 Colorado, 1 regiment of infantry.  
 Connecticut, 1 regiment of infantry, 1 battery of light artillery and 2 batteries of heavy artillery.  
 Delaware, 1 regiment of infantry.  
 Florida, 1 regiment of infantry.  
 Georgia, 2 regiments of infantry and 2 battalions of light artillery.  
 Idaho, 2 battalions of infantry.  
 Illinois, 7 regiments of infantry, 1 battery of light artillery and 1 regiment of cavalry.  
 Indiana, 4 regiments of infantry and 2 batteries of light artillery.  
 Iowa, 4 regiments of infantry.  
 Kansas, 3 regiments of infantry.  
 Kentucky, 3 regiments of infantry and 2 troops of cavalry.  
 Louisiana, 2 regiments of infantry.  
 Maine, 1 regiment of infantry and 1 battery of heavy artillery.  
 Maryland, 1 regiment of infantry.  
 Massachusetts, 4 regiments of infantry and 1 battery of heavy artillery.  
 Michigan, 4 regiments of infantry.  
 Minnesota, 3 regiments of infantry.  
 Mississippi, 2 regiments of infantry.  
 Missouri, 6 regiments of infantry and 1 battery of light artillery.  
 Montana, 1 regiment of infantry.  
 Nebraska, 2 regiments of infantry.  
 Nevada, 1 troop of cavalry.  
 New Hampshire, 1 regiment of infantry.  
 New Jersey, 3 regiments of infantry.  
 New York, 12 regiments of infantry and 2 troops of cavalry.  
 North Carolina, 2 regiments of infantry.  
 North Dakota, 2 battalions of infantry.  
 Ohio, 3 regiments of infantry and 3 troops of cavalry.  
 Oregon, 1 regiment of infantry.  
 Pennsylvania, 15 regiments of infantry, 3 batteries of light artillery and 3 troops of cavalry.  
 Rhode Island, 1 regiment of infantry.  
 South Carolina, 1 regiment and 1 battalion of infantry, 1 battery of heavy artillery.  
 South Dakota, 1 regiment of infantry.  
 Tennessee, 3 regiments of infantry.  
 Texas, 3 regiments of infantry and 1 of cavalry.  
 Utah, 2 battalions of light artillery and 1 troop of cavalry.  
 Vermont, 1 regiment of infantry.

Virginia, 3 regiments of infantry.  
 Washington, 1 regiment of infantry.  
 West Virginia, 1 regiment of infantry.  
 Wisconsin, 3 regiments of infantry.  
 Wyoming, 1 battalion of infantry.  
 District of Columbia, 1 regiment of infantry.

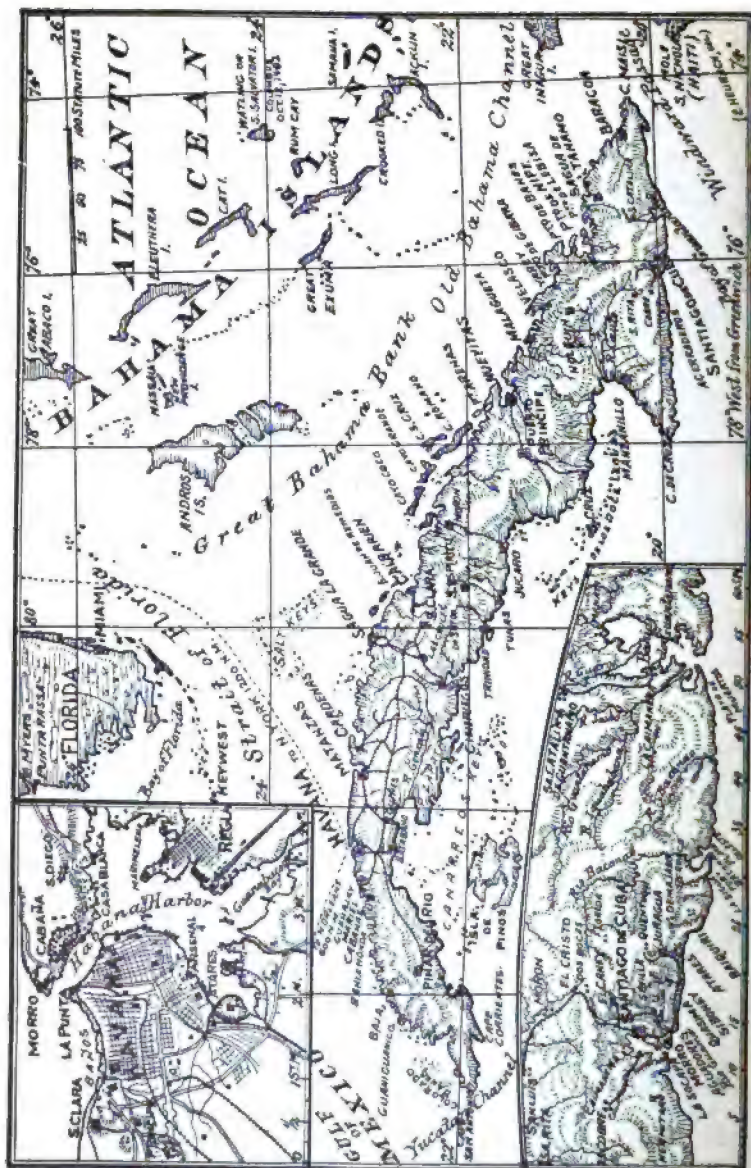

## SECOND CALL, 75,000 MEN.

Alabama, 2 battalions of infantry.  
 California, 1 regiment of infantry.  
 Colorado, 1 battery of light artillery.  
 Connecticut, 1 regiment of infantry.  
 Georgia, 1 regiment of infantry.  
 Illinois, 2 regiments of infantry.  
 Indiana, 1 regiment and 2 companies of infantry.  
 Iowa, 2 batteries of light artillery.  
 Kansas, 2 battalions of infantry.  
 Kentucky, 1 regiment of infantry.  
 Louisiana, 3 batteries of light artillery.  
 Maine, 3 batteries of heavy artillery.  
 Maryland, 1 battalion of infantry.  
 Massachusetts, 1 regiment of infantry.  
 Michigan, 1 regiment of infantry.  
 Minnesota, 1 regiment of infantry.  
 Mississippi, 6 companies of infantry.  
 Missouri, 1 regiment of infantry.  
 Nebraska, 1 regiment of infantry.  
 Nevada, 4 companies of infantry.  
 New Jersey, 1 regiment of infantry.  
 New York, 3 regiments of infantry and 3 batteries of light artillery.  
 North Carolina, 7 companies of infantry.  
 Ohio, 1 regiment and 9 companies of infantry.  
 Oregon, 2 batteries of light artillery.  
 Pennsylvania, 13 companies of infantry.  
 Rhode Island, 2 batteries of light artillery.  
 South Carolina, 2 battalions of infantry.  
 Tennessee, 1 regiment of infantry.  
 Texas, 1 regiment of infantry.  
 Utah, 1 battery of light artillery.  
 Virginia, 2 battalions of infantry.  
 Washington, 1 battalion of infantry.  
 West Virginia, 1 regiment of infantry.  
 Wisconsin, 1 regiment of infantry and 1 battery of light artillery.  
 Wyoming, 1 battery of light artillery.  
 Arizona, New Mexico, Oklahoma and Indian Territory, 1 regiment of infantry.  
 Four regiments of engineers, aggregating 3,600 men, were recruited at large. Three regiments of cavalry (1st, 2d and 3d volunteer cavalry, including Roosevelt's and Torrey's rough riders) were recruited at large also, aggregating 3,000. Ten immune regiments of infantry were recruited south of Mason and Dixon's line and west to include the Mississippi valley, aggregating 10,000 men.

## STRENGTH OF THE ARMY.

The last volunteer organization was mustered into the service Aug. 24, 1898.

## THE ISLAND OF CUBA.

The island of Cuba was discovered by Columbus on his first voyage, Oct. 28, 1492, and settled by Velasquez in 1511-12. It is the largest of the Antilles and lies between 20 and 23 degrees north latitude and 74 and 85 degrees of longitude west of Greenwich. The western portion is about 130 miles south of Florida and about ninety miles from Key West, and from time immemorial it has been known as "the key to the Gulf of Mexico." On the coat of arms of the city of Havana is a key conspicuously displayed, which seems to imply that the city controls the waters in which it is so centrally located. The northern coast has a length of about 918 miles indented with thirty-two harbors, of which ten are denominated as "first class." The most important of these are Havana, Mariel, Cabanas, Bahia Honda, Matanzas, Cardenas, Sagua, Calbarien, Nuevitas and Jibara. The southern coast has a length of 973 miles, with twelve important harbors, the best of which are Guantanamo, Santiago de Cuba and Cienfuegos. Most of the important harbors of the island are spacious and will admit vessels drawing twenty-six feet of water.

cleanliness is practically unknown. The following table, prepared by W. F. K. Phillips of the United States weather bureau, shows the average monthly temperature and rainfall at Havana for the last ten years.

At Matanzas the temperature is slightly higher than at Havana and at Santiago de Cuba the annual average is about 4 degrees higher than at the capital city. At Havana the maximum temperature is between noon and 2 o'clock p. m. and the minimum between dawn and sunrise.

There are only two marked seasons in Cuba, the dry and the rainy. The rainy season at Havana begins in the latter part of May and ends with October. Relatively the greater bulk of the rain falls during the months from June to October, for during this period the average rainfall is 32.57 inches, or 43 per cent of the annual fall. The number of days upon which rain falls is about one day out of three. Notwithstanding the frequency of rain during the summer months they do not present the greatest number of cloudy days. The rains, "although copious, are of short duration, and those days on which showers do fall

The exact area of the island has not been determined. Estimates vary from about 35,000 to 72,000 square miles. At the lower estimate Cuba would be about equal in size to the state of Indiana and a little larger than the state of Maine. At the larger estimate it would exceed somewhat the state of North Dakota. Through the island from east to west extends a chain of mountains the highest of which is about 8,000 feet. The territory is well supplied with streams, there being more than 200 rivers, the most important of which is the Cauto in the province of Santiago de Cuba, which is 150 miles long and navigable for small craft for fifty miles. Another large stream is the Sagua, in the province of Santa Clara, which is 111 miles long and has twelve miles of navigable channel.

As a rule the climate of Cuba is healthful, especially in the rural districts in the east and center of the island. There are some localities where malarial fevers prevail and in many of the cities yellow fever, but this is confined mainly to towns in which the sanitary conditions are bad and where

are in general perfectly cloudless. It may almost be said that during these months clouds are to be seen in the atmosphere except while the showers are falling, while in other months cloudy days sometimes occur without rain."

According to an official census taken in 1890 the population of Cuba was then 1,631,687. For years Cuba has been the theater of war and great mortality and devastation have occurred. An official statement made by our government says:

"It may be assumed that the present population is not in excess of the figures of 1890 and it may be considerably lower. It has been estimated that, taking as a basis the kingdom of Belgium (482 inhabitants to the square mile), Cuba could support 24,000,000 people. Of the population in 1890 the percentages, according to race, were: Whites, 65; colored and Chinese, 35. The actual number of white Cubans was given at 950,000; colored Cubans, 500,000, and Spaniards, 160,000."

In a report made to the government in 1897 by Mr. Hyatt, United States consul at

Santiago de Cuba, he says: "The productive soil, mineral wealth and climatic conditions of the island entitle it to rank among the foremost communities of the world. The soil is a marvel of richness and fertilizers are seldom used, unless in the case of tobacco, even though the same crops be grown on the same land for a hundred years, as has happened in some of the old sugar-cane fields. The mountains are of coral formation, while the lowlands of eastern Cuba at least seem to be composed largely of fossils of sea matter from prehistoric times and are extremely rich in lime and phosphate, which accounts for their apparent inexhaustibleness. Although founded and settled more than fifty years before the United States, Cuba has still 13,000,000 acres of primeval forests; mahogany, cedar, logwood, redwood, ebony, lignum-vitæ and caiguaran (which is more durable in the ground than iron or steel) are among the woods.

"If all the land suitable to the growth of sugar cane were devoted to that industry it is estimated that Cuba might supply the entire western hemisphere with sugar. The island has already produced in a single year for export 1,000,000 tons and its capabilities have only been in the experimental stage. The adaptability of the soil for tobacco culture has long been known. Cuba takes great pride in the quality of her coffee and until the war the plantations were flourishing."

The land is not suited to the cultivation of cereals. No flour mill, Mr. Hyatt thinks, exists on the island. The consul continues:

"In mineral wealth Cuba is capable of taking high rank. Gold and silver have not been found in paying quantities. Copper was mined at Cobre by the natives before Columbus discovered the island and there is strong proof that native copper was carried across to Florida and used by the Florida Indians hundreds of years ago. The mound-builders of that state buried with their dead copper ornaments and utensils hammered from native copper, which always has an admixture of more or less foreign matter. As no copper ore is found in Florida or in the United States for a long distance from there, and as that found in the United States or in Mexico does not correspond chemically with that buried with the mound-builders, it occurred to Prof. R. H. Sanders of the Academy of Natural Sciences in Philadelphia that it was possible that these mound-builders had water communication with Cuba and got their copper from here. He therefore communicated with the writer and procured a sample of native Cuban copper, which proved upon analysis to be identical with that used in the copper ornaments mentioned. In the early part of the present century some English capitalists purchased these mines, which are nine miles from Santiago. The books of this consulate show that from 1823 to 1840 an average of from \$2,000,000 to \$3,000,000 worth of copper ore was shipped annually to the United States from these mines. How much was shipped elsewhere I have not the means of knowing.

"The iron mines of Cuba, all of which are located near Santiago, overshadow in importance all other industries on the eastern end of the island, constituting the only industry that has made any pretense of withstanding the shock of the present insurrection. The Juragua and Baiquiri iron

companies (American), with a combined capital of over \$5,000,000, now operate mines in this vicinity and employ from 800 to 1,400 men, shipping to the United States from 30,000 to 50,000 tons of iron ore per month, the largest portion of which is used at Bethlehem, Steelton, Sparrows Point and Pittsburg. The ore of these mines is among the richest in the world, yielding from 63 to 67 per cent of pure iron, and is very free from sulphur and phosphorus. There are numerous undeveloped mines of equal value in this region.

"In the Sierra Maestra range, on the southern coast of Cuba, from Santiago west to Manzanillo, within a distance of about 100 miles, are found numerous deposits of manganese, an ore indispensable in the manufacture of steel. American capital opened a mine about twenty miles distant, at a place called Ponce, and built a railroad to it. After shipping one cargo the mines were stopped by insurgents. As nearly all the manganese used in the United States comes from the Black sea regions of Europe and a smaller quantity from the northern part of South America, it is but reasonable to suppose that the products of these near-by mines will be in great demand when the conditions are such that they can be operated in safety.

"Railroads and other highways, improved machinery and more modern methods of doing business are among the wants of Cuba, and with the onward march of civilization these will doubtless be hers in the near future. Cuba, like other tropical and semi-tropical countries, is not given to manufacturing; her people would rather sell the products of the soil and mines and buy manufactured goods. The possibilities of the island are great, while the probabilities remain an unsolved problem."

Regarding the agricultural productions of Cuba the Bulletin of the Bureau of American Republics, published by the United States government, says:

"The great wealth of Cuba lies in the wonderful fertility of its soil. It is estimated that the island has 35,000,000 acres of land, but in 1868, according to official statistics, only 2,689,400 were under cultivation, 9,974,134 acres were utilized in cattle-raising and nearly 16,000,000 were still virgin forest. Ten years later, after the long insurrection, considerable land was cleared and the production of sugar assumed large proportions. On the other hand, old lands were abandoned and the acreage was not greatly increased. It may be assumed, therefore, that only a small fraction of the agricultural wealth of Cuba has been developed and that at least 20,000,000 acres of land await the application of industry and capital.

"The principal industry of Cuba has been for many years the cultivation of sugar cane and the making of sugar, but this industry has suffered in recent years by the competition of European beet sugar and the internal disorders of the island. With the occupation of the island by the United States it is more than probable that the sugar industry will again revive and become remunerative. The great advantage of sugar-growing in Cuba is found in the fact that the cane reproduces itself, without the necessity of reseed, for ten, fifteen or twenty years, according to the nature of the soil. The sugar is of superior quality and

the proximity of the island to the United States of America is a favoring condition. The production of sugar from 1894 to 1896 aggregated over 1,000,000 tons. From 1896 to 1898 it was only 225,000 tons.

"Cuba has long been famous for the superiority of its tobacco. Efforts have been made to rival the Cuban tobacco in different parts of the world, but it seems to hold its own as excelling all others. The plant is grown in greatest abundance in the western part of the island, Vuelta Abajo, and in some localities in the provinces of Santa Clara and Santiago de Cuba. Next in rank in quality and quantity is the product of the district of Manicaragua in the province of Santa Clara. The Vuelta Abajo region, where the best tobacco on the island is raised, has suffered considerably from insurrection and it is believed that the crop for 1897 will not exceed 30,000 bales of 110 pounds—a tenth part, approximately, of the ordinary yield. Nearly all the leaf tobacco and about half the twist of Cuba is exported to the United States.

"Coffee for a long time constituted one of the principal products of Cuba, but since 1845 the development of the coffee product of Brazil and other countries, together with economic conditions in Cuba, caused the cultivation to decline and coffee is now raised almost exclusively for local consumption.

"Besides sugar, tobacco and coffee Cuba produces all the different classes of fruits known to the tropics and many of those belonging to the temperate zone. Among them are the pineapple, the banana, the orange, the mango and the guava. The coconut is also an important product. The forest wealth of Cuba is very great and but slightly developed. The island is rich in cabinet wood, among which the most important are mahogany and cedar. Among the trees the one most characteristic of a Cuban landscape is the palm, of which there are thirty-two species. Its wood and leaves are employed in the manufacture of several articles of trade, including hats and baskets. The soil of the island is well adapted to the production of all kinds of vegetables. The Cuban potato is said to be as good as that of Bermuda or Peru and the sweet potatoes are of superior quality.

"The price of Cuban land varies to a considerable extent. In the wealthy sugar districts 1,000, 1,200 and sometimes 3,000 pesos (\$526, \$1,111 and \$2,778) was paid per 'caballeria' (about 32.1 acres), but in other sections of the island, and especially where there are no railway facilities, land could be obtained at a nominal price."

Cuba has several important cities and towns. The largest is Havana, the capital, situated on the northern coast, and which has long been famous for its commerce. The city has a population of about 200,000; it is the residence of the captain-general and other authorities. It is defended by eight forts, has a fine navy yard, arsenal, gun manufactory, repair shops, barracks and hospitals. It has also three large markets, twenty-four churches, six theaters, a university, a school of fine arts, several public libraries and many educational institutions. It has several manufactories, street-railway and omnibus lines, railroads connecting with other parts of the island, gas and electric lighting plants and eighty newspapers and other periodicals.

Pinar del Rio, capital of the province of

the same name, has a population of 30,000. It is situated about 135 miles southwest of Havana, with which it is connected by a railroad. It is noted for the fine quality of the tobacco grown in its vicinity.

Matanzas, capital of the province of Matanzas, is sixty-six miles east of Havana and has a population of 55,000. It is famous for its proximity to the Bellamar caves and the valley of the Yumuri.

Cardenas is ninety miles east of Havana and is a commercial port of importance. It has a population of 23,000.

Santa Clara, 215 miles east of the capital, with which it is connected by rail, has a population of 32,000.

Sagua la Grande, eighty miles east of Havana, is situated on the river of the same name, seven miles from its mouth, and has a population of 18,000.

Cienfuegos, in the province of Santa Clara, is situated on the southern coast of the island, on the fine bay of Jagua, and is a thriving center of trade. It is about 100 miles southeast of Havana and has 40,000 inhabitants. In the same province are Trinidad, with 29,000 inhabitants; Sancti Spiritu, 20,000, and San de los Remedios, 15,000.

Puerto Principe, capital of that province, some 200 miles east of Havana, has 49,000 inhabitants.

Santiago de Cuba is the capital of the province in which it is situated, has a population of about 50,000 and one of the finest harbors on the southern coast. It has a number of important buildings and at one time was the capital of the island. It is a noted city, but in the future it will be best known because of its capitulation to the American army of invasion on the 14th of July, 1898. In the same province are the important towns of Mansanillo, Bayamo, Jiguani, Holguin, Jibara, Guantanamo and Baracoa.

There are ten railway companies operating lines of road in Cuba, the more important being the Ferrocarriles Unidos, with 1,000 miles of main road connecting Havana with Matanzas, Batabano, Union and Guanajay. The next in importance is the Western railway, ninety-six miles long, running to Pinar del Rio.

The telegraph and telephone systems in Cuba belong to the government, but the latter is farmed out for a limited number of years to a company called the Red Telefonica de la Habana. Nearly all the public and private buildings in the city and suburbs are connected by telephone. The Statesman's Year Book, 1898, says that there are 2,300 miles of telegraph line with 103 offices.

Under the Spanish administration Cuba was divided into three regions—the western, central and eastern. Each region comprises two provinces, divided into several judicial districts, and these again subdivided into municipal sections. The western region embraces the provinces of Pinar del Rio and Havana, the central comprises the provinces of Matanzas and Santa Clara and the eastern provinces are made up of Puerto Principe and Santiago de Cuba. The capital of the island is the city of Havana.

Prior to 1898 the island was governed by a governor and captain-general, appointed by the Spanish crown, who is the superior political, military and economic chief. Each of the six provinces was administered by a

governor. On the 1st of January, 1898, the Spanish government adopted a system of autonomous government for the island, providing for popular representation in the administration of affairs, but it was not accepted by the insurgents and has had no practical effect. Under the terms of the suspension of hostilities between the United

States and Spain the affairs of the island are likely to be administered for the present by the military commanders of the United States forces.

The trade of the United States with Cuba since 1891 is given as follows by the bureau of statistics, treasury department:

DESCRIPTION.	1891.	1892.	1893.	1894.	1895.	1896.	1897.
Imports—Free .....	\$20,044,512	\$08,140,835	\$91,049,300	\$67,418,280	\$17,684,765	\$2,074,763	\$1,270,050

## THE ISLAND OF PUERTO RICO.

The island of Porto Rico, or, according to the spelling of the Spanish, Puerto Rico, meaning "a rich port," ranks fourth in size with the islands of the Greater Antilles, being exceeded in area by Cuba, Santo Domingo and Jamaica. It lies between the seventeenth and nineteenth parallels of north latitude and the sixty-sixth and sixty-seventh degrees of longitude. Authorities are not exactly agreed as to the area of the island. A recent report by a British consul gives it an area of about 3,668 square miles—thirty-five miles broad and ninety-five miles long. An American authority says the "island is, in shape, an irregular parallelogram, being a little under 100 miles long by one-third of that distance broad." The island was discovered by Columbus on his second voyage, on the 16th day of November, 1493. According to tradition he landed on the western extremity of the island at the site of the present town of Aguadilla, which means "a watering place," and, as the locality is now famous for its supply of excellent fresh water, it is supposed that he touched there to refill the tanks of his vessels. The native name of the island was Borinquen and the inhabitants were of the same Indian race that occupied Haiti. The Spaniards were delighted with the beauty of the island and with its fertility, and Prince Juan Ponce de Leon, one of Columbus' officers, assumed control in the hope of acquiring fortunes for himself and some of his personal followers. He remained and established a government, the object being to wring as much out of the peaceable and inoffensive people as was possible. The Indians in 1508 arose in rebellion against the arbitrary rule of Ponce de Leon; the revolt lasted until 1510, the result being that the inhabitants were defeated and the Spanish rule thoroughly established on the island. In 1511 the present capital city was founded and called San Juan Bautista de Puerto Rico.

There was nothing of interest in the history of the island between 1510 and 1596. The period is filled with the stories of the wrongs of the Spaniards and the sufferings of the people, for the aversion of the conquerors was unappeased and the rights of the inhabitants were unrespected. In 1565 the during British admiral Drake made an attack upon San Juan, burned a portion of the town and destroyed some of the Spanish ships in the harbor, but he was forced to embark without being able to hold the city permanently. The next year the earl of Cumberland, another British officer, attacked the place and compelled the citadel, Morro, to capitulate, but his sailors fell victims to the fevers and diseases incident to the climate and he was obliged to abandon his conquest. In 1625 Gen. Heinrich, a Dutch officer, led an expedition against the island and laid siege to the town and citadel, but in an attack upon the fortifications the Dutch were routed and Heinrich was killed. Again in 1673 the English planned an attack upon San Juan, but it failed, owing to a storm that scattered the fleet and destroyed some of the vessels. The attempt was repeated in 1703, when a landing was effected at Arecibo, a point some thirty miles west of San Juan, but it was repulsed with great loss and the British admiral was compelled to re-embark his forces and give up the attempt to take the island. The last attack on the island was made by the

noted British commander, Sir Ralph Abercromby, in 1797. He laid siege to San Juan, which he maintained for some two weeks, when, owing to insufficiency of his forces, he abandoned the effort and retired. Until the bombardment of the fortifications by Admiral Sampson on the 12th of May, 1898, the city had had a century's respite from attacks by the enemies of Spain.

There have been several ineffectual attempts of the people to throw off the Spanish rule, one of the earliest of which was the effort to establish a republic in 1820. The movement was checked without loss of life by the wise course of the governor, Torre, who was one of the ablest men that Spain has ever intrusted with the direction of any of her colonies. Another rebellion broke out in 1867, which was inspired by a sympathy with the revolt in Cuba then being carried on. An earthquake so frightened the people that the rising was weakened and was not again actively taken up, although peaceable efforts to secure independence have never been wholly abandoned on the part of the more influential portion of the people. The island has a population of about 815,000, of whom over 300,000 are negroes, the remainder being mostly Spaniards, besides some Americans, English, Germans and other European peoples. The surface of the island is broken by hills and low mountain ranges, one of which passes through it from east to west, with spurs projecting nearly to the northern coast. The highest point in this range is El Yunque, which rises 3,705 feet above the sea level and is visible for fifty or sixty miles from the coast. The island abounds with streams of the purest water, there being 1,300 flowing into the sea, of which forty-seven are rivers of considerable size. The island is thus abundantly watered and furnishes pasturage for immense herds of wild cattle.

The climate is exceptionally salubrious for a tropical one, and much of this is due to the fact that there is very little stagnant water, most of it being in running streams, and this has the effect of rendering the air pure and healthful. For foreigners the island of Puerto Rico has been more attractive than any of those surrounding it, the winters being especially pleasant, and from November to April living in the mountain valleys is delightful. In the northern section of the island the rainy season begins in May and extends to the last of September, the rain falling often like a deluge. It is estimated that in some sections the fall of water in those months aggregates about seventy cubic inches. During this period of the year there is an almost constant sea breeze from the north during the entire day, which makes life on that coast endurable. In the southern portions there is often very little rain, it being frequently the case that none is seen for the entire twelve months of the year. The most unfavorable months for those not acclimated are August and September, when fevers and malarial disorders are prevalent, but living in the mountains affords some protection against sickness.

The island is naturally adapted to agriculture, for the soil is rich and easily worked. It is chiefly clay mixed with marl, and the abundant natural supply of water keeps it productive even in those portions that are not visited by the rains that are common to the northern sections of the

island. The mountains are covered with timber, of which the palm is the most useful, the wood for lumber, the fruit for food and the leaves for thatching the dwellings of the negroes. A good deal of mahogany is exported and the plantain and the banana supply large quantities of food for the poorer classes. Coffee, tobacco and sugar cane grow in profusion, while cotton of peculiar fineness is easily cultivated. In 1894 the exports of the leading staples were: Sugar, 54,204 tons; coffee, 26,655 tons; hides, 160 tons; cattle, 3,187 head; timber, 30 tons; molasses, 14,740 tons, and tobacco, 1,029 tons. Besides these the island produces flax, cassia, ginger, rice, maize, citrons, lemons, oranges and many other varieties of fruits. So far as is now known there are no important deposits of ores or minerals, although traces of gold have been found in the beds of the streams and indications of iron, copper, lead and coal have been discovered.

There is no portion of the West India islands in which the people are in a better condition than in Puerto Rico. This is due to the fact that it is an agricultural country and the poorer classes have been encouraged to become the possessors of land and many of them have become small landed proprietors. When slavery existed in the island slaves were encouraged to purchase their freedom and many availed themselves of the favorable terms offered. In 1873 slavery was abolished. The island has therefore been comparatively free from revolts and political disorders, notwithstanding the fact that the people disliked the Spanish rule. The island has become the home of a free, self-sustaining peasantry, imposing no burdens upon the government, but each family usually having its modest home, with necessary stock, and producing all that is required for support. The way the American soldiers were greeted shows the simplicity and hospitality of the plain people. The worst thing in the social condition of the inhabitants is their ignorance and superstition. They need schools of every kind and religious instruction.

Puerto Rico was a province of Spain, governed by a captain-general, who was the civil governor and also commander of the military forces stationed on the island, as well as the head of the highest court. Outside of San Juan the island is divided into seven military departments, each being under a separate official. The towns are governed by alcaides, or mayors, appointed from San Juan. The government is supported by duties on imports, licenses for lotteries, public gambling houses and cockpits. The more important cities and towns are San Juan, Ponce, Mayaguez, Aguadilla, Arecibo, Fajardo, Naguabo and Arroyo. The following description of these places is taken from the United States consular reports:

#### SAN JUAN.

San Juan is situated on a long and narrow island, separated from the main island at one end by a shallow arm of the sea, over which is a bridge connecting it with the mainland, which runs out at this point in a long sand spit some nine miles in length apparently to meet the smaller island; at the other end the island ends in a rugged bluff or promontory some hundred feet high and three-fourths of a mile distant from the main island. This promontory is crowned by Morro castle, the principal fortification of the town. At this end of the island is the entrance to the harbor, with a

narrow channel and rocky bottom, so close under the headland that one can almost leap ashore from a passing vessel. The water here is some thirty feet deep. To a mariner unacquainted with the locality, or when a norther is blowing, this entrance is one of difficulty and danger. After rounding the bluff one finds a broad and beautiful bay, landlocked and with a good depth of water, which is being increased by dredging. It is by far the best harbor in Puerto Rico and probably as good a one as can be found in the West Indies. However, it has its drawbacks. Sailing vessels are frequently detained by the northerly winds during the winter months, and even steamers with a draft of over twenty feet are sometimes delayed; but these occasions are rare. When they do occur the "boca," or entrance to the harbor, is a mass of seething, foaming water and presents an imposing spectacle. To see steamers of sixteen to eighteen feet draft enter in a severe norther is a sight to be remembered, as the great waves lift them up and seem about to hurl them forward to destruction. At such times there is need of a staunch vessel, steady nerves and a captain well acquainted with the channel, as no pilot will venture out. The island upon which the city stands is shaped much like an arm and hand; it is about two and one-fourth miles long and averages less than one-fourth of a mile in width. The greatest width is a little over half a mile in the portion representing the hand, which also contains the major part of the city. San Juan is a perfect specimen of a walled town, with portcullis, moat, gates and battlements. Built over 250 years ago, it is still in good condition and repair. The walls are picturesque and represent a stupendous work and cost in themselves. Inside the walls the city is laid off in regular squares, six parallel streets running in the direction of the length of the island and seven at right angles. The houses are closely and compactly built of brick, usually of two stories, stuccoed on the outside and painted in a variety of colors. The upper floors are occupied by the more respectable people, while the ground floors, almost without exception, are given up to negroes and the poorer class, who crowd one upon another in the most appalling manner. The population within the walls is estimated at 26,000 and most of it lives on the ground floor. In one small room, with a flimsy partition, a whole family will reside. The ground floor of the whole town reeks with filth and conditions are most unsanitary. In a tropical country, where disease readily prevails, the consequences of such dwelling may be easily inferred. There is no running water in the town. The entire population depends upon rain water, caught upon the flat roofs of the buildings and conducted to the cistern, which occupies the greater part of the inner courtyard that is an essential part of Spanish houses the world over, but that here, on account of the crowded conditions, is very small. There is no sewerage, except for surface water and sinks, while vaults are in every house and occupy whatever remaining space there may be in the patios not taken up by the cisterns. The risk of contaminating the water is very great and in dry seasons the supply is entirely exhausted. Epidemics are frequent and the town is alive with vermin, fleas, cockroaches, mosquitoes and dogs. The streets are wider than in the older part of Havana and will admit two carriages abreast. The sidewalks are narrow and in

places will accommodate but one person. The pavements are of a composition manufactured in England from slag, pleasant and even, and durable when no heavy strain is brought to bear upon them, but easily broken and unfit for heavy traffic. The streets are swept once a day by hand, and, strange to say, are kept very clean. From its topographical situation the town should be healthy, but it is not. The soil under the city is clay mixed with lime, so hard as to be almost like rock. It is consequently impervious to water and furnishes a good natural drainage. The trade wind blows strong and fresh and through the harbor runs a stream of sea water at a speed of not less than three miles an hour. With these conditions no contagious diseases, if properly taken care of, could exist; without them the place would be a veritable plague spot. Besides the town within the walls there are small portions just outside, called the Marina and Puerta de Tierra, containing 2,000 or 3,000 inhabitants each. There are also two suburbs, one, San Turce, approached by the only road leading out of the city, and the other, Catano, across the bay reached by ferry. The Marina and the two suburbs are situated on sandy points or spits and the latter are surrounded by mangrove swamps. The entire population of the city and suburbs, according to the census of 1887, was 27,000. It is now (1896) estimated at 30,000. One-half of the population consists of negroes and mixed races. There is but little manufacturing and it is of small importance. The Standard Oil company has a small refinery across the bay, in which crude petroleum, brought from the United States, is refined. Matches are made, some brooms, a little soap and a cheap class of trunks. There are also ice, gas and electric light works. The climate is warm, but for three months of the year agreeable, although one is subject, from the sudden change, to colds and catarrh. The natives are particularly susceptible to this class of ailments and to consumption and bronchitis.

#### PONCE.

The city is situated on the south coast of the island of Puerto Rico, on a plain, about two miles from the seaboard. It is regularly built—the central part almost exclusively of brick houses and the suburbs of wood. It is the residence of the military commander and the seat of an official chamber of commerce. There is an appellate criminal court, besides other courts; two churches—one protestant, said to be the only one in the Spanish West Indies—two hospitals besides the military hospitals, a home of refuge for the old and poor, a perfectly equipped fire department, a bank, a theater, three first-class hotels and gas works. The city has an ice machine and there are 115 vehicles for public conveyance. The inhabitants, who number about 15,000, are principally occupied in mercantile pursuits, but carpenters, bricklayers, joiners, tailors, shoemakers and barbers find good employment. The department of Ponce counts about 40,000 inhabitants. The chief occupations of the people are the cultivation of sugar, cocoa, tobacco and oranges, and the breeding of cattle. Commercially Ponce is the second city of importance on the island. A fine road leads to the port (Playa), where all the import and export trade is transacted. Playa has about 5,000 inhabitants, and here are situated the custom house, the office of the captain of the port and all the consular offices. The port is spacious and will hold vessels of twenty-five feet draft.

The climate, on account of the sea breezes during the day and land breezes at night, is not oppressive, though warm; and, as water for all purposes, including the fire department, is amply supplied by an aqueduct, it may be said that the city of Ponce is perhaps the healthiest place in the whole island.

#### MAYAGUEZ.

Mayaguez, the third city of importance of the island, is situated in the west part, facing what is generally known as the "Mona channel." Of industries there is little to be said, except that there are three manufactories of chocolate, which is for local consumption. Sugar, coffee, oranges, pineapples and coconuts are exported largely—all, except coffee, principally to the United States. Of sugar the muscovado goes to the United States and the centrifugal to Spain. Mayaguez is the second port for coffee, the average annual export being 170,000 hundredweight. The quality is of the best, ranging in price with Java and other first-rate brands. The lower grades are sent to Cuba. About 50,000 bags of flour are imported into this port every year from the United States, out of the 180,000 bags there are consumed in the whole island. The population is nearly 20,000, the majority white. The climate is excellent, the temperature never exceeding 90 degrees Fahrenheit. The city is connected by tram with the neighboring town of Aguadilla, and a railroad is being constructed to Lares, one of the largest interior towns.

#### AGUADILLA.

The city, which is the principal town and the port of Aguadilla district. In the northwest portion of the island, has 5,000 inhabitants. Industries in the vicinity consist of the cultivation of sugar cane, coffee, tobacco and coconuts and the distillation of rum from molasses. In the town are three establishments for preparing coffee for exportation. The climate is hot, but healthy; there is hardly ever yellow fever.

#### ARECIBO.

The town, of from 6,000 to 7,000 inhabitants, is situated on the north coast of Puerto Rico, facing the Atlantic ocean, and some fifty miles distant by rail from San Juan. It is similar to all Spanish towns, with a plaza surrounded by the church and other public buildings in the center, and streets running from it in right angles, forming regular squares. The buildings are constructed of wood and brick. The harbor is poor, being nothing more than an open roadstead exposed to the full force of the ocean, in which vessels during northerly winds can hardly lie in safety. Close inshore, on one side, dangerous reefs stretch, a constant menace to vessels if the anchor does not hold. Into this harbor empties a narrow and shallow stream called the Rio Grande de Arecibo. Goods are conveyed on this river to and from the town in flat-bottomed boats, with the aid of long poles and by dint of much pushing and patience. At the bar of the river everything is again transferred into lighters, and thence to vessels. It is a tedious and expensive process. However, Arecibo is quite an important port and has tributary to it a large district of some 30,000 inhabitants. The want of good roads in the island makes such a place as Arecibo far more important than it would naturally be.

#### FAJARDO.

The town, on the east coast of the island, has a population of 8,779, according to the

last official statistics (December, 1887). The port is handsome, with a third-class lighthouse at the entrance at the point called Cabezas de San Juan and a custom house open to universal commerce. The town is about one and one-quarter miles from the bay. The only important industry of the district is the manufacture of muscovado sugar, to which most of the planters devote themselves. Shooks, hickory hoops, pine boards and provisions come from the United States in considerable quantities. Sugar and molasses are exported and occasionally tortoise shell. The climate is temperate and healthy.

#### NAGUABO.

Naguabo (on the east side) is a small town of only about 2,000 inhabitants, and in the harbor there is another smaller place, called Playa de Naguabo, or Ucares, with about 1,500. The capital of the department, Hnmacao, is nine miles from Naguabo and has 4,000 inhabitants, the district comprising more than 15,000.

#### ARROYO.

Arroyo, in the district of Guayama (south-east portion), is a small seaport of about

1,200 inhabitants. The annual exports to the United States average 7,000 to 10,000 heads of sugar, 2,000 to 5,000 casks of molasses and 50 to 150 casks and barrels of bay rum.

#### VIQUE.

The island of Vieque, situated thirteen miles east of Puerto Rico, is twenty-one miles long and six miles wide. Its land is very fertile and adapted to the cultivation of almost all the fruits and vegetables that grow in the West Indies. Cattle are raised and sugar cultivated. It has a population of some 6,000. The town, Isabel Segunda, is on the north, and the port is unsafe in times of northerly wind, like all the anchorages on that side; the few ports of the south are better, the best being Punta Arenas. Not long ago there were two importing and exporting houses on the island of Vieque, but on account of the long period of drought and the high duties on foreign imported goods trade has decreased to local consumption only. All supplies are brought from San Juan, the majority being of American origin. The climate is fine and may be considered healthy; there have never been any contagious diseases.

### COMMERCE OF THE UNITED STATES WITH PUERTO RICO FROM 1880 TO 1897 BY PRINCIPAL ARTICLES.

THE PHILIPPINE ISLANDS.

There are few portions of the globe concerning which less is accurately known than that division which is embraced within what is commonly called the Philippine archipelago. The Spanish occupants of the territory have been opposed to the development of the islands, and have imposed taxes so onerous on all branches of industry that explorations to ascertain what the islands really contained or were capable of producing have been

limited to incursions prompted more by curiosity than for any practical object. An English resident has this summer published a pamphlet on the gold productions of the Philippines, in which he says: "Not five books in the English language are worth considering about them [these islands]. Crawford's history of the Indian archipelago, published early in this century, is still the student's textbook. Whatever has been published since then,

when it rises above the level of a mere traveler's tale, is either not comprehensive or not reliable."

The archipelago lies between 4.40 and 20 north latitude and 116.40 and 126.30 east longitude. So little is known about the region that writers do not agree as to the number of islands that make up the archipelago. A recent writer says: "The number of islands which form the Philippine archipelago will astonish many readers. It is said to approach 2,000. There are among them two that are larger than Ireland—namely, Luzon, with 42,000, and Mindanao, with 36,000 square miles. There are other islands with 5,500, 5,000, 4,500, 4,000, 3,500 and 3,000 square miles." Of the whole number some 600 are habitable. While there is much uncertainty regarding the area of the Philippines there is as little known as to the number of inhabitants that dwell upon them. Mr. Joseph T. Mannix, an educated native of Luzon, in an article published in June, 1898, says: "There are in the Philippines between 6,000,000 and 9,000,000 people—probably about 7,500,000. Nearly half of this number inhabit Luzon, the principal island of the group." Of these he says: "The Tagals of Luzon are a copper-colored people, and, like all people of the Malay family, are short of stature. These Tagals are the most advanced and influential element of the entire population of the islands. There are a great many very intelligent and ambitious men among them—men who got their start in the schools established by the monastic friars, whose political domination furnishes one of the many grievances which have given rise to the present rebellion." The Tagals number about 2,000,000, and they are rapidly increasing. Next to the Tagals in point of intelligence come the Vicos, or Bicolos, who occupy the Camarines peninsula, with the islands of Catanduanes, Burias, Ticao and half of Masbate. They greatly resemble the Tagals, and, like them, have made considerable progress in civilization. They number at least 400,000. The third division of the people are the Visayas, or Bisayas, who occupy the islands between Luzon and Mindanao, and are estimated at 2,500,000. Besides these are the Moors of the Sulu archipelago, the Negritos and some other families of the Malay race. On the whole, the Philippine natives find and take life easily. Their requirements are few. The sum of \$5 will provide a native household with a dwelling of its own and ample furniture. Under a genial climate, on a soil lavishly grateful for the slightest tending, by waters teeming with fish, they know naught of hunger and have much time left for amusements—such as dancing and public rejoicings on the smallest occasion, music, for which they have a natural talent, so that there is scarcely a commune without a fairly trained brass band—and gambling! Cockfighting is the national sport and no mean source of revenue to the authorities. Almost every native owns a fighting fowl, which is as dear to him as his lap dog is to a European lady. He carries it about with him and bets his bottom dollar on its performance in the arena. Thus the native is an intermittent rather than a steady worker, and his delight in feasts and holy days, and his content, which passes him off as rich in his own mind with \$10 in his purse, make him as a laborer, docile as he is and willing to

please, a source of frequent annoyance to his employers.

The Philippine islands were discovered by Magellan, who landed at the island of Cebu (or Zebu), where he anchored in March, 1521, and lost his life in a skirmish with the natives. In 1545 the islands were taken possession of by a fleet from Mexico, which first stopped at Cebu and subdued it. In 1570 a settlement was effected at the mouth of the Manila river, which place became the capital of the Spanish possessions in the Philippines and has remained so to the present time. At the time of the arrival of the Spaniards at Manila there were two fortified villages, one on either side of the Pasig river, and these they took on the 9th of May, 1571, the chiefs making their submission to their conquerors, and their example was followed by many of the tribes of Luzon. Previous to this the island had been practically under the dominion of the Chinese, who had shaken off the authority of that empire, but these people still continued to control the trade of the island after the Spanish capture. A little later a Chinese pirate, Li Ma Hong, attempted to drive out the Spaniards, but failed in the attempt with the loss of his fleet and his own life. In 1606 the Dutch attempted to take the islands, but their ships were destroyed and the enterprise failed. In 1762 Manila was captured by the British, and would probably have remained a possession of that country had not political conditions in Europe forced England to evacuate the city after Spain had promised a ransom of \$5,000,000, which has not been paid to this day.

Rebellions have been frequent in which the people have attempted to rid themselves of Spanish rule. Those of 1822, 1841, 1842, 1872, 1896 and 1897 have been the most important. The revolts have all had a common cause—the tyranny and exactions of the Spanish officials. Although the Spaniards made their appearance forty-four years after the death of Magellan the conquest of the archipelago is still far from complete. By an abuse of language the Philippines are mentioned as a Spanish colony, but they form in reality only a military possession, in which the whites are mainly officials, who control the natives, but they have founded few permanent settlements in the country. Except at Manila there are few towns or villages that are Spanish in fact. To extort money from the people, under the various forms of taxation that cunning and rapacity have devised, is, and for many years has been, the sole purpose of Spain and the business and object of the governmental officials that have been maintained there.

Upon this subject a recent writer has said: "It is no natural or physical disadvantage that accounts for the waste and neglect of the rich resources of the Philippines. These richly endowed islands have been kept in their primitive darkness and barbarism by the power that should have lifted them into the light of civilization and set them in the flowing stream of modern life. Her treatment of them is but one count in the long and terrible indictment that history brings against Spain for the opportunities she has neglected and the trusts she has betrayed. She has regarded her subject peoples in no other light than as sources of revenue for her government and her officials, and for that crim-

inal error, with all its cruel consequences, she is paying the penalty to-day. In the Philippines the representative of Spanish rule has been the tax collector. The system that ruined the Roman empire was revived there, a *gobernadocillo* being appointed for each district and held personally responsible for the taxes. If the receipts fell below the estimate he had to make up the deficiency; if they exceeded it he pocketed the surplus—the result being that the last peseta was relentlessly wrung from the luckless inhabitants. There were poll taxes, taxes on every form of property, taxes on all mercantile transactions, taxes on every kind of amusement. There were taxes on marriages and taxes on funerals. In some provinces the native must carry his tax receipts with him; if found without them he is liable to arrest and punishment. For non-payment—after confiscation of property—were whipping and imprisonment. For failure to pay taxes men and women alike are subjected to such brutalities as the collector can devise, and from his judgments there is no appeal.

The Philippine Islands are under the supreme charge of a governor-general, who resides in Manila, a town of considerably more than 300,000 inhabitants, among them a goodly number of British men of business, whose well-appointed club is the center of foreign and social intercourse. In Madrid the interests of the colony are specially intrusted to a council of state for the Philippines, which acts as an advisory body to the minister of the colonies. There is also a council of state in Manila, which has a voice in questions affecting the material progress of the islands, which are divided into provinces, each under its governor. The provinces are subdivided into districts, and these again into communes or parishes. The *gobernadocillo* (little governor) stands on the lowest rung of the official ladder, being the elected head of a commune, and wearing as the symbol of office a stiff, mushroom-shaped hat, resplendent with solid ornaments of silver bullion. In these communes or parishes the cure (priest), especially if he be a Spaniard, as is generally the case in the more important parishes, exercises supreme power. He is the father and counselor of his people, and helps them not only with spiritual advice but also furthers their material interests. Many of these Spanish curas have done much good work in the way of making roads and bridges and the building of churches, acting frequently as their own engineers and architects, with far less unsightly results than one might expect from persons who are supposed to be more conversant with breviary and rosary than with rule and compasses.

The Spanish priests, friars of strict orders, come to the islands for aye and good, and, with scarcely any exception, do their duties faithfully and devotedly. Priests of native extraction do not quite come up to the high standard of their Spanish confratres. They cannot all live up to the severity of monastic rules. These native curas, moreover, suffer under the proverbial disadvantage which affects the prophet in his own country, and, lacking the strength of mind and tenacity of vow of the Spanish priests, sometimes seek consolation in diversions of not quite a clerical or monastic character.

The climate of the Philippines is not

such as will repel either Americans or Europeans. Upon this subject Col. W. Winthrop of the United States army says: "There are two seasons at Manila, the wet and the dry, or the seasons of the southwest and northeast monsoons. Broadly speaking, the wet or rainy season, ushered in by the southwest monsoon, is from June to November; the dry season, when the northeast monsoon prevails, is from November to June. The divisions are not, however, exact or invariable. Thus, in January and February north winds are not infrequent, and in March and April winds from the southeast sometimes prevail. In the beginning of October the winds vary between southeast and southwest, setting down to northeast by the close of the month. In the wet seasons the country is inundated, the roads become impassable and bridges disappear. The annual rainfall at Manila is variously reported as from seventy-five to ninety-one inches.

"The hottest months are April and May; the droughts are then long and accidental fires are to be guarded against; it is then that mosquitoes and white ants are most troublesome. The coolest months are December to February, when the freshness is grateful at night. The average temperature for the year is about 80 degrees. The periods of the changes of the monsoons in May to June and in September to October are marked by the heaviest blows and thunderstorms. Cyclones, typhoons and hurricanes then visit the coast. A typhoon on Sept. 27, 1865, drove some twenty vessels ashore and did great damage to the city of Manila. A typhoon or hurricane Oct. 30, 1876, killed 250 persons and destroyed 3,800 houses. The hurricanes of these times often sweep away crops and destroy plantations."

Almost everywhere in the islands are to be seen evidences of gigantic volcanic forces, although the number of active volcanoes is small. The volcanoes, active and extinct, are grouped in two lines, running, approximately, east and west. Earthquakes are not infrequent and the buildings are designed to resist them. The more violent seismic disturbances appear to be confined to certain centers, among which the neighborhood of Manila seems to be prominent. In a general sense the direction of the chains of mountains is north and south, with occasional deflections to east and west. The highest mountain in the group is Apo, in Mindanao, with over 9,000 feet, while Halcón, in Mindoro, reaches nearly 8,900 feet, and Majón, in Luzon, exceeds 8,200 feet. Of the earthquakes Sir John Bowring, an English traveler, says: "The destructive ravages and changes produced by them are nowhere more remarkable than in the Philippines. They have produced great changes in the geography of the islands. They have overturned mountains, filled up valleys, desolated extensive plains and opened passages from the sea into the interior and from the lakes into the sea." He refers to several of the most serious earthquakes that have been known at the islands, and to those of 1796, 1824 and 1828 as especially "calamitous." The most destructive earthquake of recent times was that of June, 1863, which rendered the city of Manila a mass of ruins, in which 400 persons were buried, 2,000 were injured and property valued at \$3,000,000 was destroyed.

The soil of the Philippines is of phenomenal fertility, although its capacities have been most imperfectly developed. It is difficult to say what product is a staple, although the Manila hemp is, perhaps, best known in the commerce of the islands. This is not a product of the hemp plant, but is the fiber of a species of the banana (*musa* textile). Where the soil is only slightly cultivated the products are: Sugar, hemp, tobacco, rice, coffee, cacao, gums of various kinds, arrowroot, indigo, cotton, pepper, cochineal, betelroot, areca nut, coconuts and coconut oil. In the forests grow the ebony, bamboo, logwood, rattans and numberless other valuable hard woods and gum-yielding trees and plants. The Hon. John Barrett, late United States minister to Siam, who is thoroughly acquainted with the resources of the Philippines, says that "a richer isolated land or group of islands, viewed comparatively as to area and population, variety of agriculture, mineral and forest resources undeveloped, in addition to those already improved, cannot be pointed out on the map of the world."

That the Philippines are fabulously rich in deposits of gold is not to be questioned. Books are extant that mention gold as the chief product of Luzon in the third century A. D., and there is no doubt that mining of the precious metal was extensively practiced in the islands long before the advent of the Spaniards. In a pamphlet written the present year by Mr. Frank Karuth, F. R. G. S., entitled "A New Center of Gold Production," the author says: "The question is often asked, 'How is it that so little is known of Philippine gold?' The answer is simple. There is no official control of the output or tax on it. The miners live in isolated districts and villages, with rare communication between them. And the universal man of business is the omnipresent Chinaman, now storekeeper, with a fixed abode, now perambulating peddler, who penetrates the most distant settlements, buys the gold with his wares and sends it out of the country, over to Hongkong or Amoy, or elsewhere. It is not his business to swagger over the volume of his trade; in fact, he keeps it dark. Those who know are aware that the gold export is considerable and very much exceeds the official computation, whatever that may be. 'Paracale' gold is well known in Manila, but few Manila-ese know where Paracale is, and still less have ever visited the place. Yet it is a prosperous village, with a good deal of trade and a large native mining population. . . . The Paracale gold dust is melted into tiny ingots, a small bivalve serving as a mold, so that the gold shows the shape of the shell. These tiny ingots are tested by the Chinese purchaser, the traces of whose probing auger are always in evidence on the ingots. Gold is found in many other islands of the group. Senor Abella found traces of alluvial workings in Cebu. Mindoro, which is but little known, is said to be rich in gold. Panaon, a small island north of Mindanao, has at least one well-defined vein of auriferous quartz, while Mindanao itself is the center of a considerable trade in alluvial gold. From specimens brought from that island the occurrence of rich quartz veins cannot be a matter of mere conjecture."

Copper is found in many parts of the Philippines, and cupreous pyrites is not

infrequently met with accompanying quartz veins, but in such small quantities as to exclude all commercial value. In the central mountain ranges of Luzon, however, between Cagayan and Ilocos, considerable deposits of copper ore are distributed and had been worked by a tribe of natives, called Igorrotes, long before the advent of the Spaniards. They obtain the ore in excavations which they make with the aid of wood fires, thus softening the rocks. They separate the ore according to quality and roast the poorer repeatedly before smelting it. Their furnace is a cylindrical hole, walled with clay, about twelve inches deep and eight inches in diameter, and they use blowers of bamboo worked with plungers to produce the requisite draft.

The coal which up to present times has been found in the Philippine islands is not true coal, but lignite, probably of the tertiary period, and of a variety which can scarcely be distinguished by the eye from true coal. There is no reason why true coal should not eventually be found, for it is found and worked in Japan, whose geological formation has much in common with that of the Philippines. There has been no systematic search made in these islands for coal, and wherever it has been found it has betrayed its presence by outcrops. Thus, in the island of Masbate, a local steamship owner drew his supplies from a bed of coal which is so tilted as to have the appearance of a vein. He supplied himself as long as his native laborers could get the coal with crowbars. An expert, who examined this bed recently, estimated the available quantity of coal at about 600,000 tons in that particular concession. He is, however, of opinion that very much larger quantities are available in adjoining concessions. These mines are practically untouched, and as they are situated within a few miles of the coast they can be worked at a profit by whosoever should venture to introduce the necessary capital.

The only coal deposits which have been to a certain extent developed in the Philippine archipelago, and of which a scientific and reliable record exists in the shape of a report by the chief inspector of mines, Senor Enrique Abella y Casariego, are those in the island of Cebu. This report is embodied in a work entitled "Rapida Descripcion Fisica, Geologica y Minera de la Isla de Cebu (Archipelago Filipino)."

The coal deposits of Cebu were first examined in 1855 by the government mining engineer, Senor Hernandez, who, without hesitation, described the coal as "lignite" (lignite). A few years later, however, another government engineer, Senor Centeno, declared the formation in which coal occurs to belong to the true carboniferous system, and proclaimed the discovery of a true coal field of large dimensions, the eastern rim of which cropped out in the island of Cebu, while its western rim came to the surface in the island of Negros. Analysis proved Senor Centeno to be in the wrong, for the contents—or carbon—of the coal of Cebu do not exceed 54 per cent, against the minimum of 75 per cent, which true coal contains.

The situation of affairs at the Philippines at the present time makes it necessary to take some notice of the rebellion that broke out against the Spanish rule in August,

1898. In 1872 there was an uprising of the people, the exciting cause of which was the oppressive taxes, excises, license fees and other burdens imposed upon the people by the government. Not only did the natives complain of these extortions, but objected to the corvee, or forced exactions of forty days' labor, which every man was compelled to furnish annually to the government. In addition to these complaints the natives were still further exasperated by the usurious loans to which they were obliged to submit. In case they had to raise money, and by the confiscation of their property in case these loans were not paid at maturity. This power of confiscation was lodged in the hands of certain officials, who used it for the purpose of making still greater exactions. To resist these aggressions a secret revolutionary society was formed, the membership of which in August, 1898, was more than 50,000. The basis of this league was freemasonry, which had been introduced into the islands by the Spanish many years before. The army of the rebels was increased by deserters from the native troops in the Spanish forces, by vagabonds, criminals and a large number of people who had lost all their property through confiscation upon various pretexts. The war that was waged between the Spaniards and the rebels was exceedingly bitter, neither side giving any quarter to the other. It was not war, but savage butchery, in which prisoners, captured or who surrendered were smothered in dungeons, burned alive, disemboweled and put to death in other barbarous ways without regard to the usages of civilized warfare. The revolutionary forces were too strong and too well officered and armed for the Spanish army to subdue, and in December, 1897, Gen. Primo de Rivera proposed to Gen. Emilio Aguinaldo y Femi, the supreme head of the revolutionary movement, a cessation of hostilities between the insurgents and the Spanish forces. A council of the revolutionary government was held Dec. 14, 1897, in which twenty-four insurgent chiefs agreed to lay down their arms on condition that certain reforms were introduced by Spain in the administration of affairs. The insurgents demanded (1) that the Filipinos should have representation in the Spanish national parliament, (2) reforms in the land and tax systems of the islands, (3) curtailment of the civil powers of the friars and (4) the recall of many of the Spanish officials in the islands with a view to a more honest, economical and efficient government. Gen. Primo de Rivera agreed to these reforms in substance and made its condition that the principal rebel leaders must leave the country during his majesty's pleasure. As these leaders had lost all of their property or had it confiscated and plundered, the government agreed to provide them with funds to live in a becoming manner on foreign soil.

The rebels laid down their arms and peace was apparently secured. But no sooner had they done so and returned to their houses or retired from the country than the intransigent religious orders commenced at once to again prosecute them and trump up imaginary charges to procure their rearrest. The Spanish government, on its side, imagining itself secure, desisted from carrying out the promised reforms, thinking another trick like that played on the Cubans, after the peace arrangement by Martinez Campos, might succeed. The Filipinos, however, refused to be made dupes and took up

arms again, not alone in the immediate districts around Manila, but throughout the archipelago, and early in March, 1898, the revolt was as formidable in the province of Manila as ever, the rebels having captured several important towns connected by rail with the capital, while the inhabitants refused to pay their taxes or acknowledge Spanish authority. Such was the condition of affairs in the Philippines at the date of the opening of the war between the United States and Spain.

#### COMMERCE WITH THE PHILIPPINES.

The following table shows the commerce of the islands, the years named being the latest attainable:

Countries.	Imports from Philippines.	Exports to Philippines.
Great Britain, 1897.....	\$6,223,426	\$2,063,598
France, 1896.....	1,990,297	359,796
Germany, 1896.....	223,720	774,923
Belgium, 1896.....	272,240	45,660
Spain, 1895.....	4,819,344	4,973,589
Japan, 1897.....	1,332,300	92,823
China, 1897.....	56,137	97,717
India, 1896.....	7,755	80,156
Straits Settlements, 1896.....	274,130	236,001
New South Wales, 1897.....	119,550	176,858
Victoria, 1896.....	180	178,370
United States, 1897.....	4,383,740	94,597

Total..... 19,702,819 9,174,093

The average value of the trade of the Philippines is greater than indicated in the above table, having suffered in the last few years on account of political conditions. This is shown by the fact that in 1893 the imports of Great Britain from the islands were to the value of \$10,407,000, and the exports nearly \$1,500,000 more than the shipments in 1897. France imports three times as much as she did in 1893, but her exports have diminished in an even larger proportion, from over \$2,000,000 to \$350,000. China imports more than twice as much, but exports considerably less than in 1893. India imports less, but her exports have risen from \$57,000 to \$80,000. The Straits Settlements have lost over \$100,000 in imports and some \$140,000 in exports. The trade with New South Wales has grown, but that with Victoria has greatly diminished, and United States commerce, which was \$3,314,235 in 1893, has fallen to \$4,478,337 in 1897.

The following statements show the principal articles of import and export:

COUNTRY.	Hemp.	Tobacco.	Cocoanuts and copra.	Sugar.
Great Britain.....	\$3,694,314	\$716,767	\$222,404	\$1,512,708
France.....	78,754	89,451	1,797,196	.....
Germany.....	166,800	81,654	.....	.....
Japan.....	100,998	64,477	.....	1,156,411
India.....	4,965	3,058	.....	.....
Spain.....	.....	2,538,150	.....	413,794
United States.....	2,701,651	.....	.....	1,190,202
Total.....	6,745,177	3,435,522	2,009,602	4,282,110

It must not be inferred from the absence of statistics in regard to some of the above articles that there are no imports into the countries mentioned. They are either covered in the general heading, "All other imports," or are classified in some other way.

## PRINCIPAL EXPORTS TO PHILIPPINES.

COUNTRY.	Cotton manfg.	Silk and woolen.	Apparel.	Machin- ery and metals.	Coal.	Provi- sions.
Great Britain.....	\$1,268,087	\$30,148	\$5,274	\$317,043	\$15,866	\$73,455
France.....	143,223	81,213	3,912	15,388		
Germany.....	111,028	88,040	99,246	175,413		31,651
Japan.....	120	4,418	157	648	40,986	7,429
United States.....	2,164					
Total.....	1,524,622	205,839	109,488	528,485	57,853	118,536

The figures covering Spain's trade with the Philippines are taken from "Spain's Foreign Trade," by Frank H. Hitchcock, department of agriculture, 1898.

Details of the trade by articles are not given, except in certain imports from the Philippines:

Year.	Imports from Philippines.	Exports to Philippines.	Year.	Tobacco.	Sugar.	Coffee.
1891.....	\$4,342,009	\$2,712,515	1891.....	\$2,605,987	\$216,909	\$360,481
1892.....	4,450,492	2,655,398	1892.....	3,511,303	301,838	440,396
1893.....	4,013,643	4,378,530	1893.....	2,632,816	272,953	153,832
1894.....	3,473,004	5,516,735	1894.....	2,138,068	389,724	231,541
1895.....	4,819,344	4,973,589	1895.....	2,533,150	413,794	107,656

## COMMERCE OF UNITED STATES WITH THE PHILIPPINES.

The following figures are taken from the Monthly Summary of Finance and Commerce, April, 1898, bureau of statistics, treasury department:

## THE MARIANA OR LADRONE ISLANDS.

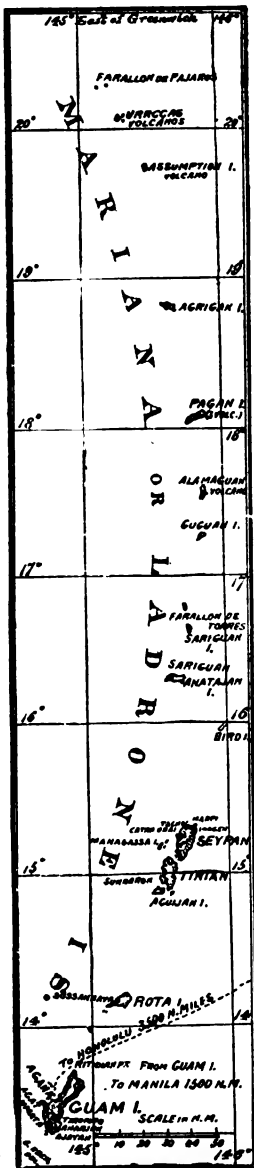

The Mariana archipelago is a chain of islands in the Pacific stretching north and south a winding distance of about 600 miles and embraces some seventeen islands, having an area of about 500 square miles. They were the first group discovered by Magellan in 1521, while making his voyage around the globe, about ten days after he had reached the island of Cebu, one of the Philippines. Some years later, when the Spaniards had assumed sovereignty over the Philippines, they established a regular service for their vessels across the Pacific to the island of Guam, one of the Mariana group, which became a regular station for vessels sailing between Manila and the Mexican coast.

The native inhabitants of the Marianas soon disappeared under the dominion of Spain and the group was repopled by immigrants from the Philippines, who brought with them a new language, plants and customs.

The name of "Ladrones" was given to the islands by Magellan because, it is said, of the character of their inhabitants, the word meaning "robbers," but history declares such a designation to have been entirely unjust to the aborigines of the group. Later they were renamed Mariana in honor of Mariana of Austria, the wife of Philip IV., king of Spain. A distance of about 1,200 miles separates the most southwesterly island of the Mariana group from the nearest of the Philippines and the entire intervening distance is wholly free from reefs or other obstructions to navigation, except a few rocks on the northern extremity toward Japan and the Felew island on the south. Geologically the group has no connection with the Philippines, but belongs to the same formation as the Aleutian islands that project west from the coast of Alaska.

The principal island of the group is Guam or Guahn, which comprises nearly one-half of the entire area of the archipelago. From a commercial point of view the Mariana group of islands is of little value, as the trade is wholly insignificant. The products are such only as are required by the inhabitants of the tropics, and even these are not sufficiently abundant to induce trade and commerce. The natives grow sugar cane, rice, corn and melons. Coconuts, pineapples, bananas, limes, lemons, oranges and the breadfruit grow wild in greatest profusion. It rains nearly all the time—half a dozen squalls of from ten to thirty minutes every day—but no one minds that. It keeps the temperature down and makes everything grow. It is a fine coffee country, but there is almost no attention paid to the industry. The principal product is copra. When the islands were discovered they were found to have a considerable population, which resembled the Malays of the Philippines in language but in no other particular. In physical appearance they resembled the Indonesian and Papuan race and were divided into two classes, one composing the nobility and the other the common people, between which marriage, by their own laws and customs, was not permitted. As soon as the Spaniards acquired possession of the islands all the inhabitants were reduced to a common state of servitude. This was not brought about without a long and serious struggle, for the natives held out valiantly against their oppressors and resistance did not cease until 60,000, or more than one-half of the native population had fallen in the conflict or had escaped to the Caroline islands, while more than one-third of the 180 villages had been destroyed. In 1760 the population of the group had been reduced to 1,600 inhabitants, and to supply the deficiency occasioned by the long struggle Tagul colonists were brought from the Philippines, but these compulsory immigrants perished from epidemics and the severity of the demands made upon them by the new masters of the islands. In 1876 the native population had become reduced to about 600 souls.

The entire population of the group is concentrated on the island of Guam, except a few colonies of fishermen. The island of Tinian has only a single village and a community of lepers, while Reta and Sayan have only a few hundred inhabitants each. Not only have the people fallen off in numbers but in capacity as well. While they have learned all the vices of the few Spaniards and Malays who have supplanted the larger portion of the aborigines, they have forgotten the virtues and the industries that their forefathers practiced. Agriculture has been

practically abandoned, modern pottery has taken the place of that made by the natives, imported cloths have destroyed the manufacture of the coarser domestic fabrics, houses that the natives used to build and inhabit have disappeared and the rudest huts have taken their places, and many of the arts practiced by the people have been wholly lost under the blighting rule of the Spaniards.

The government of the archipelago has, of necessity, been military in its character, the garrison at the capital, Agaña, on the island of Guam, being composed of some sixty Spanish and 300 native recruits drawn from the population by conscription, under a captain-general appointed by the Spanish cabinet. The garrison has been usually supported by a small and inefficient gunboat, which has been necessary to restrain the people as well as the native troops.

The importance of the Mariana archipelago to the United States depends entirely upon the part it is to play in the peace conference at Paris. When Capt. Glass, in command of the Charleston, left Honolulu he was given sealed orders which were not to be opened until he was out of sight of land. He was destined to Manila to reinforce Admiral Dewey and convey a fleet carrying troops to Gen. Merritt. These orders directed him to stop at Guam, capture the governor and all the Spanish officials and soldiers and destroy the fortifications at Agaña, the capital, or in the bay of San Luis d'Apra, upon which the town is situated. Early on the morning of June 20 land was sighted, the Charleston cleared for action and sailed into the bay. Entering the harbor, Capt. Glass directed his course to Fort Santa Cruz, upon which he opened fire at a range of 3,000 yards with his three-pounders. Thirteen shells were fired without eliciting any response. At length Lieut. García Gutierrez of the Spanish navy and Dr. Romero of the army rowed out to the vessel to see if the men on the Charleston were in good health and to give the promise to Capt. Glass that they would return his salute just as soon as they could borrow some powder for the two old guns that were in the fort. The following account of the surrender is by Oscar King Davis and was published in Harper's Weekly, the official report of Capt. Glass not having been made public:

Gutierrez and Romero were thunderstruck at being informed of the real situation, and when told that Manila was in Dewey's hands, practically, the Spanish fleet destroyed, and that they were prisoners of war, they were most unhappy. Francis Portusac, a native of Guam and an Agaña merchant, who was naturalized in Chicago in 1888, was with the officials to act as interpreter, but Capt. Glass used him more as a bureau of information about the island. Finally the captain paroled the Spaniards for the day and sent them away in their boats with a verbal message to the governor, Lieut.-Col. Don Jose Marina y Vega, to hurry up and pay his official call. That evening Gov. Marina sent Capt. Glass a message to the effect that the military regulations of Spain forbade him to set foot on a foreign vessel, but he would be pleased to see the captain at his office in the morning. Capt. Glass replied that he would see the governor himself, or send an officer to represent him.

The next morning Lieut. William Braun-

ersreuther, the navigator of the Charleston, with Ensign Waldo Evans and five men, went ashore. Lieut. Braunersreuther carried a formal note to the governor from Capt. Glass, which gave him thirty minutes in which to surrender unconditionally. The guns of the Charleston were ready to enforce the demands. Lieut. Braunersreuther met the governor at the landing place at the native village of Pitti. With the governor were Capt. Duarte of the Spanish army, his secretary, the port captain, Lieut. Gutierrez and Dr. Romero. In presenting the note from Capt. Glass Lieut. Braunersreuther said, in Spanish:

"I have the honor to present a communication from my commandant. I am authorized to wait one-half hour for your reply. In presenting this communication I call your attention to the fact that we have, as you see, three large ships in the harbor, and a fourth [the Sydney had remained outside] outside ready to come in. One of these ships is a modern war vessel of high power, with large guns. The others are transports full of soldiers. We have a large force here. I call your attention to these facts in order that you may not make any hasty or ill-considered reply to the note of my commandant."

Gov. Marina bowed and thanked Lieut. Braunersreuther, took the note and retired with his staff into his office. From its window, if he chanced to look out, he could see the steam launch of the Charleston towing a string of boats full of men up toward the landing place. In the boats were Lieut. Myers, U. S. M. C., of the Charleston, with forty marines from the ship, and part of company A, 2d Oregon. Capt. H. L. Heath, from the Australia. This was the first detachment of the landing force. Gen. Anderson and Capt. Glass had agreed on the night before. The rest of company A and company D, Capt. A. T. Prescott, were waiting on the Australia for the launch to return and tow them to land. To their intense disgust, not a man of them set foot on land. The first detachment tied up to the Japanese brigantine while the launch went back for the rest, and before it came back the work had all been done.

For twenty-nine minutes Lieut. Braunersreuther waited, watch in hand, for the reply. Then Gov. Marina came out of his office with a sealed letter addressed to Capt. Glass. "It is for your commandant," he said, as Lieut. Braunersreuther broke it open. "I represent my commandant here," was the reply. Gov. Marina had written: "Sir: In the absence of any notification from my government concerning the relations of war between the United States and Spain, and without any means of defense, or the possibility of defense in the face of such a large opposing force, I feel compelled, in the interests of humanity and to save life, to make a complete surrender of all under my jurisdiction. Trusting to your mercy and justice, I have the honor to be," etc., etc.

So Guam was surrendered, with all the Mariana Islands. The unhappy governor had no notice that the force which had threatened him was intended really for Manila, and thought that it had been sent out solely against the Mariana group. He had but fifty-four Spanish regulars and a company of Chamorros, and was, as he said, quite without means of making a defense. Lieut.

Braunersreuther required him to write an order to Lieut. Ramon, in command of the troops at Agaña, to have them on the pier at Piti, with all arms, accoutrements and ammunition and the four Spanish flags in the island, at 4 o'clock that afternoon. That done, the governor wrote a long farewell to his wife, telling her to send his clothing and personal effects to Piti at once.

Soon after the arrival of the prisoners on the Charleston Capt. Glass took a large United States flag and went in his barge to Fort Santa Cruz, where he hoisted the stars

and stripes on the old Spanish staff. As the first broad red stripe rose over the ruined battlements the six-inch rifles of the Charleston roared out the national salute. Formal possession had been taken of Guam. At the same time the bands on the Australia and Peking played the "Star-Spangled Banner," and the soldiers and sailors on the troopships and cruiser gave three times three for Uncle Sam's new island.

The captures consisted of 108 Mauser and Remington rifles and 15,000 rounds of ammunition.

## POPULAR VOTE

For presidential candidates from 1824 to and including 1896. Prior to 1824 electors were chosen by the legislatures of the different states.

1824—J. Q. Adams had 106,821 to 155,872 for Jackson, 44,252 for Crawford and 46,537 for Clay. Jackson over Adams, 50,551. Adams less than combined vote of others, 139,859. Of the whole vote Adams had 39.32 per cent, Jackson 44.37, Clay 13.23, Crawford 23.23. Adams elected by house of representatives.

1828—Jackson had 647,231 to 569,097 for J. Q. Adams. Jackson's majority, 138,134. Of the whole vote Jackson had 55.97 per cent, Adams 44.03.

1832—Jackson had 687,502 to 530,189 for Clay and 33,108 for Floyd and Wirt combined. Jackson's majority, 124,295. Of the whole vote Jackson had 54.94 per cent, Clay 43.39 and the others combined 2.65.

1836—Van Buren had 761,548 to 736,656, the combined vote for Harrison, White, Webster and Mangum. Van Buren's majority, 24,892. Of the whole vote Van Buren had 60.33 per cent and the others combined 49.17.

1840—Harrison had 1,275,017 to 1,128,703 for Van Buren and 7,069 for Birney. Harrison's majority, 139,256. Of the whole vote Harrison had 52.89 per cent, Van Buren 46.83 and Birney .29.

1844—Polk had 1,337,343 to 1,299,068 for Clay and 62,369 for Birney. Polk over Clay, 38,175. Polk less than others combined, 14,125. Of the whole vote Polk had 49.56 per cent, Clay 48.14 and Birney 2.21.

1848—Taylor had 1,360,101 to 1,226,544 for Cass and 291,263 for Van Buren. Taylor over Cass, 139,577. Taylor less than others combined, 151,706. Of the whole vote Taylor had 47.34 per cent, Cass 42.60 and Van Buren 10.14.

1852—Pierce had 1,601,474 to 1,386,678 for Scott and 155,149 for Hale. Pierce over all, 55,747. Of the whole vote Pierce had 50.90 per cent, Scott 44.10 and Hale 4.97.

1856—Buchanan had 1,528,159 to 1,351,264 for Fremont and 874,534 for Fillmore. Buchanan over Fremont, 496,905. Buchanan less than combined vote of others, 377,629. Of the whole vote Buchanan had 45.81 per cent, Fremont 33.09 and Fillmore 21.57.

1860—Lincoln had 1,866,352 to 1,375,157 for Douglas, 345,763 for Breckinridge and 589,531 for Bell. Lincoln over Breckinridge, 491,195. Lincoln less than Douglas and Breckinridge combined, 354,558. Lincoln less than combined vote of all others, 244,149. Of the whole vote Lincoln had 39.91 per cent, Douglas 29.40, Breckinridge 18.08 and Bell 12.61.

1864—Lincoln had 2,216,067 to 1,809,725 for McClellan (eleven states not voting, viz.: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas and Virginia). Lincoln's majority, 406,342. Of the whole vote Lincoln had 55.08 per cent and McClellan 44.91.

1868—Grant had 3,015,071 to 2,709,613 for Seymour (three states not voting, viz.: Mississippi, Texas and Virginia). Grant's majority, 306,458. Of the whole vote Grant had 52.67 per cent and Seymour 47.33.

1872—Grant had 3,597,070 to 2,534,079 for Greeley, 29,403 for O'Connor and 5,808 for Black. Grant's majority, 729,976. Of the whole vote Grant had 55.63 per cent, Greeley 42.83, O'Connor .15, Black .09.

1876—Hayes had 4,033,950 to 4,284,885 for Tilden, 51,740 for Cooper, 9,522 for Smith and 2,436 scattering. Tilden's majority over Hayes, 250,935. Tilden's majority of the entire vote cast, 157,037. Hayes less than the combined vote of others, 344,833. Of the whole vote cast Hayes had 47.95 per cent, Tilden 50.94, Cooper .97, Smith .11 scattering .3.

1880—Garfield had 4,449,053 to 4,442,035 for Hancock, 307,306 for Weaver and 12,576 scattering. Garfield over Hancock, 7,018. Garfield less than the combined vote for others, 313,864. Of the popular vote Garfield had 48.26 per cent, Hancock 48.25, Weaver 3.32, scattering .13.

1884—Cleveland had 4,874,986 to 4,851,981 for Blaine, 150,369 for St. John, 173,370 for Butler. Cleveland had over Blaine 23,006. Cleveland had 48.48 per cent, Blaine 48.22, St. John 1.49, Butler 1.74.

1888—Harrison had 5,441,902 to 5,638,560 for Cleveland, 349,937 for Fisk, 147,521 for Streeter, 3,073 for Cowdrey, 1,591 for Curtis and 9,845 scattering. Harrison had 96,658 less than Cleveland. Of the whole vote Harrison had 47.83 per cent, Cleveland 48.63, Fisk 2.21 and Streeter 1.30.

1892—Cleveland had 5,558,562 to 5,162,874 for Harrison, 264,066 for Bidwell, 1,055,474 for Weaver and 22,813 for Wing. Of the whole vote Cleveland had 46.73 per cent, Harrison 42.49, Bidwell 2.17 and Weaver 8.67.

1896—McKinley had 7,507,822; Bryan, 6,511,073; Levering, 120,633; Bentley, 13,950; Matchett, 33,545; Palmer, 133,800. Of the whole vote McKinley had 50.49 per cent and Bryan had 46.26.

Of the presidents, Adams, federalist; Polk, Buchanan and Cleveland, democrats; Taylor, whig; Lincoln, Hayes, Garfield and Harrison, republicans, did not, when elected, receive a majority of the popular vote. The highest percentage of popular vote received by any president was 55.97 for Jackson, democrat, in 1828, and the lowest 39.91 for Lincoln, republican, in 1860; Buchanan, democrat, next lowest, with 45.34. Hayes and Harrison, with the exception of John Quincy Adams, who was chosen by the house of representatives, were the only presidents ever elected who did not have a majority over their principal competitors, and Tilden and Cleveland the only defeated candidates who had a majority over the president-elect.

## THE HAWAIIAN ISLANDS.

The republic of Hawaii, the union of which to the United States was completed on the 12th of August, 1898, consists of eight islands in the Pacific ocean, between longitude 154.40 and 160.30 west from Greenwich and latitude 22.16 and 18.55 north. They were discovered by Capt. Cook in 1778, and on Hawaii he was killed by the natives Feb. 14, 1779. They are located on the edge of the tropics, but their position in mid-ocean and the prevalence of the northeast trade winds gives them a climate of perpetual summer without enervating heat. The group occupies a central position in the North Pacific, 2,089 nautical miles southwest of San Francisco, 4,840 from Panama, 3,800 from Auckland (New Zealand), 4,950 from Hongkong, 3,440 from Yokohama and 4,350 from Manila. It will thus be seen that Hawaii lies about one-third of the distance on the accustomed routes from San Francisco to Japan and Chinese ports, from San Francisco to Australia, from the Pacific ports of British Columbia to Australia and British India and about half way from the Isthmus of Panama to Yokohama and Hongkong. A government publication has the following to say as to the importance of Hawaii as a naval station: "From a naval standpoint Hawaii is the great strategic base of the Pacific. Under the present conditions of naval warfare, created by the use of steam as a motive power, Hawaii would secure to the maritime nation possessing it an immense advantage as a depot for the supply of coal. Modern battleships, depending absolutely upon coal, would be enabled to avail themselves of their full capacity of speed and energy only by having some halfway station in the Pacific where they could replenish their stores of fuel and refit. A battleship or cruiser starting from an Asiatic or Australian port, with the view of operating along the coast of either North America or South America, would be unable to act effectively for any length of time at the end of so long a voyage unless she were able to refill her bunkers at some point on the way. On the other hand, the United States, possessing Hawaii, will be able to advance its line of defense 2,000 miles from the Pacific coast, and, with a fortified harbor and a strong fleet at Honolulu, will be in a position to conduct either defensive or offensive operations in the North Pacific to greater advantage than any other power."

There are eight principal islands in the group, the others being mere rocks of no present value. They are named, beginning from the northwest:

	Area in sq. miles.
Niihau .....	97
Kauai .....	590
Oahu .....	600
Molokai .....	270
Maul .....	760
Lanai .....	150
Kahooolawe .....	63
Hawaii .....	4,210
Total .....	6,740

By comparison it will be seen that the area of the islands is only a little less than that of the state of New Jersey, while it is

more than three times that of the state of Delaware.

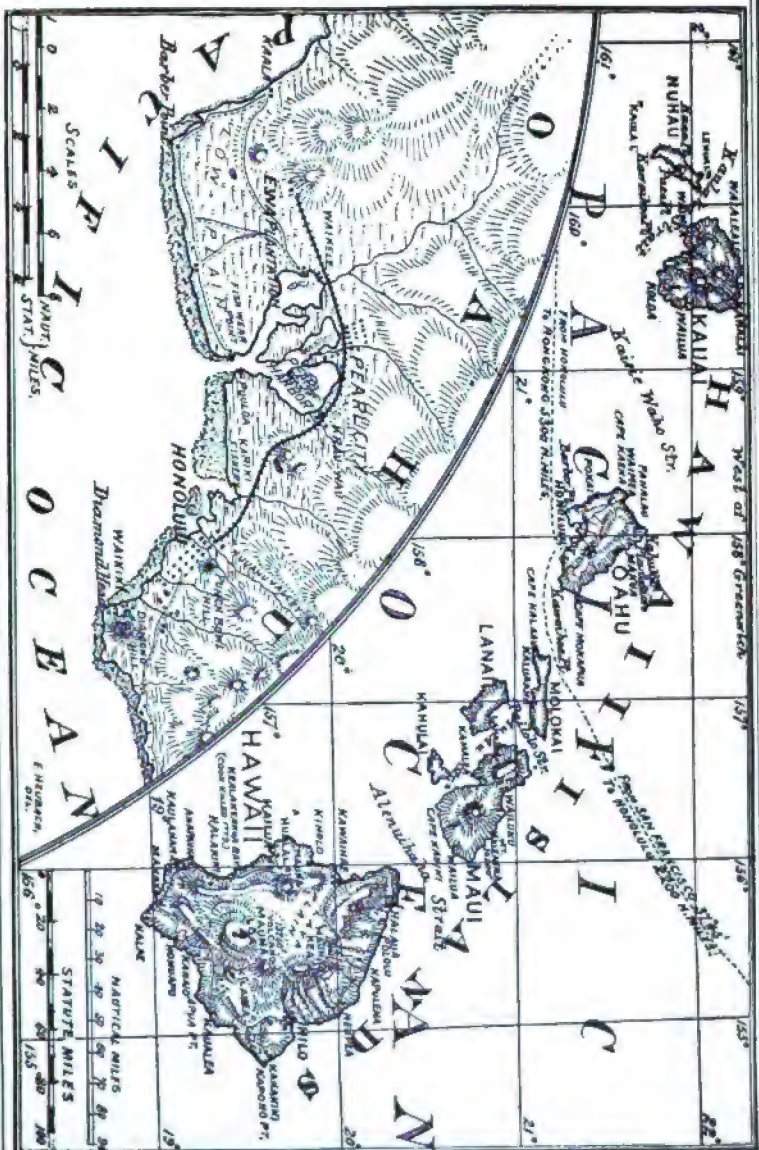

The islands that present the most attractions are Hawaii, Maui, Oahu and Kauai, as it is on these that coffee, fruits, potatoes, corn and vegetables of various kinds are produced in the most luxuriant profusion and where land can be obtained on reasonable terms. Hawaii is the largest of the group and presents the greatest variety of soil and climate. The island is divided into eight districts. Those on the windward side—North Kohala, Hamakua, Hilo and Puna—are well watered by plentiful rains, while on the lee side South Kohala, North Kona, South Kona and Kau are rarely without necessary water supply. The Kona district is noted for both its coffee and sugar. The coffee industry is carried on by several hundred proprietors, whose plantations embrace an acreage ample for 200,000 trees down to those who work an acre or more. A government report says of this island that there are "thousands of acres at present uncultivated and only awaiting the enterprise of the temperate zone to develop them."

Maui is one of the most productive islands in the group and produces sugar and coffee, the cultivation of which is largely confined to the eastern portion, which has been only recently devoted to those products. On this island is a large mountain, Haleakala, the western slope of which is covered with farms where the smaller grains are raised, with some swine. On this island thousands of acres are lying fallow.

No one of the group offers better advantages than Oahu. Very many acres of land in the fertile valleys are yet wholly undeveloped, the inhabitants being devoted to the cultivation of sugar on the larger islands. On this is situated the capital of the country. A line of railroad has been built extending west from Honolulu a distance of about thirty miles, and it is proposed to continue it entirely around the island. The road runs through a very rich coffee-producing region and affords good facilities for transporting the product to the capital, which is the chief port of entry in the group.

Kauai is popularly known as "the garden island" from the luxuriance of its vegetation. The chief products are sugar and rice. Little coffee is being grown, its introduction being but recently made. There are larger areas of rich unoccupied lands on the island of Kauai.

On Oahu is Honolulu, the capital of the whilom republic. It is a city of 30,000 inhabitants and is one of the most advanced capitals on the globe. It is lighted with electric lights and has an extensive telephone system and street cars. Any variety of goods that can be bought in any southern city in the world can be purchased at its stores, while the public buildings are ornate and commodious. It is abundantly supplied with churches and the best of schools, a large public library, a Young Men's Christian association hall, a Masonic temple, an Odd-Fellows' hall and all other appliances of an advanced civilization, not to mention four daily and two weekly English papers, besides others printed in the Hawaiian, Portuguese, Japanese and Chinese languages. Among the native Hawaiians the

percentage of illiteracy is very small, it having been officially declared not to be greater than it is in the state of Massachusetts.

The Hawaiian islands are of volcanic formation, and there are two active volcanoes on Hawaii—Kilauea and Mauna Loa. The altitude of Mauna Kea, the highest point on Hawaii, is 13,806 feet. The mountains on other islands range from 4,000 to 5,000 feet. The topography is broken and diversified, with many valleys and streams. The mountain sides abound in forests, containing an abundance of ship timber and many ornamental woods. Among the minerals that have been noticed are sulphur, pyrites, common salt, sal ammoniac, limonite, quartz, augite, chrysolite, garnet, labradorite, feldspar, gypsum, soda, alum, copperas, glauher salts, niter and calcite.

"In the Hawaiian islands," says a pamphlet of the Hawaiian government, "Americans and Europeans can and do work in the open air at all seasons of the year, as they cannot in countries lying in the same latitude elsewhere. To note an instance: Calcutta lies a little to the north of the latitude of Kaula, our most northerly island and in Calcutta the American and European can only work with his brain; hard physical labor he cannot do and live. On the Hawaiian islands he can work and thrive."

The rainfall varies, being greater on the windward side of the islands, and increasing up to a certain elevation. Thus, at Oloa, on the island of Hawaii, windward side and elevation of about 2,000 feet, the rainfall from July 1, 1894, to June 30, 1895, was 176.32 inches, while at Kailua, on the leeward side, at a low level, it was only 51.21 inches during the same period.

The temperature also varies according to elevation and position. On the island of Hawaii one can get any climate from the heat of summer to actual winter at the summits of the two great mountains. A meteorological record, kept carefully for a period of twelve years, gives 89 degrees as the highest and 54 degrees as the lowest temperature recorded, or a mean temperature of 71.5 degrees for the year. A case of sunstroke has never been known. People take no special precautions against the sun, wearing straw and soft felt hats similar to those worn in the United States during the summer months.

The prevailing winds are the northeast trades. These blow for about nine months of the year. The remainder of the period the winds are variable and chiefly from the south. The islands are outside the cyclone belt, and severe storms accompanied by thunder and lightning are of rare occurrence.

The islands possess a healthful climate. There are no virulent fevers such as are encountered on the coast of Africa or in the West India islands. Epidemics seldom visit the islands, and when they do they are generally light. A careful system of quarantine guards them now from epidemics from abroad.

The pamphlet entitled "The Republic of Hawaii," issued by the department of foreign affairs of the islands in 1896, gives a full account of the agricultural resources of the country, with interesting details as to the coffee industry, from which the following matter is extracted: The mainstay of the islands, it says, has for the last thirty-five years been the sugar industry. From this source a large amount of wealth has

been accumulated. But the sugar industry requires large capital for expensive machinery and has never proved remunerative to small investors. An attempt has been made at profit-sharing, and has met with some success, the small farmer cultivating and the capitalist grinding at a central mill. Of late years, moreover, the small farmer has been steadily developing in the Hawaiian islands, and attention has been given to other products than sugar.

Rice neither Europeans nor Americans can cultivate as laborers. It requires working in marshy land, and, though on the islands it yields two crops a year, none but the Chinaman can raise it successfully. A dry-land or mountain rice has been introduced.

The main staple, after sugar and rice, is coffee. Of this, hundreds of thousands of trees have been planted out within the last five years. This is essentially the crop of the future, and bids fair to become as important a staple as sugar. Coffee does not require the amount of capital that sugar does and it can be worked remuneratively upon a small area. It is estimated that at the end of the fourth year the return from a seventy-five-acre coffee plantation will much more than pay the running expenses, while from that time on a return of from \$3,000 to \$10,000 per annum may be realized.

Fruits can also be cultivated to advantage. At present the banana trade of the islands amounts to over 100,000 bunches per annum, valued at over \$100,000, and the quantity might very easily be quadrupled. The banana industry may be regarded as in its infancy. The export of the fruit is only from the island of Oahu, but there are thousands of acres on the other islands of the group which could be profitably used for this cultivation and for nothing else. The whole question of the banana industry hinges on the market. At present the market is limited.

Limes and oranges can be cultivated and the fruit can be easily packed for export; at present the production does not meet the local market. The fruits can be raised to perfection. The Hawaiian orange has a fine flavor and the Hawaiian lime is of superior quality. In the uplands of Hawaii and Maui potatoes are raised. Their quality is good. Corn is also raised. In these industries many Portuguese, Norwegians and others have embarked. Both these products find an ample local market. The corn is used largely for feed on the plantations, and ground with the cob makes an excellent feed for working cattle, horses and mules.

In the uplands where the climate is temperate, as at Waimea, Hawaii, vegetables of all kinds can be raised; excellent cauliflower, cabbages and every product of the temperate zone can be grown to perfection.

Cattle raising in so small a place as the Hawaiian islands does not present great opportunities except for local consumption. Pigs are profitable to the small farmer. In the Kula district of Maui pigs are fattened upon the corn and potatoes raised in the district. The price of pork, dressed, is 25 cents a pound in Honolulu and about 15 cents a pound in the outside districts.

The Chinese, of whom there are some 20,000 resident on the various islands, are extremely fond of pork, so that there is a large local market, which has to be supplemented by importations from California.

Attention has lately been given to fiber plants, for which there are many suitable

locations. Ramie grows luxuriantly, but the lack of proper decorticating and cleaning machinery has prevented any advance in this cultivation.

Sisal hemp and anseveira have been experimented with, but without any distinct influence upon the trade output.

The cultivation of pineapples is a growing industry. In 1896 'pineas' were exported from the islands to San Francisco to the value of nearly \$9,000. This has grown up in the last half-dozen years. There is every reason to think that canning pineapples for the coast and other markets can be made profitable.

The guava, which grows wild, can also be put to profit for the manufacture of guava jelly. It has never been entered upon on a large scale, but to the thrifty farmer it would be a convenient addition to his income, just as the juice of the maple adds to the income of farmers of the eastern states. Well-made guava jelly will find a market anywhere. In England it is regarded as a

great delicacy, being imported from the West India islands. Besides the guava there are other fruits which can be put up to commercial profit, notably the poha, or cape gooseberry (*Physalis edulis*). This has been successfully made into jams and jelly, which command an extensive local sale and should find their way into larger markets.

In fact, outside the great industries of sugar, coffee and rice there is a good field for many minor industries which can be carried on with profit.

In the Hawaiian islands a simple life can be lived, and entering gradually upon the coffee industry a good competence can be obtained long before such could be realized by the agriculturist in less favored countries. However, it is useless to go to the islands without the necessary capital to develop the land that can be obtained. Between arriving and the time that the crops begin to give returns there is a period where the living must be close and cash must be paid out for the necessary improvements.

### HAWAIIAN ANNEXATION.

The record of the proceedings having for their object the annexation of Hawaii to the United States was brought down in *The Daily News Almanac* for 1898 to September, 1897, when the Hawaiian senate met in special session for considering the annexation treaty then pending in the senate of the United States, which will be found on page 266 of that volume. The Hawaiian senate signified its assent to the annexation of the islands to the United States, although there was a strong feeling of opposition to such action among the native royalists, who opposed a surrender of their government and territory. It will be remembered that the annexation treaty was transmitted to the United States senate in June, 1897, just before the close of the special session, and it was publicly expected that it would be acted upon early in the session of the regular congress which met in December of that year. The treaty was considered in secret session, and it became evident that although the annexation of Hawaii was supposed to be a republican measure the ratification of the treaty was opposed by some of the ablest members of that party in the senate, while it had the unqualified support of several members of the opposition. It was publicly stated that Mr. Morrill (Rep.) of Vermont and Mr. Hoar (Rep.) of Massachusetts opposed the ratification of the treaty, while Mr. Morgan (Dem.) of Alabama, recognized leader of his party, warmly advocated its adoption. Other republicans were disposed to object to the union, while some of the other democrats and all the populists favored the proposal.

On the 24th of January, 1898, Mr. Joseph G. Carter arrived in Washington from Hawaii to oppose the adoption of the treaty, which he declared would be injurious to both countries, while he affirmed that Hawaii was amply able to take care of herself. On the 26th of January President Dole of the Hawaiian republic visited Washington and was received as the chief executive of a neighboring state. He remained at the capital some two weeks, and during the time he refrained from expressing himself publicly upon the subject of annexation. The treaty was reported from the committee

on foreign relations to the senate near the middle of January, and the opposition to its ratification at once developed itself. On the 3d of February Senator White (Dem.) of California offered a resolution setting forth that the people of Hawaii had the right to maintain their own form of government and the United States ought not to interfere with such right. On the 7th Senator Morgan (Dem.) of Alabama offered an amendment to this resolution, which was as follows:

"That the republic of Hawaii, established in and based upon its present constitution, is a rightful government, and has been and still is recognized as such by the United States of America and by other great powers, without any question by any nation of its rightful and sovereign independence; and said constitution is the true and recognized authority that fixes the measure and the distribution of the rights and powers of government in that republic while said constitution remains in force.

"That in conformity with the existing constitution of the republic of Hawaii, and so long as the same is in force, the powers of government reside in and are to be exercised by the incumbents of the departments, tribunals and offices created by said constitution and filled in pursuance of law, and the lawful electors under said constitution who qualify as such by taking the oath of allegiance prescribed therein are entitled to share in the government of Hawaii according to the rights secured to them in said constitution, and to the extent and in the manner therein provided, so long as the same is in force.

"And said government of the republic of Hawaii having in due form signified its consent in the manner provided in its constitution that the Hawaiian islands, with all the territory appurtenant thereto, over which said government now claims to exercise sovereign jurisdiction, shall be annexed to and become a part of the territory of the United States of America, and shall be subject to the national power and sovereign jurisdiction thereof, it is hereby enacted and declared that said cession is accepted, ratified and confirmed, and that said Hawaiian islands are annexed as a part of the

territory of the United States of America, and are subject to the sovereign dominion thereof."

Mr. Davis (Rep.) of Minnesota, chairman of the committee on foreign relations, moved that the resolution of Mr. White and the amendment proposed by Mr. Morgan be referred to the foreign relations committee, and after a brief colloquy between Mr. White and Mr. Morgan they were so referred.

The subject was debated in both the senate and house of representatives and on the 5th of March, 1898, the foreign relations committee of the senate became satisfied that the proposed treaty could not be ratified, for the number of votes in the senate was from four to six less than the requisite number. Two courses were open to the friends of annexation to pursue—first, to amend the treaty so as to make it acceptable to those who objected to it in its present form, and, second, to drop the treaty entirely and substitute for it a joint resolution which would require only a majority vote of the two houses of congress and could be openly discussed in both bodies. It was decided to adopt the second method, and on the 16th of March, 1898, Senator Davis (Rep.) of Minnesota reported to the senate from the foreign relations committee a joint resolution drawn by Senator Morgan of Alabama, which was as follows:

"Section 1. The government of the republic of Hawaii having in due form signified its consent, in the manner provided by its constitution to cede absolutely and without reserve to the United States of America all rights of sovereignty of whatsoever kind in and to the Hawaiian islands and their dependencies, and also to cede and transfer to the United States the absolute fee and ownership of all public, government or crown lands, public buildings or edifices, forts, harbors, military equipment and all other public property of whatever kind or description belonging to the government of the Hawaiian islands, together with every right and appurtenance thereunto appertaining; therefore be it

Resolved, That said concession is accepted, ratified and confirmed, and that the said Hawaiian islands and their dependencies be and they are hereby annexed as a part of the territory of the United States, and are subject to the sovereign dominion thereof, and that all and singular the property and rights hereinbefore mentioned are vested in the United States of America."

The resolution then adopts the language of the treaty (see Daily News Almanac, 1898, page 266), beginning with the second paragraph of the second section, and taking all the remainder of it, but does not cite it as a part of the treaty. These provide for the disposal of the Hawaiian public lands, for the temporary government of the islands until congress decides upon a permanent form of government, the abrogation of Hawaiian treaties and the preservation of Hawaiian customs regulations until those of the United States shall be put into operation, the assumption of the public debt of Hawaii by the United States to the extent of \$4,000,000, the regulation of Chinese immigration and the appointment by the president of five commissioners to prepare a code of laws for the government of the islands.

Section 2 provides that the commissioners provided for shall be appointed by the

president, by and with the advice and consent of the senate. The sum of \$100,000 is appropriated by the third and last section for the purpose of carrying the resolution into effect, and this sum is made immediately available.

During these discussions the war feeling in the United States had been raised to a fever heat by the destruction of the battleship Maine in the harbor of Havana and by the declaration of war against Spain on the 21st of April. On the 27th of April President Dole sent a communication to President McKinley offering to transfer the Hawaiian islands to the United States for the purposes of its war with Spain and to furnish the American ships of war in the Pacific ocean with coal, provisions and ammunition. In the opinion of high officers of both the army and navy and of many members of both houses of congress it became the duty of this government to protect Hawaii from the legitimate results of its friendship for the United States, as expressed in the offer of its chief executive, and to guard it against attacks from Spain and her allies. Some were of the belief that all this could be accomplished by having this government establish a protectorate over Hawaii, without exposing the United States to the liabilities and burdens that would have to be assumed in case of annexation. On the 4th of May Mr. Newlands (silver Rep.) from Nevada introduced into the house the following joint resolution:

"Whereas, The government of the republic of Hawaii having in due form signified its consent, in the manner provided by its constitution, to cede absolutely and without reserve to the United States of America all rights of sovereignty of whatsoever kind in and over the Hawaiian islands and their dependencies, and also to cede and transfer to the United States the absolute fee and ownership of all public, government or crown lands, public buildings or edifices, forts, harbors, military equipment and all other public property of every kind and description belonging to the government of the Hawaiian islands, together with every right and appurtenance thereunto appertaining; therefore,

Resolved, by the senate and house of representatives of the United States of America in congress assembled, That said cession is accepted, ratified and confirmed, and that the said Hawaiian islands and their dependencies be and they are hereby annexed as a part of the territory of the United States, and are subject to the sovereign dominion thereof, and that all and singular the property and rights hereinbefore mentioned are vested in the United States of America.

"The existing laws of the United States relative to public land shall not apply to such lands in the Hawaiian islands, but the congress of the United States shall enact special laws for their management and disposition; provided, that all revenue from or proceeds of the same, except as regards such part thereof as may be used or occupied for the civil, military or naval purposes of the United States, or may be assigned for the use of the local government, shall be used solely for the benefit of the inhabitants of the Hawaiian islands for educational and other public purposes.

"Until congress shall provide for the government of such islands all the civil, judicial and military powers exercised by the officers of the existing government in said

islands shall be vested in such person or persons and shall be exercised in such manner as the president of the United States shall direct; and the president shall have power to remove said officers and fill the vacancies so occasioned.

"The existing treaties of the Hawaiian Islands with foreign nations shall forthwith cease and determine, being replaced by such treaties as may exist, or as may be hereafter concluded, between the United States and such foreign nations. The municipal legislation of the Hawaiian Islands, not enacted for the fulfillment of the treaties so extinguished and not inconsistent with this joint resolution nor contrary to the constitution of the United States, nor to any existing treaty of the United States, shall remain in force until the congress of the United States shall otherwise determine.

"Until legislation shall be enacted extending the United States customs laws and regulations to the Hawaiian Islands the existing customs regulations of the Hawaiian Islands with the United States and other countries shall remain unchanged.

"The public debt of the republic of Hawaii lawfully existing at the date of the passage of this joint resolution, including the amounts due to depositors in the Hawaiian postal savings bank, is hereby assumed by the government of the United States, but the liability of the United States in this regard shall in no case exceed \$4,000,000. So long, however, as the existing government and the present commercial relations of the Hawaiian Islands are continued as heretofore provided said government shall continue to pay the interest on said debt.

"There shall be no further immigration of Chinese into the Hawaiian Islands, except upon such conditions as are now or may hereafter be allowed by the laws of the United States, and no Chinese, by reason of anything heretofore contained, shall be allowed to enter the United States from the Hawaiian Islands.

"The president shall appoint five commissioners, at least two of whom shall be residents of the Hawaiian Islands, who shall, as soon as reasonably practicable, recommend to congress such legislation concerning the Hawaiian Islands as they shall deem necessary or proper.

"Sec. 2. That the commissioners heretofore provided for shall be appointed by the president, by and with the advice and consent of the senate.

"Sec. 3. That the sum of \$100,000, or so much thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated and to be immediately available, to be expended at the discretion of the president of the United States of America for the purpose of carrying this joint resolution into effect."

The debate on these resolutions began in the house on the 11th day of June and was continued until the 15th, when they passed by a vote of 209 to 91, six not voting, although present. The following is the vote in detail:

## REPUBLICAN AGAINST ANNEXATION.

## Morrill.

The resolutions went to the president and were signed by him on the 7th of July, 1898. In accordance with the resolutions the president selected as the five commissioners who are to recommend to congress such legislation as they regard necessary and proper for the government of the new possessions the following: Senators Shelby M. Cullom (Rep.) of Illinois and John T. Morgan (Dem.) of Alabama, Representative Robert R. Hitt (Rep.) of Illinois, and Sanford B. Dole, president of Hawaii, and Walter F. Frear, representing Hawaii.

That this government has annexed the Hawaiian islands without the consent of the large majority of the native population is not to be denied. Upon this subject Rear-Admiral L. A. Beardslee, U. S. N., who, from being a time stationed at Honolulu, is thoroughly competent to express an opinion, says in a recent article in the North American Review:

"That we have not obtained the full and free consent of these people seems to be a fact. Circumstances which occurred on and before annexation day, the 12th of August, indicate this very strongly. A short time before protests against annexation had been filed with both governments by political societies. On the day when annexation was consummated of the great number of the best of Honolulu people who, through social or official standing, were entitled to places on the great platform built on the steps of the executive building—formerly the palace of Hawaii's monarchs—to witness and participate in the ceremonies but one of the three principal classes into which Honolulu people are divided was present in any force, these, namely, who affiliated with or supported the party of which the government was formed. The other parties, the natives and half-whites, and the royalists, took no part, and among them were people whose official and social standing are such that their absence could not have been the result of accident. There were at the time in Honolulu the ex-Queen Liliuokalani, the ex-Dowager Queen Kapiulani, the ex-Princess Kalulani, and in the list I have before me as I write I cannot find their names nor the name of any of the prominent royalists, nor of a Hawaiian not attached to the government.

"The band of Hawaiian damsels who were to have lowered for the last time the Hawaiian flag as the government band played for the last time the Hawaiian ponol would not lower it. The band refused to play the ponol and loud weeping was the only music contributed by the natives. Very evidently there was dis-

cord, and as evidently the breach which had been made by the events of 1893 was not yet healed, the opposing factions into which the Hawaiian people had then been split had not coalesced. Beyond question, a large body of those who were to be governed did not consent to the new government. The native population that remains loyal to Queen Liliuokalani and opposed the union is estimated at about 40,000.

Aug. 12, 1898, was decided upon as the day for the ceremonies at Honolulu upon which the formal transfer of the islands to the United States should take place. The following is the press account of the proceedings:

"Every nationality was represented in the grounds of the executive building on the morning of Aug. 12 except the Hawaiian. The throng of sightseers began to arrive early, but no Kanakas came. At 10 o'clock the Hawaiian national guard marched to the water front to escort the men from the United States steamship Philadelphia to the grounds of the executive building. There were many Hawaiians in the guard, but they hoped to be able to avert their faces at the critical moment and so avoid seeing what they regarded as the death of their nation.

"The beautiful grounds of the executive building, planned for royal pastimes and never anticipating such a scene as this, were crowded with people. The seats had been arranged on the sward in the deep shade of the banana and bread-fruit trees. Since early in the morning these had been occupied by a medley of Chinese, Japanese and Portuguese, craning their necks to see the sights and caring not a jot that a nationality was to set that day. The guests of prominence were admitted to the balconies and to the platform that jutted over the drive, and men of the foreign office; literally staggering under pounds of gold braid, had as much difficulty in seating these people in the places assigned to them as if they had all been petty German princes at a Victorian jubilee. Heraldry is an art in Honolulu, and in spite of the mixture of blood, or, perhaps, because of it, they are sticklers in matters of precedence. On the platform, decorated with entwined Hawaiian and American flags, were seated all of Honolulu's official life, including the cabinet officials and their wives, the ministers and their wives, the judges and members of the legislature, the foreign diplomats and the navy officers. The long verandas and platform were as brilliant as flower beds with bright frocks of all imaginable hues and the white clothes of the men.

"At 11:45 President Dole and his cabinet appeared, followed immediately by United States Minister Sewall, Admiral Miller, U. S. N., and his staff. These took their appointed places and every one stood while the last prayer of the provisional government was said. The Rev. G. L. Pearson of the First Methodist church was appointed to say it, and the crowd maintained an almost reverent silence as he spoke. The men from the Philadelphia, the Hawaiian national guard, the members of the citizens' guard and the sharpshooters, who were seated behind them, bent their heads while a blessing was asked on this union of America and Hawaii.

"Then came the formal transfer of sovereignty. Mr. Sewall, United States minister, had been carrying under his arm a square

blue envelope of official appearance, and this he handed to President Dole with the information that it contained the joint resolution of annexation. President Dole received the envelope and said:

"A treaty of peaceful union having been made in the interest of the Hawaiian body politic, with full confidence in the honor justice and friendship of the American people we yield up to you as the representative of the government of the United States the sovereignty and public property of the Hawaiian Islands."

"Mr. Sewall accepted the gift in the name of the people of the United States and every American there felt richer than before. The minister then called on the admiral to do his duty, and at a signal from President Dole the Hawaiian band played the first notes of 'Hawaii Ponoi,' the national anthem, while vigorous wig-wagging from the American sailors made it certain that in a second or two they would begin the salute to the Hawaiian flag. Chopin's funeral march was never more melancholy than the notes of this national melody. The natives in the band had begged to be released from playing it and could be seen peering round the corner seeking to get away from sight of their beloved flag.

"In a moment guns were roaring their last good-by and the flag of Hawaii was shivering convulsively at the top of the masts. Another moment and it was slowly settling to earth and all eyes were bent upon it. There went up a fluttering sigh from thousands of people. Just as it neared the ground and was caught in the arms of its friends Admiral Miller signaled and the blare of an American bugle rent the air. It was a call to colors.

"Then began to roll up from the ground a magnificent American flag, so ample, so soft in coloring that it seemed to drape the whole front of the building in its ascent. At sight of it there did not burst forth cheers as there would in more northern latitudes, but the Philadelphia's band hailed it with 'The Star-Spangled Banner,' and when it reached its lofty place there came a hearty hurrah from the American throats while a rain of tears coursed over the face of those Hawaiians who had witnessed the change of emblems.

"The president's proclamation, read by Minister Sewall, followed almost immediately. It made no change of officials, leaving the personnel of the government the same as before. The minister's speech came next, and then the solemn oath of allegiance to the United States was taken by Mr. Dole and his cabinet, the uplifted hands of some officials trembling as if with palsy.

"The next scene in the annexation drama was at the barracks, which were once the king's. Drawn up in a hollow square Hawaii's national guard took the oath, while a multitude looked on. The men who wished to swear allegiance were ordered to uncover and raise their right hands. Some refused to abjure their allegiance and stood with covered heads while the rest were swearing. Later Gov. Dole presented to the men the faded and historic flag, no less one than that which was carried by the marines of the Boston when they landed here in 1898. About the same time there was run up on the judiciary building the identical flag that Commissioner Blount ordered down on a memorable occasion."

**WAR REVENUE TAXES IMPOSED UNDER THE ACT APPROVED JUNE 13, 1898.****TAX ON FERMENTED LIQUORS.**

[To take effect from date of act.]

Beer, lager beer, ale, porter and other similar fermented liquor, per barrel of thirty-one gallons—\$2. (Seven and one-half per cent discount on all sales of stamps.)

**ANNUAL SPECIAL TAXES.**

[To take effect July 1, 1898.]

Bankers using a capital (including surplus) not exceeding \$25,000—\$50.

For every additional \$1,000 in excess of \$25,000—\$2.

Brokers (except those paying tax as bankers)—\$50.

Pawnbrokers—\$30.

Commercial brokers—\$30.

Custom-house brokers—\$10.

Proprietors of theaters, museums and concert halls in cities of more than 25,000 population, as shown by last preceding United States census—\$100.

Proprietors of circuses—\$100.

Proprietors of other public exhibitions or shows for money—\$10.

Proprietors of bowling alleys and billiard rooms, for each alley or table—\$5.

**TOBACCO, CIGARS, CIGARETTES AND SNUFF.**

[To take effect from date of act.]

Tobacco and snuff, manufactured—12 cents per pound.

Cigars and cigarettes:

Cigars weighing more than three pounds per 1,000—\$3.50 per M.

Cigars weighing not more than three pounds per 1,000—\$1 per M.

Cigarettes weighing more than three pounds per 1,000—\$3.50 per M.

Cigarettes weighing not more than three pounds per 1,000—\$1.50 per M.

**DEALERS AND MANUFACTURERS OF TOBACCO AND CIGARS.**

[To take effect from date of act.]

Dealers in leaf tobacco and manufacturers of tobacco:

When annual sales do not exceed 50,000 pounds—\$5.

When annual sales exceed 50,000 and do not exceed 100,000 pounds—\$12.

When annual sales exceed 100,000 pounds—\$24.

Dealers in tobacco whose annual sales exceed 50,000 pounds—\$12.

Manufacturers of cigars:

When annual sales do not exceed 100,000 cigars—\$5.

When annual sales exceed 100,000 and do not exceed 200,000—\$12.

When annual sales exceed 200,000—\$24.

**STAMP TAXES.**

[To take effect July 1, 1898.]

Bonds, debentures or certificates of stock and indebtedness issued after July 1, 1898, on each \$100 of face value—5 cents.

Certificates of stock, original issues of, on organization or reorganization, on each \$100 of face value or fraction thereof—5 cents.

Sale, or agreement to sell stock in any association company or corporation, on each \$100 of face value or fraction thereof—3 cents.

Sale, or agreement to sell any products of

merchandise at any exchange, board of trade or similar place:

For each \$100 in value—1 cent.

For each additional \$100 or fraction thereof—1 cent.

Bank check, draft or certificate of deposit not drawing interest, or money order at sight—2 cents.

Bill of exchange (inland), draft, certificate of deposit drawing interest, or money order other than at sight or on demand, or promissory note (except bank notes) and original domestic money orders issued by the United States after July 1, 1898:

For a sum not exceeding \$100—2 cents.

For each additional \$100 or fraction thereof—3 cents.

Bill of exchange (foreign) or letter of credit (including orders by telegraph, or otherwise, for the payment of money issued by express, or other companies, or any person), drawn in, but payable out of the United States:

If drawn singly or otherwise than in a set of three or more—

Not exceeding \$100—4 cents.

For each additional \$100 or part thereof—4 cents.

If drawn in sets of two or more—

For every bill of each set not exceeding \$100—2 cents.

For each additional \$100 or part thereof—2 cents.

Bill of lading or receipt (other than charter party) for merchandise for export—1 cent.

Bill of lading, manifest, or receipt, and each duplicate thereof, express and freight—1 cent.

Telephone messages costing 15 cents or over—1 cent each.

Bonds of indemnity—50 cents.

Certificates of profit and transfers thereof on each \$100 or part of—2 cents.

Certificates issued by port warden or surveyor—25 cents.

Certificates, all other, required by law, no elsewhere specified—10 cents.

Charter contracts or agreements, or renewals or transfers of:

For vessels not exceeding 300 tons—\$3.

For vessels exceeding 300 and not exceeding 600 tons—\$5.

For vessels exceeding 600 tons—\$10.

Broker's note or memorandum of sale—1 cent.

Conveyance deed or instrument or written transferring realty:

When value exceeds \$100 and does not exceed \$500—50 cents.

For each additional \$500 or fraction thereof—50 cents.

Telegraphic dispatch—1 cent.

Custom-house entry of merchandise:

Not exceeding \$100 in value—25 cents.

Exceeding \$100 and not exceeding \$500—1 cent.

Exceeding \$500—\$1.

Entry for withdrawal of merchandise from customs bonded warehouse—50 cents.

Life insurance policies (except any fraternal beneficiary society or order, or farmer purely local co-operative company or a association, or employees' relief associations operated on the lodge system, or local co-operation plan, organized and conducted solely by the members thereof for the exclusive benefit of its members and not for profit):

For each \$100 or fractional part of—cents.

On policies issued on weekly payment plan—40 per cent on amount of first weekly premium.

Insurance policies (marine, inland, fire), except purely co-operative or mutual, on each dollar of the amount of premium— $\frac{1}{2}$  of 1 cent.

Insurance policies (casualty, fidelity and guaranty, on each dollar of amount of premium— $\frac{1}{2}$  of 1 cent.

Lease, agreement or contract for rent: Not exceeding one year—25 cents. Exceeding one year and not exceeding three years—60 cents. Exceeding three years—\$1.

Manifest for entry or clearance of vessel for foreign port: When registered tonnage does not exceed 300 tons—41. When registered tonnage exceeds 300 tons and does not exceed 600 tons—\$3. When registered tonnage exceeds 600 tons—\$5.

Mortgage or pledge of lands, estate or property, real or personal, or assignment, transfer, or renewal of: Exceeding \$1,000 and not exceeding \$1,500—25 cents. On each \$500, or fractional part of, in excess of \$1,500—25 cents.

Passage tickets from United States to foreign ports: Costing not over \$30—\$1. Costing more than \$30 and not over \$40—\$2. Costing more than \$40—\$5.

Power of attorney, or proxy for voting at any election of officers of any incorporated company or association, except religious, charitable or literary, or public cemeteries—10 cents.

Power of attorney, other—25 cents.

Protests of notes, etc.—25 cents.

Warehouse receipts—1 cent.

Medicinal proprietary articles and preparations (on every packet, box, bottle, pot, phial, or other inclosure): On retail value not exceeding 5 cents— $\frac{1}{4}$  of 1 cent. Exceeding 5 cents and not exceeding 10 cents—2-3 of 1 cent. Exceeding 10 cents and not exceeding 15 cents— $\frac{1}{2}$  of 1 cent. Exceeding 15 cents and not exceeding 25 cents— $\frac{3}{4}$  of 1 cent. Each additional 25 cents of retail price or fractional part thereof— $\frac{1}{4}$  of 1 cent.

Perfumery, cosmetics and other similar articles (on every packet, box, bottle, etc.): On retail value not exceeding 5 cents— $\frac{1}{4}$  of 1 cent. Exceeding 5 cents and not exceeding 10 cents—2-3 of 1 cent. Exceeding 10 cents and not exceeding 15 cents— $\frac{1}{2}$  of 1 cent. Exceeding 15 cents and not exceeding 25 cents— $\frac{3}{4}$  of 1 cent. Each additional 25 cents or part of— $\frac{1}{4}$  of 1 cent.

Sparkling or other wines, bottled: Each bottle containing one pint or less—1 cent. Each bottle containing more than one pint—2 cents.

Chewing gum, or substitutes: On each jar, box or other package, of not more than \$1 retail value—4 cents. On each additional \$1 or part thereof—4 cents.

On every ticket sold for a seat in a palace or parlor car, or berth in a sleeping car—1 cent.

## ANNUAL EXCISE TAX.

Corporation, company, person or firm refin-

ing petroleum or sugar, or owning or controlling any pipe line for transporting oil or other products where gross annual receipts exceed \$350,000—on gross amount of receipts in excess of \$350,000— $\frac{1}{4}$  of 1 per cent.

## LEGACIES AND DISTRIBUTIVE SHARES OF PERSONAL PROPERTY.

[To take effect on date of act.]

- Where the person or persons entitled to beneficial interest shall be the lineal issue or lineal ancestor, brother or sister of deceased:
  - When the whole amount exceeds \$10,000 and does not exceed \$35,000—75 cents on each \$100.
  - When the whole amount exceeds \$35,000 and does not exceed \$100,000—\$1.125 on each \$100.
  - When the whole amount exceeds \$100,000 and does not exceed \$500,000—\$1.50 on each \$100.
  - When the whole amount exceeds \$500,000 and does not exceed \$1,000,000—\$1.875 on each \$100.
  - When the whole amount exceeds \$1,000,000—\$2.25 on each \$100.
- Where the person or persons entitled to beneficial interest shall be the descendant of a brother or sister:
  - When the whole amount exceeds \$10,000 and does not exceed \$25,000—\$1.50 on each \$100.
  - When the whole amount exceeds \$25,000 and does not exceed \$100,000—\$2.25 on each \$100.
  - When the whole amount exceeds \$100,000 and does not exceed \$500,000—\$3 on each \$100.
  - When the whole amount exceeds \$500,000 and does not exceed \$1,000,000—\$3.75 on each \$100.
  - When the whole amount exceeds \$1,000,000—\$4.50 on each \$100.
- Where the person or persons entitled to any beneficial interest shall be the brother or sister of the father or mother or a descendant of a brother or sister of the father or mother:
  - When the whole amount exceeds \$10,000 and does not exceed \$25,000—\$3 on each \$100.
  - When the whole amount exceeds \$25,000 and does not exceed \$100,000—\$4.50 on each \$100.
  - When the whole amount exceeds \$100,000 and does not exceed \$500,000—\$6 on each \$100.
  - When the whole amount exceeds \$500,000 and does not exceed \$1,000,000—\$7.50 on each \$100.
  - When the whole amount exceeds \$1,000,000—\$9 on each \$100.
- Where the person or persons entitled to beneficial interest shall be the brother or sister of the grandfather or grandmother or a descendant of the brother or sister of the grandfather or grandmother:
  - When the whole amount exceeds \$10,000 and does not exceed \$25,000—\$4 on each \$100.
  - When the whole amount exceeds \$25,000 and does not exceed \$100,000—\$6 on each \$100.
  - When the whole amount exceeds \$100,000 and does not exceed \$500,000—\$9 on each \$100.
  - When the whole amount exceeds \$500,000 and does not exceed \$1,000,000—\$10 on each \$100.

When the whole amount exceeds \$1,000,-  
000—\$12 on each \$100.

5. Where the person or persons entitled to beneficial interest shall be a person of any other degree of collateral consanguinity, or a stranger in blood, or a body politic or corporation.

When the whole amount exceeds \$10,000 and does not exceed \$25,000—\$5 on each \$100.

When the whole amount exceeds \$25,000 and does not exceed \$100,000—\$7.50 on each \$100.

When the whole amount exceeds \$100,000 and does not exceed \$500,000—\$10 on each \$100.

When the whole amount exceeds \$500,000 and does not exceed \$1,000,000—\$12.50 on each \$100.

When the whole amount exceeds \$1,000,-  
000—\$15 on each \$100.

## MIXED FLOUR.

[To take effect sixty days after passage of act.]

Person, firm or corporation making, packing or repacking—\$12 per annum.

On each barrel or package containing more than 38 pounds and not more than 196 pounds—4 cents per barrel or package.

On each half-barrel or package containing more than 49 pounds and not more than 98 pounds—2 cents per barrel or package.

On each quarter-barrel or package containing more than 24½ pounds and not more than 49 pounds—1 cent per barrel or package.

On each eighth-barrel or package containing 24½ pounds or less—½ cent per barrel or package.

## CUSTOMS DUTIES.

[To take effect on date of act.]

Tea imported from foreign countries—10 cents per pound.

## EXPORTS OF MINERAL OILS.

The large production of mineral oils in other parts of the world, while it has not reduced our exportation, has probably reduced the prices which our producers and exporters have been able to realize. The exports of oil in the year 1898 were practically double those of 1888 and three times those of 1878, but the money received for them was only about 25 per cent greater than that received either in 1878 or 1888. The total receipts for the 1,034,269,676 gallons of oil exported in 1898 were \$54,124,578, while for the 578,351,638 gallons exported in 1888 the receipts were \$47,043,409, and for the 328,841,303 gallons exported in 1878 the receipts were \$46,574,974. The average export value of refined illuminating oil was in 1872 24.9 cents per gallon; in 1878, 14.4 cents per gallon; in 1888, 7.9 cents per gallon, and in 1898, 5.2 cents per gallon, having thus fallen from 24.9 cents to 5.2 cents from 1872 to 1898. Notwithstanding this steady fall the production and exportation continues to increase, the exports having increased over 60,000,000 gallons in the last year over that of the preceding year and over 100,000,000 gallons over that of any earlier year, while the production for 1897 was 2,525,067,954 gallons, against 2,033,331,972 in 1894, 1,476,367,546 in 1890, 1,017,174,396 in 1885, 826,394,132 in 1880 and 510,825,588 in 1876. Thus, while the price has been steadily and rapidly falling, the quantity produced and the quantity exported have as steadily and rapidly increased. The production in 1897 was five times that of 1876 and the exportation of last year nearly five times that of 1876. Great as the fall in price has been, the exports of illuminating oil bring over \$1,000,000 a week into the country and have in the last twenty years added a round \$1,000,000,000 to our foreign sales.

The following table shows the quantity and value of our exports of mineral oils of all grades since 1876:

Year.	Gallons.	Value.
1876.....	221,965,308	\$30,078,568
1877.....	243,660,153	32,915,786
1878.....	209,198,914	61,789,438

## POLITICAL MOVEMENTS OF THE YEAR 1898.

Arranged in the Order of Their Occurrence.

## BIMETALLIC LEAGUE OF THE OHIO VALLEY.

The second annual convention of this organization was held at Indianapolis, Ind., on the 7th of April. While nominally a financial gathering it was in fact political in its character and strongly advocated the nomination of Mr. Bryan for the presidency in 1900, while the sentiment among the delegates was strongly in favor of George Fred Williams of Massachusetts for the second place on the national ticket. Judge James P. Tarvin of Covington, Ky., presided, and the following resolutions were adopted:

"Resolved, by the League of Bimetallic Clubs of the Ohio Valley, in annual convention assembled at Indianapolis on April 7, 1898, that we regard the financial question as the paramount political issue of the day, and hereby pledge ourselves to continue the battle for bimetallicism until the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, with full legal tender quality, is secured, without waiting for the consent or co-operation of any other nation.

"We are unalterably opposed to the single gold standard and the so-called reform of the Indianapolis monetary convention and all kindred projects.

"We believe that congress alone has power to coin and issue money and that this power should not be delegated to individuals and corporations; that the power to control and regulate a paper currency is inseparable from the power to coin money, and that all currency intended to circulate as money should be issued and its volume controlled by the general government only.

"We invite the co-operation of all persons who believe that the financial question is the paramount political issue and urge that all other domestic questions be held in abeyance until the principles enumerated in the foregoing resolutions shall be embodied into law.

"We express our continued confidence in the brave and sagacious leader of the bimetallic forces in 1896, William Jennings Bryan, whose high character, eminent ability, impeccable integrity, dauntless courage, inspired with unparalleled devotion the democratic silver republican and populist hosts in 1896.

"We extend our sympathy to the struggling and starving Cuban patriots in their contest for liberty, and are in favor of immediate intervention by the United States to secure the absolute independence of the Cuban republic. And while we deprecate war, unless necessary to maintain the national honor and to enforce the rule of civilization and humanity in this hemisphere, we favor such a vigorous foreign policy as will preserve the dignity of the nation, secure proper respect for the stars and stripes and prevent in future the cowardly assassination of our brave and gallant sailors."

The following officers were chosen for the ensuing year: President, James P. Tarvin, Covington, Ky.; vice-presidents, N. R. Tucker of Ohio, F. J. Van Voorhis of Indiana, A. C. Bentley of Illinois; secretary, Allen C. Clark of Indiana; treasurer, Col. Shote of Ohio.

Louisville, Ky., was designated as the place for holding the convention of 1899.

## THE SOCIAL DEMOCRACY OF AMERICA.

This organization held a meeting in Chicago, Ill., in June, which resulted in a split. Mr. Debs and his followers retiring to another hall and organizing a new political party. The point of difference was the colonization scheme which Mr. Debs had once championed, but which experiment had satisfied him was chimerical and fatal to the purposes of the organization. The question of colonization came up, and after a night of rather bitter debate the convention upheld colonization by a vote of 52 to 34, when Mr. Debs and his followers withdrew. The leaders claim something like 4,000 members for the new organization. The following platform was adopted:

"Labor, manual and mental, being the creator of all wealth and all civilization, it rightfully follows that those who perform all labor and create all wealth should enjoy the fruit of their efforts. This is rendered impossible by the modern system of production. The fruits of co-operative labor are in a great measure appropriated by the owners of the means of production. This system is gradually extinguishing the middle class and necessarily leaves but two classes in our country—the large class of workers and the small class of great employers and capitalists. The producers can never be in reality free until they become the owners of the means of production. This is possible in but two ways:

"1. Individual ownership, which has never been generally realized and which the industrial development is from day to day obliterating and rendering impossible.

"2. Social ownership, which has been made necessary by the development of the mode of production. The individual instrument, the tool has developed into a social instrument, the machine. In order to conform to the change we must substitute social ownership for individual ownership of the means of production.

"This social control of the means of production must naturally follow the economic development. To accomplish the transition it is necessary that the producers of the country shall unite in an independent political party, the social democratic party of America, which aims to effect the change by all honorable means at the disposal of the producers, especially the ballot, which from a means of corruption and office-hunting must be transformed into a means of emancipation.

"To arrive at this end we declare in favor of the following demands:

"1. The public ownership of all industries controlled by monopolies, trusts and combines.

"2. The public ownership of all railroads, telegraphs, telephones, all means of transportation, communication, water works, gas and electric plants and all other public utilities.

"3. The public ownership of gold, silver, copper, lead, coal, iron and all other mines; also all oil and gas wells.

"4. Reduction of the hours of labor in proportion to the progress of production.

"5. The inauguration of a system of public works and improvements for the employ-

ment of the unemployed, the public credit to be utilized for that purpose.

"6. All useful inventions to be free to all, the inventor to be remunerated by the public.

"7. The people to provide honorable maintenance for aged and disabled toilers.

"8. Labor legislation to be made national instead of local and international where possible.

"9. National insurance of working people against accidents and lack of employment.

"10. Equal civil and political rights for women and the abolition of all laws discriminating against women.

"11. The adoption of the initiative and referendum and the right of recall of representatives by the voters; also minority representation.

"12. Abolition of war as far as the United States is concerned and the introduction of international arbitration instead.

"Draft of a farmers' programme—While in the field of industry the instruments of production have become centralized to such a degree that only in collective form can they be restored to the producers, this is by no means the case in the field of agriculture; here the main instrument of production—to wit, the soil—is generally the individual possession of the producer. We adopt the following platform for the purpose of uniting the workers in the country with those in the city:

"1. Nationalisation of all mortgages on land, the rate of interest to be lowered to cost price.

"2. The national credit to be at the disposal of the farmers for improvement of their land to the extent of half its value. Money to be issued for this purpose, which is to be destroyed when the instalments are paid.

"3. No more public land to be sold, but to be utilized by the United States or the state directly for the public benefit, or leased to farmers in small parcels of not over 640 acres, the state to make strict regulations as to improvement and cultivation. Forests and waterways to be put under direct control of the nation.

"4. Erection of grain elevators, magazines and cold-storage buildings by the nation to be used by the farmers at cost price.

"5. A uniform postal rate for the transportation of agricultural products on all railroads.

"7. Public credit to be at the disposal of counties and towns for the improvement of roads and soil and for irrigation and drainage. Money to be used for such purpose to be destroyed when repaid."

#### THE PEOPLE'S PARTY CONVENTION.

Pursuant to a call issued by the national organization committee of the people's party a convention was held in Cincinnati, O., on the 6th day of September. The delegates, numbering about 246, who were in attendance represented that wing of the party known as the "middle-of-the-road" or "non-fusionist" element. Ignatius Donnelly of Minnesota was chosen chairman of the convention. A committee on resolutions was appointed to present an address to the people of the United States and to formulate a platform. This committee was composed of the following named delegates:

Florida, F. H. Lytle; Georgia, W. J. McDaniel; Illinois, Ray Goodwin; Indiana, O. L. Ross; Kentucky, Jo A. Parker; Michigan, James E. McBride; Mississippi, Frank

Burkitt; Ohio, John Phalen; Pennsylvania, Wharton Barker; Tennessee, Horne Merritt; Minnesota, Ignatius Donnelly; Missouri, W. O. Atkeson; Arkansas, M. K. Coffman.

The committee presented the following address and platform, which were adopted:

"Prosperity is the first right of a people.

"The preamble of the constitution of the United States declares the purpose of that instrument to be to 'promote the general welfare'—in other words, to enrich the people and make them happy.

"Liberty is desired of all men, because it means equality of opportunity; and this means universal prosperity. Poverty, lacking liberty, is unable to defend itself against privilege.

"All history is but a record of the struggles of mankind to rise to happiness in the face of misgovernment.

"Labor in the ancient civilizations was but another name for slavery. All the workers in the forest, on the farm, in the shop and in the mine, were slaves.

"The monuments of Egypt still rear their massive fronts to heaven, enduring testimony to the enormities of injustice inflicted upon the workmen who built them.

"The producers of the wealth of Greece and Rome were denied happiness in life and heaven in death. They were regarded as soulless beings, forbidden to be present at the religious mysteries, and refused even the rights of sepulture.

"Their degraded estate was branded in their very faces, and when they became too numerous for their masters' safety they were slaughtered by thousands.

"The fact that they belonged to the same race, and even to the same families, as their owners did not in the least mitigate their sufferings. Nor was it considered any argument in behalf of the poor creatures that their outlawed caste had given birth to great geniuses and commanders, like Æsop, Probus, Vitellius, Diocletian, and even Augustus Cæsar.

"The producers of all food were hungry; the creators of all wealth were paupers, the manufacturers of all clothing were naked; the forgers of all weapons were defenseless.

"Out of their very faith in God were welded the chains that rendered them helpless; for they feared the denial of the sacred rites of sepulture more than they feared death itself, and the baseless hope of future bliss, in pagan heaven, were received by them as an equivalent for a life of continuous misery on earth.

"When these wretched beings, unable longer to bear the incalculable sufferings broke out in great insurrections, under Spartacus, Eunus, Athenion and others more than a million of them were crucified and left to rot on the public highways.

"The birth of the Christian religion was the first break of light amid the gloomy horrors of this awful spectacle. It came as a outburst from the depths of the oppression and servile class. Its Founder was a mechanic; His apostles fishermen. It preached to the multitude equality and universal brotherhood, the immortality of the soul and the love of a Heavenly Father. It scourged the money-changers out of the temple and consigned the wicked rich to the tortures of an eternal hell.

"The growth of Christianity was a successful insurrection of the poor and was adopted by the great only after it had embraced the great body of the people.

gradually abolished slavery, mitigated the evils of human selfishness and lifted up all mankind.

"The next step in this preordained advancement was the voyage of Columbus and the transfer of the best blood of the old world to the shores of the new. A flood of poor, hungry men struggled across the Atlantic, and, on terms of perfect equality and filled with the positive demands of liberty, spread themselves over the virgin land, kept void of inhabitants, therefore, by the providence of God.

"Then began a process of splendid development for which the previous experience of mankind had afforded no parallel. The genius of humanity cast away its chains and stepped forward into the light with a continent for an arena, surrounded by the glorious effulgence of universal prosperity.

"All who stood before it went down, and resistance was but a stepping-stone to nobler heights of development. The dreams of the poets and sages of antiquity were realized, and government of equal rights and human brotherhood, enlightened by universal education, rose like a mountain before the gaze of the astonished world.

"From the Atlantic to the Mississippi the forests were brushed away and endless gardens and magnificent cities covered the land. The bodies and the minds of men were enlarged to nobler proportions and all the magnificent qualities of the human soul shone forth with resplendent luster.

"But the width of the Atlantic had not changed human nature. Into this paradise the old serpent of injustice drove the toiler himself. He took possession of the garden and drove the toiler from beneath his vine and fig tree. He changed the lovely scene into an abode of unhappiness, filled with lamentations.

"The census of 1890 showed that one-fourth of the dwellers in this land of free homes had become tenants. While population had in ten years increased 25 per cent and wealth 45 per cent the mortgaged indebtedness on the homes of the people had, in the period, advanced 156 per cent. The farm-owning families, despite the homestead law, had increased but 2½ per cent, while the tenants of land had increased 40½ per cent.

"It was shown by that census that 4,047 families owned \$12,000,000,000 of the wealth of the whole country. In other words, three one hundredths of 1 per cent of the people owned one-fifth of all the wealth, 9 per cent of the people owned 71 per cent of the entire property of the country, while the remaining 91 per cent owned but 29 per cent of the wealth. Bankruptcy, suicide and insanity had grown beyond all precedent.

"These facts struck terror to the souls of all thinking people.

"They asked themselves, If less than 100 years of national life, starting from an ideal condition of equality, under the noblest institutions ever known to man, had produced these terrible results, what would another hundred years bring forth?

"They perceived that the great American people were rapidly becoming landless, homeless and hopeless.

"They beheld the birth of that product of modern times—the corporation—an artificial creature, unknown to the ancient world; a demon possessed of all the attributes of God's creatures, but clothed with immortal life and boundless power. They saw it rise in a few generations from

nothingness to the control of congress, state legislatures, municipal governments, the avenues of public opinion, and all the instrumentalities of production and transportation. They saw it a government within the government—levying taxes and collecting revenues never voted by the people. They saw it lessening the opportunities of labor; driving the farmer from his farm and the workman from his bench, concentrating the earth's surface in the hands of a few and consigning the toiler to change and starvation.

"Thoughtful men looked down the vista of the future and saw the people returning to the awful conditions of pre-Christian slavery. To the evil rich Christ had become but a name; the horrid image of Moloch displaced the gentle Nazarene in the hearts of the rulers of the world.

"Appalled by the revelations of the census of 1890 the friends of mankind assembled in this city of Cincinnati on the 19th and 20th days of May, 1891, in a convention of 1,415 delegates from thirty-two states, and with vast enthusiasm and complete unanimity established the people's party of the United States.

"They adjourned until Feb. 22, 1892, to meet at St. Louis, a great assemblage, representing all the extensive labor organizations of farmers and mechanics, including those which met in St. Louis in 1889, the Ocala conference of 1890 and the Omaha assemblage of the Northwestern alliance held in 1891.

"It was there unanimously resolved that a new party should be established; the call was issued for a delegate convention, to be held at Omaha on the 4th of July, 1892, to place in nomination candidates for the presidency and vice-presidency.

"The slowly gathering discontent, extending over many years, found voice at last in the preamble and resolutions of that convention.

"They built the new party on the broadest and grandest principles. They declared that 'wealth belongs to him that creates it,' and that 'every dollar taken from industry without an equivalent is robbery.' They announced that 'the interests of rural and civic labor are the same, their enemies identical.'

"They declared:

"The conditions that surround us justify our co-operation; we meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot box, the legislatures, the congress, and touches even the ermine of the bench. The people are demoralized. In most of the states have been compelled to isolate the voters at the polling places in order to prevent universal intimidation or bribery. The newspapers are subsidized, public opinion silenced, business prostrated, our homes covered with mortgages, labor impoverished and the land concentrating in the hands of capitalists. The urban workmen are denied the right of organization for self-protection; imported, pauperized labor beats down their wages; a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes, unprecedented in the history of mankind, and the possessors of these in turn despise the republic and endanger liberty. From the prolific womb of gov-

ernmental injustice we breed two great classes—tramps and millionaires.

"They denounced both the old parties as equally responsible for the terrible condition of the people. The platform said:

"We have witnessed for more than a quarter of a century the struggles of the great parties for power and plunder, while grievous wrongs have been inflicted upon a suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious efforts to prevent or restrain them. Neither do they promise us any substantial reform. They have agreed to ignore in the coming campaign every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, national banks, rings, trusts, watered stocks, the demoralization of silver and the oppression of the users may all be lost sight of. They propose to sacrifice our homes and children on the altar of Mammon, to destroy the multitude in order to secure corruption funds from the millionaires."

"Upon this platform, with its familiar concluding demands, we went before the people, and after four months' campaign we polled 1,666,424 votes and carried four states and partially two more, receiving altogether twenty-two electoral votes. The democrats won in the contest and elected Grover Cleveland president by 277 electoral votes, against 145 for Benjamin Harrison. In the campaign both the old parties kept up their 'sham battle' over the tariff and studiously ignored the great issues raised by the people's party.

"In 1893 the Omaha platform received striking corroboration from the terrible panic which fell upon the country, sweeping away banks and business and plunging millions into bankruptcy. Mr. Cleveland's panacea of free trade did not relieve the sufferings of the people. In the elections of 1894 the democratic party was generally repudiated, and it became apparent that that venerable organization must find new issues or be borne to its everlasting resting place. There did not seem to be a state it was certain to carry in 1896.

"The people's party vote in 1894 and 1896 rose to nearly 2,000,000, and everything indicated its speedy national triumph.

"In this emergency the democratic party saw that it had no resource but to steal one of the principles of the despised populists, and after having persistently opposed the remonetization of silver in congress and defeating a dozen bills looking to that end it changed front in the twinkling of an eye, and in the Chicago convention of 1896, in a prearranged, theatrical scene of great uproar and enthusiasm, moved to the front as the devoted and lifelong champion of that which it had ever opposed.

"Having stolen one of the principles of our platform it became necessary to steal our votes and break up our organization. Hence, when the people's party national convention met, a tremendous pressure was brought to bear upon it to do what no political party had ever done in the history of our country—to wit, to nominate the candidates of another party for president and vice-president and stop in mid-career of its own tremendous growth and tie itself to the doubtful fortunes and still

more doubtful sincerity of a rival organization.

"In vain it was urged upon the convention that if we maintained our separate existence and nominated our own candidates we could still unite with any other party in support of a joint electoral ticket in every state.

"If this plan had been adopted the republican party would surely have been defeated, but democracy insisted that the battle must be won under their banner. Hence our noble candidate for vice-president was ostracized and pushed aside in behalf of a man whose every principle was in fundamental antagonism to the creed of our party, and our organization with its twenty-two electoral votes and nearly 2,000,000 voters was ignored and spat upon. Our nomination was thrown back in our faces by a telegram from the gentleman we had nominated; we were denied all recognition. The telegram of declination was not produced, but our votes were carefully exploited in the election which followed.

"By an extraordinary calamity a gentleman was made chairman of our national committee and commander-in-chief of our forces who had achieved success by a combination with republicans, and who was ready to equalize things by sacrificing our party to accomplish another unholy union with the democrats.

He preached disintegration and demoralization, just as Benedict Arnold stipulated for the scattering of the American forces: that the British might the more readily overthrow the young republic. Mr. Butler taught our forces the first duty of a soldier was to break ranks and go over to the enemy. It was as if Gen. Miles had issued orders to our troops at Santiago to tear down the American flag and merge into the Spaniards—because we all thought alike of the question of God and the immortality of the soul.

"All efforts to chain the boundless subtlety of this cunning man had been in vain. As late as Aug. 25, 1898, in a speech at Denver, Col., despite all previous compacts and promises, he urged all friends of free silver to act together, and he denounced those who were 'trying to divide its friends because they differed on other questions. And yet he well knew that the republicans and prohibitionists of Colorado and all the western states were also in favor of free silver, and that there was just as much reason to unite with them as with the democrats. He also knew that where a smaller and weaker party unites with a greater and stronger it is the inevitable union of the lion and the lamb. He knew that the experiment had nearly obliterated the people's party in several states and that he was leading the rest of those who trusted him into the abyss where repose the moldering bones of the greenback party. He well knew that the free-silver issue was but one of many planks of the people's party, and while desirable in itself could not bring the people relief if corporate power were to continue to rule the nation and plunder unchecked the industry of the land.

"Our chief battle is not against the demoralization of one metal for the benefit of another, but against the chaining of the world's progress to the car wheels of prehistoric superstition in the shape of both metals. The growth of population and the happiness of mankind are thus made con-

tingent upon accidental discoveries of two intrinsically worthless metals. The whole adoration of gold and silver is but a survival of pagan barbarism, more deadly in its effects than slavery, polygamy and witchcraft.

"While it is conceded that money is a governmental measure of value, and consists not in its material but in the stamp of the nation, the whole world is to-day held in check by a system of gold bars, while enterprise languishes, industry suffers and cemeteries are becoming populous with the bodies of bankrupts and suicides. Recognizing that a terrible emergency requires desperate remedies and that we must appeal to the highest qualities of the human mind and heart, and not in degrading 'dickers' and trades of scrambling politicians, we cast aside all precedents and go directly to the people. We commence anew the campaign of education which gave us, in the first two years of our existence, nearly 2,000,000 votes.

"We believe the soul is bigger than the pocketbook. We address ourselves to the reason of men and their love of country. We have nothing but kind words for democrats and republicans, individually. We beg them to join our ranks and help us fight the battles of mankind. For those who, eager for immediate results, have innocently left us and merged with the enemy and helped on our demoralization, we extend the open arms of invitation and reconciliation. We ask them for the sake of the great truths which fired their hearts in 1892 to be with us in 1898 and forever after. If the birth of our party was demanded by events six years ago circumstances clamor in thunder tones for its continuance to-day. The whole experiment of self-government is at stake. We are about to add to our population as many millions of alien and strange people as our whole voting force amounts to, and no one can say how soon these will be dragged to the ballot box by the money power to bury our liberties in universal ruin.

"By all the dreadful past of the world, by the memory of all the millions who ended lives of miserable enslavement in degraded graves, by the teachings and sacrifices of the martyred Christ, by the sufferings of the great revolution that made us a nation, by all the hopes of humanity all over this round globe, we implore our fellow-citizens to unite with us in one grand effort to build up a reform party that will liberate mankind.

"Our hearts go out to the wretched and oppressed of the whole world, and if placed in power in this country we shall try to do as to help all mankind.

#### PLATFORM OF THE REVIVIFIED PEOPLE'S PARTY.

"As a fundamental step to the preservation of our endangered liberties we demand that the reign of corruption shall cease in our legislative halls by the establishment of direct legislation. We must shorten the plow handles of government by bringing the legislator closer to his principals—so close that no lobbyist can intrude between them. Through the initiative and referendum all moral and political questions can be submitted to a fair and impartial vote of the people and if adopted by a majority of the voters become the law of the land.

"While we demand that if either gold or silver is to be used as money both shall be

so used, we insist that the best currency this country ever possessed was the full legal tender greenback of the civil war. And we look forward with hope to the day when gold shall be relegated to the arts of the country and the human family possess free of tribute to bankers, a governmental full legal measure of value, made of paper, that will expand side by side with the growth of wealth and population. Then, and only then, will the people realize the full benefits of civilization and the world be made a garden of delights for mankind.

"We call attention to the public school system and the postal service as exemplifications of a beneficent state socialism which our people would only relinquish with their lives. And we demand that the carrying of messages written with pen and ink be amplified to embrace messages written by electricity, and that the train of cars which carries our letters be owned by the government to carry those who wrote the letters. No other reforms will avail much if corporations are permitted to say how much they shall take from the producers and how much they will leave them. This is taxation without representation in its worst form. It is the disgrace of our republic that foreign despots have defended the right of the people in these particulars, while corruption has made self-government a helpless failure in this land. We believe in the collective ownership of those means of production and distribution which the people may elect, such as railways, telegraphs, telephones, coal mines, etc.

"We are opposed to individuals or corporations fastening themselves, like vampires, on the people, and sucking their substance, and we demand that whatever can be better done by government for the enrichment of the many shall not be turned over to individuals for the aggrandizement of the few.

"Hence we insist that banks have no more right to create our money than they would have to organize our army or pass our laws.

"We reaffirm the fundamental principles of the Omaha platform and declare it to be the immutable creed of our party, coeval with it in birth and filled with the spirit that launched it on its grand career. It must not be whittled away or traded off for offices. The man who proposes to do this is an enemy of mankind; he would sell the kingdom of heaven for a mess of pottage.

"In order to maintain the liberties of the people we must preserve their homes, and we therefore demand laws in the several states exempting the homes of the people from taxation absolutely in a sum not less than \$2,000, and a personal property exemption of not less than \$300 to each head of a family. To make up for this reduction of taxation we favor an income, inheritance and other like taxes.

"With malice toward none, with charity to all, with devotion to the right as God gives us to see the right, we commit our cause to the hearts and consciences of the American people."

After the adoption of the address and platform the convention proceeded to the nomination of candidates for the presidency and vice-presidency. Upon a call of the states Mr. Rahilly of Minnesota presented the name of Ignatius Donnelly; Dr. Fay of the same state and Mr. Burton of Illinois seconded the nomination. Florida yielding

to Michigan. Mr. Fogg of the latter state presented the name of Wharton Barker of Pennsylvania. Mr. McDaniel of Georgia and Mr. Kogan of Tennessee seconded the nomination. Mr. Houghwatt of Missouri presented the name of Frank Burkitt of Mississippi, but he declined. Nominations being declared closed, the roll was called by states and resulted in 123 4-5 votes for Barker and 117 1-5 votes for Donnelly, whereupon Mr. Donnelly moved to make the nomination unanimous, and Wharton Barker of Pennsylvania was declared to be the nominee of the convention for president of the United States.

The nomination of a candidate for vice-president being in order, Dr. Fay of Minnesota presented the name of Ignatius Don-

nely, whereupon the nomination was made by acclamation.

Capt. Burkitt of Mississippi moved the following resolutions, which were adopted: "Whereas, The sole object of this convention has been and is to secure to the rank and file of the people's party an absolute certainty that a straight populist ticket on a straight populist platform should be presented to them in 1900; therefore,

"Resolved, That the ticket nominated here to-day is subject to a referendum vote of the populists of the United States.

"Resolved, second, That the referendum vote above referred to shall be taken in accordance with the plan provided in the report of the committee on plan of organization made to this convention."

### CANADIAN-AMERICAN JOINT COMMISSION.

For several years the perplexing questions and disputes between the Canadian and United States governments have been increasing both in number and gravity. Some of these have at times assumed threatening aspects, and it has only been because both countries were determined to prevent a clash that serious complications have been avoided. With the purchase of Alaska by the United States the right of this government to protect the seals in the waters of the North Pacific was so energetically disputed both by Great Britain and Canada that an open rupture was seriously threatened, but after several attempts on the part of our government to bring about a peaceable solution of the question it is yet an open que. The boundary line between British Columbia and this country has been given an additional importance by the discovery of gold in the Klondike region and serious disputes over the collection of customs duties.

On the 30th of May, 1898, negotiations were begun in Washington with the view to the drawing of a treaty which would settle and dispose of all the questions in controversy between the two governments. The conference was conducted by Sir Julian Pauncefote, British ambassador, and Sir Louis H. Davies, Canadian minister of marine and fisheries, representing Great Britain and Canada, on the one hand, and on the other ex-Secretary of State John W. Foster and John A. Kasson, reciprocity commissioner, representing the United States. On the 25th of May an agreement was concluded between them for the creation of a joint commission, the members of which should be appointed by the executive branches of the two governments, to negotiate a treaty adjusting, so far as possible, all subjects of controversy between Canada and the United States. To defray the expenses of the commissioners congress appropriated the sum of \$50,000 and Quebec was designated as the place of meeting of the commissioners.

The president appointed as representatives of the United States Charles W. Fairbanks of Indiana, United States senator (Rep.); Charles J. Faulkner of West Virginia, United States senator (Dem.); Nelson Dingley of Maine, member of the house of representatives (Rep.); John A. Kasson of Iowa, United States reciprocity commissioner (Rep.); John W. Foster of the District of Columbia (Rep.); T. Jefferson Coolidge of Massachusetts.

The queen appointed as representatives of Great Britain and Canada Baron Herschell, lord high chancellor of England; Sir Wil-

frid Laurier, G. C. M. G., premier of Canada; Sir Richard Cartwright, K. C. M. G., Canadian minister of trade and commerce; Sir Louis Henry Davies, Canadian minister of marine and fisheries; Sir James T. Winter, premier of Newfoundland.

The first meeting of the joint commission was at Quebec on the 21st of August, 1898.

The principal questions for the consideration of the commission are as follows:

1. The questions in respect to fur seals in Bering sea and the waters of the North Pacific ocean.

2. Provisions in respect to fisheries off the Atlantic and Pacific coasts and in the waters of their common frontiers.

3. Provisions for the delimitation and establishment of the Alaska-Canadian boundary by legal and scientific experts, if the commission shall so decide, or otherwise.

4. Provisions for the transit of merchandise in transportation to or from either country, across intermediate territory of the other, whether by land or water, including natural and artificial waterways and intermediate transit by sea.

5. Provisions relating to the transit of merchandise from one country to be delivered at points in the other beyond the frontier.

6. The question of the alien labor laws, applicable to the subjects or citizens of the United States and of Canada.

7. Mining rights of the citizens or subjects of each country within the territory of the other.

8. Such readjustment and concessions as may be deemed mutually advantageous of customs duties applicable in each country to the products of the soil or industry of the other upon the basis of reciprocal equivalents.

9. A revision of the agreement of 1817 respecting naval vessels on the lakes.

10. Arrangements for the more complete definition and marking of any part of the frontier line by land or water where the same is now so insufficiently defined or marked as to be liable to dispute.

11. Provisions for the conveyance for trial or punishment of persons in the lawful custody of the officers of one country through the territory of the other.

12. Reciprocity in wrecking and salvage rights.

Other questions relating to the United States and Canada will undoubtedly be brought before the commission as the work goes forward. The findings will be submitted in the form of a treaty for the approval of the senate of the United States and of Great Britain.

## Military Societies of the United States.

## SOCIETY OF THE CINCIINNATI.

## GENERAL OFFICERS.

*President-General*—William Wayne, Pa.  
*Vice-President-General*—Whinslow Warren, Mass.  
*Treasurer-General*—Vacant.  
*Secretary-General*—Hon. Asa Bird Gardiner, LL. D., of Rhode Island, Garden City, N. Y.  
*Assistant Secretary-General*—Nich. Fish, N. Y.

## STATE SOCIETIES.

*Massachusetts*—Organized June 9, 1783; Winslow Warren, president.  
*New York*—Organized June 9, 1778; William G. Wood, president, New York city.  
*Pennsylvania*—Organized Oct. 4, 1783; Hon. William Wayne, president, Paoli, Chester county, Pa.  
*Maryland*—Organized Nov. 21, 1788.  
*Rhode Island*—Organized June 24, 1783; Hon. Nathaniel Greene, president, Newport, R. I.  
*New Jersey*—Organized June 11, 1783; William S. Stryker, president, Mount Holly, N. J.  
*Connecticut* (revived 1898)—George B. Sanford, acting president.  
*South Carolina*—Organized Aug. 29, 1783; James Simons, president, Charleston, S. C.  
*Virginia*—John Cropper, president.

*France*—Organized at Paris Jan. 7, 1784; re-instituted July 1, 1887; Marquis de Rochambeau, president, 51 Rue de Naples, Paris.  
 The historic and patriotic Order of the Cincinnati was founded by the American and French officers at the cantonments of the continental army on the Hudson at the close of hostilities in the war of the revolution for American independence in May, 1783.

In forming the society it was declared that "to perpetuate, therefore, as well the remembrance of this vast event as the mutual friendships which have been formed under the pressure of common danger and, in many instances, cemented by the blood of the parties, the officers of the American army do hereby, in the most solemn manner, associate, constitute and combine themselves into one society of friends, to endure as long as they shall endure, or any of their eldest male posterity, and in failure thereof the collateral branches who may be judged worthy of becoming its supporters and members."

Membership descends to the eldest lineal male descendant, if judged worthy, and, in failure of direct male descent, to male descendants through intervening female descendants.

The number of living members of the Society of the Cincinnati, as reported at the triennial meeting May, 1893, was 430.

## SOCIETY OF THE SONS OF THE AMERICAN REVOLUTION.

[Organized June 29, 1876.]

## GENERAL OFFICERS.

Elected April 30, 1896.

*President-General*—Edwin Shepard Barrett, 15 Broad street, New York city.  
*Vice-Presidents-General*—Col. Thos. M. Anderson, U. S. A., Vancouver Barracks, Wash.; John Whitehead, Morristown, N. J.; James M. Richardson, Cleveland, O.; Franklin Murphy, Newark, N. J.; Gen. Joseph C. Breckinridge, U. S. A., Washington, D. C.  
*Secretary-General*—S. E. Gross, Chicago, Ill.  
*Treasurer-General*—C. W. Haskins, 30 Broad street, New York city.  
*Registrar-General*—A. Howard Clarke, Washington city.  
*Historian-General*—E. M. Gallaudet, Washington, D. C.  
*Chaplain-General*—Rev. Rufus W. Clark, D.D., Detroit, Mich.

## STATE SOCIETIES AND OFFICERS.

*Arizona*—H. F. Robinson, president, Phoenix.  
*Arkansas*—S. W. Williams, president, Little Rock.  
*California*—J. C. Currier, president, San Francisco.  
*Colorado*—J. F. Tuttle, Jr., president, Denver.  
*Connecticut*—Jonathan Trumbull, president, Norwich.  
*Delaware*—Wm. A. La Motte, president, Wilmington.  
*District of Columbia*—Edw. M. Gallaudet, LL. D., president, Washington.  
*Florida*—Hon. John C. Avery, president, Pensacola.  
*France*—Gen. Horace Porter, president, Paris.  
*Hawaii*—Peter Cushman Jones, president, Honolulu.  
*Illinois*—I. B. Blackwelder, president, Chicago.  
*Indiana*—Wm. E. Engleah, president, Indianapolis.  
*Iowa*—G. H. Richardson, president, Belmont.  
*Kansas*—George D. Hale, president, Topeka.

*Kentucky*—Geo. D. Todd, president, Louisville.  
*Louisiana*—Marshall J. Smith, president, New Orleans.  
*Maine*—Archie L. Talbot, president, Lewiston.  
*Maryland*—Joseph L. Brent, president, Baltimore.  
*Massachusetts*—F. H. Appleton, president, Boston.  
*Michigan*—Thos. W. Palmer, president, Detroit.  
*Minnesota*—Daniel R. Noyes, president, St. Paul.  
*Missouri*—Gen. Geo. H. Shields, president, St. Louis.  
*Montana*—Arthur J. Craven, president, Helena.  
*Nebraska*—John R. Webster, president, Omaha.  
*New Hampshire*—Howard L. Porter, president, Concord.  
*New Jersey*—John Whitehead, president, Morristown.  
*New York*—Chauncey M. Depew, president, New York city.  
*Ohio*—J. W. Richardson, president, Cincinnati.  
*Oregon*—Col. Thomas M. Anderson, president, Vancouver Barracks, Wash.  
*Pennsylvania*—W. A. Herron, president, Pittsburg.  
*Rhode Island*—W. T. C. Wardwell, president, Providence.  
*Texas*—Ira H. Evans, president, Austin.  
*Utah*—Eugene Lewis, president, Salt Lake City.  
*Vermont*—Jackson Kimball, president, Waterbury.  
*Virginia*—Chas. U. Williams, president, Richmond.  
*Washington*—Col. S. W. Scott, president, Seattle.  
*Wisconsin*—Geo. H. Noyes, president, Milwaukee.

The membership of the society was 9,141 at the annual meeting in Morristown, N. J., April 30, 1895.

# SONS OF THE REVOLUTION.

[Organized 1875.]

## GENERAL OFFICERS.

*General President*—Hon. John Lee Carroll, Ellicott City, Md.  
*General Vice-President*—Garret Dorset Wall Vroom, Trenton, N. J.  
*Second General Vice-President*—John Screven, Savannah, Ga.  
*General Secretary*—James Mortimer Montgomery, N. Y.  
*Assistant General Secretary*—William Hall Harris, Baltimore, Md.  
*General Treasurer*—Richard McCall Cadwalader, Philadelphia, Pa.  
*Assistant General Treasurer*—Henry Cadle, Bethany, Mo.  
*General Chaplain*—Rt.-Rev. Henry Benjamin Whipple, D. D., L.L.D., Faribault, Minn.  
*General Registrar*—Francis Ellingwood Abbot, Cambridge, Mass.  
*Mergal Historian*—Gallard Hunt, Washington, D. C.

## MILITARY ORDER OF THE LOYAL LEGION OF THE UNITED STATES.

[Instituted 1865. Membership July 31, 1886, 9,071.]

**Commander-in-Chief**—Rear-Admiral Bancroft Gherard, U. S. N., New York city.

**Senior Vice-Commander-in-Chief**—Brig. Gen. Selden Connor, U. S. V., Portland, Me.

*Junior Vice-Commander-in-Chief* - Bvt. Maj.-Gen. John R. Brooke, U. S. A., Chicago, Ill.

*Recorder-in-Chief* - Bvt. Lieut.-Col. J. P. Nicholson, U. S. V., Philadelphia, Pa.

*Register-in-Chief* - Bvt. Maj. W. P. Huxford, Washington, D. C.

*Treasurer-in-Chief* - Col. Cornelius Cadle.

*Chaplain-in-Chief* - Rev. Henry Hopkins.

#### COMMANDERIES.

*Pennsylvania* - Bvt. Maj.-Gen. D. McM. Gregg, U. S. V., commander; Bvt. Lieut.-Col. John P. Nicholson, U. S. V., recorder, Philadelphia.

*New York* - Maj.-Gen. Grenville M. Dodge, U. S. V., commander; Paymaster A. Noel Blakeman, U. S. N., recorder, New York.

*Maine* - Bvt. Brig.-Gen. Charles W. Tilden, U. S. V., commander; Bvt. Maj. Henry S. Burroughs, U. S. V., recorder, Portland.

*Massachusetts* - Bvt. Brig.-Gen. Henry S. Russell, U. S. V., commander; Col. Arnold A. Rand, U. S. V., recorder, Boston.

*California* - Capt. John C. Currier, U. S. V., commander; Bvt. Lieut.-Col. William R. Smedberg, U. S. A., recorder, San Francisco.

*Wisconsin* - Capt. Fred H. Magdeburg, U. S. V., commander; Capt. A. Ross Houston, U. S. V., recorder, Milwaukee.

*Illinois* - Lieut.-Col. Charles W. Davis, U. S. V., commander; Capt. Roswell H. Mason, U. S. V., recorder, Chicago.

*District of Columbia* - Col. John M. Harlan, U. S. V., commander; Bvt. Maj. William P. Huxford, U. S. A., recorder, Washington.

*Ohio* - Bvt. Lieut.-Col. Wm. R. Warnock, U. S.

V., commander; Bvt. Maj. Augustus M. Van Dyke, U. S. V., recorder, Cincinnati.

*Michigan* - Lieut.-Col. Claudino B. Grant, U. S. V., commander; Bvt. Brig.-Gen. F. W. Swift, U. S. V., recorder, Detroit.

*Minnesota* - Bvt. Brig.-Gen. James H. Baker, U. S. V., commander; Lieut. David L. Kingsbury, U. S. V., recorder, St. Paul.

*Oregon* - Bvt. Maj. John H. Woodward, U. S.

V., commander; Mr. Robert G. Morrow, recorder, Portland.

*Missouri* - Capt. Samuel W. Fordyce, U. S. V., vice-commander; Capt. William R. Hodges, U. S. V., recorder, St. Louis.

*Nebraska* - Bvt. Brig.-Gen. Charles F. Mander-son, U. S. V., commander; Lieut. F. B. Bryant, U. S. V., recorder, Omaha.

*Kansas* - Capt. Bertrand Rockwell, U. S. V., commander; Capt. W. B. Reynolds, U. S. A., recorder, Fort Leavenworth.

*Iowa* - Maj. Samuel Mahon, U. S. V., commander; Lieut. Joseph W. Muffy, U. S. V., recorder, Des Moines.

*Colorado* - Lieut. Julius B. Bissell, U. S. V., commander; Lieut. James R. Saville, U. S. V., recorder, Denver.

*Indiana* - Rear-Admiral George Brown, U. S. N., commander; Bvt. Col. Z. A. Smith, U. S. V., recorder, Indianapolis.

*Washington* - Lieut.-Col. James B. Holt, U. S. V., commander; Capt. Henry L. Achilles, U. S. V., recorder, Tacoma.

*Vermont* - Bvt. Maj. Alonzo B. Valentine, U. S. V., commander; First Lieut. William L. Greenleaf, U. S. V., recorder, Burlington.

### GRAND ARMY OF THE REPUBLIC.

#### GENERAL OFFICERS.

*Commander-in-Chief* - James A. Sexton, Chicago, Ill.

*Senior Vice-Commander-in-Chief* - W. C. Johnson, Cincinnati, O.

*Junior Vice-Commander-in-Chief* - Daniel Ross, Wilmington, Del.

*Surgeon-General* - Dr. A. S. Pierce, Nebraska.

*Chaplain-in-Chief* - Daniel Lucas, Indianapolis, Ind.

The national council of administration has forty-five members, each department being represented by one member.

Maj.-Gen. Nelson App'n Miles	Aug. 8, 1839	Westminster, Mass.....	Oct. 5, 1896	.....	.....

\*Brevet major Sept. 30, 1783.

†Brevet brigadier-general July 31, 1787.

‡From the date of Gen. Washington's death, Dec. 14, 1799, to June 1, 1821, when Gen. Brown assumed command, there was no general officer formally assigned to the permanent command of the army. During this period direct control of the army (except at irregular intervals from June, 1800, to January, 1812, when Gen. Wilkinson exercised command) was exercised by the secretary of war. In the above list, however, the name of the senior officer of the army is given for each period specified from December, 1799, to June, 1821.

§Brevet lieutenant-general March 29, 1847. Gen. Scott left for Mexico Nov. 24, 1846, and from that date to May 11, 1848, he had no control of the army not included in his own command. He was assigned to the command of the eastern division Aug. 31, 1848, and resumed command of the army May 11, 1849.

|| Gen. McClellan did not exercise command of the army after March 11, 1862. Gen. Halleck assumed command July 23, 1862.

\*\*Lieutenant-general March 2, 1864, to July 25, 1895.

††Lieutenant-general March 4, 1889, to June 1, 1898.

‡‡Major-general March 4, 1899, to Feb. 5, 1905.

The president of the United States is at all times the commander-in-chief of the army and navy.

## FARMERS' NATIONAL CONGRESS.

## OFFICERS 1898-99.

Hon. W. D. Hoard, president, Fort Atkinson, Wis.

Col. F. L. Maxwell, first vice-president, Mound, La.

Hon. C. A. Wisting, second vice-president, Auburn, N. Y.

N. G. Spalding, treasurer, Schodack Landing, N. Y.

John M. Stahl, secretary, 4818 Langley-av., Chicago, Ill.

Assistant Secretaries—D. O. Lively, Fort Worth, Tex.; G. A. Stockwell, Providence, R. I.; A. H. Dunlap, Manistee, Mich.

Executive Committee—Hon. B. F. Clayton, Indiana; Iowa: T. E. Orr, Pittsburg, Pa.; H. E. Hoath, Lincoln, Neb.

Little is known of the history of this organization prior to 1833, as no records were kept of meetings previous to that time. From the best data attainable there was a meeting in Chicago in 1831; Indianapolis, Ind., 1832; Louisville, Ky., 1833; Nashville, Tenn., 1834, and from the best information the meeting at Indianapolis in the fall of 1835 was fixed as the fifth annual session of the Farmers' National Congress of the United States of America.

At the Louisville session in 1833 Col. Robert Beverly of Virginia was elected president and Mr. Knott of Louisville, Ky., was chosen secretary. The same officers presided at Nashville, Tenn., in 1834, but there is no record of these or any previous meetings of this body.

Col. Robert Beverly served as president from 1833 to 1837, when Col. R. F. Kolb of Montgomery, Ala., was elected president and acted as such until the meeting at Sedalia, Mo., in 1891, where A. W. Smith of Kansas was elected. Hon. B. F. Clayton was elected at Savannah, Ga., in 1834, and re-elected at Atlanta, Ga., in 1836. Hon. W. D. Hoard of Wisconsin was elected at St. Paul, Minn., in 1897.

The meetings since 1835 have been as follows:

St. Paul, 1836; called meeting at Washington, D. C., February, 1837; regular meeting, Chicago, 1837; Topeka, Kas., 1838; Montgomery, Ala., 1839; Council Bluffs, Iowa, 1840; Sedalia, Mo., 1891; Lincoln, Neb., 1892; Savannah, Ga., 1893; Parkersburg, W. Va., 1894; Atlanta, Ga., 1895; Indianapolis, Ind., 1896; St. Paul, Minn., 1897, and Fort Worth, Tex., 1898.

*Baltimore*—D. C. Amundson, 31 South Frederick street, Baltimore, Md.

Utterances of State Conventions.

RESOLUTIONS ADOPTED AT VARIOUS STATE CONVENTIONS ON NATIONAL QUESTIONS.

THE FINANCES.

[Where parties are omitted no declaration was made.]

ALABAMA.

REPUBLICAN.

We hereby reaffirm our faith in and allegiance to the principles of the republican party, and we do also indorse the national platform of the party adopted in convention at St. Louis in 1896.

We specifically declare in favor of a protective tariff and for a sound and stable currency, both of which give employment alike to labor and capital and provide sufficient revenue in time of peace to run the government without a resort to bond issue, which can only be justified in time of war.

DEMOCRATIC.

We do reaffirm our unalterable faith in the principles declared in our platform, adopted in 1896, and especially in the platform adopted at Chicago in July of the same year, not so much because those platforms were declarations of our party, but for the much higher reason that the principles therein announced are the principles upon which the democratic party and the federal government are founded and because those principles are eternally true.

PEOPLE'S PARTY.

Free coinage of gold and silver at the ratio of 16 to 1, and that all other money shall be issued by the federal government and shall be a legal tender for all the public and private dues and demands, with inhibition by law of any contract that annuls the full exactions of these requirements, and with no one kind of money redeemable in any other kind of money. We denounce the effort to increase the national bonded debt by placing the sovereign power in the ridiculous position of borrowing what it alone has power to create, and insist that no bond should be issued until the volume of currency shall reach \$50 per capita.

ARKANSAS.

REPUBLICAN.

We reaffirm our adherence to the doctrine of sound money, by which every dollar, gold, silver or paper, put forth under the sanction of the government shall be equal to every other dollar.

DEMOCRATIC.

We indorse the national platform of the democratic party adopted at Chicago, in its national convention of 1896, and reaffirm the principles therein enunciated.

CALIFORNIA.

REPUBLICAN.

We reaffirm our belief in the financial plank of the republican national platform of 1896 as being a sound and correct exposition of the views of the republican party upon the finances of the country. We commend the efforts of the national administration to secure an international monetary

agreement, and urge that the attempt be renewed whenever an opportunity to do so shall be presented.

DEMOCRATIC.

We reaffirm our allegiance to the national platform of the democratic party adopted at Chicago in 1896, and specifically declare our adherence to the paramount purpose enunciated in that platform, viz.: A return to the constitutional system of free and unlimited coinage of both gold and silver as money at the ratio of 16 to 1, without waiting for the consent of any other nation.

PROHIBITION.

The stability of our money system is based upon the industry and sobriety of the citizen. We believe that the currency problem has been largely produced by the brewery and distillery, which, through their agents, the saloons, have drawn from the products of our workmen silver to be piled up uselessly in the banks, and, after being changed for gold, to be largely shipped to foreign countries.

PEOPLE'S PARTY.

We demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation, and we are unalterably opposed to the policy of the republican party in demanding the retirement of greenbacks and the surrender to national banks of the sovereign power of issuing money, and we especially denounce the avowed attempt of said party to fasten upon the country irrevocably and forever the single gold standard.

We demand a national money, safe and sound, issued by the general government only, without the intervention of banks of issue, to be full legal tender for all debts, public and private; also a just, equitable and efficient means of distribution direct to the people through the lawful disbursements of the government.

We demand that the volume of circulating medium be speedily increased to an amount sufficient to meet the demands of a growing business and population of the country and to restore the just level of prices of labor and production.

We demand such legislation as will prevent for the future the demonetization of any kind of legal-tender money by private contract.

We demand that the government, in payment of its obligations, shall use its option as to the kind of money in which they are to be paid, and we denounce the present and preceding administrations for surrendering this option to the holders of government obligations.

We demand that there shall be no further issue of United States interest-bearing bonds.

COLORADO.

REPUBLICAN.

We favor the restoration of the money of the constitution by throwing open the mints

of the country to the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

#### DEMOCRATIC.

The democratic party of the state of Colorado reaffirms the fundamental principles of the national democratic platform adopted in Chicago in 1896. The free and unlimited coinage of silver and gold at the ratio of 16 to 1, and without the consent of any other nation on earth, is and must remain the paramount issue in American politics until it is accomplished by national legislation.

#### SILVER REPUBLICAN.

The silver republicans of the state of Colorado again declare their allegiance to the cause of bimetalism and demand the restoration of silver to an equal plane of dignity and power with gold as a monetary metal, and that the mints of the United States be opened to the coinage of both silver and gold at the old ratio of 16 to 1, without asking or awaiting the aid or consent of any other nation. The gold standard was introduced to the financial systems of the leading nations of the world twenty-five years ago, without popular demand or knowledge, and has proved a disastrous experiment from that time to this. Numerous international conventions have been called for the sole purpose of getting rid of it, and in every leading nation commissions almost without number appointed to investigate the progressive depression in agriculture and trade have reported in favor of its abolition.

By depriving silver of its rights and by vastly adding to the demand for gold the par of exchange between gold-using and silver-using nations has been broken and trade between them reduced to a game of hazard. The increased necessity of attempting to do more business with less money has involved a ruinous fall of prices, with resulting discouragement to enterprises, loss of employment to labor, multiplication of the burdens of debt, taxes and fixed charges, the growth of trusts and combines, and the aggrandizement of the hoarders as against the producers of wealth.

We declare that the only practicable method of restoring unexed commercial relations between gold-using and silver-using countries, and of stopping the fall of prices with its resultant wrongs, is to be found in a return to the time-honored policy of bimetalism. The evil results of the gold-standard experiment are not denied by its advocates and they stand mute in the face of a demand for a remedy. To enforce the gold standard throughout the world is impossible. The present condition is intolerable. The silver republican party and its allies believe that the issue thus presented is the most important in American politics and calls for settlement before all others.

We arraign the gold-standard republican party for its artificial deception of the American people by false pretenses in favor of an international agreement for the free coinage of silver, while actively engaged in furthering the designs of the gold monopoly and the bankers' trust, and we congratulate the American people that in the present attitude of the administration and in the declarations of the leading republican state conventions of this year the nation at last has frank avowal by that party of its absolute surrender to the gold-standard system.

In the state of Colorado an especial effort has been made to cloak and disguise the de-

signs of the supporters of the gold standard. The history of these times is a woeful chapter in the literature of political dissimulation. It has within the last few days reached its appropriate culmination in an act which has disgraced the state and may well appeal the citizenship of the country. The advocates of the gold standard in Colorado have attempted the theft of a whole political party. The unfortunate occurrence at the opera house in Colorado Springs on the morning of Sept. 7 is a fit illustration of the desperation of these men and of the extent to which they are willing to go in furtherance of this scheme to thwart the will of the silver republicans of Colorado.

#### PEOPLE'S PARTY.

The people's party of the state of Colorado reaffirms its unswerving allegiance to the principles of the Omaha and St. Louis national platforms of 1892 and 1896. We believe the financial question to be the paramount question of the present campaign, and we reiterate our demand for the free and unlimited coinage of silver and gold at the constitutional rate of 16 to 1.

#### CONNECTICUT.

##### REPUBLICAN.

After the experience of the last two years it [the party] reaffirms its advocacy of the single standard of value, and that standard gold, as the only financial policy which will assure public confidence and national credit at home and abroad, and which will promote such investment of capital in the enterprise of commerce, trade and manufacture as will insure a remunerative employment to the farmers, mechanics and wage-earners of America.

It believes that the impossibility of effecting an international agreement with the leading commercial nations of the world for the free coinage of silver has been clearly demonstrated. It therefore favors such national monetary legislation as will maintain our paper and silver currency at a parity with gold, by which the weight of a gold dollar shall be established at the present standard, and by which every paper and silver dollar and every obligation for the payment of money shall be redeemable in gold, and such changes as in our present monetary system as will furnish ample credit facilities for conducting business in all parts of the country, by the retirement of government notes and the issue of bank notes so secured as to insure their redemption in gold of the present standard of fineness. To the accomplishment of these results it cordially asks the co-operation and support of all gold democrats and patriotic Americans, and earnestly invites them to unite in the support of its platform and tickets.

#### DELAWARE.

##### REPUBLICAN.

Believing that the money of the government should be the best in the world, and that its value should be unquestioned everywhere, we demand the maintenance by the government of the present gold standard of the value of said money, that notes of the government payable on demand shall only be issued when gold to the amount of the notes so issued is deposited with the national treasury for the redemption thereof. And that the gold so deposited shall be pre-

served and kept in said treasury for the sole purpose of redeeming such notes.

**DEMOCRATIC.**

The necessity of reforming our currency system is admitted on all sides and confessed by the president himself (who sent a monetary commission abroad to consult foreign governments and asked for the appointment of another monetary commission to consider the question here at home); but, notwithstanding the admitted evils of our present complicated, illogical and injurious currency system, the republican congress and administration have taken no positive and effective measure for reform.

**GEORGIA.**

**DEMOCRATIC.**

We reaffirm and indorse the democratic national platform as adopted at Chicago in 1896, and especially do we reiterate and urge its declaration upon the question of currency reform and the free and unlimited coinage of both gold and silver at the existing ratio of 16 to 1, and without the aid or consent of any other nation. We emphasize the declaration of that platform and also of the platform of the Georgia democracy of the same year, in its unalterable opposition to the single gold standard, and we hold that events have justified the truth of every charge made against it in the campaign of 1896.

**IDAHO.**

**REPUBLICAN.**

We heartily indorse the financial policy of the republican party as the same has been applied to the management of the financial affairs of the government.

**DEMOCRATIC.**

Demands "the free and unlimited coinage of both gold and silver at the present established ratio of 16 to 1 by independent action of the United States, without waiting for the consent or permission of other nations."

**ILLINOIS.**

**REPUBLICAN.**

We invite the attention of the people of Illinois to the fact that upon the surrender by the republican party in 1893 of the affairs of the nation to the democratic party there was then and there closed an era of prosperity unprecedented in this country; that following the inauguration of President Cleveland in 1893 new policies of administration were adopted, old, tried and approved policies of the republican party were rejected, and there followed an era of business depression, commercial distress, financial embarrassment and injury to labor too familiar to all, and of greater evil than had occurred in this country since the close of the war of the rebellion.

The republican party was restored to power in 1897 and was confronted with the problem of restoring to the people of the United States a greater and more reasonable measure of prosperity. To do this President McKinley convened congress in session in eleven days after his inauguration. The republican party was unable to see how prosperity could be brought to the laborer and to business by paying labor in depreci-

ated currency and transacting business upon such a basis. Properly to protect labor and capital and maintain a safe and sound currency were made the cardinal doctrines of the party. The revenues of the government, which had run down until they were far inadequate to meet the current expenses of the government, gradually began to increase until they reached a sum equal to the necessary normal current requirements of the government. Labor, which had been poorly paid and much of it idle, found employment at increased wages. In short, the conditions of the country were so developed that it was possible that the mass of the people might become more prosperous. To all of which we point with most commendable pride.

**DEMOCRATIC.**

Pledges the party to "the free and unlimited coinage of both silver and gold at the present established ratio of 16 to 1, by independent action of the United States, without waiting for the consent or permission of other nations."

**PEOPLE'S PARTY.**

We are uncompromisingly opposed to banks of issue under any name or title whatsoever. Both of the old parties during their entire existence have both favored and fathered such labor-robbing institutions.

We are opposed to the issuance of government treasury notes, promises to pay some body in coin, because that somebody ever has and ever will be the money changer, a vile and useless creature who under and by means of such a system of money has been the overshadowing curse of all nations in all ages of the world. Both of the old parties by virtue of the influences that control them are eternally pledged to a redeemable currency, the one favoring a single gold redeemer, the other favoring two redeemers, silver and gold.

We stand unalterably opposed under any circumstances to the issuance of interest-bearing United States bonds. Both of the old parties are wedded to the bond and bondage method of raising money.

We believe it to be the right and the duty of the people in their governmental capacity to issue full legal-tender paper money in such amounts as the industrial and business needs of the country may from time to time require, and that without any regard whatever to the wish or will of a panic-making, business-paralyzing, labor-enslaving and man-degrading money trust, composed of money changers at home or abroad. Both of the old parties during their entire existence have been wedded to the single or double barreled specie basis system of money, by means of which nothing but gold, or gold and silver, can be a full legal tender for debts within the United States.

We demand, as long as either of the metals is used as money, the independent, free and unlimited coinage of both silver and gold at the ratio of 16 to 1.

**INDIANA.**

**REPUBLICAN.**

The republicans of Indiana are unreservedly for sound money, and are therefore opposed to the heresy to which the democratic party is wedded of the free and unlimited coinage of both gold and silver at the ratio of 16 to 1, which we regard as absolutely

sure to debase our money and destroy our private credit and cause general business disaster. We recognize the necessity of comprehensive and enlightened money legislation, and believe that the declaration in the St. Louis national republican platform for the maintenance of the gold standard and the parity of all our forms of money should be given the vitality of public law and the money of the American people should be made, like all its institutions, the best in the world.

#### DEMOCRATIC.

We reaffirm and emphasize the platform adopted by the national democratic convention of 1896 at Chicago. We are in favor of the free and unlimited coinage of both gold and silver at the existing ratio of 16 to 1, without the aid or consent of any other nation.

We are unalterably opposed to the single gold standard, and we specially protest against the declared purpose of the present republican secretary of the treasury of applying that policy more thoroughly. We believe that the practice of the treasury in paying treasury notes in gold only, in violation of law, and in surrendering the option of the government, reserved by the statute, to pay in gold or silver, is chiefly responsible for the great money depression now and for so long a period existing in this country, is destructive of business enterprise, dangerous to the public credit and the prosperity of the people and a serious menace to the national honor.

#### IOWA.

#### REPUBLICAN.

The experience of the last two years has fully approved the gold-standard policy of the republican party as declared by the national convention of 1896. We recognize the necessity of comprehensive and enlightened monetary legislation. The monetary standard of this country and the commercial world is gold. The permanence of this standard must be assured by congressional legislation, giving to it the validity and vitality of public law. All of the money must be kept at a parity with gold. Our money, like our institutions, should be maintained equal to the best in the world. On this plank we invite the support of all voters who desire honesty and stability in business affairs and an immediate and permanent settlement of the question of the standard of value.

#### DEMOCRATIC.

The democracy of Iowa discern in the democratic national platform of 1896, which we hereby heartily reaffirm, the best expression of democratic principles enunciated since Thomas Jefferson wrote the declaration of independence. The utterances of that platform concerning finance explicitly define our faith on the money question. The free and unlimited coinage of silver and gold at the ratio of 16 to 1 we hold to be indispensable to the financial, industrial and political independence of our people, and recognizing William J. Bryan as preeminently the representative and exponent of the platform we earnestly favor his nomination for president of the United States in 1900.

We impeach the republican party of criminal insincerity in declaring for bimetalism in its national platforms of 1888 and 1892 and for international bimetalism in 1896

and now in its latest state platform unequivocally committing itself to the gold standard. And we denounce as being dangerous to the public welfare the proposal for legislation involving the conversion of the 500,000,000 silver dollars and the \$346,000,000 of greenbacks first into exclusive gold obligations and next into an interest-bearing bonded debt and filling the vacuum created by the obliteration of the nearly \$1,000,000,000 of legal-tender money with non-legal-tender bank notes.

#### SILVER REPUBLICAN.

We, the silver republicans of Iowa, reaffirm our adherence to the Chicago platform of 1896.

The legal ratio being 16 to 1, we demand that there shall be no tinkering with that ratio at the instance of those who are trying to create confusion in the interest of the gold standard.

We view with alarm the programme of the so-called "Honest Money league" to retire all government currency by the sale of interest-bearing bonds and the substitution therefor of national bank notes, and declare that the issuance of money is an act of sovereignty and demand that all money of every kind shall be issued by the general government.

We believe a tax upon that part of an income in excess of \$4,000 is juster than to tax the mortgage given to secure a debt. The one asks prosperity to contribute, the other tends to tax misfortune and add to its burdens.

We denounce the shameless abandonment by the so-called republicans of Iowa of the declaration for the free coinage of silver in the platform at St. Louis in 1896 and the substitution therefor of the currency plank of the gold democrats adopted at Indianapolis in that year.

In the language of the republican national platform adopted at Minneapolis, we believe "that the American people, by tradition and interest, are bimetalists and demand the use of both gold and silver as standard money," and in the further language of a platform adopted by the republicans of the state of Iowa: "Whereas, the silver dollar was the unit of value from the foundation of the federal government up to 1873, the law under which its coinage was suspended should be repealed at the earliest possible day and silver made, with gold, a legal tender for the payment of all debts, both public and private."

#### PEOPLE'S PARTY.

For the purpose of meeting the obligations of our contracts and for foreign commerce the free and unlimited coinage of gold and silver at the ratio of 16 to 1 meets our approval, but for internal commerce the truly scientific money of the United States is a money issued solely by the government, without the intervention of corporations; such a money should be full legal tender for all debts, public and private, without any exception or limitation; it should be received by the government in payment of all public dues. It should be issued in volume commensurate with the business demands of the country and increase of population. It would stimulate business instead of repressing it. It would tend to stability of prices and wages, and such a money, when not discredited by the government issuing it, would be beyond the reach of speculators and would never be discredited by a loyal people.

**KANSAS.**

**REPUBLICAN.**

We reaffirm the principles enunciated in the national republican platform of 1896 and direct attention to the fact that every promise has been kept and every prediction has been verified. We heartily approve the policy of President McKinley in the preparation for and conduct of the war and pledge to him our loyal support in this contest, begun as it was at the dictates of humanity and waged as it is for the honor of the nation and the freedom of the oppressed.

**DEMOCRATIC.**

We, the democrats of Kansas, pledge our allegiance to the principles of the renewed democracy which found expression in the democratic national platform of 1896. We stand to-day for every principle therein enunciated and especially for the free and unlimited coinage of silver and gold at the ratio of 16 to 1, without waiting for the consent of foreign nations. We take special pleasure in recording our appreciation and indorsement of the splendid campaign waged in behalf of people's rights by their intrepid champion, who stands in merit and esteem with the historic leaders of democracy, William J. Bryan.

**PEOPLE'S PARTY.**

We demand the free and unlimited coinage of gold and silver at the ratio of 16 of silver to 1 of gold and the issue of legal-tender notes good for all debts in preference to the issue of interest-bearing bonds.

We oppose the issuance of all bonds and we condemn the republican party for its action in fastening upon the people a large bonded debt ostensibly for war revenue, but in reality for the perpetuation of the national banking system.

**MAINE.**

**REPUBLICAN.**

Demand "a currency for business and labor, the soldier and the pensioner, that is as good as gold the world over; all necessary legislation in the interest of labor, of temperance, education and economy in the state administration."

**DEMOCRATIC.**

An unqualified indorsement of the principles of the Chicago platform.

**PEOPLE'S PARTY.**

We are opposed to the labor-robbing institutions known as national banks, and demand that the government alone shall have the power to issue money and regulate the value thereof; this money should be a full legal tender for all debts, public and private, and issued in sufficient volume to transact the legitimate business of the country.

The system of issuing bonds in every public emergency is most dangerous and pernicious and should be strictly prohibited by the American people.

As long as the barbaric system of metal money is retained we demand that silver should receive the same recognition as gold and be admitted to our mints for free coinage in the ratio of 16 to 1.

**MASSACHUSETTS.**

**REPUBLICAN.**

We affirm anew our support of sound money. True to the pledge of the St. Louis

platform, the president and congress, earnestly and in good faith, strove to secure an agreement of the great commercial nations for the coinage of silver and gold at an established ratio. The attempt has utterly failed. All our currency must rest upon the single gold standard. Every dollar must be kept equal in value to the dollar in gold. All government indebtedness, which, by the terms of the contract, is payable in coin must be paid in gold at the option of the creditor. We rejoice in the defeat of the Teller resolution in a republican house of representatives as the repulse of an attack upon the integrity of our monetary system and the fair fame of the republic.

The time has come for the reform of our currency in the direction of the ready conversion of its different forms, each into the other, and the redemption of all in gold upon demand, with adequate provision for the extension of banking facilities to the agricultural and sparsely settled portions of the country, to the end that in those sections capital may be responsive to the demands of business and lower rates of interest prevail.

**DEMOCRATIC.**

The democracy of Massachusetts indorses and reaffirms with emphasis and profound conviction the great and patriotic platform of principles adopted by the party in national convention at Chicago in 1896. In that year both political parties confronted by a disastrous depression in production and general business, by the distress of labor, by the condition of financial affairs and the monetary system in particular, declared a return to bimetalism to be a measure calculated to remedy the existing evils.

The republican party, impressed with the importance of the restoration of bimetalism, pledged itself to promote the same by international agreement, while the democratic party declared that the United States, with or without the co-operation of other nations should restore the free and unlimited coinage of silver and gold.

After two years we find the promises of the victorious party wholly unfulfilled. The business of our country is, in reality, in a more deplorable condition than in 1896. The promised prosperity has not been realized; nothing better than a specious local activity has anywhere appeared. The general industrial and economic condition runs at even a lower ebb than when the present administration was put into power. The wages of labor have been reduced. Thousands of workmen have been thrown out of employment in the dead of winter; other thousands are working on part time and are struggling desperately with adverse conditions.

The futile policy of the republican administration in sending a commission to Europe to secure international bimetalism and at the same time in thwarting and bringing to naught every effort of that commission and in making its success impossible has revealed the predetermined purpose of the republican party to violate its pledges to the American people and to prevent bimetalism in any form, not only in the United States, but throughout the world.

The democratic party, with a conviction and persistency which have now been confirmed by the observation and experience of two additional years of disaster, again demands the return to bimetalism by restoring silver and gold to coinage at the ratio which was maintained during so many previous years.

perous years in the history of our country, the ratio of 16 to 1.

#### PEOPLE'S PARTY.

We believe in an invariable dollar. To secure this our currency should consist of a volume of legal-tender notes issued only by the government as standard money, expanded or contracted as shall be necessary to make the dollar buy always the same average of a selected number of staple commodities.

As a measure of immediate relief we favor the free coinage of silver and gold at the ratio of 16 to 1.

#### MICHIGAN.

##### REPUBLICAN.

We reaffirm the principles of the St. Louis platform and pledge them our support as a sure guaranty of national prosperity and honor. We stand upon the existing gold standard and condemn the proposition to admit silver to free and unlimited coinage at the ratio of 16 to 1 by this country alone, believing that such a proposition would irreparably disturb business already recovering from the shock of democratic rule.

##### DEMOCRATIC.

The democracy of Michigan in state convention assembled hereby reaffirms its loyalty and devotion to the platform adopted at Chicago in 1896.

##### UNION SILVER PARTY.

We, the representatives of the union silver party of Michigan, in convention assembled, do heartily declare our loyalty and unswerving fidelity to the principles of bimetalism and demand the restoration of silver to equal coinage privilege with gold at the ratio of 16 of silver to 1 of gold, and that all money, whether gold, silver or paper, shall be issued by the government direct, without the aid or intervention of national banks or banking corporations, and that such money shall be a legal tender for all dues and demands, public and private.

Whereas, The present administration has proved its utter inability to bring about international bimetalism, so called, and Secretary Gage and President McKinley have by numerous utterances committed the republican party to the principles of the single gold standard as enunciated and set forth by the Indianapolis Sound Money league, so called, therefore, be it

Resolved, That we invite all friends of bimetalism to stand with us in a united effort to preserve both gold and silver as the basic currency of the nation at the present ratio.

Resolved, That we view with alarm the rapidity with which the gold-standard policy inaugurated by Grover Cleveland and championed by Hanna, Gage and McKinley is bonding the nation, and we point to the lamentable fact that since the adoption of said policy in 1893 \$665,000,000 in bonds have been issued. We point to this as proof of the claim of bimetalists that the only way to maintain the single gold standard is to continue and even increase the national debt.

#### PEOPLE'S PARTY.

We, the representatives of the people's party of Michigan, in convention assembled this 22d day of June, 1898, in the city of Grand Rapids, hereby reaffirm our adherence to the principles enunciated at the Omaha convention, as reaffirmed at St. Louis and in Bay City in 1896.

We demand that all money, whether gold, silver or paper, shall be issued by the government and shall be full legal tender for all debts, public and private.

We demand the free and unlimited coinage of silver at the present legal ratio of 16 to 1.

We are unalterably opposed to the issuance of interest-bearing bonds by the national government.

#### PEOPLE'S (MIDDLE-OF-THE-ROAD).

We demand a national money, safe and sound, based on the wealth, industry and loyalty of the whole people of the United States, on the whole property therein and on the stability of our republic, in which we have unbounded confidence under the intelligent direction of the producers of wealth—the plow holders—but no confidence while it remains under the dominating influence of the money power—the bond holders—and that such money be of paper, issued by the national government only, without the intervention of banking corporations, and be made a full legal tender for all debts, including taxes and duties to the United States, and that it shall not be made redeemable in metallic coin.

We demand the free and unrestricted coinage of silver and gold at the legal ratio of 16 to 1, regardless of foreign nations, so to increase and cheapen the volume of metallic money, as compared with all other forms of property and wages, that the government and people may obtain the means at less sacrifice to meet and cancel their metallic coin obligations according to the letter of the contract; and to prevent such exigency for the future we demand that all public and private contracts be henceforth made, under legal enactment, payable in lawful money of the United States, and that metallic coin contracts be forbidden.

#### MINNESOTA.

##### REPUBLICAN.

The republicans of Minnesota in convention assembled congratulate the country on the evident signs of returning prosperity, largely due to the party's unswerving allegiance to the cause of sound money and the wise revenue legislation of the republican congress.

We believe the national honor and the material interests of the American people require the maintenance of the present gold standard. We declare our unalterable opposition to the free coinage of silver and all schemes looking to the debasement of the currency and the repudiation of debt. We condemn the continual agitation of free silver as tending to debauch the public morals and jeopardize the prosperity of the country, the highest interests of which demand at all times a sound and stable financial system.

##### DEMOCRATIC.

The democrats of Minnesota in convention assembled hereby reaffirm the Chicago national democratic platform and pledge to it their unswerving support until its principles shall have become the established governmental policy.

We recall with pride the courage and gallant leadership of our late presidential candidate, William J. Bryan. His devotion to the principles of free government and his splendid elucidation of those principles in

the campaign entitle him to the lasting gratitude of the people.

**SILVER REPUBLICAN.**

We reaffirm our attachment and loyalty to the principles of Washington, Jefferson, Lincoln and Bryan.

We reaffirm and indorse the principles laid down in the platform of the national republican convention which met in Minneapolis in 1892, which declared as follows: "The American people, from tradition and interest, favor bimetallicism. The republican party demands the use of both gold and silver as standard money."

We denounce and repudiate the humiliating and degenerate doctrine of the national republican platform, adopted at St. Louis in 1896, dictated by the gold monopoly forces of the world and the great trusts and corporations which contributed so liberally to its campaign fund, to the effect that the gold standard must be maintained in this country until foreign nations consent to our use of silver as standard money.

**MISSOURI.**

**REPUBLICAN.**

We reaffirm our faith in the declaration of principles of the republican party of 1896, and in this connection we call the attention of the people to the fact that the national administration, under the control and with the support of the republican party, has faithfully redeemed every pledge in that platform; has restored the public credit, dispelled panic and depression, revived industry and trade, reopened the factories and workshops of the nation, renewed and restored enterprise and production, and given full protection to American citizens and American interests at home and abroad, inspired the American people with renewed hope and new and honorable aspirations, and has again demonstrated that the republican party is the party of progress, entitled to the confidence of the people and furnishing in its administration of public affairs the surest proof of the stability and success of free institutions.

**DEMOCRATIC.**

The democrats of Missouri reindorse the national platform adopted at Chicago in 1896, and especially do we renew our demand for the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the consent of any other nation, and this demand we especially emphasize at this time by reasserting our belief that the money question is and will remain the most important of all political questions affecting the prosperity and happiness of our people until it is finally settled by the restoration of bimetallic coinage in accordance with our demand. And we declare our unswerving confidence in Col. William J. Bryan as the leading exponent of the foregoing principles.

**PEOPLE'S PARTY.**

Resolved, That we favor the issue of full legal-tender paper money to pay the expenses of the Spanish-American war, and that we are unalterably opposed to the issue of interest-bearing bonds either in time of war or peace.

**MONTANA.**

**REPUBLICAN.**

We indorse without reservation or excep-

tion the declaration of principles adopted by the last national republican convention as promising wise policies of public action and bringing to the country a prosperity which we have not heretofore known.

**DEMOCRATIC.**

The democrats of Montana in state convention assembled reaffirm their belief in the great principles of Jeffersonian democracy as expressed in the Chicago platform. They declare that the free and unlimited coinage of silver at the ratio of 16 to 1 is the paramount issue of American politics to-day.

They enthusiastically and loyally accept and support the leadership of William J. Bryan, whose record meets their entire approbation and admiration.

**SILVER REPUBLICAN.**

We reaffirm our belief in and devotion to the principle of bimetallicism as expressed in the declaration for the free coinage of silver and gold at a ratio of 16 to 1 by the independent action of the United States, and that we firmly believe the only method through which this desirable result can be attained and the country placed on a basis of permanent prosperity is the policy of a fusion of the silver forces so clearly and ably outlined by William J. Bryan and other national leaders in the movement for the restoration of silver as money of ultimate redemption.

**NEBRASKA.**

**REPUBLICAN.**

We favor the payment of our soldiers and sailors in the same money paid bondholders.

We reaffirm unswerving allegiance to the principles enunciated in the republican national platform of 1896. We are in favor of the maintenance of the present gold standard and unalterably opposed to the free and unlimited coinage of silver.

**DEMOCRATIC.**

We are proud to belong to a party that acknowledges as its chieftain and leader the Hon. W. J. Bryan, the people's champion, whom arm is ever lifted in defense of their rights and in redressing their wrongs whether in peace or in war.

We renew our allegiance to the principles taught by Thomas Jefferson and courageously defended by Andrew Jackson, and we demand that the great political problems of to-day be solved by the application of these principles to the present conditions; and, therefore, reaffirm our adherence to the platform of 1896, adopted by the democratic party in national convention assembled. And that the paramount issue of the campaign of 1896 ought and will be the restoration of our monetary system to its position prior to 1872, the free and unlimited coinage of the two metals at the ratio of 16 to 1, and believe that no permanent prosperity will reward the efforts of our producers until such a law is enacted.

We believe that all money issued by the government, whether gold, silver or paper, should be made a full legal tender for all debts, public and private, and that no citizen should be permitted to demonetize by contract that which the government makes money by law.

We further declare that we are opposed to banks of issue, and demand that all money, whether gold, silver or paper, shall be issued by the national government.

While always willing and ready to furnish

for the support of the nation in her hour of peril every dollar of our property and every possible assistance; both in money and men, the democratic party is opposed to the issuance of interest-bearing bonds except as a last resort, but is in favor of the issuance of full legal-tender money, and we hold the recent issue of \$200,000,000 of bonds unnecessary under the circumstances and therefore condemn it.

#### SILVER REPUBLICAN.

We reaffirm the principles set forth in the party platform at our last state convention, and we take no backward step on the money question. We are in favor of the free and unlimited coinage of both gold and silver at the present legal ratio of 16 to 1, without waiting for the consent of any other nation on earth.

Maintaining and supporting republican principles upon the question of gold and silver as money as advocated by the old republican party until its repudiation of those principles at St. Louis in 1894, we renew our loyalty to the principles thus repudiated at the behest of the money power, and declare, as formerly declared by the old republican party and its honored leaders and accepted as good republican doctrine, as well as a doctrine as old as the national constitution itself, that we are in favor of the use of both gold and silver as money, and we condemn the policy of the gold-standard republican administration in its efforts to demonetize silver.

Silver is the money of the constitution; indeed, the money of the American people anterior to the constitution, which the great organic law recognized as quite independent of its own existence. The people are too intelligent to permit values to be measured in gold alone. This would make money dearer and property cheaper. We are for the largest use of silver in the currency of the country. We would not dishonor it; we would give it equal credit and honor with gold; we would make no discrimination; we would utilize both metals and discredit neither; we want the double standard. Silver, until a few years ago, was money the wide world over. Silver was one of the standard coins of the United States from the birth of independence until demonetization crept into the statute of congress, either by fraud or mistake.

#### NEVADA.

##### REPUBLICAN.

Resolved. That we reiterate our faith in and devotion to the great republican principles of bimetallicism, protection and reciprocity. We are firmly convinced that the final adjustment of the money question must come by and through the republican party. The party is pledged to bimetallicism. We therefore declare that the settlement of this important question may safely be left to the great republican party of the nation.

##### PEOPLE'S PARTY.

We reiterate with emphasis that the financial question is the paramount issue and demand the free and unrestricted coinage of silver and gold at the American ratio of 16 to 1.

We denounce in unmeasured terms the action of the republican party and the democratic party in advocating the redemption of legal tenders in gold or in coin, and we

demand that all United States money, whether of gold, silver or paper, be made a full legal tender without any exception clause whatever.

The recent bond issue was one of the most atrocious financial acts of the nineteenth century, and the indecent haste with which the administration issued the bonds when the treasury was already overloading with lawful money proves conclusively that Wall street and the bondholders have an unfair and corrupt influence over the treasury department.

The so-called gold reserve is a disguise to our financial power and boundless resources, and we demand that it be abolished.

#### NEW HAMPSHIRE.

##### REPUBLICAN.

The republicans of New Hampshire reaffirm the St. Louis platform, especially indorsing the gold standard as therein provided, and congratulate the people upon the speedy fulfillment of its important pledges.

##### DEMOCRATIC.

We, the democrats of New Hampshire, reaffirm the principles of the democratic party as announced in the national conventions since the foundation of the party. We emphatically declare our admiration for and confidence in the wisdom and patriotism of our great leader, William J. Bryan.

#### NEW JERSEY.

##### REPUBLICAN.

We indorse the national platform of 1896 and "specifically declare our undying opposition to any proposition to debase the national currency, a proposition so repugnant that the voters of New Jersey buried it under an unprecedented majority of 87,000 when they declared in favor of the representatives of national honor and honesty, McKinley and Hobart."

##### PEOPLE'S PARTY.

We demand a national currency, safe, sound and flexible, issued by general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations, a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent per annum, to be provided as set forth in the sub-treasury plan of the Farmers' alliance, or a better system; also by payments in discharge of its obligations for public improvements.

We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

#### NEW YORK.

##### REPUBLICAN.

We renew our allegiance to the doctrines of the St. Louis platform. We continue to condemn and resist the democratic policies declared at Chicago. The organized democratic party of the nation adheres to these policies of free silver and free trade, and denies the right of the courts and of the government to protect persons and property from violence. On the coming 8th of November we are to elect not only our state officers, but also representatives in congress and members of our state legislature. That

legislature, in its turn, will elect a United States senator to succeed the present democratic senator from this state.

The election of republican members of congress and of a republican state legislature will mean that New York will stand for the maintenance of the gold standard and for such a revision of the currency laws as will guarantee to the labor of the country that every promise to pay a dollar, issued under the authority of the United States, shall be of absolute and equal value with a gold dollar always and everywhere.

## NORTH CAROLINA.

### REPUBLICAN.

The republican party of North Carolina renews its allegiance to the principles and policies set forth in the national republican platform adopted at St. Louis in 1896; and we point with pride and enthusiasm to the triumphant vindication of those principles and policies under the wise and splendid administration of William McKinley.

### DEMOCRATIC.

We denounce the republican party for its defeat of the Teller resolutions declaring our national bonds payable in silver as well as gold, and denounce it for its determined purpose of more thoroughly fastening the single gold standard upon our people, and for its avowed hostility to the free and unlimited coinage of silver, as well as gold, at the ratio of 16 to 1, into full legal-tender money.

We denounce the republican party for its determination to issue bonds at this time, and we denounce the republican war tax bill which lately passed the house of representatives as unjust, unequal in its burdens, unnecessary and vexatious, and we demand that the silver seigniorage be coined, that an income tax be levied, and that the secretary of the treasury be authorized to issue the necessary amount of full legal-tender greenbacks, or United States treasury notes, in order to meet the expenses of the war with Spain and to supply the revenue deficit under the Dingley law.

### PEOPLE'S PARTY.

We believe that all money demands should be payable in the lawful money of the United States without preference or discrimination, and therefore favor the passage by the general assembly of a law to prohibit the taking or giving of gold notes, bonds and mortgages in this state, and to make all the money demands solvable in any kind of lawful money of the United States.

We condemn the present national administration for its efforts to fasten upon the people and future generations the burden of interest-bearing bonds and for indorsing and carrying out the infamous bond and monopoly policy of the preceding administration of Grover Cleveland.

We commend the action of the populists, silver republicans and silver democrats in congress for their wise, brave and patriotic course in solidly co-operating to strike out the bond provision of the pending war revenue bill and to substitute therefor an issue of greenbacks and the coinage of the silver seigniorage to carry on the war.

## NORTH DAKOTA.

### REPUBLICAN.

Money being an instrument of international concern, we are unalterably opposed to the independent free coinage of silver. The currency of the American people is now and should continue to be the best in the world, and the parity of all forms of money should be maintained by wise and conservative laws. We favor the use of both gold and silver as the standard of all commercial countries, and indorse the efforts of the republican administration to promote the policy of bimetallism under agreement with the civilized nations of the world.

### DEMOCRATIC.

We reaffirm our belief in and adherence to the great principles of the democratic party as laid down in the democratic platform at the Chicago national convention of 1896.

## OHIO.

### REPUBLICAN.

We reaffirm the declaration of facts and principles adopted by the eleventh national republican convention at St. Louis June 17, 1896.

### DEMOCRATIC.

We reaffirm the platform of principles adopted at Chicago by the democrats at their convention in July, 1896. And we particularly reaffirm and indorse the financial plank therein, declaring for the free and unlimited coinage of silver and gold at the ratio of 16 to 1, independent of any and all other nations.

### NATIONAL LIBERTY PARTY.

All money should be issued by the general government only, and without the intervention of any private citizen, corporation or banking institution. It should be based upon the wealth, stability and integrity of the nation. It should be a full legal tender for all debts, public and private, and should be of sufficient volume to meet the demands of the legitimate business interests of the country. For the purpose of honestly liquidating our outstanding coin obligations we favor the free and unlimited coinage of both silver and gold, at a ratio of 16 to 1, without consulting any other nation. As a partial remedy for our financial troubles we declare for postal savings banks.

## OREGON.

### REPUBLICAN.

We are in favor of the maintenance of the present gold standard; we are unqualifiedly opposed to the free coinage of silver and to all other schemes looking to the debasement of the currency and the repudiation of debt. We believe that the best money in the world is none too good to be assured by the government to the laborer as the fruit of his toil and to the farmer as the price of his crop. We condemn the continued agitation for free silver as calculated to jeopardize the prosperity of the country and to shake the confidence of the people in the maintenance of a wise financial policy; we particularly condemn as unpatriotic the efforts of the free-silver agitators to array class against class and section against section; we declare that the interests of all classes

and of all sections of our country alike demand a sound and stable financial system.

#### FUSION.

(Democrats, People's Party and Silver Republicans.)

We demand the free and unrestricted coinage of silver and gold at the present ratio of 16 to 1, without waiting for the consent of foreign nations, and we are unalterably opposed to the policy of the present republican administration in demanding the retirement of greenbacks and the turning over of the money-making power of the government to the national banks, as presented by the bill drawn by the republican secretary of the treasury and indorsed by President McKinley, and we especially denounce the avowed attempt by said bill to fasten the country irrevocably and forever to the single gold standard.

We demand a national money, safe and sound, issued by the general government only, without the intervention of banks of issue, to be a full legal tender for all debts, public and private; also a just, equitable and efficient means of distribution direct to the people through the lawful disbursement of the government.

We demand that the volume of circulating medium be speedily increased to an amount sufficient to meet the demands of the business and population of this country and to restore the just level of prices of labor and production.

We favor such legislation as will prevent for the future the demonetization of any kind of legal-tender money by private contract.

We demand that the government, in payment of its obligations, shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and preceding administrations for surrendering this option to the holders of government obligations.

We demand that there shall be no further issue of United States interest-bearing bonds.

#### PENNSYLVANIA.

##### REPUBLICAN.

The republican party of Pennsylvania ratifies and reaffirms the doctrines enunciated in the republican national platform adopted at St. Louis in 1896 and approved by the people at the last presidential election.

##### PEOPLE'S PARTY.

The people's party strenuously opposes any issue of bonds for the purpose of defraying the expenditure incurred in the impending war with Spain, believing that the cost of the said war can and by right ought to be met by the government issue of non-interest-bearing treasury notes and that the said notes be full legal tender.

#### RHODE ISLAND.

##### REPUBLICAN.

Since it is the avowed purpose of all the political opponents of the republican party to unite in a crusade against the existing gold standard and in favor of a depreciated silver currency, with free coinage, we declare the same to be a serious menace to our continued prosperity and should lead to the active political co-operation of all those who believe in the necessity of a stable currency and of securing to it, by proper legislation, equivalence of purchasing power at all

times with the best money of the commercial world.

We reiterate our desire for such a stable and honest currency. We are inflexibly opposed to the free and unlimited coinage of silver, and believe the continued agitation of the silver question, so called, to be unpatriotic and destructive to the best interests of industry and commerce. The existing gold standard is the measure of value adopted by the nations with which the United States has the most important commercial relations, and the very suggestion of a departure from it inflicts injury to the credit of a nation whose honor should be unquestioned at home and abroad.

#### SOUTH DAKOTA.

##### REPUBLICAN.

The republican party of South Dakota renews its unqualified allegiance to the fundamental principles of republicanism, protection and sound money. We are opposed to the free and unlimited coinage of silver and unhesitatingly indorse the gold standard of money under which the nation has made such unsurpassed strides of progress.

##### DEMOCRATIC.

We demand the free and unlimited coinage of silver by the federal government at the ratio of 16 to 1, without asking for the consent or waiting for the aid of any other nation on earth.

##### SILVER REPUBLICAN.

We reaffirm and indorse the national platform of the silver republicans adopted at St. Louis in July, 1896, in its entirety, and declare it the purpose of the silver republicans of South Dakota to unite at all times with other political reform parties which favor just and equitable principles, such as were put forth by the national conventions of the people's and democratic parties in 1896 and elucidated from the Atlantic to the Pacific by that matchless leader, William J. Bryan.

We commend the brave and patriotic position of the silver republicans, populists and democratic senators and congressmen who have for the last two years so nobly stood by the principles enunciated in the various national platforms and pledge to them our political and moral support until success shall be attained in this, the people's government.

We most emphatically demand the re-monetization of silver upon the basis of 16 to 1, without waiting for the consent of any other nation, and that the government issue full legal-tender money to meet the necessities and demands of the people, without the intervention of national banks or other private corporations. We are uncompromisingly opposed to the issue of interest-bearing bonds as advocated and adopted by the present republican administration, but believe it is the duty and function of government to issue full legal-tender money and control the circulation thereof, and that a legal-tender non-interest-bearing treasury note, countersigned by the government officials, is as honest money as any interest-bearing bond signed by the same authority and its payment guaranteed by the same people.

##### PEOPLE'S PARTY.

The people's party of South Dakota triumphantly reaffirms its allegiance to the fundamental principles enunciated in the Omaha and St. Louis platforms.

We distinctly reaffirm our position in favor of the free and unlimited coinage of silver at the ratio of 16 to 1 and our unalterable opposition to the issue of interest-bearing bonds in time of peace or war.

We are opposed to banks of issue and in favor of the issue of all money direct by the government.

# TENNESSEE.

## REPUBLICAN.

As to the national issues, we heartily indorse the platform adopted by the national republican convention held at St. Louis, 1896, and reaffirm our allegiance to the principles therein declared.

## DEMOCRATIC.

We hereby indorse the enunciation of principles contained in the democratic platform adopted by the national democratic convention at Chicago in 1896, it being a true expression of the democratic creed. We especially reaffirm our demand for the restitution of the money of the constitution by a law providing for the free and unlimited coinage of gold and silver at a ratio of 16 to 1, without waiting for the consent of any other nation.

We oppose the increase of the public debt by the issuance of interest-bearing bonds and condemn the action of the present republican administration in the issuance of such bonds instead of treasury warrants, which warrants would furnish a circulating medium and would be taxable, while interest-bearing bonds are not taxable and will not circulate as currency.

We demand that all obligations of the United States shall be discharged according to the terms of the contract in either gold or silver at the option of the government and not at the option of the creditor.

# UTAH.

## REPUBLICAN.

We reaffirm our allegiance to the cause of the free coinage of silver at the ratio of 16 to 1, independent of the action of any other nation, as fully set out in our first Utah state convention platform, upon which we elected the present governor and other state officers.

## DEMOCRATIC.

We reaffirm the principles declared in the democratic platform adopted in Chicago for 1896. The imperative necessity of the use of both gold and silver for the purposes of money throughout the world is generally conceded. The use of both is essential to the welfare and happiness of mankind. The re-establishment of such use is of such vital importance that no ordinary difficulty should be permitted to stand in the way of its attainment. It is generally acknowledged that without both gold and silver people must sink in the scale of happiness and civilization. They must languish in poverty. They must continue to struggle in vain to better their condition. They must toil on without even the hope of adequate reward. Yet it is said that for this pervading, flagrant wrong there is and can be no remedy without the aid and consent of those who are and will remain deaf to all appeals for relief. It is true that at this time there is a right which cannot be made to prevail, a wrong for which there is no remedy. Have the maxims of our race proved false?

There is a remedy. It is declared in the national platform of the democratic party, to which we now declare our steadfast devotion. That remedy is the enactment of a law by the congress of the United States providing for the free and unlimited coinage of both gold and silver at the ratio of 16 to 1, without waiting for the aid or consent of other nations, such consent being notoriously impossible to obtain; and that such coin be legal tender in payment of all debts, both public and private.

## PEOPLE'S PARTY.

Believing that this nation is capable of passing and enforcing its own laws, we demand a law opening the mints to the free and unlimited coinage of gold and silver at the present ratio of 16 to 1.

We demand that the money of this country be speedily increased by the issuing of legal-tender notes to an amount sufficient to transact the business of the country upon a cash basis, and that all money, gold, silver or paper, be made a full legal tender for all debts, thereby making "every dollar as good as every other dollar."

# TEXAS.

## REPUBLICAN.

We reaffirm our allegiance to the principles laid down by the St. Louis platform in 1896, and we particularly announce that we are unreservedly for sound money.

We heartily indorse the action and course of President McKinley and the administration since their inauguration. They have inspired universal confidence, restored normal conditions in American industrial life and developed an industrial prosperity of unexampled proportions.

## DEMOCRATIC.

We indorse in every particular the platform adopted by the national democratic convention of Chicago in 1896, but we especially commend and approve the declarations in favor of an income tax, against the power of banks to issue money, for a tariff for revenue that will operate without discrimination against classes or sections and for the free and unlimited coinage of gold and silver at the ratio of 16 to 1, with full legal-tender qualities and without reference to the action of other governments.

We declare that the present war excitement cannot and shall not obscure the money question, upon which the fight in 1900 will be chiefly made, and that the interest now being taken in the 2,000,000 people of Cuba and Puerto Rico must not detract from the vital interest of the 75,000,000 of our own people.

# VERMONT.

## REPUBLICAN.

We reaffirm our loyalty to the cardinal principles of the republican party as enunciated in the platform of the national convention at St. Louis in 1896, especially to the doctrines of protection and sound money, and our confidence is unshaken that this party, which represents the mind and heart and conscience of the American people, will wisely settle the tremendous questions of American policy as they confront us.

## DEMOCRATIC.

We, the democrats of Vermont, declare our adherence to the principles of democracy

formulated by Jefferson, exemplified by a long line of democratic statesmen since his time and crystallized in the platform adopted by the democratic national convention at Chicago in 1896.

We lift aloft the unstained banner of the Vermont democracy and emphasize our unswerving loyalty to the money of the constitution, the money of Washington, Jefferson, Jackson and the long line of illustrious American statesmen; the money that brought prosperity and contentment to this country for eighty years is the money that will restore prosperity to business and a suffering people. The man who calmly deliberates is the man who will be impressed with the fact that the money standard of the Rothschilds, Morgans, Belmonts, Goulds and Sages is the standard these money barons have purposely designed for their selfish upbuilding, and not to confer blessings upon the toiling and producing masses who plainly note their downward progress.

The Vermont democracy takes especial pride in expressing its undiminished admiration of and confidence in William J. Bryan, whose unanswerable logic so clearly voices the principles and benefits of that government which confers the greatest good upon the greatest number of people.

#### WASHINGTON.

##### REPUBLICAN.

We favor the existing gold standard and oppose the free and unlimited coinage of silver.

##### DEMOCRATIC.

The act of 1873 demonetizing silver was surreptitious, passed without the approval or knowledge of the American people. This infamous act demonetizing silver has caused the steady appreciation of gold, a corresponding fall in the prices of commodities produced by the people, a heavy increase in the burden of all debts, public and private, the enrichment of the money-lending class, the paralysis of industry and the impoverishment of the people.

We therefore renew our demand for the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that standard silver dollars shall be full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal-tender money by private contract.

##### FUSION.

We demand the re-establishment of bimetallicism by return to the free and un-

limited coinage of both gold and silver into money at the present legal ratio of 16 to 1, without waiting for the action of any other nation.

We demand that our money shall be issued by the government only, without the intervention of banks of issue, as full legal tender for all debts, public and private; that the volume of the circulating medium shall be sufficient to meet the requirements of the country, for the purpose of restoring and maintaining a just level of prices for labor and commodities, to the realization of all of which we pledge our representatives in congress.

We demand that there shall be no further issue of United States interest-bearing bonds.

#### WISCONSIN.

##### REPUBLICAN.

We believe that the declaration in the St. Louis national republican platform for the maintenance of the gold standard and the parity of our forms of money should be enacted into law, and the money of the American people should be made and kept, like all its institutions, the best in the world.

##### DEMOCRATIC.

We affirm our allegiance to the democratic principles, justice, liberty and equality, upon which our institutions are founded and which the democratic party has advocated from Jefferson's time to our own, and we declare our firm devotion to democratic principles as enunciated in the Chicago platform of 1896.

##### PEOPLE'S PARTY.

The issue of all money by the government directly to the people in connection with government savings banks. We hold that the issue is not so much between gold and silver, but whether the money of the country shall be controlled by the government or by private banking corporations.

#### WYOMING.

##### REPUBLICAN.

We reaffirm the declaration of facts and principles adopted by the eleventh national republican convention at St. Louis, July 17, 1896.

The financial policy of the republican party having brought prosperity to the entire country and given us a place among the nations of the earth and enabled us to conduct successfully a foreign war, we therefore unhesitatingly reaffirm the financial plank of the platform as expressed by the national convention at St. Louis.

### THE WAR AND FOREIGN POLICY.

#### ALABAMA.

##### DEMOCRATIC.

Standing "to arms" as we do to-day, we pledge our lives and sacred honor to the cause of our country, for its defense, for the maintenance of its honor and prestige and for its support in any conflict with a foreign foe.

#### ARKANSAS.

##### REPUBLICAN.

To the army and navy of the restored

union we send greetings and express our entire appreciation of the patriotic and heroic feeling which has prompted their enlistment, our sincere sympathy with their trials and sacrifices, our deep and profound interest in their movements, our resolve to honor and applaud their services and our anxiety to welcome their triumphant return. The country to whose renown they are contributing will ever hold them in grateful remembrance.

We favor the annexation of Hawaii as a strategic position and a commercial neces-

sity and the immediate building of the Nicaragua canal.

**DEMOCRATIC.**

We recognize the Monroe doctrine as a cardinal tenet of the democratic party and a part of the public policy of the national government and favor its strict observance.

Believing that the war now being waged by the United States with Spain is for the purpose of maintaining the national honor and to assist an oppressed people struggling for liberty, we note with pride the promptness with which all sections of our common country have responded to the call for men and means for its prosecution, and pledge the democratic party of Arkansas to an indorsement of all necessary measures to bring it to a successful, speedy and triumphant conclusion.

**CALIFORNIA.**

**REPUBLICAN.**

The national welfare demands the retention of the island of Puerto Rico and other West Indian islands coming under our control, and of the Philippines, in order to permit the expansion of American trade, and in case of the latter to safeguard the commerce already secured in the orient. In the event of the retention of this foreign territory it should be the policy of the United States to extend to it the benefit of free commercial intercourse with all sections of the American union, and to that end the provision of the constitution requiring that all duties, imposts and excises shall be uniform throughout the United States should be rigidly enforced.

We pledge the nominees of the republican party in the various congressional districts in the state to use their utmost efforts, if elected, to secure the speedy extension of the revenue system of the United States to the islands of Puerto Rico and the Philippines, that all parts of our country may enjoy the benefits of trade intercourse with our new acquisitions on the same terms that now prevail throughout the United States.

We rejoice in the acquisition of Hawaii and Puerto Rico and favor the retention by our country of every foot of soil that has been conquered by the victorious hosts of our great republic.

**DEMOCRATIC.**

We indorse the action of congress in declaring war against the government of Spain for the purpose of securing liberty to the people of Cuba and of putting an end to the long-continued oppression and gross misgovernment under which they have suffered.

We congratulate the people of the United States upon the speedy and successful termination of the war for the accomplishment of this purpose. We rejoice in the success that has come to the American arms on land and sea, and glory in the bravery and skill of the soldiers and sailors of our country. The sublime courage and fortitude displayed by our land and naval forces in achieving the victories of Manila and Santiago have shown to the world the value of free institutions, universal suffrage and general public education in developing the highest qualities of character, intelligence and courage, making our volunteer soldiers, trained in the schools of the state militia organizations, more than equal to those who compose the great standing armies of Europe.

We favor the fullest investigation of all conditions existing in the Philippine islands affecting the interests and obligations of our country in the matter of their future treatment and disposition, to the end that final action in relation thereto shall be intelligent and based upon a full knowledge of all facts that can affect the interests of the United States.

While we do not favor an aggressive policy of territorial expansion, we are opposed to the surrender to Spain of any of the territory that has been acquired by American valor and the expenditure of the blood and treasure of our people. And we do not favor the surrender to Spanish dominion of the people of any of the Spanish colonies who co-operated with our forces against our enemy in the late war. We are unalterably opposed to the assumption by this government of any portion of the debts of Spain incurred in maintaining her sovereignty in Cuba and to the imposition of any portion thereof upon the people of that island or to any recognition thereof.

**PROHIBITION.**

We favor the hearty support of the government in the present war and pledge ourselves to this end.

**PEOPLE'S PARTY.**

The war against Spain, compelled by the sentiments of the people of the United States in vindication of honor, duty, humanity and liberty, should be prosecuted with overwhelming vigor until the ends for which it was undertaken have been fully and satisfactorily achieved.

**COLORADO.**

**REPUBLICAN.**

We commend the patriotism, skill and ability displayed by the present administration during the trying times of the late war with Spain, and are proud of the achievements of our army and navy in the victories over the enemy, especially the bravery and patriotism displayed by the Colorado volunteers in the Philippines and the daring courage of the 7th infantry at Santiago.

We condemn as un-American and unpatriotic the position of the democrats and others in congress who spoke and voted against the annexation of Hawaii.

We are unqualifiedly in favor of keeping forever in place the American flag wherever it has been unfurled to the breeze, whether as a result of conquest or peaceable acquirement.

**DEMOCRATIC.**

The democratic party heartily approves of the recent war with Spain and justly shares in the glories of its results. We favor the independence of Cuba and the retention by this government of the other Spanish West India possessions and the control of all other Spanish territories taken by the American forces in the war just closed.

To the soldiers and sailors of the army and navy and to their gallant commanders on land and on sea we tender our sincere and fervent gratitude. Their achievements have added to the luster of our arms, to the glory and power of the nation and to the limits of our domain. They have destroyed every lingering vestige of sectionalism and have cemented the union forever with the love of all for our common country. A grateful country will bind up their wounds, sustain

their sick, care for their afflicted and dependent and keep from want their widows and orphans.

#### SILVER REPUBLICAN.

We congratulate the country upon the conclusion of a war whose purpose was the highest that ever impelled a nation to take up arms, and whose record of glory on land and sea has never been surpassed in history. We declare that the war was waged in deference to the demand of the liberty-loving people of this country, whose sympathies were aroused by the suffering of the people of Cuba under the barbarous misgovernment of Spain; that it was an American war, and that the attempt manifested in some quarters to claim it as the property of a certain political party in this country is not creditable to the patriotism of those who make it.

We declare our belief in the mission of the people of the United States as the evangel of liberty and self-government to the nations of the world, and in their ability to discharge all of the responsibilities which the fortunes of war have thrust upon them. Wherever the flag waves it shall be a symbol of civilized freedom and to all men who gaze upon its folds a guaranty of the inalienable rights of life, liberty and the pursuit of happiness.

#### PEOPLE'S PARTY.

Recognizing that the recent war with Spain for the liberation of Cuba has thrown upon our nation the responsibility for the protection of millions of people debased by centuries of inhumanity; therefore, recognizing the injustice involved in the return of these people to the conditions from which the United States has been the instrument of their release, we favor the retention and government of these islands over which our flag now floats and where our heroic dead lie buried, until such a time as a majority of the people of these respective countries shall express a desire to establish a government of their own.

#### CONNECTICUT.

##### REPUBLICAN.

It [the party] approves the annexation of Hawaii and is in favor of acquiring and controlling such additional lands, naval stations and harbors as will enable us at all times to give the most complete protection to our growing commerce with Asia and the countries of the far east.

##### DEMOCRATIC.

We call attention to the fact that while a successful war in the cause of a common people adds fresh glory to their flag the management of the various war departments has chilled our exultation and brought home to us a sense of shame.

The American sailor and soldier have done their full duty, but the administration of President McKinley has been utterly incompetent to discharge the obligations which the management of the war imposed. Incompetency and venality in places of high trust have brought disgrace upon the administration and aroused the ire of an indignant people.

#### DELAWARE.

##### REPUBLICAN.

We believe in the maintenance of an army

and navy sufficient to assert and maintain the rights of our nation and all its citizens against the encroachments of other nations.

We believe that our seacoasts should be thoroughly fortified in the best manner.

We believe that the United States should keep all territory either surrendered to it or captured by its forces in the late war with Spain.

We congratulate the nation on the annexation of the Hawaiian Islands. While we congratulate the nation upon the completion of the war with Spain, we demand that there shall be a vigorous, thorough and honest investigation by a competent and impartial tribunal of the alleged disgraceful and incompetent management of our war department, whereby the lives of many of our brave soldiers and sailors were needlessly sacrificed, and whereby the men who so cheerfully went forth to fight the nation's battles were without cause compelled to suffer great distress, discomfort, misery, starvation, sickness and death, and that the guilty parties, whoever they may be, be properly punished.

We believe that the Nicaragua canal should be built and controlled by the United States government.

#### DEMOCRATIC.

We heartily congratulate ourselves and the country on the happy ending of the war with Spain, and, now that its declared end has been accomplished, we demand that the country as quickly as possible be restored to the conditions of peace and that the burdens of war taxation be lessened.

#### FLORIDA.

##### DEMOCRATIC.

We rejoice in the brilliant successes attained by the American sailors and soldiers in the present war with Spain, and glory in the fact that the last vestige of sectional feeling has been swept away forever as we have assembled on the call of the nation as one people to meet a foreign foe, and that henceforth we shall know no north, no south, no east, no west, but shoulder to shoulder, with the star-spangled banner waving over us and the love of country inspiring us, we shall onward march to the high destiny among the people of the earth for which the God of nations intended us.

We condemn the policy of insular territorial expansion upon which the administration at Washington has embarked as unwise, un-American, unjust to the masses of our people, and especially to the laboring and producing classes, and as dangerous to our free institutions; and we pledge the democracy of the state of Florida to the opposition of the same. Whereas the present war with Spain was inaugurated for the declared purpose of aiding the Cuban patriots in their struggle for liberty and in the efforts to establish a free government, and we have solemnly announced to the world that we have no intention to annex the island of Cuba to the United States; and whereas war at best is un-Christianlike, demoralizing in its tendencies and a drain upon all the resources of the country; therefore, when the declared objects of the present war shall be accomplished it will be the duty of the government to grant peace on terms just to this government and honorable to our people, and in the adjustment of such terms of

peace Cuba should be left free by this government and untrammelled by our army and navy to establish, by the free action of her people, a free and independent government of its own; the democrats of Florida will support the administration in all its efforts to conduct the present war to an early, honorable and satisfactory close, and it would be an act of bad faith on the part of our government and a blot upon our civilization for us, as a result, either directly or indirectly, of the war, to annex the island of Cuba to the United States, and thus to rob the Cubans of that free and independent government for which they have fought so long.

GEORGIA.

DEMOCRATIC.

We affirm that the cause for which the United States is at present engaged in war with Spain is just and righteous. Without regard to political division, all loyal and patriotic citizens of the republic should unite in the support of the common cause represented by the flag, and it is with pride that we point to the record of the democratic party, made through its senators and representatives, in having been the first to urge in behalf of freedom and humanity active measures looking to the suppression of Spanish oppression in the West Indies. There is cause for universal congratulation in the fact that the patriotic uprising of the whole people has obliterated sectionalism from the politics of our country, and while the people of the south unite with those of the north in cordial enthusiasm over the marvelous victory of Dewey in annihilating Spain's Asiatic fleet it is gratifying to observe that those of the north are no less cordial in bestowing praise and commendation upon the heroic deeds of the two brave young southerners—Bagley and Hobson—who, with their intrepid comrades, have won distinction which will render their names immortal and add new luster to the American navy.

As to the incidental questions that will arise as the result of the war, we believe that the people can safely be trusted to dispose of every such question in a manner which will be in keeping with the spirit of our institutions and in harmony with the principles and record of the democratic party. This country should first address its undivided attention and throw its full energy to securing decisive results in the war with Spain, rather than engage in political controversy over issues which are yet unshaped, and which, in the nature of things, cannot be intelligently discussed until the termination of the war.

IDAHO.

REPUBLICAN.

We congratulate the nation upon the successful issue of the war with Spain, prosecuted under the direction of William McKinley, commander-in-chief of the army and navy of the United States, with the loyal support of the brave volunteers on both land and sea. We declare our hearty approval of the terms demanded of Spain by our president as the conditions of restored peace. And we declare our full and complete confidence in the patriotism and ability of the republican administration to

make such just and wise provisions touching the government and control of our newly acquired territory as will best accord with the policy of our government and the best interests of all the people. And we declare our full faith and confidence in the patriotism and wisdom of the republican administration so to conduct the affairs of the nation, both at home and abroad, that the prosperity of our people and the honor of our flag will reach the highest mark to which our institutions entitle us to aspire.

DEMOCRATIC.

We declare our unfaltering allegiance to the Monroe doctrine and are strenuously opposed to the annexation of Cuba, believing that the inhabitants of that island should be given the opportunity of self-government. We also advocate the retention of all territory acquired by American valor in the war waged for humanity, always provided the people to be governed yield their consent.

We pronounce the war with Spain justified by every consideration of justice and sound national policy. We congratulate the democratic minority in congress for its firm stand in demanding the redress of our national honor and indorse the declaration of war on Spain and glory in its results.

We rejoice in the glorious deeds of valor of our soldiers and sailors and greatly deplore the fatalities and injuries which have so far resulted, and we favor the adoption of the most liberal policy toward the sick and wounded and the families of the slain.

ILLINOIS.

REPUBLICAN.

We believe that the present war with Spain is a righteous and just cause. We rejoice that the American people are a unit in sustaining the government and that the spirit of patriotism has swept away the last vestige of sectional feeling.

We pledge to the president the earnest support of the state of Illinois in the prosecution of the war to a triumphant close.

The United States should hold all the possessions it has conquered and may conquer from Spain until the Spanish government has agreed and given security that it will pay the United States an indemnity for this affair, which might have been avoided had Spain been humane; also that the United States hold such possessions in the conquered territory as shall be advantageous to its interests in times of war and peace.

DEMOCRATIC.

We reaffirm the Monroe doctrine and again pledge ourselves to abide by the advice of Washington, "to keep ourselves free from entangling alliances with foreign nations."

INDIANA.

REPUBLICAN.

While we sincerely deplore the necessity of war, we believe the president and congress acted wisely in demanding the complete withdrawal of Spanish sovereignty from the island of Cuba and in proceeding to enforce the demand with the military and naval power of the government. And now that our army and navy, through their splendid achievements, have blessed our na-

tion with triumphs not excelled in the world's history, rendering many names illustrious and immortal, and adding prestige and glory, limited only by civilization, to our great republic, the occasion is one of supreme gratitude to the great Ruler of nations.

#### DEMOCRATIC.

We congratulate the country on the universal patriotic uprising which has swept away the last vestige of sectionalism and revealed us to the world as a united people. We rejoice in the heroic deeds of Dewey, Bagley, Hobson and their brave comrades, which have added new luster to the American name. We demand, now as heretofore, the most vigorous prosecution of the war until it shall have ended in vindication of the national honor, the absolute relinquishment by Spain of possession or control of any part of the western hemisphere, and the formal acknowledgment by that kingdom of the independence of the Cuban republic. We favor the prompt recognition by the United States of such independence as a war measure and as an act of justice to a brave people struggling for freedom. We urge the immediate increase of the volunteer forces of our army and navy to any extent necessary to assure speedy and decisive results, and the appropriation of all the funds requisite for the adequate equipment and support and for the comfort of our gallant soldiers and sailors in armed conflict against the public enemy. The supreme duty of the hour is to relieve the perishing victims of Spanish cruelty and secure the complete triumph of the national arms. When this shall have been accomplished the justice and wisdom of the American people may be safely trusted to deal with all complications, in such a way as best to promote the objects for which this republic was founded.

#### IOWA.

#### REPUBLICAN.

We favor the upbuilding of the American merchant marine, the speedy construction of the Nicaragua canal, the securing of naval and coaling stations and the protection of American rights in every quarter of the world with an adequate navy.

The republican party, under whose policies and administration prosperity has been restored and a foreign war successfully conducted, has earned the right to be further intrusted with the task of solving the territorial, colonial and commercial problems that have resulted from the war.

It is due to the cause of humanity and civilization, for which the war with Spain was fought, that no people who have in consequence thereof been freed from oppression shall, with the consent or through the indifference of the United States, be returned to such oppression or permitted to lapse into barbarism.

#### DEMOCRATIC.

The war with Spain was necessary and undertaken in the interest of humanity, and we commend the action of the democrats in congress who voted ample supplies for prosecuting it to a successful conclusion.

We demand that the solemn declarations as to the purposes of the war be faithfully carried out by the government. We glory in the valor of the soldiers and sailors of the

army and navy and rejoice in their unexampled victory on land and sea. The congress provided amply in money to furnish them supplies and the best of care when they became disabled by wounds or disease, and we denounce the criminal incompetency and negligence of the agents of the government who have caused them to suffer and die in camp and hospitals for the lack of care which humanity and justice demand. And we insist upon a speedy, searching and impartial investigation to the end that the guilty may be exposed and fittingly punished.

We express our unbounded admiration of the patriotic, self-sacrificing courage of the soldiers who enlisted but were not sent to the front, as well as those who faced shot and shell and deadly disease on foreign soil, and we hold that all are equally deserving of the love and gratitude of the republic.

While recognizing the importance and demanding the maintenance of an effective navy, we hold that militarism is a menace to free institutions and we oppose any policy which will supply a reason or a pretext for supporting a large standing army in time of peace.

The immortal Washington, for profound reasons, wisely warned his countrymen against entangling foreign alliances. The admonition is as pertinent as when it was uttered a century ago. Therefore, while sincerely desiring friendly relations with all nations, we earnestly protest against alliance with any.

#### SILVER REPUBLICAN.

We are not in favor of adding to our population millions of Asiatics in far-off islands to compete in the field of labor with our own producers and wage-earners.

#### PROHIBITION.

While we believe in arbitration as the best means of settling international difficulties, and we deplore the causes which have led to the present war with Spain, and while we hope for a speedy termination of said war, we pledge our loyalty to our government in the present crisis, and we earnestly hope for the day when the government will intervene to rid our home land of the cruel rule of the saloon.

#### PEOPLE'S PARTY.

We indorse the present war with Spain upon the sentiment expressed in the joint resolution of the American congress that "the people of the island of Cuba are, and of right ought to be, free and independent," and we demand that the same be conducted upon that theory. To this end we therefore insist upon a vigorous prosecution and speedy termination of the war and the establishment of peace and local government upon the island.

We cannot consent that this war, commenced for the relief of suffering humanity there, shall be made a pretext for the maintenance of a large standing army, or for territorial aggrandizement, or the cultivation of a vainglorious military spirit with attendant burdens of increased taxation, perpetual interest-bearing debt and inevitable tendency toward monarchical government.

#### KANSAS.

#### REPUBLICAN.

The experience of recent events has dem-

onstrated that our navy should be immediately strengthened and enlarged so that it will command and compel the respect of the world. We believe that the necessities of war have supplemented the arguments of peace and that the Nicaragua canal should be built as speedily as possible. We believe that the Hawaiian Islands should be annexed and we urge our representatives in congress to support the resolution providing for their immediate acquisition.

**DEMOCRATIC.**

We are in favor of a vigorous prosecution of the present war with Spain, and see in it not only the passing of Cuba from despotism to freedom but for ourselves a more advanced place among the nations of the world and a broader commercial horizon. The American navy should be greatly enlarged and in its wake our merchant marine, under new tariff laws, should open the world's markets to American buyers and sellers, and rights should be reserved in all territory conquered during the war to facilitate and protect such extended commercial interests, but with no view to territorial aggrandizement nor the establishment of a colonial policy for this government. We congratulate our state that she was the first to respond to the president's call with her full quota of volunteers, and assure our Kansas soldiers that in this righteous battle for human rights they will be followed through the march, the bivouac and the battlefield by the hopes and prayers of their fellow-citizens at home.

**PROHIBITION.**

In behalf of liberty and humanity we are in fullest sympathy with the action of congress touching Spain's long and continued and cruel oppression of Cuba.

**MAINE.**

**DEMOCRATIC.**

While we deprecate the horrors of war, it is now the duty of all to give their aid and support in order to bring to a successful termination the present conflict, and we do hereby pledge our cordial support to all such measures as are necessary to accomplish the purpose for which this war was instituted.

**PEOPLE'S PARTY.**

The present war with Spain, if conducted for the liberation of the Cuban people, is just and humane, but it should not be prolonged for the benefit of contractors and money-lenders.

**MASSACHUSETTS.**

**REPUBLICAN.**

The war with Spain, undertaken by the United States from the highest motives, has been justified in the intelligence and compassion of mankind. Our brilliant victories have brought us solemn obligations and grave responsibilities, for we cannot, in the interest of honor, humanity or civilization, return to Spain the peoples whom we have freed from her tyranny.

The people of Massachusetts do not propose to abandon the ancient doctrines of republican liberty, upon which the commonwealth and the country are builded, and by which the American people have grown to be without a rival among the nations in

wealth, power and happiness. What they enjoy themselves they desire shall be enjoyed by all other peoples, especially by those whom the valor of our soldiers and sailors have wrested from Spain, and whose destiny must now be determined by the United States alone.

While we would not interfere with the diplomatic negotiations now in progress, we desire that they be so conducted and terminated as to secure to the Philippine Islands and to Cuba in amplest measure the blessings of liberty and self-government.

The building of the Nicaragua canal, controlled and operated by the United States, is now imperative. Our possessions in the Caribbean sea, the annexation of Hawaii, our position in the Philippine Islands and the notable voyage of the Oregon have made its necessity clear to all. We confidently look to congress for the early undertaking of this work and its completion with all reasonable dispatch.

**DEMOCRATIC.**

We note with alarm and indignation the perversion of the powers and purposes of our republic from its true end and aim as prescribed by the fathers. We mark the stealthy approach and insinuation of European methods in place of the democratic methods which alone distinguish the American republic from despotism of foreign lands. We reaffirm the patriotic policy of the "father of his country," as declared in his farewell address, that we should ever be on our guard against the insidious advances of foreign influence, and that our country should cultivate friendly relationships with all nations and entangling alliances with none.

Following this policy the democratic party of Massachusetts declares its uncompromising opposition to imperialism, whether within or out of the dominion of the United States. We declare in particular that the pledge made by our congress at the outbreak of the war with Spain, that "the people of Cuba are, and of right ought to be, free and independent," should be sacredly maintained. We believe in the independence and freedom of every country and people capable of self-government. We should encourage the people of every land throughout the world, when unjustly governed and oppressed, to gain their freedom; we should assist them by pointing out to them the beneficent results of our own free institutions and by maintaining those institutions in their pristine purity and democratic form.

**PROHIBITION.**

Organized and existing for the economic and moral advancement of humanity, it sympathizes with all humanitarian projects, and tenders its loyal and hearty support to the national government in its war measures to relieve the sufferings and secure the independence of our Cuban neighbors.

**MICHIGAN.**

**REPUBLICAN.**

We congratulate the nation upon the victories recently won on land and sea and offer our tribute of praise to the heroes of Manila and Santiago, whose deeds have broadened the national horizon and won the respect of the civilized nations of the world.

While believing that Providence has made

this nation the instrument for the uplifting of an oppressed people, and believing also that our flag once raised should never be lowered, nevertheless we leave our future destiny in this regard in the hands of the properly delegated authorities, believing that they will act for the glory and honor of the nation and the elevation of mankind.

#### DEMOCRATIC.

We favor a vigorous prosecution of the war with Spain, which was begun and is being waged in the interests of humanity and for the extension of political freedom. We urge the most liberal supply of modern arms to our soldiers and the utmost energy in their equipment. We declare our conviction that there should be no cessation of effort until every righteous purpose shall have been achieved. We congratulate the nation upon the skill and valor of its defenders and the prompt and effective response to the call for troops; especially do we feel just pride in the high character and earnestness of the brave men of Michigan, who, in the volunteer service, have reflected such credit upon our commonwealth.

#### UNION SILVER.

We most heartily support the national administration in all worthy efforts to maintain our national dignity and honor and forever to drive Spanish oppression from the western hemisphere. We also favor a vigorous prosecution of the war to a successful termination, as set forth in the declaration thereof.

#### MINNESOTA.

##### REPUBLICAN.

We are in favor of the immediate annexation of the Hawaiian islands, not only as an absolute military necessity, but as the fruition of one of the noblest aspirations of a long line of our great statesmen and because such annexation would be of unquestioned advantage to the American people.

We desire especially to commend the wisdom and patriotism of the present administration in the management of the existing war between this country and Spain, a war which appeals to the patriotism of every citizen in that it is being prosecuted in the interest of humanity and for no selfish ends whatever. To the end that its objects may be speedily realized and the war brought to an early termination we pledge all moral and material support in our power.

#### SILVER REPUBLICANS.

We pledge our united support to the government in a vigorous prosecution of the war against Spain.

#### PEOPLE'S (MIDDLE-OF-THE-ROAD).

We heartily sympathize with the oppressed people of Cuba in their struggle for self-government, and with gratitude and pride we commend and rejoice in the patriotism of our young men who have volunteered in the battle of freedom for Cuba.

#### MISSISSIPPI.

##### REPUBLICAN.

We believe that the flag of no despotic nation should ever again be allowed to float over soil which has been hallowed by the blood of American heroes, shed in the cause of humanity and freedom and in the defense of American honor.

We reassert the Monroe doctrine in its full extent as a principle of our polity, and

we believe that the United States should stand aloof from interference with the affairs and disputes of European powers when American interests, the integrity of American territory and freedom of the nations of the western hemisphere are not involved, but we assert that the Monroe doctrine does not compel our government to abandon or to return to the tyranny of Spanish rule any of the helpless peoples who have by force of circumstances in the conduct of the Spanish-American war been placed under our protecting care. And we further assert that the Monroe doctrine does not forbid the enlargement and extension of American territory or the protection of American interests in the eastern as well as the western hemispheres, and especially in the Pacific ocean, where our great coast line and the requirements of the commercial development of our western states establish paramount rights and impose on our government corresponding duties, and we therefore approve of the annexation of the Hawaiian islands, and we favor the acquisition and ownership of additional naval stations and ports, sufficient to afford ample protection to our rightful and naturally growing commerce with Asia and the other countries of the far east. We believe in the upbuilding of the American merchant marine, and we favor such legislation by congress as will accomplish that end.

#### DEMOCRATIC.

We assert that the declaration of war against Spain was justified by the causes which called it forth. We direct attention to the fact that the national republican administration, backed by the republican majority in congress, was opposed to war, and yielded only after delay to strong public sentiment, aroused by the first and persistent demands of democratic senators and representatives, foremost among whom were those from Missouri, and for their part in forcing the republican president and congress to defend the rights of our country we extend them our hearty congratulation.

We are opposed to waging a war for conquest, but as this war was forced on us by the intolerant conduct of the Spanish government and people we declare that it should be prosecuted until Spain is driven from the western hemisphere. And since the prosecution of the war has entailed great loss to us of both life and treasure we demand that Puerto Rico and all Spanish territory in the West Indies, except Cuba, shall be seized by the United States or be taken possession of by arms and held under the sovereignty of this country. We favor carrying out in good faith the resolution of congress under which we intervened in Cuba, and aiding the Cubans to establish and maintain an independent government of their own. If they desire this, and we will favor its peaceful annexation whenever it can be done with the consent of the people of the island.

We insist on the strict maintenance of the Monroe doctrine and hold that any departure from it would be both unwise and hazardous. At the same time we declare that no American people should be held by force in unwilling subjection to European authority.

We oppose an alliance of a political nature with any European government, believing that the maintenance of the Monroe doctrine in all its integrity, both in letter and spirit, is necessary to the exclusion of European authority from these continents.

and essential to our undisputed supremacy in American affairs.

We are opposed to the acquisition of the Philippines or other territory in the eastern hemisphere. We declare that as an important incident to war our government should acquire all necessary harbors and coaling stations in the Philippines or elsewhere, and that the treaty of peace with Spain or any other government established on the islands should guarantee to us commercial privileges equal or superior to those enjoyed by any other nation.

#### MONTANA.

##### REPUBLICAN.

As a result of our 110 days of war new interests and new duties have come to the country, and an increase of the army and navy is thereby required. We favor such an enlargement of the American navy as will protect our ever-widening commerce and make our flag respected on every sea.

##### DEMOCRATIC.

We congratulate our brethren, the people of the United States, upon the return of peace and on the renown achieved by our navy and army in a war waged in the sacred cause of humanity and liberty. We send greeting to our brave regiment now in a far-away island of the Pacific and commend the patriotism of those volunteers who gave their services to their country, though the exigencies of the war never required them to go to the front.

We arraign the war department for its criminal incompetency and inefficiency in failing to provide adequate food, shelter, raiment and medical supplies and attention for our brave soldiers, and demand the most rigid and searching investigation of the abuses resulting in the suffering and death of so many of our patriotic and devoted citizens.

Serenely confident of the ability of the United States to maintain its position among the nations of the earth, we are opposed to any alliance with any European power.

##### SILVER REPUBLICANS.

We are opposed to an Anglo-Saxon alliance as antagonistic to that safe policy of freedom from foreign entanglements counseled by the immortal Washington and steadfastly adhered to in the past, and that as we stand for the free coinage of silver, without the aid or consent of any foreign government, so we hold that our country, secure in the bravery of her sons and strengthened by the friendship of every lover of liberty throughout the world, needs the aid of neither kingdom nor empire to maintain her high position among the nations of the earth.

#### NEBRASKA.

##### REPUBLICAN.

We congratulate the nation upon the successful issue of the war with Spain prosecuted under the direction of William McKinley, commander-in-chief of the army and navy of the United States, with the loyal support of brave volunteers on both sea and land.

We emphasize our hearty approval of the terms demanded of Spain by President McKinley as the condition of restored peace.

##### DEMOCRATIC.

We send greeting to the brave men of our

nation who are fighting humanity's battle and attempting to relieve the suffering, privation and hunger of a courageous but oppressed people, and for that purpose to guarantee unto the fertile isle of Cuba a government created, maintained and upheld by the consent of the governed, and pledge the president of the United States our most hearty support in the vigorous prosecution of the conflict.

##### PEOPLE'S PARTY.

The policy to be pursued by the United States respecting foreign nations and peoples of the islands of the sea is one of great moment and far-reaching in its consequences to present and future generations of our countrymen. It is of such magnitude that it should not be hastily determined, and in view of the probable close of the war with Spain at an early date we affirm that the wise course for this government to pursue with respect to its relations with the islands lost to Spain during the war would be to postpone consideration thereof until the conclusion of the war, to be then taken up for mature deliberation by the people when no public excitement exists.

##### SILVER REPUBLICANS.

We endorse the policy of the people of the United States in prosecuting the war against Spain as a protection to our citizens and as a punishment for the destruction of a war vessel in one of the ports of Spain while this country was at peace with that nation, and as being in the interest of humanity and freedom, but we oppose the prosecution of the war for the purposes of conquest. We pledge to the present administration our undivided support in securing all the men and all the money necessary to bring the war to a speedy, honorable and successful end. We demand as a part of the conditions of the proposed peace with Spain that the Spanish dynasty shall be required to pay the cost of the war, the value of the battleship Maine and her armament, and an adequate sum as damages to the United States to be distributed among the wounded and the widows, orphans and dependents of those who lost their lives by the destruction of the Maine. We tender to our heroic soldiers of all ranks our warmest thanks and our heartiest congratulations, without regard to party, nationality, creed or color. Their sacrifices shall be remembered and those dependent upon them cared for.

#### NEVADA.

##### REPUBLICAN.

We stand for the policy of territorial expansion. The statesmanship of the war was intervention in behalf of Cuba; the statesmanship of the peace of to-day is freedom for the oppressed peoples of all lands acquired by the splendid victory of our arms. These victories demand not only expansion of territory, but, in the interests of justice and humanity, they demand expansion of civilization, which means for the Philippines, for Puerto Rico, for the Ladrones, free schools, a free church, open courts, no caste and equal rights to all those magnificent bulwarks of liberty.

We commend the annexation of the Sandwich Islands. It means the uplifting of a struggling people and the opening to them and their children of new avenues of promise, with wider and more hopeful prospects.

We urge the enactment of such laws as will protect the laboring classes of these islands, as well as those of any other territory that may be acquired by the United States, from the ruinous competition of cheap contract labor.

#### PEOPLE'S PARTY.

The islands which recently belonged to Spain, but over which the American flag now floats, belong to the United States by right of conquest, and we are emphatically opposed to any scheme that will saddle any part of the Spanish or Cuban debt on this country.

The war with Spain has demonstrated the great necessity of a ship canal connecting the Atlantic and the Pacific, and we favor the immediate construction of such canal over the most feasible route, to be built, owned and controlled by the United States government.

#### NEW HAMPSHIRE.

##### REPUBLICAN.

We approve the increase of the navy, the upbuilding of our merchant marine, the enlargement of the regular army to meet the present requirements of the country, the construction of a canal connecting the Atlantic and Pacific oceans, the annexation of Hawaii and Puerto Rico, the provision for a free and stable government for Cuba and its ultimate annexation. While reaffirming the Monroe doctrine, we favor such disposition of the Philippines as will best promote the growing commercial and political interests of the United States, extinguish the sovereignty of Spain and make good our obligations to the peoples of those islands.

#### NEW JERSEY.

##### REPUBLICAN.

We approve the annexation of the Hawaiian islands and view this act as an important step in the advance of American civilization, and we repose entire confidence in the wisdom and patriotism of the president and the commission appointed by him to negotiate such a treaty of peace as will meet the just expectations of our people by insisting on an adjustment in which the interests of this republic and of civilization and humanity will be secured as far as possible as the fruits of the valor of our soldiers and sailors in the war with Spain.

#### NEW YORK.

##### REPUBLICAN.

We have abiding confidence that the president will conclude this peace upon terms that will satisfy the conscience, the judgment and the high purpose of the American people. We realize that when the necessity of war compelled our nation to destroy Spanish authority in the Antilles and in the Philippines we assumed solemn duties and obligations alike to the people of the islands we conquered and to the civilized world. We cannot turn these islands back to Spain. We cannot leave them, unarmed for defense and untried in statecraft, to the horrors of domestic strife or to partition among European powers. We have assumed the responsibilities of victory, and wherever our flag has gone, there the liberty, the humanity and the civilization which that flag embodies and represents must remain and abide forever. The republican party has

been the party of brave conservatism, of wise progress and of triumphant faith in the nationality of this people, and we know that the president and statesmen and voters of the republican party will meet these issues of the future as bravely and triumphantly as we have met the issues of the past.

We commend the annexation of Hawaii in the interest of commerce, of national security and national development.

#### DEMOCRATIC.

We congratulate the country upon the successful termination of a war undertaken, not for conquest or aggrandizement, but in the interests of humanity, liberty and civilization. We glory in the patriotic devotion and valor of our brave soldiers and sailors, who have honored the American people and heightened the luster of our national fame, and we favor the adoption of a liberal policy toward the sick and wounded and the families of those who lost their lives in the service of their country. We rejoice that the democracy has been connected with every honorable and creditable step in the war and with nothing that is dishonorable or discreditable.

The scandalous abuse by the president of his power of appointment in scattering army commissions among inexperienced and incompetent civilians as rewards to personal favorites, and almost to the exclusion of experienced officers in the service, is largely accountable for the fearful sufferings and the appalling loss of life among the gallant soldiers, that have brought disgrace upon the administration and a sense of shame to the nation. A democratic congress will, if chosen by the people, rigidly investigate the conduct of the war and expose and punish all who may be responsible for the unnecessary deaths, privations, sufferings and neglect of the soldiers, which have saddened the nation and abated the natural rejoicing over the triumphs of our army.

#### NORTH CAROLINA.

##### DEMOCRATIC.

While we deplore the war with Spain, we pledge our earnest support to the government in all honorable ways to effect a speedy and successful conclusion of hostilities.

#### PEOPLE'S PARTY.

To avenge the Maine, to advance republican institutions and in the interests of humanity, the brutal and treacherous Spaniards should be driven from the western hemisphere and a republican form of government established in the islands which she has misgoverned, robbed, persecuted and pillaged.

#### NORTH DAKOTA.

##### REPUBLICAN.

In the interest of humanity and a more progressive and enlightened civilization we most earnestly advocate closer relations and a better understanding between the English-speaking peoples of the earth.

In the future as in the past we welcome to our shores and to our hospitality all liberty-loving individuals from every clime and offer to each of them a full share of the great blessings that belong to and are a part of the free institutions under our republican form of government.

We condemn the uncivilized and dark-ages policy of Spain in its barbarous treatment of the inhabitants of Cuba, Puerto Rico, the Philippines and those islands yet remaining under Spanish control, and to those of our patriotic citizens who have pledged their lives in behalf of these oppressed people we offer our tenderest devotion and our united support. In the marvelous victories on sea and land our nation has achieved in the last three months we recognize the hand of Providence and accept them as assurances of the success of our nation in the future.

We sincerely believe that Cuba must, and of right ought to be, free and independent.

Spanish dominion over Puerto Rico and the Philippines must cease forever, and we favor such wise policy as may be deemed necessary by the administration for the future government and control of these islands.

We fully indorse the action of congress and the executive in the annexation of Hawaii.

#### DEMOCRATIC.

We rejoice in the glorious achievements of our army and navy, whose magnificent victories, participated in by citizens of every state in the union, have added imperishable luster to our arms, swept away the last vestige of sectionalism in our country and revealed us to the world a united people, and we pledge the loyal support of the democratic party in this state to the national administration in waging and bringing to a successful termination the present war with Spain. We urge the vigorous prosecution of the war so unselfishly begun in the interests of humanity, civilization and progress, until Cuba and all other possessions of Spain on this continent are freed from her blighting influence and dominion.

The supreme duty of the hour is to relieve the oppressed and perishing victims of Spanish cruelty and to secure the complete triumph of our national arms. When this has been accomplished the wisdom and justice of the American people may be safely trusted to deal with all questions which may grow out of existing complications, in such a way as to promote the objects for which the war was entered upon and to perpetuate the principles upon which our government is founded.

#### OHIO.

##### REPUBLICAN.

We most heartily approve of the steps now being taken by congress and the president providing for the annexation of the Hawaiian islands as a part of the United States, and hereby express the urgent wish that the same be fully accomplished at the earliest practicable date by the passage by the senate of the joint resolution which has already met with the approval of the house of representatives.

Knowing that justice and humanity alike made it our duty to put an end to the hopeless and barbarous warfare waged by Spain against Cuba, and secure for that unhappy island a free and stable government, we most heartily approve of the declaration of war made by the United States against Spain, and pledge our lives and fortunes for the purpose of bringing it to a quick and successful termination.

We indorse and approve the patriotic

American administration of William McKinley. We commend the great statesmanship displayed by him in his tireless endeavors to secure an honorable settlement of the Cuban question by diplomatic methods, and his fearless refusal to be driven into war until all hopes of a peaceful settlement had failed and wise and needful steps had been taken to prepare for hostilities. We heartily indorse the conduct of the war by the administration and feel confident that time will continue more and more to demonstrate the great wisdom and matchless leadership of President McKinley so far remarkably displayed in his management of the war and its conduct, and we rejoice with him that, in the present crisis, the American people are united in sustaining him and that patriotism has completely obliterated the last vestige of sectional feeling.

Since the war with Spain could not be avoided, we approve all that congress has done to provide for the vigorous and successful prosecution thereof, and gratefully thank all members of that body who have patriotically voted the revenues necessary for its conduct. We also commend the action of congress in providing for raising necessary funds to carry on the war by the popular loan, thus affording an opportunity to citizens of moderate means to invest in the bonds of the government.

##### DEMOCRATIC.

We recognize the eternal truth that life, liberty and the pursuit of happiness is the natural and inalienable heritage of all mankind, and since the hand of despotism has been lifted from the island of Cuba, dominated by Spain, we should afford its inhabitants an untrammelled opportunity to establish a free and independent constitutional government, deriving its powers from the consent of the governed, and we remind the country that congress, in the resolutions which declared war, resolved "that the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people," and we believe that until the people of the islands of Cuba and the Philippines, redeemed from Spanish domination, declare otherwise we should keep the faith upon which the war was begun and prosecuted.

##### PROHIBITION.

While we hold that the policy of arbitration ought in general to prevail in cases of dispute between nations, yet we hereby express to the president of the United States and the authorities of the nation at Washington our loyal sympathy and support in the humanitarian war that is now being waged by our country in behalf of the oppressed people of Cuba and the cause of popular freedom.

#### OREGON.

##### REPUBLICAN.

While we deplore the imminence of war, we recognize that the country is on the eve of a war, undertaken for the vindication of the national honor and the performance of a work dictated by every instinct of humanity; we declare that the administration

is entitled in this conflict to the confidence and support of the entire people.

#### PENNSYLVANIA. REPUBLICAN.

We declare our emphatic approval of the wise and patriotic course of the president and congress in the present war. We appreciate the high statesmanship which led the president to resort to every honorable means to avoid the necessity of a war with Spain. The conditions prevailing in the island of Cuba, under Spanish control, had become seriously injurious to our important commercial interests, and the suffering, misery and death occasioned by Spanish cruelty and barbarity had instilled a sentiment of resentment among the American people, who cannot help but feel a generous sympathy with people so near our own border. The destruction of the Maine by Spanish agencies, in the opinion of our people, demanded atonement; and our negotiations with Spain clearly developed the fact that but one alternative was left to the United States, that Spain should relinquish her sovereignty over that island and that the freedom of Cuba should be recognized. With these purposes in view we demand a vigorous prosecution of the war to a successful conclusion and we pledge our earnest support to the president of the United States in whatever measures he may deem necessary.

#### DEMOCRATIC.

We pledge our hearty support to the government in an active and aggressive conduct of the war with Spain.

#### PEOPLE'S PARTY.

We demand for the people of the United States an American policy thorough and strict, and with all possible emphasis we reaffirm the principles of the Monroe doctrine as enunciated by Thomas Jefferson—"that our first and fundamental maxim should be never to entangle ourselves in the broils of Europe; our second, never to suffer Europe to intermeddle with cis-atlantic affairs;" and we pledge our support of the Cuban policy declared in the joint resolution adopted by congress and approved by the president April 20, 1898.

#### RHODE ISLAND. REPUBLICAN.

We sympathize with the unfortunate and distressed people of the island of Cuba in their efforts to obtain a larger measure of liberty and security in their government. Fervently do we hope that wise counsels may prevail and that the privations and sufferings of that gallant people may not longer be a reproach to our common humanity. Sincerely do we desire to remain at peace with all the nations of the earth, but if the vindication of the national honor and the firm maintenance of well-considered principles of justice shall necessitate a resort to the arbitrament of arms, we pledge Rhode Island to the national defense and the supremacy of our flag.

#### SOUTH DAKOTA. REPUBLICAN.

We earnestly commend the republican administration and congress for the annexa-

tion of Hawaii, despite the strenuous opposition of the conspiracy created by the sugar trust.

#### SILVER REPUBLICAN.

We are in favor of a vigorous prosecution and successful termination of the present war with Spain for the independence and freedom of Cuba, yet we believe the time has come to protest against any effort to convert the present war into one of conquest.

#### PEOPLE'S PARTY.

We approve of the war now being waged in behalf of the oppressed people of Cuba and the Philippines, and demand its energetic prosecution and that it be terminated as quickly as possible after the purpose for which it was inaugurated shall have been accomplished.

#### PROHIBITION.

We declare ourselves in favor of Cuban independence, and long for the time to come when our national government shall take as decided a stand for the oppressed of our own nation, caused by the drink curse, as it now takes in the interests of oppressed Cuba.

#### TENNESSEE. REPUBLICAN.

We believe in an extension of trade and commerce with foreign countries. Believing that trade follows the flag, we declare in favor of the annexation of Puerto Rico and all the West India islands; the ultimate annexation of Cuba by the free consent of the people of the island, and such control of the Philippines and other islands as shall secure to the United States the trade and commerce of those islands and good government for their people.

#### DEMOCRATIC.

The United States is engaged in a foreign war with Spain, inaugurated in the name of humanity and for the freedom of Cuba, and we indorse the action of our senators and representatives in congress in voting to institute this war for these high purposes. We urge its vigorous prosecution, to the end that it may be speedily terminated and the blessings of peace restored to our country. We recognize the Monroe doctrine as a cardinal tenet of the democratic party and a part of the public policy of the national government, and favor its strict observance.

#### UTAH. REPUBLICAN.

While we insist on maintaining the Monroe doctrine in all its integrity, we believe it consistent with it and safe for us to hold and maintain possession for commercial purposes of other lands in any part of the world, and we believe in protecting our flag wherever it has been successfully raised.

#### DEMOCRATIC.

The war with Spain was necessary and inevitable if the nation was to have any regard for the protection of its citizens and the redress of wrongs and outrages on the part of Spain which had become intolerable. Every consideration of justice and humanity demanded quick and decisive action. Such was the demand of the American people. Yet, after this condition became known for months, a republican administration hesi-

tated and, in weakness, sought to avoid the responsibility growing out of this most important crisis. After resorting to various devices and deceptive representations it was at length compelled, through the patriotic efforts of democratic members of congress and an array of public sentiment, to favor a declaration of war. Through the skill, willingness, sacrifice and heroism of the army and navy of the United States the war has been waged to a triumphant and glorious conclusion.

TEXAS.

REPUBLICAN.

We favor an increase in our army and navy to the extent that circumstances and conditions require to establish and carry into effect permanently the plans and policies of our administration with reference to the annexation of Puerto Rico and other Spanish possessions and to establish and guarantee a stable government in the island of Cuba.

We approve with satisfaction the terms upon which peace will be entered into between Spain and the United States, as set forth in the president's acts and protocol, and we congratulate him and the administration upon their conduct of and successful termination of the war.

We approve the annexation of the Hawaiian Islands as being wise and tending to increase our commerce and trade, providing a safe, convenient and sufficient naval base and coaling station and adding much to the wealth and resources of our country. We insist that the annexation of the Hawaiian Islands is within the spirit and letter of the constitution and an evidence of a determination on the part of our administration to carry into effect the Monroe doctrine.

DEMOCRATIC.

We favor the carrying out to the letter and spirit of the resolutions under which we intervened in Cuba, and we insist that the Cubans shall be permitted to establish an independent government of their own, but in the event that the people of that island shall hereafter desire to be annexed to this country and the terms of annexation can be satisfactorily arranged between the two countries we will welcome Cuba as a part of the territory of the United States.

We favor the acquisition of Puerto Rico and all other Spanish possessions in the western hemisphere.

We reaffirm our faith in the Monroe doctrine and oppose the annexation or continued retention of the Philippine Islands or any territory upon the eastern hemisphere.

PEOPLE'S PARTY.

The war between the United States and Spain was at its inception declared and understood to be in the interest of humanity, and not for conquest. We cordially indorse this sentiment and demand that the war shall be vigorously prosecuted to a successful termination on these lines and in this spirit, and we now and here pledge to the president and his administration our cooperation to that end.

VERMONT.

REPUBLICAN.

For the first time in a generation the republicans of Vermont assemble with the nation at war. Many of our citizens have

become soldiers. They are beyond our borders—perhaps on foreign soil. They are fighting for the nation's honor as their fathers fought for the nation's life. It is therefore fitting that we should proclaim our faith and purpose. We are at war with Spain not for revenge, not for conquest, not for glory, not for love of war. But we are at war with Spain for the love of fellow-men, for the sake of humanity—in the holy cause of liberty. We are at war with Spain because we have heard the poor that cry and have remembered them that are in bonds as bound with them. Therefore the war must go on until the infamy of mediæval methods of government in the dawn of the twentieth century and at the very door of this republic shall have forever passed away and until a permanent and honorable peace is secured; and to that end we pledge our loyal support to the president of the United States.

We are opposed to the resurrender to Spanish misrule of any territory which the valor of our army and navy has rescued or may hereafter rescue from the hands of the enemy, and we have an abiding confidence that a republican president and congress will so shape the future of such territory as best to promote the welfare of its inhabitants and the true glory of our country.

DEMOCRATIC.

The republican administration in its declaration of war solemnly declared to the world that the purpose of this country in entering upon the war with Spain was solely one of humanity, and in its declaration expressly disavowed any intentions of setting up or asserting the sovereignty of the United States in any conquered territory. We accept that declaration as made in good faith and binding upon the administration and the country, and we believe that the present war should be vigorously prosecuted and promptly ended. We oppose the proposed imperialistic policy of the republican party in the annexation or colonization of any territory won from Spain by our arms. The policy of protection of necessity leads the republican party to this course, because unless our markets are extended in this manner their protective principle will be annihilated. Such policy involves the abandonment of the Monroe doctrine, depriving us of the advantages we have enjoyed from our isolated situation; exposes us to the danger of quarrel with the European nations, and is liable to force us into the entangling alliances which Washington charged us to avoid; and it is a departure from the faith of the fathers and from the principles upon which the government was founded; it assumes powers never conferred by the constitution and imposes responsibilities for which our system of government is unfitted and invites the disasters which have overtaken all republics heretofore existing.

We believe that the annexation of Hawaii was an unwise departure from our traditional policy, and in view of the territory's remoteness and the undesirableness of its population we oppose the admission of these islands to statehood. We cordially extend our love and sympathy to the Green Mountain boys who promptly responded to their country's call.

WASHINGTON.

REPUBLICAN.

We indorse the conduct of the administra-

tion of President McKinley relating to the measures and events which led to the war with Spain, the conduct of the war throughout, and are now in favor of the retention of all conquered territory.

#### DEMOCRATIC.

While we do not favor an aggressive policy of general territorial expansion, we are opposed to surrendering to Spain any of the territory that has been acquired by American valor and expenditure of blood and treasure of our people. We do not favor surrendering to Spain the domination of the people of any Spanish colonies who co-operated with our forces against our enemy in the late war.

We are opposed to the assumption of any portion of the debts of Spain incurred in obtaining her sovereignty in Cuba, and also to the imposition of any portion thereof upon the people of that island or to recognition thereof.

We favor the fullest investigation of all conditions existing in the Philippine islands affecting the interests and obligations of our country in the matter of their future treatment and disposition; to the end that final action in relation thereto shall be intelligent and based upon full knowledge of all facts that can affect the interests of the United States.

#### WISCONSIN.

##### REPUBLICAN.

We welcome the return of peace and express our gratitude and thanks to the brave men of the army and navy who have maintained the honor of our flag and again proved to the world the qualities of American patriotism. We extend joyous welcome to our returning Wisconsin boys, who have deservedly gained the highest honors among the volunteer troops.

We express our perfect confidence in the administration wisely and justly to conclude terms of peace having regard for the welfare of the inhabitants of the conquered territory and the best interests of our own people.

#### DEMOCRATIC.

We congratulate the citizens of the nation on their loyalty and ardent patriotism displayed in the prosecution of the late war, and we especially honor the American army and navy for their valor and intrepid bravery on land and sea; and we condemn in unstinted measure the war department for the blunders and crimes committed against the brave boys in blue in camp and on foreign battlefields, by selfish contractors, incompetent surgeons and vain, heartless army officers appointed for political purposes, and we hereby pledge to our brave soldiers and sailors who survive the war our earnest and loyal support to secure the punishment of the guilty parties.

#### WYOMING.

##### REPUBLICAN.

We believe our country under a republican administration is entering upon its greatest period of power, happiness and responsibility, and we realize the mighty future of successful progress and duty which is even now before us, and that the republican party is fully able to pursue a policy upon the declaration of peace with Spain which will at once maintain the dignity and honor of our nation and bring prosperity to the islands which will come under our control and protection.

We most heartily approve of the annexation of the Hawaiian islands and hail with pleasure the American flag which has been there planted as an emblem of liberty by the republican administration.

### THE TARIFF.

[Where parties are omitted]

#### ALABAMA.

##### REPUBLICAN.

(See financial plank.)

#### ARKANSAS.

##### REPUBLICAN.

We congratulate the country upon the adoption of the Dingley act, with its reciprocity provision, as a wise measure of protection and security to American labor and capital, which, while greatly reducing our imports by substitution of home for foreign made fabrics, has opened to us the markets of the world to an extent never before known, so that the balance of trade in our favor for this fiscal year will attain the unparalleled and stupendous figures of \$600,000,000.

#### CALIFORNIA.

##### REPUBLICAN.

We call attention to the fact that since the return of the republican party to power the balance of trade has changed from more than \$400,000,000 against the United States to about \$380,000,000 in our favor, and all of this is due to the wise and conservative financial policy adopted and

no declaration was made.]

adhered to by the republican congress and president.

#### PROHIBITION.

We protest against the frequent tariff changes which are suddenly made, to the great detriment of the business interests of the country, as one or the other of the old parties comes into power at Washington, and we favor a tariff commission of experts, whose duty it shall be to recommend to congress any needed changes in our tariff.

#### COLORADO.

##### DEMOCRATIC.

The so-called Dingley act, passed for the purpose of supplying revenue to the treasury, is confessedly a failure. It has neither raised wages nor revenue, revived business nor promoted prosperity. Under its operation many thousands of employees have suffered a reduction of wages or lost employment, while the national income shows an annual deficit of \$100,000,000. It is the culmination of a system unlawful and indefensible, and we demand the passage of a revenue law which shall furnish an adequate supply of money to the government without necessarily burdening the people or en-

abling the few to flourish at the expense of the many.

**CONNECTICUT.**

**REPUBLICAN.**

It [the party] pledges itself to maintain the principle of protection to American labor and American industry, with reciprocity, and favors such alterations in the existing tariff and revenue laws as the changed conditions growing out of the Spanish war may require, and those which may be found necessary from time to time, and it favors the most stringent legislative prohibitions against cheap pauper immigration, protecting to the fullest extent the American wage-earner against imported cheap labor.

**DELAWARE.**

**REPUBLICAN.**

We demand that the products of foreign countries shall be required before being admitted into this country to pay such duties as will protect the American workmen from competition in our home markets with the underpaid labor of Europe and Asia.

We also believe that the duties so imposed should be so laid as to discriminate in favor of products imported into this country in American-built vessels.

**DEMOCRATIC.**

The Dingley tariff act increased taxes, making the highest tariff schedules known to our history, without increasing revenue sufficiently to meet the expenditures of government. It increased the special advantages and privileges of the sugar trust and of every other trust, but it did not increase the wages of labor nor revive the depression under which agriculture languishes. Every indication points to the necessity of expansion in our foreign trade and we demand that the fetters of the Dingley tariff act be removed.

We believe that all taxation, state or national, should be so laid as to place the least restraint possible on the labor, industry and enterprise of the people, and that no privileged class or private interest should be permitted to use the taxing power for its own ends.

**IDAHO.**

**REPUBLICAN.**

We reaffirm our belief in the protective tariff policy of the republican party, and we believe that only under such policy can the people enjoy the fullest measure of prosperity which our splendid natural resources and commercial advantages entitle us to demand.

**DEMOCRATIC.**

Demand "the reduction of tariff duties to a point which will provide only a sufficient revenue for the needs of the government, without levying extra tax upon the consumer for the purpose of enriching the already wealthy."

**ILLINOIS.**

**DEMOCRATIC.**

Pledges the party to "the reduction of tariff duties to a point which will provide only a sufficient revenue for the needs of the government, without levying extra taxes

upon the consumer for the purpose of enriching the already wealthy."

**INDIANA.**

**REPUBLICAN.**

We especially commend the president and congress for the prompt passage of a wise revenue law in accordance with the sound republican doctrine of reciprocity and protection to American industries and home labor, and express our unbounded confidence in the beneficial results predicted for this measure by our party leaders, evidences of which are daily accumulating in the way of renewed business prosperity and ample revenue for ordinary governmental expenditures.

We therefore reaffirm our belief in the doctrine of reciprocity and protection to American labor and home industries, and condemn the democratic doctrine of tariff for revenue only as unsound and unsuited to the best interests of the country, a doctrine whose falsity has been demonstrated by our experience under the Wilson revenue law, that plunged the nation into commercial and financial distress, from which it is fast recovering since the change from that democratic policy.

**DEMOCRATIC.**

We earnestly reassert the democratic doctrine that all tariff taxes shall be laid for revenue as their sole object and purpose, and we do at this time especially denounce and condemn the high prohibitory rates of the present republican tariff, commonly called the Dingley law, under the operation of which trusts and combinations have multiplied, the cost of the necessities of life has been increased and the wages of labor have not been advanced, and which has entailed upon the country a deficit of many millions to be made up only by additional taxation in time of war, thus imposing, instead of a benefit, an onerous burden upon the people of the United States.

**IOWA.**

**REPUBLICAN.**

We reaffirm our belief in the republican doctrines of reciprocity and protection. We congratulate the people on the fact that a republican congress has enacted a protective tariff which has brought prosperity to our country, and pledge ourselves to favor such changes in the present republican revenue law as experience may from time to time dictate or change if conditions demand.

**KANSAS.**

**DEMOCRATIC.**

We are against the McKinley and Dingley system of taxation for the expenses of government. It is wrong in principle, being a tax on consumption instead of property, and a breeder of trusts and monopolies. It is disastrous in practice, as the present \$60,000,000 deficit illustrates, and we renew our protest against it and insist upon federal taxation being levied in such manner as will reach the incomes and property of rich men and corporations and thus to some degree exempt the necessities of the common people. We wage no war upon the rich, but insist the rich and poor alike must stand in equality before the law, and that unjust privileges and the aggressions of wealth upon the rights of man must cease. We therefore

favor an amendment to the constitution of the United States, if the same be necessary, such as will authorize congress to levy direct taxes upon incomes, corporations, estates and all forms of aggregated wealth.

#### MASSACHUSETTS. REPUBLICAN.

The demand for a tariff really protective, and that should provide ample revenue for the needs of the government, has likewise been fully met in the Dingley act. Under its operation exports of manufactured goods have increased and imports diminished, the number of persons employed and the amount of wages paid have been greater, and the rate of wages, looking at our industries as a whole, has been higher. As a producer of revenue it has demonstrated its ability to furnish more than can be required in times of peace. Under it the credit of the government has been restored. We no longer issue bonds for ordinary expenditures; we sell our war bonds to the people, not to syndicates or by contract at exorbitant rates of interest and enormous profits to the purchaser at the expense of the people. The gold reserve behind our demand currency is more than sufficient.

#### DEMOCRATIC.

We denounce the general character and particular acts of legislation which have been enacted under the influence of the present administration. Every such act has been calculated not to alleviate but to add to the disasters of the people. Of this kind of discriminating legislation is the Dingley tariff the provisions of which were dictated by the beneficiaries. Of this kind is the more recent internal-revenue tax law, which was notoriously constructed so that the corporations might evade their share in the burdens of the nation, thereby devolving the entire sacrifice upon an already distressed people.

#### MICHIGAN. REPUBLICAN.

We congratulate the country upon the gradual return of business prosperity since the return of the republican party to power, and point with satisfaction to the successful operation of the Dingley law that is now producing ample revenue for all the ordinary expenditures of the government. We congratulate the country upon the restoration of protection and the return of prosperity as evidenced by the reopening of mills, factories and shops and the re-employment of idle men and women.

#### MINNESOTA. REPUBLICAN.

The Dingley law has been a new stimulus to American industry, created new enterprises, increased the demand for labor, and in a multitude of ways vindicated the wisdom of the republican policy under all conditions of our national life. We affirm our adhesion to the principles set forth in the platform of our last national convention at St. Louis and exemplified in the administration of William McKinley. The work of undoing the mischief wrought upon American industry by the last democratic administration is being prosecuted with a vigor that commands our admiration. The wisdom of our republican congress cannot be too highly commended for its efforts in providing such remedial legislation as is necessary to re-

form abuses growing out of democratic misrule, to supply the wants of an exhausted treasury and repair the damages produced by the gross mismanagement of our national finances, by enacting a tariff which afforded neither protection nor revenue and was destructive of the interests of the wage-earner.

#### MISSOURI. REPUBLICAN.

We believe in the protection and expansion of American industry and commerce and in the protection of American citizens and interests whenever and wherever they may need protection.

#### MONTANA. REPUBLICAN.

We express our abiding approval of the principle of protection to American industry and cherish with undiminished anxiety our purpose to see the rewards of labor maintained and increased.

#### SILVER REPUBLICAN.

We renew our professions in favor of protection to American labor and American industry.

#### NEBRASKA.

#### DEMOCRATIC.

We denounce as unjust and unequitable the protective-tariff system, which, through the instrumentality of class legislation, robs the many for the benefit of the few, and that a tariff should be for a revenue only, and therefore denounce the Dingley act and arraign the republican party for its enactment.

#### NEW HAMPSHIRE.

#### DEMOCRATIC.

We denounce the republican party for the passage of the Dingley tariff law, a measure calculated only to protect monopolies, insufficient to raise a revenue sufficient to meet the ordinary expenditures of the government and based upon no principle of equity or justice.

#### NEW JERSEY. REPUBLICAN.

We hereby resolve and declare that we affirm our adhesion and devotion to the fundamental principles of the national republican party as set forth in the platform adopted at the St. Louis convention in 1894.

#### NEW YORK. REPUBLICAN.

The republican party is fulfilling its pledges made at St. Louis. We have enacted a conservative, protective tariff, so wisely devised that the revenue is amply sufficient to pay the ordinary expenses of government in times of peace, while capital is encouraged to seek employment and the wages of labor are maintained at that high standard which experience has proved to be necessary to the welfare of our people. Our exports largely exceed our imports. The gold of the world comes steadily to our shores, and with a continuance of republican policy and republican national administration the prosperous future of the nation is assured.

In the interests of American labor and commerce we believe that American products should be carried in American ships, and we favor the upbuilding of an American merchant marine, which will give us our

share in the carrying trade of the world in time of peace and constitute an effective naval militia in time of war.

**NORTH CAROLINA.**  
**REPUBLICAN.**

We indorse the Dingley tariff law and also the republican tariff measures made necessary by the enormous expenditures incident to the war. While the democratic administration sold bonds in secret in time of peace to foreign syndicates, the present republican administration has required the banks and syndicates to stand back until the common people could have all the bonds which they were able and willing to pay for; and we point with pride to the fact that our bonds are worth 20 per cent more in time of war than they were worth in time of democracy, and that the common people of the country have displayed their confidence in the government by subscribing three times over the amount called for by the administration.

**DEMOCRATIC.**

We denounce the republican party for the passage of the Dingley tariff law, which has increased the burdens of taxation upon our consumers and given the trusts and monopolists greater power to rob the people.

Believing that under our present methods of federal taxation more than three-quarters of our national revenues are paid by people owning less than one-quarter of the property of the country, we protest against such inequality and injustice, and in order to remedy, to some extent, this great wrong, we favor an income tax and favor all constitutional methods to sustain it.

**NORTH DAKOTA.**  
**REPUBLICAN.**

We reaffirm our belief in the policy of protection to American industry and American labor.

**OHIO.**

**REPUBLICAN.**

We congratulate the country upon the fact that, in response to the demand of the St. Louis platform and the will of the people expressed at the polls in November, 1896, protection and reciprocity, twin measures of republican policy, have been re-established and have been embodied into public law by the enactment of the Dingley measure.

We favor all measures which will promote the restoration and growth of our merchant marine.

**PENNSYLVANIA.**  
**REPUBLICAN.**

The republicans of Pennsylvania reaffirm their adherence to the doctrine of protection to American industries. Two years ago our mills were closed and our manufacturing, commercial, agricultural and business interests were prostrated. To-day our mills are opened, labor is given full employment and a general revival of industrial activity promises renewed prosperity to our state.

**TENNESSEE.**  
**REPUBLICAN.**

We congratulate the country on the prosper-

ity which has now come, due largely to the return of the republican party to power, the enactment of the Dingley law and the maintenance of the gold standard.

**DEMOCRATIC.**

We demand that all federal taxation shall be strictly and only for revenue for the support of an economically administered government, and we condemn the policy of the republican party in prostituting the taxing power to enrich the few at the expense of the many.

**UTAH.**

**REPUBLICAN.**

The republican party of Utah demands as it has always demanded, protection, bimetallism and reciprocity. We congratulate the country, and especially Utah, upon the great financial success of the republican doctrine of protection, as expressed and fulfilled in the Dingley act, and remind voters of this state of the many millions of dollars by which the wealth of Utah has been enhanced by reason of it; that lead mining has been sustained and could exist only with such protection; that agricultural production has been made profitable through its agency; that the exports of the whole nation have been vastly increased since the Dingley law was passed; that reviving prosperity follows this republican policy, as it always has, and we pledge the party to support for office, and particularly for the office of senator and representative in congress, only those who do and will support the principles of the Dingley act. Protection has been and shall be the corner stone of republicanism.

**TEXAS.**

**DEMOCRATIC.**

We denounce the republican party for the passage of the Dingley tariff law, which places the burden of tariff taxation upon those least able to bear it, and which has resulted in a great deficit in the revenue.

**VERMONT.**

**DEMOCRATIC.**

We emphatically reassert the democratic faith that all tariff taxes shall be laid for revenue as their sole object, and not for the upbuilding of the Hannas, Carnegies and their school of grasping multimillionaires.

**WASHINGTON.**

**REPUBLICAN.**

We indorse the action of the present republican congress which has re-enacted into law a protective tariff through the Dingley bill and restored prosperity to the country.

**DEMOCRATIC.**

We condemn the Dingley tariff as the most oppressive and iniquitous law that has ever disgraced our statute books. It was enacted on the imperious demand of corporations and trusts which contributed to the scandalous republican campaign fund to the alarming amount of \$16,000,000. It taxes the masses for the benefit of the classes; it forbids the expansion of our commerce

and deprives the producers of the great American staples of access to their natural markets.

### WYOMING.

#### REPUBLICAN.

We congratulate the country upon the fact that in response to the demand of the St. Louis platform, and the will of the people expressed at the polls in 1896, protection

and reciprocity, twin measures of republican policy, have been re-established and have been embodied into law by the passage of the Dingley act, and we especially congratulate the people of Wyoming upon the enactment of this law, which has directly benefited our two great industries, viz., the raising of live stock and the mining of coal, by which both directly and indirectly have brought prosperity to every business within our state.

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison; Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote for Cleveland, this causing the electoral vote of the state to be equally divided between Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan.

## MEN OF THE YEAR 1898.

## WILLIAM R. DAY.

William R. Day was born at Ravenna, O., on April 17, 1849, and came of a race of lawyers, his father, the late Chief Justice Luther Day, having been a prominent lawyer of Ohio for many years. His paternal and maternal grandfathers were Supreme court justices. He was graduated from the University of Michigan in the class of '70 and studied law in the law department of the same university and was admitted to the bar in 1872. In October of that year he settled in Canton and formed a law partnership with William A. Lynch. In 1886 he was elected to the bench of the Common Pleas court by both political parties, and in 1889 he was appointed judge of the United States District court for the northern district of Ohio by President Harrison, but failing health compelled him to resign before taking the office. With these two exceptions Judge Day has continuously practiced his profession in Canton, being engaged in both the criminal and corporation branches.

Early in his administration President McKinley appointed Judge Day assistant secretary of state. Owing to the ill health of Secretary Sherman the duties of the secretaryship largely devolved upon him throughout the administration. On April 24, 1898, he became secretary, and his conduct of the important and delicate negotiations preceding the declaration of war, as well as those during its progress, has elicited the approval and support of the country. In September he resigned to take the position of head of the Paris peace commission.

## JOHN W. GRIGGS.

John William Griggs, attorney-general, was born in Newton, N. J., July 10, 1849. He was graduated from Lafayette college in 1868 and became a law student in the office of Robert Hamilton at Newton. In 1871 he removed to Paterson, where he entered the office of Socrates Tuttle. He was admitted to the bar that year, and together with Mr. Tuttle formed the firm of Tuttle & Griggs. A few years later he opened an office on his own account. He was elected to the assembly in 1875 and was re-elected two years later. In the latter year the house was equally divided and he became leader on the republican side. He was renominated for another term, but was defeated. He was elected counsel for the board of freeholders of Passaic county and city council of Paterson, which offices he held until 1882, when he was elected to the state senate. He was re-elected state senator and became president of the senate in 1886. He was a delegate-at-large to the republican national convention in 1888. In 1896 Gov. Werts of New Jersey offered Mr. Griggs a place on the Supreme court bench of that state, which he declined to accept. In 1896 he was elected governor of New Jersey, which position he resigned to succeed Mr. McKenna as attorney-general in Mr. McKinley's cabinet.

## CHARLES EMORY SMITH.

C. E. Smith, postmaster-general, was born at Mansfield, Conn., Feb. 18, 1842. He was 7 years old when his parents removed to Albany, N. Y., and he began to lay the foundation of his education in the public

schools of that city. He was graduated from Union college at Schenectady in 1861, just as the civil war opened, and was appointed to the staff of Gen. Rathbone. After devoting two years to the work of recruiting and organizing volunteers for the union army he returned to the Albany academy as one of its instructors. He became editor of the Albany Express in 1865 and of the Albany Evening Journal in 1870, retaining the latter position for ten years. During this period he was the most devoted follower of Roscoe Conkling and by consequence an earnest opponent of the Blaine element in the republican party. But in 1880 he left Albany to become editor of the Philadelphia Press, which was owned by an admirer of Mr. Blaine, and he immediately became the most ardent supporter of the movement to make him president. Mr. Smith was appointed minister to Russia by President Harrison. Like Mr. Gary, whom he succeeded, and almost all other postmaster-generals, Mr. Smith lacks experience in postal affairs beyond that necessarily gained by anybody who is at the head of a leading newspaper, but he has good executive capacity, which is the main essential for the proper conduct of the business of the postal department.

## DAVID J. HILL.

David Jayne Hill, first assistant secretary of state, was born June 10, 1850, at Plainfield, N. J. He is the son of the Rev. Daniel T. Hill, a baptist minister. In 1874 he was graduated from Bucknell university. In 1877 he published "The Science of Rhetoric." This was soon afterward followed by "The Elements of Rhetoric." In 1879 he began a series of brief biographies of American authors, similar to Morley's "English Men of Letters." He completed in this series two volumes on Irving and Bryant respectively, which were widely read and highly praised. In March, 1879, he was elected to the presidency of the university at Lewisburg, to succeed the Rev. Justin Loomis, LL. D. In 1886 he again took up authorship by publishing a treatise on "The Principles and Fallacies of Socialism." From 1888 to 1896 he was president of the University of Rochester, N. Y.

About this time also appeared an analytic recasting for use in schools and colleges of "Jevons' Elements of Logic." Three years later he published a series of lectures which he had delivered before the Theological institution, Newton, Mass., on "The Social Influence of Christianity," having especial reference to contemporary problems. In this same year also appeared "The Elements of Psychology."

## L. E. M'COMAS.

Louis Emory McComas was born in Washington county, Maryland, Oct. 28, 1846. He was graduated from Dickinson college and was admitted to the bar soon after reaching his majority. He began his political career in 1876, when, at the age of 30, he was the republican candidate for congress in the 6th district and was defeated by William Walsh by fourteen votes. As a candidate for the XLVIIIth congress McComas was successful, and he was re-elected for three successive terms thereafter. During that time

he was the only republican congressman from Maryland. In the eight years he served in congress Mr. McComas made a good record as an industrious and efficient member. His support of the force bill was largely responsible for his second defeat. In the presidential campaign of 1892 he was secretary of the national republican committee. Shortly after the election of that year President Harrison, who, like President McKinley, is a warm personal friend appointed him to the bench of the Supreme court of the District of Columbia. He has been elected by the legislature of Maryland to succeed Mr. Gorman as United States senator and will take his seat March 3, 1899.

#### JOSEPH SIMON.

Joseph Simon, United States senator from Oregon, was born in Germany of a Jewish family in 1861 and went to Oregon with his parents in 1867. He was educated in the public schools of Portland, studied law, and in 1872 was admitted to the bar, since which time he has practiced his profession in that city. He became a member of the city council in 1877, serving three years, being for a portion of the time president of the council and acting mayor. As secretary of the republican state central committee in 1878 he managed the campaign so successfully that in 1880 he was made chairman of the committee, in which capacity he served for six years. He represented Multnomah county, Oregon, in the state senate from 1880 to 1891 and again since 1893. He was president of the senate during the session of 1889-91, and since 1893 has been repeatedly elected to that position. In 1892 Mr. Simon was a delegate to the national republican convention in Minneapolis. He was then elected to represent Oregon on the republican national committee. For eight years Mr. Simon was a member of the board of police commissioners of Portland. Mr. Simon is a gold-standard republican.

#### WHARTON BARKER.

Wharton Barker, who was nominated for the presidency by the non-fusion wing of the people's party at Cincinnati Sept. 6, 1898, was born in Philadelphia May 1, 1846. He was graduated from the University of Pennsylvania. In 1863 he took command of a company of colored soldiers and helped to enlist and organize the 2d United States colored troops. In 1867 he became a member of the banking firm of Barker Bros. & Co. In 1878 he was appointed by the Russian government as its agent and intrusted with the building of four cruisers for its navy, for which service he was decorated with the order of St. Stanislaus by the czar. In 1879 he was called to Russia to consider the development of coal mines north of the Azof. In 1887 he obtained valuable railroad, telegraph and telephone concessions from China. In 1890 he failed in business, but soon recovered himself. In 1893 he started the Penn Monthly, which, in October, 1890, was merged with Weekly Notes into the American, which he still publishes. In 1881 he instituted the revolt against the Cameron-Quay candidate for the United States senate and led the independent republican forces, which, with the democrats, elected R. E. Pattison governor of Pennsylvania. He supported Garfield, Harrison and Blaine for the presidency, but in 1896 he was one of Mr. Bryan's most ad-

herents. Since then he has allied himself to the populist party, whose candidate he has become.

#### IGNATIUS DONNELLY.

Ignatius Donnelly, nominee of the non-fusion wing of the people's party for the vice-presidency, was born in Philadelphia Nov. 3, 1831. He was educated at the public schools of that city, studied law, was admitted to the bar and began the practice of his profession. In 1857 he went to Minnesota, was elected lieutenant-governor on the republican ticket in 1859 and again in 1861. He was elected to congress in 1863 and served until 1869. Besides doing journalistic work he has written several books that have attracted considerable attention, among which were "Atlantis" (1882), "Hagnarok" (1883), besides some publications on Shakespeare. He is a resident of St. Paul, Minn., and is engaged in the publication of a political paper in the interests of the people's party.

#### REAR ADMIRAL GEORGE DEWEY.

Rear-Admiral Dewey, "the hero of Manila bay" was born in Montpelier, Vt., Dec. 23, 1837, and entered the naval academy in September, 1854. Being graduated in 1859, he was assigned to the frigate Wabash of the European squadron, and remained in Mediterranean waters until the outbreak of the civil war. Returning to this country in 1861, he was detailed to the Mississippi, one of the vessels in the West Gulf squadron, serving in her until she was destroyed in 1863. It was during this time that the squadron was engaged in the capture of New Orleans. Commodore Dewey was then a lieutenant. The Mississippi was under command of Capt. Melancthon Smith, and just as the end of the battle of New Orleans appeared to be in sight the confederate ram Manassas came down the river at full speed to attack the union fleet. Admiral Farragut directed the Mississippi to turn and run her down. She obeyed, but when within a few yards of the enemy the Manassas turned and ran ashore. The Mississippi poured two broadsides into her and sent her to the bottom of the river a total wreck. The Mississippi, while trying to run the batteries of Fort Hudson on March 21, 1863, grounded and heeled to port. In spite of the desperate efforts of the crew she could not be saved. The enemy, getting the range, poured shell after shell into her hull, and Capt. Smith ordered her fired, and the crew escaped in their boats. After the destruction of the Mississippi Lieut. Dewey was assigned to the steamboat Agawam of the North Atlantic blockading fleet, and assisted in two attacks on Fort Fisher—one in December, 1864, and the other January, 1865. On March 3, 1865, he was commissioned lieutenant-commander and served on the old Kearsarge. At the close of the civil war he went aboard the Colorado, the flagship of the European squadron, and remained on her until 1867. For two years thereafter he did shore duty, being assigned to the naval academy. He was next placed in command of the Narragansett, in special service, in 1870 and 1871, and was again assigned to shore duty a year later at the torpedo station. He was made a commander on April 13, 1872, and was in charge of the Narragansett on the Pacific survey until 1875, when he was appointed lighthouse in-

spector for two years. He then became secretary of the board and retained that post until 1882. In command of the Juniata of the Asiatic squadron from 1882 to 1883, he was promoted to a captaincy in September, 1884, commanding the Dolphin in the same year. He was next transferred to the Pensacola on the European station. In 1889 he was summoned to Washington to become for four years the chief of the bureau of equipment and recruiting, and that service was succeeded by another detail to the lighthouse board. From this duty he was relieved to accept the presidency of the important board of inspection and review, which he held until, as a commodore, he was sent November, 1897, to command the Asiatic station. His victory in Manila bay on the 1st of May, 1898, in which he sunk the entire Spanish fleet without the loss of a ship or a man, was one of the most thrilling and dramatic events in the history of naval warfare. Soon after he was made rear-admiral and granted a sword by congress.

#### CAPT. C. V. GRIDLEY.

Of the captains serving under Commodore Dewey, Charles V. Gridley of the flagship Olympia was born in Indiana, but was appointed a cadet from Michigan on Sept. 26, 1860. He remained in the naval academy until 1863, when he was made an ensign and attached to the steamship Onondaga of the West Gulf squadron from 1863 to 1865. He was on board his ship in the battle of Mobile bay on Aug. 5, 1864. At the close of the war, having served in a number of engagements, he was attached to the steam sloop Brooklyn of the Brazilian squadron, and later was aboard the Kearsarge. He was promoted to lieutenant on Feb. 21, 1867, and to lieutenant-commander one year later and assigned to the Michigan and afterward to the Monongahela. He was executive officer of the flagship Trenton of the European squadron and was made commander on March 10, 1882. He was for a time assigned to the torpedo station and also to the Boston navy yard. He was made commander of the Jamestown in 1884, and was inspector of lighthouses at Buffalo, N. Y., when assigned to the Asiatic squadron. After the battle at Manila Capt. Gridley was ordered home on sick leave, but died June 5 at Kobe, Japan, while en route to the United States.

#### CAPT. N. MAYO DYER.

Capt. N. Mayo Dyer of the cruiser Baltimore has had a diversified career and has fought his way up to a captaincy without ever having attended a naval academy. No man in the navy has a better record for bravery and daring than the gallant captain of the Baltimore. He was born at Provincetown, Mass., in 1839, and entered the volunteer navy at the outbreak of the civil war as a master's mate, and served in the engagements of the West Gulf squadron. For gallant and meritorious conduct he was promoted to acting ensign on May 12, 1863, and later to ensign and assigned to the Glasgow. Afterward he was made master and placed in command of the Randolph in 1864, which operated in Mobile bay. His vessel was sunk by a torpedo on April 1, 1865. After the surrender he was promoted to acting volunteer lieutenant and put in

command of two of the surrendered ships, the Black Diamond and the Morgan. He then served on the Elk, and later on the Stockdale, and subsequently did shore duty at the bureau of navigation. He was made commander in the regular navy on March 12, 1868. While commanding the Ossipee, going from the Mexican coast to the north, an incident happened which showed his bravery and the regard he had for his men. A sailor in adjusting a sail accidentally slipped and fell overboard. Commander Dyer, who was on deck and saw the sailor fall, immediately jumped in and saved the man from drowning and from the sharks. He has done duty at the Boston navy yard and has been assigned respectively to the Pointer, the New Hampshire, the Wabash and the Tennessee. He has been lighthouse inspector and was in command of the Marion of the Asiatic squadron in 1867 and again in 1890.

#### CAPT. ASA WALKER.

Capt. Asa Walker of the cruiser Concord is a native of New Hampshire, and entered the naval academy on Nov. 27, 1862, graduating four years later. He was first assigned to the North Atlantic squadron and made ensign in 1868, and afterward did ordnance duty in the Portsmouth navy yard. Remaining there a short time, he went aboard the Jamestown, where he served until 1871. He has served on the Essex, the practice ship Dale, the Trenton of the Asiatic squadron, and on two different occasions has been assigned to duty at the naval academy.

#### CAPT. FRANK WILDES.

Capt. F. Wildes, commanding the cruiser Boston at Manila, was born in Massachusetts, and was graduated from the naval academy in 1863. He was appointed ensign May 28, and assigned to the steamship Lackawanna, attached to the West Gulf squadron, and was in the operations at Mobile and the surrender of Fort Morgan. He was assigned to the monitor Chickasaw, and later to the ironclad Monadnock and Vanderbilt. He was promoted to master in 1866, lieutenant in 1867, and was such officer on the Suwanee when wrecked on Vancouver's Island in July, 1868. He became lieutenant-commander in September, 1868, and served on the Pensacola, Franklin, Wyoming and Wachusett. He was promoted to commander in August, 1880, commanded the Yantic of the North Atlantic fleet until 1885, served at Portsmouth navy yard until 1886, was lighthouse inspector until 1892, put in command of the Yorktown till 1893, where he served until nearly the assignment to the Boston with the Asiatic squadron.

#### CAPT. E. P. WOOD.

Capt. E. P. Wood of the dispatch boat Hugh McCulloch is from Ohio, and entered the naval academy on Sept. 23, 1863, graduating in 1867. He was then assigned to the Minnesota on special service and made ensign. In 1871 he was promoted to lieutenant and placed aboard the Congress, then on special service. He did duty on the Portsmouth, also on special service. From 1881 to 1884 he was assigned to duty at the naval academy and then served on the Monongahela on special service. He was

with the North Atlantic squadron in 1890, and was promoted to commander in that year.

#### CAPT. JOSEPH B. COGHLAN.

Capt. Joseph B. Coghlan of the Raleigh was born in Kentucky and appointed to the naval academy from Illinois, graduating in 1863. He was promoted two years later and was assigned to the flagship Brooklyn, where he served for two years. He was executive officer of the Pawnee in 1867 and in the steam frigate Guerriere in 1868. Next year he was on the sailing sloop Portsmouth, from which he was transferred to the Richmond and the European station. He commanded the Sangus for one year and the Colorado for another year. For two years he commanded the Monongahela on the Asiatic station, and on being promoted to commander in 1882 was assigned to the Adams. He was inspector of ordnance at League Island in 1891, and was made a captain in 1894, and at present commands the Raleigh.

#### CAPT. C. E. CLARK.

Capt. Charles Edgar Clark, the commander of the Oregon, was born in Vermont, and was appointed to the naval academy from that state in 1860. In 1863 he was promoted to ensign and assigned to the steam sloop Ossipee of the West Gulf blockading squadron. He was with his vessel in the battle of Mobile bay and took part in the bombardment of Fort Morgan. From 1865 to 1867 he was with the Vanderbilt on the Pacific station. He received a lieutenant's commission in 1867 and became a lieutenant-commander a year later. He was then attached to the Suwanee, which was wrecked on July 7. His service on the relieving ship Vandalia at Portsmouth, on the Seminole in the North Atlantic and at the naval academy lasted until 1873, when he was assigned to the Atlantic station, where he remained for three years with the Hartford, the Monocacy and the Kearsarge. The next three years he spent at the Charlestown navy yard. He received his commander's commission in 1881, and after duty on the training ship New Hampshire and at the torpedo station went with the steamer Ranger on a survey trip up the North Pacific. This cruise lasted three years. From 1887 to 1889 he was lighthouse inspector and was afterward stationed at the Mare Island navy yard. He took command of the Mohican in September, 1893, and left it to take command of the Monterey as captain in 1896. His next and latest command was the Oregon. The cruise of the Oregon from San Francisco to Key West—a distance of 6,764 miles—was one of the greatest naval achievements of the century. The Oregon under his command was in the battle with the Spanish fleet off Santiago July 3, 1898.

#### REAR-ADMIRAL W. T. SAMPSON.

Rear-Admiral William T. Sampson was born at Palmyra, N. Y., in 1840. His father was a day laborer, and young Sampson used to accompany him from farm to farm in search of work. At the age of 17 he was appointed a midshipman in the United States naval academy at Annapolis. He was graduated, first in his class, in 1861, and was immediately sent aboard of the frigate Potomac. Here he soon won his lieutenancy. Sampson was executive officer

and stood on the bridge of the Patapsco when she was blown up by a torpedo in Charleston harbor, Jan. 16, 1865. Seventy of the crew were drowned. In 1866 he was promoted to a lieutenant-commander while on the Colorado. From 1868 to 1871 he was at the naval academy. The following two years he was on the Congress, and in 1874, having been made a commander, he was assigned to the Alert. He returned to the naval academy in 1876 and remained there nearly three years. In 1879 he was in China, commanding the Swatara. He was chief of the bureau of ordnance from 1883 to 1897, and previous to that he was inspector of ordnance at the Washington navy yard. Since the formation of the new navy he has commanded the Iowa and the San Francisco. On account of his wide knowledge of torpedoes, mines, etc., he was appointed president of the Maine court of inquiry by President McKinley. In April, 1898, he was promoted to acting rear-admiral by the president, succeeding Admiral Sicard, and was appointed in command of the fleet operating on the southeastern coast of Cuba and promoted to the rank of rear-admiral. He was in command of the fleet off Santiago until the capitulation of the city.

#### REAR-ADMIRAL WINFIELD S. SCHLEY.

Rear-Admiral Schley was born at Frederick, Md., Oct. 9, 1839. He entered the naval academy in 1856, and was graduated in 1860. He distinguished himself by coming out of the academy as near the bottom of his class as it was possible for him deliberately to get. In 1860 he served on the Niagara, which was sent to convoy the Japanese embassy to their country. When the Niagara returned and anchored off Boston, Capt. McKean, the commander, drew his men up on the deck and asked them to take the oath of allegiance. Three of the middies flatly refused. They were E. G. Read of Virginia, who meant what he did, and Thomas L. Swann and Winfield Scott Schley, both of Maryland, who refused just because the others did. It is related that McKean gave the boys a lecture, which brought them to their senses. Whatever truth there may be in the tale, there is no doubt that young Schley made a gallant officer and fought for the flag as valiantly as any of the men who were with him in the academy. That he did not win as high return as others in the civil war was perhaps due to the short participation he had in the fighting. He was not out of the naval academy two years when he was commissioned a lieutenant. Schley's most signal performance was his search for and discovery of Greely in the frozen fastnesses of the north. Lieutenant, now General, Adolphus W. Greely went north with his expedition in 1881. Nothing had been heard from him in two years, and late in 1883 talk was made of sending an expedition to relieve him. The then Commander Schley volunteered his services as head of the relieving expedition. The expedition consisted of the Thetis and the Bear, the Alert, kindly lent by the government of Great Britain, and the Loch Lary, a supply ship. This fleet set sail April 23, 1884. The ships plowed north and found the great explorer and the remnant of his expedition. The name of Schley must ever be associated with that of Greely in the history of arctic exploration. His career as it may be ob-

tained from the records has him serving on the Potomac after leaving the Niagara. From the Potomac he went to the Winona, then to the Monongahela, then to the sloop Richmond. He was often under heavy fire. From 1864 to 1866 he was executive officer of the Waterre, Pacific squadron, which was used to suppress the insurrection of the Chincha islands in 1864. He then served in the naval academy, in the Benicia and on the Asiatic station. He saw Lieut. McKee shot to death at his side in the attack on the batteries of the Saler river, Korea, in 1871. From the dust and smoke of battle he was transferred to Annapolis to be head of the academic department of modern languages. He was commander of the Essex, lighthouse inspector, recruiting officer and then commander of the Greely relief expedition. His work has won him two gold medals, and Maryland presented him with a gold chronometer for his rescue of Greely. In the war with Spain he was attached to Sampson's command off Santiago, and was in charge of the fleet of observation on the 3d of July when Cervera's fleet came out and was destroyed.

#### COMMODORE JOHN C. WATSON.

Commodore Watson was born at Frankfort, Ky., Aug. 24, 1842, and was graduated from the naval academy in 1860. In 1861 he was promoted to master and attached to the Sabine. In 1862 he was transferred to Farragut's flagship, the Hartford, upon which he served through the war, being in the battles at Fort Jackson and St. Philip, the passage of the Vicksburg batteries in 1862, passage of Fort Hudson in 1863, and at Mobile bay in 1864. He was commissioned lieutenant-commander in 1866 and assigned to the Franklin, flagship of the European squadron. In 1869 he was assigned to duty at Philadelphia until 1870, transferred to the Asiatic squadron until 1873, was made commander in 1874, attached to the Mare Island navy yard until 1877, commanded the Wyoming until 1880, lighthouse inspector until 1886, attached to the navy yard at New York until 1887, promoted to captain in March, 1887, transferred to San Francisco until 1890. In the Spanish war he commanded the blockading squadron on the north Cuban coast.

#### COMMODORE JOHN W. PHILIP.

Commodore Philip was born in New York Aug. 26, 1840. He entered the naval academy in 1856, was made midshipman in 1861, and attached to the Constitution and Santee. He was promoted to acting master in June of that year, and attached to the sloop-of-war Marion of the Gulf squadron. Later he was transferred to the James river fleet. He was made a lieutenant in 1862, and served on the Chippewa, Pawnee and monitor Montank. He was wounded in the fight on Stone river while on the Pawnee. He reached the rank of lieutenant-commander in 1868, and served in the European and Asiatic squadrons until 1874. In that year he was commissioned commander and assigned to the Adams, was in command of the Woodruff scientific expedition and later was engaged in coast surveys. He was on shore duty until 1890, commissioned captain in 1889, and was the inspector of the New York during construction. During the war with Spain he commanded the battleship

Texas, which was attached to the squadron off Santiago and was in the engagement with Cervera's fleet in July, 1898.

#### CAPT. ROBLEY D. EVANS.

Capt. Evans was born in Virginia and appointed to the naval academy from Utah Sept. 20, 1860, graduating in 1863. When the south seceded he was a cadet at Annapolis and his mother promptly sent in his resignation without consulting her son. Young Evans at once repudiated the resignation (which meanwhile had been accepted at Washington), and was restored to the service. He was made ensign in 1863, and went to the war. In an attack on Fort Fisher he landed a force of seamen and marines and was shot twice in the leg for his pains. In another engagement, from the water, with Fort Sumter, he was punctured by a piece of shell which broke his kneecap, but, refusing to go below, he took part in the engagement until it was over. In 1891 Capt. Evans was assigned to the Yorktown. His ship entered the harbor of Valparaiso when Chile and this country were biting thumbs at each other. The Yorktown anchored directly before the batteries. She was a poorly armored ship and lightly armed. The bay was occupied by a number of torpedo boats in practice, and as the Yorktown was the only ship in the port they used her for a point of attack. Capt. Evans objected to being made a target of and ordered his ship cleared for action. The guns were loaded, the men ordered to their posts and the captain's gig lowered. He sought out the general of the city and demanded that the bay be cleared of the torpedo boats. It was done. Capt. Evans won his name of "Fighting Bob" at Valparaiso. Once the Spanish minister came aboard his ship with two refugees. Evans fired a salute in honor of the country he was lately fighting. The Chileans severely criticised this action, but so fierce was the Yankee captain's denunciation of the business that a stop was promptly put to further gossip about the propriety of the salute. He has held his present rank since 1889, and his first command in large ships was the monster Indiana in 1895. In the Spanish war he was placed in command of the Iowa and assigned to Sampson's fleet off Santiago. He distinguished himself in the battle of July 3, 1898, with Cervera's fleet at that port.

#### COMMODORE FRANCIS J. HIGGINSON.

Commodore Higginson was born in Massachusetts and entered the naval academy Sept. 21, 1867, graduating in 1861. He was attached to the West Gulf blockading squadron and was present at the capture of Fort Jackson and St. Philip below New Orleans, and at the surrender of that city in April, 1862. August, 1862, he was commissioned a lieutenant and attached to the South Atlantic blockading squadron, taking part in the bombardment of Fort Sumter. July 25, 1866, he was promoted to lieutenant-commander, and assigned to the Hartford, flagship of the Asiatic squadron. In 1868 he was transferred to the Franklin, flagship of the European squadron, and served in that squadron until 1872. He was in command of the rendezvous at Boston until 1875, special ordnance duty until 1876, when he was promoted to commander. He was in command of the Dispatch, the Miantonomah and

the Monocacy until 1886, and of the New Hampshire until 1890. In the Spanish war he was a captain commanding the battleship Massachusetts, attached to Admiral Sampson's squadron at Santiago, and took part in the battle with Cervera's fleet on July 3, 1898.

#### CAPT. CHARLES D. SIGSBEE.

Capt. Sigsbee was born in New York, entered the naval academy in 1869 and was graduated in 1863. He was commissioned ensign and attached to the Monongahela of the West Gulf squadron. He was transferred to the Brooklyn in 1864, was at the battle of Mobile bay, transferred to the North Atlantic blockading squadron and was in both attacks on Fort Fisher. In 1865 he was attached to the Asiatic squadron, promoted to master in 1866, lieutenant in 1867, lieutenant-commander in 1868. He was on duty at the naval academy from 1869 to 1871, on vessels attached to the North Atlantic station until 1872, in command of the Canandaigua until 1873, on duty in Washington until 1875, in command of the Blake until 1878, again in Washington until 1882, promoted to commander in 1882, at the naval academy in 1885, commanded the Kearsarge until 1886, served in Washington until 1890, commanded the Portsmouth until 1892, was promoted to captain and placed in command of the battleship Maine, and was in command of the ship when blown up in Havana harbor Feb. 15, 1898. During the war he commanded one of the swift cruisers in the Caribbean sea.

#### CAPT. D. B. HODGSON.

Daniel B. Hodgson, commanding the McCulloch, is a native of New York, and was born in 1835. Nov. 12, 1897, he completed his thirty-sixth year as an officer of the revenue marine, which he first joined at Baltimore in 1861, with the commission of third lieutenant. July 16, 1863, he was promoted to second lieutenant, and July 14, 1864, to first lieutenant. Sept. 15, 1868, he was made captain, the highest rank in the revenue service, a position he reached in about seven years. In his thirty-six years' service Capt. Hodgson has spent twenty-four years and fourteen months on Atlantic coast stations, seven and one-half years on the lakes and two and one-half years on the Pacific, including nine months in Alaska, and six years on life-saving duty.

#### LIEUT. RICHMOND P. HOBSON.

Lieut. Hobson, who sunk the Merrimac in Santiago harbor, was born at Greensboro, Ala., Aug. 17, 1870. His schooling began when he was 7 years of age, his first teacher being Miss Kate Boardman, who at once recognized the natural ability of her pupil. Later he entered the Southern university, a well-known school, and distinguished himself often in prize declamation and other works of honor. Hobson was not graduated from the Southern university, but quitted school at the end of his sophomore year, when he received his Annapolis appointment after a competitive examination, through Representative Davidson of the 4th Alabama district. At the naval academy he stood at the head of his class, and was graduated in 1889. He was sent abroad to study in the shipyards of England and France, where he remained for several

years, until he became an accomplished naval architect. On his return he was attached to the bureau of construction in the navy department, and at the beginning of the war he was a lieutenant in a branch of the service where promotions are very slow. He is a member of the episcopalian church and a man of deep and sincere religious convictions.

#### MAJ.-GEN. NELSON A. MILES.

Maj.-Gen. Nelson A. Miles, commanding the army, was born at Westminster, Mass., Aug. 8, 1839, and at the breaking out of the civil war he was engaged in mercantile pursuits in Boston. He entered the service as first lieutenant, 22d Massachusetts regiment, in October, 1861. He distinguished himself and was wounded at the battle of Fair Oaks, Charles City Cross Roads and Malvern Hill. In September, 1862, he was made colonel of the 61st New York regiment, which he led at Fredericksburg and at Chancellorville, where he was severely wounded. He commanded the first brigade of the 1st division of the 2d corps in the Richmond campaign, and was made brigadier-general May 12, 1864, and brevet major-general for gallantry at Beaman's station in December, 1864. At the close of the civil war he was commissioned colonel of the 40th United States infantry, was promoted to be brigadier-general in December, 1880, major-general in April, 1890, and succeeded Lieut.-Gen. Schofield as commander of the army in 1895.

#### MAJ.-GEN. WESLEY MERRITT.

Maj.-Gen. Wesley Merritt was born in New York in 1836, and was graduated from West Point in 1860, became a second lieutenant the same year, and was promoted to the rank of first lieutenant a year later. He served through the entire war and reached the rank of brigadier-general of volunteers in 1863, and was mustered out of the service in 1866 with the brevet rank of major-general. He re-entered the regular service with the rank of lieutenant-colonel and became a colonel in 1876, and in 1887 received his commission as brigadier-general. He has been a major-general since April, 1897. He was appointed to the military academy from Illinois. He was promoted for gallantry at Dinwiddie Court House and Five Forks. In the war with Spain Gen. Merritt served in the Philippine islands, being virtually military governor at Manila.

#### MAJ.-GEN. WILLIAM R. SHAFTER.

Maj.-Gen. William R. Shafter was born in Kalamazoo county, Michigan, in 1835, and first entered the military service on the 21st of August, 1861, when he was mustered into the volunteers as first lieutenant of the 7th Michigan infantry, being honorably mustered out a year later. He at once re-entered the service as major of the 15th Michigan, becoming lieutenant-colonel in 1863 and colonel of the 17th United States colored infantry April 19, 1864. He was commissioned a brevet brigadier-general of volunteers on March 13, 1865, for gallant and meritorious services during the war, and was also brevetted colonel in the regular army March 2, 1867, for gallantry at the battle of Fair Oaks, Va. In July, 1866, while still in the volunteer service, Gen. Shafter was made lieutenant-colonel of the 41st regular infantry, from which he was

transferred to the 24th infantry in 1869 on the reduction of the army to a peace footing. He became colonel of the 1st infantry March 4, 1879, which position he held until he was made brigadier-general May 28, 1897. During this long period as a regimental commander Gen. Shafter won a most enviable reputation, his regiment being famed throughout the entire army for its efficiency, drill and discipline. It was often said that Shafter's was "the best regiment in the army." He was made a brigadier-general in May, 1897, and a major-general of volunteers May 4, 1898. He had command of the campaign against Santiago de Cuba.

#### MAJ.-GEN. JOHN R. BROOKE.

Maj.-Gen. John R. Brooke, commanding officer of the new 2d army corps, was born in Pottsville, Pa., on July 21, 1838, and entered the service of the country as captain in a volunteer regiment on Nov. 7, 1861. He made rapid progress and rendered valuable service, and when he resigned in February, 1866, he was brevet major-general. In July of the same year he was appointed lieutenant-colonel of the 37th United States infantry. He was promoted to be colonel in March, 1879, brigadier-general April 6, 1898, and major-general May 22, 1897. Gen. Brooke served in the Puerto Rican campaign.

#### MAJ.-GEN. W. M. GRAHAM.

Maj.-Gen. William M. Graham is a soldier of long service in the army. He was born in the District of Columbia in 1834 and began his military career as lieutenant in the 1st United States artillery. He was brevetted major for gallant service in the peninsular campaign, was made lieutenant-colonel for gallant conduct at the battle of Antietam. Gen. Graham was made a brigadier in the regular army May 26, 1897. He was brevetted brigadier in 1896 and made a major-general of volunteers May 4, 1898.

#### MAJ.-GEN. JAMES F. WADE.

Maj.-Gen. James F. Wade joined the army in 1861 as first lieutenant in the 6th cavalry of Minnesota, is a native of Ohio and a son of Benjamin F. Wade. A year after the close of the war he was made major in the 9th cavalry. In 1879 he was promoted to lieutenant-colonel of the 10th cavalry, and in 1891 was made a colonel. For his conspicuous bravery throughout the war he was brevetted colonel and brigadier-general in 1865. Gen. Wade was appointed brigadier-general of the regular army May 26, 1897, and a major-general in the volunteer service May 4, 1898.

#### MAJ.-GEN. J. C. BRECKINRIDGE.

Maj.-Gen. J. C. Breckinridge, late inspector-general of the army, is a nephew of Gen. John C. Breckinridge, the Confederate leader. However, he fought through the civil war on the union side, leaving a law practice in Danville, Ky., to join the army. He was made a first lieutenant in the regular army in August, 1863, a captain in 1874 and brigadier and inspector-general in 1893, and major-general of volunteers May 4, 1898.

#### MAJ.-GEN. J. J. COPPINGER.

Maj.-Gen. John J. Coppinger was born in Ireland in 1835, and gained his first military experience as a member of the Papal guard

against Victor Emmanuel's forces. He joined the volunteer American army in 1861 and reached the rank of colonel. He was a captain in the 14th United States infantry and became a colonel in the regular army in 1883, was promoted to be brigadier-general April 26, 1895, and major-general of volunteers May 4, 1898. Gen. Coppinger's wife is a daughter of James G. Blaine.

#### MAJ.-GEN. H. C. MERRIAM.

Maj.-Gen. Henry C. Merriam was born in Houlton, Me., in 1837. He organized a company of volunteers in 1862. He received the brevet of lieutenant-colonel for gallantry at the battle of Antietam. As the organizer of negro troops he received the thanks of the government. He was brevetted colonel of the regular army for conspicuous gallantry at the capture of Fort Blakely. He was appointed colonel of the 7th infantry July 10, 1885, and was promoted to brigadier-general June 30, 1897, and major-general of volunteers May 4, 1898.

#### MAJ.-GEN. ELWELL S. OTIS.

Maj.-Gen. Otis is a native of Maryland, but was appointed to the army from New York. He began his military service as captain in the 140th New York volunteers Sept. 13, 1862. He was promoted to lieutenant-colonel in December, 1863, and was mustered out of the service in June, 1865. He was brevetted colonel of volunteers for gallant and meritorious services at the battle of Spottsylvania and at the same time brevetted brigadier-general of volunteers for distinguished services at the battle of Chapin Hill. He was made lieutenant-colonel of the 22d regiment of the regular army July 28, 1866, and brevetted colonel March 2, 1867, for gallant services at Spottsylvania. In February, 1880, he was promoted to the colonelcy of the 20th infantry and reached the rank of brigadier-general Nov. 28, 1893. On the 4th of May, 1898, he was promoted to major-general and assigned to duty in the Philippines.

#### MAJ.-GEN. J. H. WILSON.

Maj.-Gen. James H. Wilson was born in Shawneetown, Ill., Sept. 2, 1837, entered the topographical engineers and became a first lieutenant Sept. 9, 1861; captain May 7, 1863; lieutenant-colonel Nov. 8, 1863; brigadier-general Oct. 31, 1863, and major-general of volunteers April 29, 1865. He served in the Fort Royal expedition and at the capture of Fort Pulaski. He was an aid to Gen. McClellan at South Mountain and Antietam. He served with distinction with the army of the Potomac and was several times brevetted for gallantry. He also served with Gen. Thomas and won the brevet of brigadier-general at the battle of Nashville and that of major-general for the capture of Selma, Ala. On the 10th of May, 1865, he captured Jefferson Davis. He was made lieutenant-colonel of the 35th infantry of the regular army July 23, 1866, and resigned Dec. 31, 1870. He was appointed major-general of volunteers May 4, 1898.

#### MAJ.-GEN. JOSEPH WHEELER.

Maj.-Gen. Joseph Wheeler was born in Augusta, Ga., Sept. 10, 1836; was graduated at West Point, 1859; was lieutenant of cavalry and served in New Mexico; resigned in 1861;

was lieutenant of artillery in the confederate army; was successively promoted to the command of a regiment, brigade, division and army corps, and in 1862 was assigned to the command of the army corps of cavalry of the western army, continuing in that position till the war closed; by joint resolution of the confederate congress received the thanks of that body for successful military operations, and for the defense of the city of Aiken received the thanks of the state of South Carolina; May 11, 1864, became the senior cavalry general of the confederate armies; was appointed professor of philosophy, Louisiana State seminary, in 1866, which he declined. He was a member of the XLVIIth, XLIXth, Lth, LIth, LIIth and LIVth congresses and re-elected to the LVth congress. Gen. Wheeler was appointed major-general of volunteers May 4, 1898, being assigned to the 5th corps at Santiago.

#### MAJ.-GEN. M. C. BUTLER.

Maj.-Gen. Matthew C. Butler was born near Greenville, S. C., March 8, 1836; received a classical education at the academy at Edgefield, and entered the South Carolina college in October, 1854; left this institution before graduating and studied law at Stonelands, the residence of his uncle, Hon. A. P. Butler, near Edgefield Court House; was admitted to the bar in December, 1857; practiced at Edgefield Court House; was elected to the legislature of South Carolina in 1860; entered the confederate service as captain of cavalry in the Hampton legion in June, 1861, and became a major-general through the regular grades; lost his right leg at the battle of Brandy Station on the 9th of June, 1863; was elected to the legislature of South Carolina in 1866; was a candidate for lieutenant-governor of South Carolina in 1870; received the democratic vote of the South Carolina legislature for United States senator in 1870, receiving 30 votes; was elected to the United States senate; was admitted to his seat December 2, 1877, and was re-elected in 1882 and again in 1889. His term of service expired March 3, 1896. He was appointed major-general of volunteers May 28, 1898.

#### MAJ.-GEN. FITZHUGH LEE.

Maj.-Gen. Fitzhugh Lee was an officer in the confederate army during the civil war. Gen. Lee's record and ancestry are both military. He is a nephew of Gen. Robert E. Lee and a grandson of Col. Henry Lee, the revolutionary commander. He was born at Clermont, Fairfax county, Va., on Nov. 19, 1835, and was graduated at West Point in 1856. He was severely wounded in a fight with Indians, and in May, 1860, he was ordered to report at West Point as instructor of cavalry. At the beginning of the civil war, in 1861, he resigned his commission in the United States army and entered the confederate service. At first he was placed on staff duty and was adjutant-general of Ewell's brigade until September, 1861, when he was made lieutenant-colonel of the 1st Virginia cavalry, and later was promoted to the rank of colonel. In all of the campaigns of northern Virginia he took a prominent part. On July 25, 1862, he was made brigadier-general, and on Sept. 3, 1863, he was appointed major-general. In the battle of Winchester, on Sept. 19, 1864,

three horses were shot under him and he was disabled by a severe wound which kept him from duty for several months. In March, 1865, he was placed in command of the whole cavalry corps of the army of northern Virginia, and a month later he surrendered to Gen. Meade at Farmville, after which he retired to his home in Stafford county. In 1874 he made a speech at Bunker Hill which attracted wide attention. In the winter and spring of 1882-83 he made a tour through the southern states in the interest of the Southern Historical society. In 1885, after a spirited campaign, he was elected governor of Virginia. He was appointed by President Cleveland consul-general at Havana, and held that position until the declaration of war. He was appointed major-general of volunteers May 4, 1898.

#### MAJ.-GEN. J. WARREN KEIFER.

Maj.-Gen. J. Warren Keifer was born in Ohio Jan. 30, 1836, and was educated at Antioch college. He studied law, was admitted to the bar in 1858, served in the union army from 1861 to 1865, rising to the rank of brigadier-general. After the war he resumed the practice of law; was state senator, trustee of Ohio Soldiers' home, trustee of Antioch college and was member of congress from 1877 to 1884, being speaker of the house in the XLVIIIth congress. He was appointed major-general July 8, 1898.

#### MAJ.-GEN. H. S. HAWKINS.

Maj.-Gen. Hamilton S. Hawkins was born in South Carolina. He entered the army as second lieutenant of the 2d infantry April 26, 1861, and was made first lieutenant in May. He was brevetted captain for gallant services at Gettysburg and was made captain in the 6th infantry Sept. 20, 1863. He was brevetted major for services in October, 1865. In 1897 he was colonel of the 20th infantry, commanding Fort Leavenworth, Kansas. He was made major of volunteers July 8, 1898.

#### MAJ.-GEN. H. W. LAWTON.

Maj.-Gen. Henry W. Lawton was born in Ohio and appointed to the army from Indiana. He joined the army as sergeant of company E, 9th Indiana volunteers, in April 1861. He was discharged in July to enter the 30th Indiana regiment as first lieutenant. He became captain May 17, 1862, lieutenant-colonel Feb. 10, 1865, and brevet colonel March 13, 1865. He was mustered out Nov. 25, 1865, and entered the regular army as second lieutenant 41st infantry July 28, 1866, and became captain March 10, 1879. At the beginning of the war he was lieutenant-colonel and was made major-general of volunteers July 8, 1898.

#### MAJ.-GEN. A. B. CHAFFEE.

Maj.-Gen. Adna R. Chaffee is a native of Ohio and entered the army July 22, 1861, as a private in company K, 6th cavalry; was made sergeant Oct. 1, and second lieutenant March 13, 1863. He was brevetted for gallantry at Gettysburg, was regimental adjutant from Nov. 11, 1864, to Dec. 12, 1866, regimental quartermaster Dec. 12, 1866, to 1867, first lieutenant 6th cavalry Feb. 22, 1866, captain Oct. 12, 1867. At the breaking out of the war he was lieutenant-colonel of

the 3d cavalry. He was appointed major-general of volunteers July 8, 1898.

#### MAJ.-GEN. J. C. BATES.

Maj.-Gen. John C. Bates was born in Missouri and was appointed to the army from that state. He was first lieutenant of the 11th infantry May 14, 1861, captain May 1, 1863, and was brevetted lieutenant-colonel for gallant and meritorious services during the operations resulting in the fall of Richmond. When the war began he was colonel of the 3d infantry commanding Fort Keogh, Montana. He was appointed major-general of volunteers July 8, 1898.

#### MAJ.-GEN. J. F. KENT.

Maj.-Gen. Jacob F. Kent is a native of Pennsylvania, and entered the army as second lieutenant of the 3d infantry May 6, 1861. He was promoted to be first lieutenant and lieutenant-colonel and brevetted major for gallantry at Marye's Heights. Became captain of the 3d infantry in 1864 and brevet lieutenant-colonel for gallantry at Spottsylvania and brevet colonel for faithful services in the field. When the war with Spain began he was colonel in the 24th infantry. He was made major-general of volunteers July 8, 1898, and served with the 5th corps in Cuba.

#### MAJ.-GEN. S. B. M. YOUNG.

Maj.-Gen. Samuel B. M. Young is a native of Pennsylvania and entered the service as a private in company K, 12th Pennsylvania volunteers, April 25, 1861. Became captain in 4th Pennsylvania cavalry Sept. 6, 1861, major Sept. 30, 1862, lieutenant-colonel in October, 1864, and colonel Dec. 29, 1864. He won the brevet of brigadier-general in 1865 for gallant services in the campaign against Lee that led to his surrender. He entered the regular army as second lieutenant in May, 1866, became captain in July, 1866, brevet major in March, 1867, and brevet colonel the same month. When the war with Spain began he was colonel of the 3d infantry, and was made major-general July 8, 1898.

#### COL. THEODORE ROOSEVELT.

Theodore Roosevelt was born in New York Oct. 27, 1858, and was the son of Cornelius Van Schaick Roosevelt, whose line goes back to mediæval times in Dutch history. Young Roosevelt was graduated from Harvard in 1880, when 21 years old, and in the following year was elected to the assembly from New York city. During his second term he became the leader of the party in the assembly, and since then has never held an elective office. He was chairman of the New York delegation to the national convention which nominated Blaine for president in 1884. He was opposed to Mr. Blaine's nomination, but after he had failed to prevent it he was hearty in support of the candidate. In 1886 he was a candidate for mayor of New York, but ran behind both Hewitt (dem.) and Henry George (single tax). He was appointed a member of the civil-service commission by President Harrison and was retained by President Cleveland. He served until his appointment to the police commission of New York city in 1895. His nomination as assistant secretary of the navy was made by President McKinley on April 6, 1896. To

the vigor of his administration of this office many naval officers ascribe no small part of the nation's readiness for the war with Spain. His insistence on target practice has been praised throughout the service. On April 25, 1898, he accepted the offer of a lieutenant-colonelcy in the 1st volunteer cavalry regiment, known as Roosevelt's "rough riders," and served with great distinction in the operations against Santiago. On the 27th of September, 1898, he was nominated by the republicans of New York as their candidate for governor. Theodore Roosevelt is a writer and lecturer of considerable renown. His "History of the Naval War in 1812," "lives of "Gouverneur Morris" and "Thomas H. Benton," "The Hunting Trips of a Ranchman," "Ranch Life and the Hunting Trail," "The Wilderness Hunter" and other works bear a high reputation. His ability as a sportsman and rancher are also well known and admired by many who care but little for politics. In November, 1898, he was elected by the republicans governor of New York.

#### COL. JAMES A. SEXTON.

Col. Sexton, commander G. A. R. was born in the city of Chicago on the 5th day of January, 1844, and enlisted on the 19th day of April, 1861, as a private soldier. After three months' service he re-enlisted in the 67th regiment Illinois infantry volunteers, and was commissioned a first lieutenant in company E. He was later transferred to the 72d regiment Illinois volunteers and was made captain of company D. He served in Ransome's brigade, McArthur's division, 17th army corps, of the army of the Tennessee, and participated in nearly all its campaigns, sieges and battles. As a regimental commander he fought his regiment in the battles of Columbia, Duck River, Spring Hill, Franklin and Nashville, and throughout the Nashville campaign. In 1866 he was assigned to duty on the staff of Maj.-Gen. A. J. Smith, the commander of the 16th army corps, and remained with Smith until the end of the war, when he was honorably discharged from the service in August, 1865. Upon the assault and capture of the Spanish fort, Mobile, Ala., April 8, 1865, he had his left leg broken below the knee by a piece of shell. He was slightly wounded at the battle of Franklin and painfully wounded at the battle of Nashville. After the war he remained two years in Alabama, working a plantation he had purchased near the city of Montgomery. In 1867 he returned to Chicago and founded the firm of J. A. & T. S. Sexton. In 1872, after the Chicago fire, this firm was succeeded by Cribben, Sexton & Co., and is still in business. President Harrison made him postmaster of Chicago in April, 1889. He was retained by President Cleveland until he resigned, Jan. 1, 1895. He is an active worker in the Grand Army, the Military Order of the Loyal Legion and other soldier and army societies. He is a past commander of the department of Illinois, G. A. R. At the present time he is president of the board of trustees of the Illinois State Soldiers and Sailors' home, located at Quincy. He has been a presidential elector, a Lincoln park commissioner, a colonel in the Illinois national guard, and has held several positions of honor and responsibility in the state, being one of the commissioners appointed by the president to investigate the conduct of the war.

## INDIAN SCHOOLS.

Enrollment and average attendance at Indian schools, 1897 and 1898; also number of schools in 1898.

In these schools there are 1,439 pupils.

Besides these there are government reservation boarding schools with a capacity of 8,526 pupils, government day schools with a capacity of 5,164 pupils, and 340 Indian pupils in the various public schools in California, Idaho, Michigan, Nebraska, Oklahoma, Utah, Washington and Wisconsin. Upon the subject of co-education the commissioner of Indian affairs says: "The plan of placing Indian children in the public schools of the country for the purpose of co-education of the races, conceived in 1890, does not appear to meet

with much success. Last year (1897) there was a decrease of 100 pupils from the previous year, and this year's (1898) report also shows a small decrease. Although the contract rate of \$10 per capita a quarter on the average attendance was thought sufficiently stimulating to induce the public-school authorities to increase the number of these Indian scholars, the experiment has not been the success anticipated. More decided efforts will be exerted during the fiscal year 1899 and the value and practicability of the system fully tested."

## APPROPRIATIONS FOR INDIAN SCHOOLS—1877-99.

Annual appropriations made by the government since the fiscal year 1877 for the support of the Indian schools.

YEAR.	Appropriation.	Per cent increase.	YEAR.	Appropriation.	Per cent increase.
1877	\$30,000		1889	\$1,348,015	14
1878	30,000	50	1890	1,364,568	1

Wyoming.....	49,081,263	35,000,000	5,000,000	11,073,263	9,000,000
Total.....	545,549,635	332,176,000	69,000,000	145,873,655	71,500,000

Of the three hundred and odd million acres of desert lands requiring irrigation to render them valuable farm lands, the available water supply is sufficient for but 71,500,000 acres, thus leaving an estimated area of 260,076,000 acres suitable only for grazing purposes.

## FOREST RESERVATIONS.

On March 1, 1898, the lands embraced in the eleven forest reservations which were suspended by the act of June 4, 1897, again became subject to the operation of the proclamations of Feb. 22, 1897, creating them, which added an estimated amount of 19,951,360 acres to the area embraced in the reserves previously created. In addition to this, two new reserves have

been created during the year 1898—the Pine Mountain and Zaca Lake Reserve in California, embracing an area of 1,644,594 acres, and the Prescott Reserve in Arizona, embracing 10,240 acres; and the boundaries of the Pecos River Reserve in New Mexico have been changed and enlarged to include 120,000 additional acres. There are, consequently, now

## DOMESTIC PRODUCTION OF GOLD AND SILVER.

235

30 forest reservations (exclusive of the Afognak Forest and Fish Culture Reserve in Alaska) created by presidential proclamation

under section 24 of the act of March 3, 1891, embracing an estimated area of 40,719,474 acres, as follows:

NAMES OF RESERVATIONS.	Dates of proclamations creating reservations.	Estimated area in acres.
ALASKA—Afognak Forest and Fish Culture Reserve. (Reserved under sections 24 and 14, act March 3, 1891.)	Dec. 24, 1892	Not ascertained.
ARIZONA—Grand Canyon Forest Reserve	Feb. 20, 1893	1,851,590
The Prescott Forest Reserve	May 10, 1893	10,246
CALIFORNIA—San Gabriel Timber Land Reserve	Dec. 20, 1892	555,520
Sierra Forest Reserve	Feb. 14, 1893	4,008,000
San Bernardino Forest Reserve	Feb. 25, 1893	737,280
Trabuco Canyon Forest Reserve	do.	49,920
The Stanislaus Forest Reserve	Feb. 23, 1897	691,200
The San Jacinto Forest Reserve	do.	737,280
The Pine Mountain and Zaca Lake Forest Reserve	Mar. 2, 1898	1,644,504
COLORADO—White River Plateau Timber Land Reserve	June 23, 1895	1,198,080
Pike's Peak Timber Land Reserve	Oct. 16, 1891	134,320
Plum Creek Timber Land Reserve	Feb. 11, 1892	179,200
The South Platte Forest Reserve	Mar. 13, 1892	683,520
Battlement Mesa Forest Reserve	June 23, 1892	868,240
IDAHO AND MONTANA—The Bitter Root Forest Reserve	Dec. 9, 1892	4,147,200
IDAHO AND WASHINGTON—The Priest River Forest Reserve	Dec. 24, 1892	645,120
MONTANA—The Flathead Forest Reserve	Feb. 22, 1897	1,332,400
The Lewis and Clarke Forest Reserve	do.	2,298,080
NEW MEXICO—The Pecos River Forest Reserve	do.	431,040
OREGON—Bull Run Timber Land Reserve	Jan. 11, 1892	143,080
The Cascade Range Forest Reserve	May 27, 1893	4,492,800
Ashland Forest Reserve	June 17, 1892	18,560
SOUTH DAKOTA—The Black Hills Forest Reserve	Sept. 28, 1893	967,680
UTAH—The Uintah Forest Reserve	do.	875,520
WASHINGTON—The Washington Forest Reserve	Feb. 22, 1897	3,564,240
The Olympic Forest Reserve	do.	2,138,800
The Mount Rainier Forest Reserve. (Includes the Pacific Forest Reserve, created Feb. 20, 1893, embracing an area of 967,680 acres.)	do.	2,234,880
WYOMING—Yellowstone National Park Timber Land Reserve	Mar. 30, 1891	1,239,040
The Big Horn Forest Reserve	Sept. 10, 1891	1,127,680
The Teton Forest Reserve	Feb. 23, 1897	820,440

## DOMESTIC PRODUCTION OF GOLD AND SILVER BY STATES AND TERRITORIES.

For the calendar year 1896, as estimated by the Director of the U. S. Mint.

	GOLD.		SILVER.		
	Fine ounces.	Value.	Fine ounces.	Coinage val.	Total value.
Alabama	275	\$5,700			\$5,700

**NERO**—Comdr. Charles Belknap, comdg.; Lieuts. (junior grade), Henry E. Parmenter, Marcus L. Miller, Selim E. Woodworth, John T. McMillan, Frederick E. Swannstrom, Edward Perks.  
**PETREL** (4th rate)—Comdr. Edward P. Wood, comdg.; Lieuts., Edward M. Hughes, Bradley A. Flske, Albert N. Wood; Lieut. (junior grade), Charles P. Plunkett.  
**RALEIGH** (3d rate)—Capt. Joseph B. Coghan, comdg.; Lieut.-Comdr., Frederic Singer; Lieuts., William Winder, Benjamin Tappan, Hugh Rodman.  
**ZAFIRO**—Ensign Henry A. Pearson, comdg.

#### Auxiliary Naval Force.

Rear-Admiral Henry Erben, retired, in charge, 39 Whitehall-st., New York.  
 Comdrs., Wells L. Field, Charles H. Arnold.  
 Lieut.-Comdrs., Charles C. Cornwell, William H. Beeder.  
 Lieut., William A. Marshall.  
 Medical Inspector, John C. Spear, retired.  
 Surg., Howard Smith, retired.  
 Asst. Surg., James G. Field, retired.  
 Pay Inspector, John H. Stevenson, retired.  
 Asst. Paymaster, Webb V. H. Rose.  
 Chief Engineer, Cipriano Andrade.  
 Chief Engineers, Alexander Henderson, retired (fleet); Edward D. Robie, retired; William W. Dungan, retired; Samuel L. P. Ayers, retired, and Henry W. Fitch, retired.  
 Naval Constructors, William L. Mintonye, retired, and Robert W. Steele, retired.

**AILEEN**—Lieut. Alonzo Gartley, comdg.; Lieut. (junior grade), Edwin C. Rhoads.  
**ARCTIC**—Lieut. George C. Stout, comdg.  
**CATSKILL**—Lieut. Martin E. Hall, comdg.; Lieuts., James O. Porter, George N. Gardiner, George S. Selfridge; Lieut. (junior grade), Charles H. Parker.  
**CHOCTAW**—Lieut. (junior grade) Walter O. Hulme, comdg.  
**ELFRIDA**—Lieut. (junior grade) Max A. Griopp, comdg.; Lieut. (junior grade), Frank S. Cornwell.  
**ENQUIRER**—Lieut. William H. Stayton, comdg.; Lieut. (junior grade), Nathaniel W. Bishop.  
**FREE LANCE**—Lieut. Thomas C. Zerega, comdg.  
**HUNTRESS**—Lieut. Felton Parker, comdg.; Lieut. (junior grade), Robert E. L. Hutchinson.  
**INCA**—Lieut. William E. McKay, comdg.  
**JASON**—Lieut. Herman F. Fickbohm, comdg.; Lieuts., Robert J. Beach, Eugene M. Harmon, Charles C. D. Reid; Lieut. (junior grade), Thaddeus R. Beal.  
**LEHIGH**—Lieut. Robert G. Peck, comdg.; Lieuts., Arthur B. Denny, James H. Dilaway, Jr.

**MONTAUK**—Lieut. Lazarus L. Reamey, comdg.; Lieuts., Harry R. Cohen, John B. Potter, Albert De Unger; Lieuts. (junior grade), William H. Clifford, Harry M. Bigelow, James S. Brown.  
**NAHANT**—Lieut. Clayton S. Richman, comdg.; Lieuts. (junior grade), Gerard B. Townsend, James Macfarlane.  
**NANTUCKET**—Lieut. Charles B. T. Moore, comdg.; Lieuts., George L. Morton, Harry H. McIlhenny, Thomas M. Morse, William M. Atkinson; Lieut. (junior grade), Robert H. McKoy.  
**PASSAIC**—Lieut. Francis H. Sherman, comdg.; Lieuts., Lewis W. Bartlett, Angelo W. Socola, Robert B. Quick; Lieut. (junior grade), Sidney H. J. Eshleman.  
**POTOMAC**—Lieut. George F. Blow, comdg.  
**POWHATAN**—Lieut. (junior grade) Frank M. Russell, comdg.  
**RESTLESS**—Lieut. Arthur H. Day, comdg.  
**WYANDOTTE**—Lieut. Thomas I. Madge, comdg.

#### Special Service.

**CITY OF PEKIN**—Comdr. William C. Gibson, comdg.; Lieut.-Comdr., Thomas S. Phelps, Jr.; Lieut., John H. L. Holcombe.  
**HARVARD**—Capt. Charles S. Cotton, comdg.; Comdr. Frederick M. Passow; Lieuts., Jacob J. Hunker, Joseph Beale, William J. Roberts; Ensign, Archibald H. Davis; Lieuts. (junior grade), John Bradshaw, William S. P. Keyes, William L. Grant.  
**HECTOR**—Comdr. Frederick M. Wise, comdg.; Lieuts. (junior grade), James W. Wilcott, E. V. Lynam, John McIntyre, Henry L. Thompson.  
**MICHIGAN**—Boatswain Charles Miller, comdg.  
**SCIPIO**—Comdr. John P. Merrill, comdg.; Lieut., Louis V. Housel.  
**ST. LOUIS**—Capt. Caspar F. Goodrich, comdg.  
**ST. PAUL**—Capt. Charles D. Sigabee, comdg.; Lieut.-Comdr., William H. Driggs; Lieuts., James C. Gilmore, John M. Poyer, George Young, Julius A. Patterson, Samuel N. Kane; Lieuts. (junior grade), Hiram Dixon, Ralph Osborn.  
**YALE**—Capt. William C. Wise, comdg.; Comdr. Frederick C. Watkins; Lieuts., Albert L. Key, Charles J. Rogers.

#### Unassigned.

**PANTHER**—Comdr. George C. Reiter, comdg.; Lieuts., Joseph B. Murdock, Charles F. Pond.  
**PHILADELPHIA**—Capt. George H. Wadleigh, comdg.; Lieut.-Comdr., Thomas H. Stevens; Lieuts., Philip V. Lansdale, Guy W. Brown; Lieuts. (junior grade), Harry A. Field, Ford H. Brown.

#### Training Service.

**ALLIANCE**—Comdr. Albert Rosa, comdg.; Lieut., Edward W. Henricks; Lieuts. (junior grade), Frank Ellery, Winslow Allderdice.

#### Tugs.

**NEZINSCOT** (Key West)—Boatswain John J. Holden, comdg.; Mate, Charles A. Elwell.  
**HERCULES** (Port Royal)—Mate Charles Larson, comdg.  
**SAMOSSET** (Key West)—Acting Boatswain Patrick Deery, comdg.  
**MASSASOIT** (Key West)—Lieut. Alfred Reynolds, comdg.; Ensign, Jeremiah Cottrell; Mate, Micah Jenkins.

## SHIPS OF THE UNITED STATES NAVY.

July 1, 1898.

[ABBREVIATIONS.—Hull: S., steel; I., iron; W., wood. Propulsion: S., screw; T. S., twin screw; Tr S., triple screw; P., paddle.]

## FIRST RATE.

NAME.	Displacement (tons).	Type.	Hull.	Indicated horse power.	Speed (knots).	Propulsion.	Guns (in 10 battery).	Station or condition.
Iowa.....	11,340	1st-class battleship.	S.	12,105	16	T. S.	18	Eastern Squadron.
Indiana.....	10,288	do	S.	9,788	15.55	T. S.	16	North Atlantic Fleet.
Massachusetts.....	10,288	do	S.	10,433	16.15	T. S.	16	Do.
Oregon.....	10,288	do	S.	11,111	16.58	T. S.	16	Eastern Squadron.
Brooklyn.....	9,215	Armored cruiser.	S.	18,729	21.07	T. S.	20	North Atlantic Fleet.
New York.....	8,300	do	S.	17,401	21	T. S.	18	Do.
Columbia.....	7,375	Protected cruiser.	S.	18,540	22.5	T. S.	11	Do.
Minneapolis.....	7,375	do	S.	20,862	23.7	T. S.	11	Do.
Texas.....	6,315	2d-class battleship.	S.	8,610	17	T. S.	8	Do.
Puritan.....	6,000	Double-tur. monitor.	I.	3,700	12.4	T. S.	10	Do.
Olympia.....	5,870	Protected cruiser.	S.	17,313	21.75	T. S.	14	Asiatic Station.

## SECOND RATE.

Chicago.....	4,500	Protected cruiser.	S.	9,000	15.1	T. S.	18	Repairing at navy yard, New York.
Baltimore.....	4,413	do	S.	10,064	20.9	T. S.	10	Asiatic Station.
Philadelphia.....	4,324	do	S.	8,815	19.68	T. S.	12	Navy yard, Mare Island.
Monterey.....	4,084	Barbette turret, low freeboard monitor.	S.	5,244	15.6	T. S.	4	Asiatic Station.
Newark.....	4,068	Protected cruiser.	S.	8,895	19	T. S.	12	Eastern Squadron.
San Francisco.....	4,058	do	S.	9,915	19.55	T. S.	12	North Atlantic Fleet.
Charleston.....	3,730	do	S.	6,666	18.20	T. S.	8	Asiatic Station.
Miantonomoh.....	3,900	Double-tur. monitor.	I.	1,426	10.5	T. S.	4	North Atlantic Fleet.
Amphitrite.....	3,580	do	I.	1,000	10.5	T. S.	6	Do.
Monadnock.....	3,300	do	I.	3,000	12	T. S.	6	Asiatic Station.
Terror.....	3,300	do	I.	1,600	10.5	T. S.	4	North Atlantic Fleet.
New Orleans.....	3,437	Protected cruiser.	S.	7,500	21	S.	10	Do.
Albany.....	3,437	do	S.	7,500	21	S.	10	Unassigned.
Lancaster.....	3,250	Cruiser.	W.	1,000	10	T. S.	12	North Atlantic Fleet.
Cincinnati.....	3,213	Protected cruiser.	S.	10,100	19	T. S.	11	Do.
Raleigh.....	3,213	do	S.	10,100	19	T. S.	11	Asiatic Station.
Atlanta.....	3,000	do	S.	4,000	15.6	S.	8	Repairing at navy yard, New York.
Boston.....	3,000	do	S.	4,000	15.6	S.	8	Asiatic Station.

## THIRD RATE.

Hartford.....	2,750	Cruiser.	W.	2,000	15	S.	13	Repairing at navy yard, Mare Island.
Mayflower.....	2,600	do	S.	4,700	18.8	S. S.	2	North Atlantic Fleet.

\*On July 11, 1864, \$100 in greenbacks was worth only \$35.03 in gold.

## The Volunteer Army.

[Corrected to Nov. 1, 1898.]

\*Officers in the regular army holding commissions of a higher rank in the volunteer service. They are given the rank held in the volunteer service.

## ACTIVE LIST.

The records of the war department have been so complicated by the transfer of officers of the regular army to the volunteer service that it is simply impossible to give such an arrangement of army officers as it has been customary to present in this volume. Some of the matter heretofore published the department declines to make public.

## MAJOR-GENERAL, \$7,500.

Nelson A. Miles, commanding army, Washington, D. C.

## MAJOR-GENERALS, \$7,500.

(U. S. V.)

- \*James F. Wade, president of Commission for Evacuation of Cuba.

## The Supreme Court.

The Supreme Court consists of seven judges, elected for a term of nine years, one from each of the seven districts into which the state is divided. The election is held in June of the year in which any term expires.

The state was formerly divided into three grand divisions which have been consolidated by act of legislature. The three clerks elected from the old divisions hold over until the end of their terms in 1902, after which only one will be elected. One clerk for each of the three grand divisions is elected for a term of six years.

## Justices.

(Salary \$5,000.)

Term Expires.

1. Carroll C. Boggs.....	Fairfield.....	June, 1908

## THE TREATY WITH SPAIN.

[Continued from page 120.]

The terms of the treaty of peace between the United States and Spain as it has been formulated by the joint commission of the two countries at the Paris conference will not be known in all its details until after this volume has been issued. Enough is known, however, to indicate with reasonable certainty what Spain will yield and what obligations the United States will assume. It was semi-officially reported from Paris on the 13th of December that the treaty had been drawn and that all its essential features had been accepted by the commissioners of both countries. The various sections of the treaty provide as follows:

Article 1 provides for the relinquishment of Cuba.

Article 2 provides for the cession of Puerto Rico.

Article 3 provides for the cession of the Philippines for \$30,000,000 as compensation.

Article 4 embraces the plans for the cession of the Philippines, including the return of Spanish prisoners in the hands of the Tagalos.

Article 5 deals with the cession of barracks, war materials, arms, stores, buildings and all property appertaining to the Spanish administration in the Philippines.

Article 6 is a renunciation by both nations of their respective claims against each other and the citizens of each other.

Article 7 grants to Spanish trade and shipping in the Philippines the same treatment as American trade and shipping for a period of ten years.

Article 8 provides for the release of all prisoners of war held by Spain, and of all prisoners held by her for political offenses committed in the colonies acquired by the United States.

Article 9 guarantees the legal rights of Spaniards remaining in Cuba.

Article 10 establishes religious freedom in the Philippines and guarantees to all churches equal rights.

Article 11 provides for the composition of courts and other tribunals in Puerto Rico and Cuba.

Article 12 provides for the administration of justice in Puerto Rico and Cuba.

Article 13 provides for the continuance for five years of Spanish copyrights in the ceded territories, giving Spanish books admittance free of duty.

Article 14 provides for the establishment of consulates by Spain in the ceded territories.

Article 15 grants to Spanish commerce in Cuba, Puerto Rico and the Philippines the same treatment as to Americans for ten years, Spanish shipping to be treated as coasting vessels.

Article 16 stipulates that the obligations of the United States to Spanish citizens and property in Cuba shall terminate with the withdrawal of the United States authorities from the island.

Article 17 provides that the treaty must be ratified within six months from the date of signing by the respective governments in order to be binding.

The signing of this treaty on the 10th of December, 1898, took place 233 days after the ultimatum given Spain was adopted by congress, on the 19th of April, 1898. The last act of the war was the surrender of Manila on the 15th of August. The peace commission met Oct. 1, 1898, and in forty-one days the treaty of peace was completed for presentation to the senate of the United States and the cortes of Spain for ratification.

## INTERNAL REVENUE.

Comparative statement showing the receipts from the several objects of internal taxation in the United States during the fiscal years ended June 30, 1897 and 1898.

OBJECTS OF TAXATION.	1897.	1898.	Increase.	Decrease.
<b>SPIRITS.</b>				
Spirits distilled from apples, peaches, grapes, pears, pineapples, oranges, apricots, berries and prunes.....	\$1,290,743.74	\$1,552,592.94	\$261,849.20

The average yield per bushel of grain used was 77.443, 199 = 4.48 + gallons of spirits.

The average yield per gallon of molasses used for the production of spirits was 1,978.468 = 763 + of a gallon.

The average yield per gallon of molasses used in the production of rum was 1,340.546 = 758 + of a gallon.

**OPERATIONS OF MANUFACTURERS OF TOBACCO AND CIGARS.**

(Calendar year 1897.)

Number of registered manufacturers of tobacco.....	3,312
Number who qualified as manufacturers for the purpose of lawfully dealing and handling by-products of cigar factories, and who made no manufactured tobacco.....	1,262
Number of persons who produced perique tobacco.....	62
Number who qualified as manufacturers exclusively of snuff.....	116
Number who qualified as manufacturers who also operated cigar factories.....	874
Number who made both tobacco and snuff.....	8
Number who qualified for the express purpose of manufacturing plug, cavendish, twist and smoking tobacco.....	1,000
Total.....	3,312

**QUANTITY OF TOBACCO AND SNUFF MANUFACTURED.**

Quantity of plug and twist tobacco produced.....	185,730,395
Quantity of fine-cut chewing tobacco produced.....	12,127,288
Quantity of smoking tobacco produced.....	85,463,194
Quantity of snuff produced.....	13,768,455
Total quantity of tobacco and snuff produced.....	297,089,312

**CIGARS AND CIGARETTES MANUFACTURED.**

Number of cigar and cigarette factories operated.....	31,435
Number making cigarettes exclusively.....	133

**PRODUCTION.**

Number of cigars weighing more than 8 pounds per 1,000 produced.....	4,135,594,126
Number of cigars weighing not more than 8 pounds per 1,000 produced.....	285,456,384
Number of cigarettes produced.....	4,631,820,620

**LEAF TOBACCO.**

Quantity of leaf tobacco used in the production of large cigars.....	77,452,711
Quantity of leaf tobacco used in the production of small cigars.....	1,283,380
Quantity of leaf tobacco used in the production of cigarettes.....	17,477,402
Quantity of leaf and scrap tobacco used in chewing and smoking tobacco and snuff.....	200,557,560
Total leaf tobacco used.....	357,171,053

Average quantity of leaf tobacco used per 1,000 large cigars.....	18.72
Average quantity of leaf tobacco used per 1,000 small cigars.....	4.31
Average quantity of leaf tobacco used per 1,000 cigarettes.....	3.77

## ZIONISM.

## THE JEWISH MOVEMENT TOWARD PALESTINE.

(By Leon Zolotkoff.)

"Zionism" is a word of very recent coinage, but the idea it conveys is as old as the Jewish people. Etymologically "Zion" means in Hebrew an object of prominence, of distinction, also a monument. Topographically it was formerly used to designate an elevation centrally located in the old city of Jerusalem and known as the "City of David," the place being distinguished by the most important national structures—the citadel of David and royal residences having been erected there. As Jerusalem was the heart of the Jewish state, so Zion was the heart of Jerusalem. "Zion" and "Jerusalem" gradually became synonymous and interchangeable nouns. "For out of Zion shall go forth the law and the word of the Lord from Jerusalem" is one of the many parallelisms, so characteristic of the scriptures, in which these two nouns are symmetrically placed as synonyms. In the time of the prophets the conception of Zion broadened considerably and became symbolic of nation, country, state and religion all combined. In this sense the word "Zion" has been applied by the Psalmists, by the bards of the second Jewish empire, by the originators of the vast post-biblical literature, by the men of the great synagogue, by the authors and compilers of the rich Jewish liturgy and by the neo-Hebraic authors, poets and "elegists" of the middle ages. Modern Hebrew authors of our days employ the noun "Zion" in the same sense. Thus "Zionism" represents the national idea in Judaism, or, in other words, it is Judaism in the consciousness of its racial traditions and national importance. It has always represented and it still represents the manifestations, all the aspirations of the Jewish people, and all that which characterizes a nation in its entirety.

When Israel was in its infancy the national idea manifested itself in the narrow form of clannishness and tribal exclusiveness, but with the material and spiritual growth of the people during the centuries of their national existence the national idea broadened and deepened until it assumed the shape of a message to the world. The recognition of the unity of God by all nations and the ultimate establishment of the reign of justice and righteousness on earth were the principal features of that message. But while the great seers in Israel were dreaming of the triumphs of the human race, of universal peace, of achievement sublime and noble, Zion—not the spiritual Zion, which is a latter-day invention, but the real Zion—was to them the source whence all those glorious developments were to emanate. Under the most trying and despairing conditions of the people they were proclaiming their hope of seeing the nation free and independent. They never admitted the possibility of Israel's disappearance as a nation. This kindling love for the nation and the enthusiasm for the country may perhaps account for the almost superhuman endurance and for the persistence manifested by the Jewish people in their unequal struggle against world-conquering Rome.

With the destruction of the Jewish state the hold which Zion had upon the minds and hearts of the nation became still stronger. The active heroism of the people had been crushed, after hundreds of thousands of brave Jewish warriors had fallen on the battlefields, victims of their loyalty to Zion, but their national hope remained unimpaired. The brutal clearing of Palestine of its Jewish inhabitants by the Romans had only increased the yearning of the Jews for their home, and that yearning seems to have increased in intensity as the centuries were rolling by. Their hearts were aching while they remembered their land, their cities and their mountains long after the downfall of Rome.

From the depth of their sorrow a stream of national poetry sprang forth, which per-

FLAG OF THE ZIONISTS.

(White, with two blue stripes, the field bearing the six-pointed star, "the sign of David.")

vaded every fiber of their material and spiritual life, and their very existence became an incessant longing for the restoration of Zion. That longing was the keynote to their daily prayers and of their songs, it was their only thought and dream. In the earlier part of the twelfth century "Zionides" were composed by Rabbi Jehudah Halevi of Toledo, of whom Heine said: "His songs were a pillar of fire that preceded Israel in the wilderness of its exile." A faint idea of them may be conveyed by the following:

"O city of the world, beautiful and majestic,  
For thee I long from distant western home.

•From Hecht's Post-Biblical History.

O that on eagle's wings to thee I might  
come nigh;  
That with my tearful face I could but  
touch thy dust!  
Though kingless, crownless now, yet do I  
yearn for thee;  
Though serpents vile be now where erst  
sweet honey flowed,  
O could I kiss thy dust or tread thy  
ground  
I'd ask no more; my longing would be  
stilled."

But the fervor spent by the expatriated Jew in prayer and song failed to reduce his longing for the material restoration of Zion. Time and again had Jews in the dark ages attempted to settle in Palestine, but owing to the incessant strifes and the bloody struggles which had been raging in that country such efforts almost invariably ended in disaster. Small Jewish communities had sprung up in the several old cities of the holy land, but the sword without and the terror within had destroyed them. They had fallen victims of their souls' longing.

About 700 years ago 300 rabbis emigrated from France and England to Palestine for the purpose of strengthening the Jewish communities in the holy land. Nachmanides (1195-1270) had reorganized the partly destroyed community of Jerusalem, while at the same time another Jewish community had been started in Safed. With the establishment of Turkish rule in Palestine the existence of Jewish communities there became possible, but not free from persecution. Only since 1812 has the emigration of Jews to the holy land assumed a steady flow, but the nature of such emigration is purely religious. The only object in the view of such emigrants was to devote the rest of their lives to the study of the Talmud and to the service of God, and to subsist on the moneys sent there for their support by their coreligionists in other countries. In the course of this century the Jewish population in Jerusalem, Tiberias, Hebron and Safed has grown considerably, but the evils of indolence and pauperism have grown with them.

In 1856 the first daring attempt was made to carry culture to the Jews of the holy city and the first European school for Jewish boys was then established. Of a still greater revolutionary character was the founding of the agricultural school, "Mikveh Israel" (Hope of Israel), by Cremieux, in 1870. That remarkable move on the part of the founder of the "Alliance Israelite," though undertaken without any apparent intention of fostering the national idea of the Jews, had the effect of fanning into a blaze the spark of national feeling that was lying dormant in the breast of the Jewish masses. The latter always remain faithful to the spirit of traditional Judaism regardless alike of schisms within their ranks and of persecution from without. In the eastern European countries, particularly in Russia, many organizations of "Hov'e Zion" (Friends of Zion) sprang up and an effective though aimless Zionist propaganda was inaugurated. Then came the memorable reign of Alexander III., when the most barbarous atrocities were committed daily against the Jews, almost under the direction of the police; and thousands of intelligent Jews, who, following the example of the so-called reformed Judaism, had long before read the Jewish national idea out of existence, hastened to join the ranks of the

"Zion friends." Then it was that the first attempts to properly colonize the holy land were inaugurated. A number of Jewish young men, mostly university students and skillful mechanics, resolved to be the pioneers of their people in their national cause, and under the most trying difficulties and amid a skeptical world, which predicted all kinds of disastrous failures, they proceeded to Palestine, about eighteen years ago, and started to work as common "farm hands" on a tract of land, which was the property of Baron Rothschild, sticking to the hoe and tilling the ground in competition with the fellahs, whose needs in life are exceedingly limited. They succeeded in satisfying themselves and the world about them that the land of Palestine was not barren, and that the Jews could be turned into skilled agriculturists who thoroughly understood their vocation. Their example was soon followed by others and gradually several colonies were successfully established. Millions of money and a vast amount of energy were wasted in the great experiment, but the result is, nevertheless, absolutely satisfactory. The wines, fruits and other products of the Jewish colonies have already acquired a certain degree of fame on the European markets and many of the settlements are self-sustaining. A few statistics showing the area of land in possession of Jews, the number of colonists and the Jewish population in Palestine outside of the colonies may be of interest to the reader:

I. JUDEA.

Name of Colony—	No. of *donum. colonists.	No. of colonists.
1. Mikveh-Israel.....	2,800	225
2. Rishon-Lezion.....	6,800	531

IV. IN TRANSJORDANIC REGIONS.

Number of donum..... 72,900

\*Donum is a Turkish measurement 40 paces square.

In the whole of Palestine there are, therefore, 4,350 colonists, occupying 268,278 domes of land. Besides these there are of hired Jewish laborers about 700.

The Jewish population in Palestine outside of the colonies is distributed as follows:

Jerusalem .....	28,254
Hebron .....	1,429
Jaffa .....	3,000
Gaza .....	75
Ramleh .....	166
Akka .....	130
Haifa .....	1,375
Sidon .....	780
Tiberias .....	3,200
Saffed .....	6,627
Stabulus .....	120
Other localities.....	29

Total .....

In 1882, immediately after the first outbreak of anti-Jewish excesses in Russia, there appeared a pamphlet entitled "Auto-Emancipation," by Dr. Pinsker, an Odessa physician. It had for a motto the saying of Hillel: "If I will not do for myself, who will?" This little work stood out prominently in the whole mass of literature on the so-called "Jewish question" in Europe in those days. For the first time in centuries, perhaps, the activity of an independent Jewish spirit became perceptible. "Help yourself and God will help you!" was the basic idea of that little book; the goal, however, for which the Jewish people were to strive was, according to the author, not their "holy" land, but their "own land." He cared little or not at all where such land might be found, provided it were found. While he recognized the hopelessness of the condition of the vast population of his people who are the victims of persecution and saw their only salvation in a great national effort, he at the same time ignored to a great extent the latent forces of a common history, of common traditions and religion. The "Auto-Emancipation," by Dr. Pinsker, was soon supplemented by another work in Hebrew entitled "Arukhath-bath-Aml" (The Cure of My People), from the pen of a highly learned, popular, charitable and venerable German rabbi, Dr. J. Rulf, who very ably demonstrated that only the holy land can be the Jews' own land.

In this spirit resolutions were adopted by a very timid assembly of delegates from various "Hov've Zion" associations, which was convened in November, 1884, at the town of Kattowitz, Prussia. A short time thereafter a society of Jewish university students and academicians was formed in Vienna under the name of "Kadimah" (Forward) and to it the Palestinian movement owes its modern name of "Zionism." Similar organizations sprang into existence in almost every university of Europe where Jewish students were matriculated in sufficient numbers. The greater part of the Jewish press became Zionist in its tendency, and new Zionist periodicals of every kind and description were greatly multiplied.

Then all of a sudden the Zionist movement experienced an impetus from an almost unexpected quarter. Out of the ranks of the so-called emancipated Jewry of western Europe, where for half a century the tendency to cast off every distinction of a Jewish nationality manifested itself strongly, a champion for the Jewish national cause

stepped forward in the person of Dr. Theodor Herzl, journalist and playwright. Almost a stranger to his own people and to their hopes and aspirations, but moved solely by sympathy at the depth of their misery, he undertook to solve the Jewish problem—on paper, at least. Owing to his keen insight into the political and economical affairs of the world and the intuition of an able publicist, he arrived at the same conclusions which others had reached by their national instinct. He placed his ideas before the public in a book entitled "Judenstaat," which was published about five years ago and attracted the attention of the civilized world. In it he urged self-help on the people, thus utilizing their national feeling, and, at the same time, sought to impress upon the world outside of Judaism that the powers would be greatly benefited by a solution of the vexed Jewish question through their national restoration to their old, historical home. Dr. Herzl was carried so far by his ideas that he made the cause of his people the object of his life and continued—and still continues—to work unremittently in that direction. Another champion of Zionism—of a similar type, but still more unexpected—appeared in the person of Dr. Max Nordau, one of the keenest-minded and most brilliant men in Europe, and the possessor of extraordinary powers both as an orator and as a writer. These two men soon formed the center of a large circle of bright and intelligent men all over Europe and in various walks of life, who took up the Zionist agitation in their respective countries.

Their endeavors have culminated thus far in the two Zionist congresses held in Basle, Switzerland, in August, 1897, and in August, 1898, respectively. The programme adopted by the first congress is as follows:

"The aim of Zionism is to create for the Jewish people a publicly, legally assured home in Palestine.

"In order to attain this object the congress adopts the following means:

"1. To promote the settlement in Palestine of Jewish agriculturists, handicraftsmen, industrialists and men following professions.

"2. The centralization of the Jewish people by means of general institutions agreeable to the laws of the land.

"3. To strengthen Jewish sentiments and national self-consciousness.

"4. To obtain the sanction of governments to the carrying out of the objects of Zionism."

As one of the means to the end for which the Zionists are striving the first congress proposed the establishment of a Jewish colonial bank, which would serve the purpose by the concentration and economical consolidation of Jewish capital and Jewish productive powers in one land, namely in Syria and Palestine. The second congress showed a considerable progress of the scheme and announced that the bank would commence operations with a capital stock of \$10,000,000 in London before the expiration of one year. The capital is being raised by a popular subscription. The par value of each share is £1. The latest information regarding the Zionist movement justifies the assumption that this last section of its programme also is receiving due attention on the part of the leaders, whose efforts, thus far, have met with considerable success.

The following two dispatches appeared in the press during the month of November, 1898:

"London, Nov. 4.—On Wednesday, Nov. 2, the German emperor received a Jewish deputation in Jerusalem. He was presented with an album containing views of the Jewish colonies in the holy land. In reply to the address of the chief of the deputation, Dr. Herzl, his majesty said that all such endeavors to improve the agriculture of Palestine are in the best interest of the Turkish empire, in full recognition of the sultan's sovereign rights, and might be made in complete reliance upon the kaiser's benevolent interest."

"London, Nov. 17.—The Daily Mail says: An important result of Emperor William's

tour is an agreement on the part of the sultan to give his benevolent sanction to the Zionist movement."

Of the extraordinarily rapid growth of the movement one can form an idea by comparing the respective attendance of the two congresses. The congress of 1897 was attended by 160 delegates, representing about 350 Zionist organizations. The second congress was composed of about 360 delegates, representing over 900 organizations, scattered over our globe.

It would seem that the nineteenth century marvels of intercommunication have made it possible for the Jewish people to attempt to bridge the wide chasm in their common history.

## DEATHS OF THE PRESIDENTS.

George Washington died from a cold which brought on laryngitis.

John Adams died at 91, from senile debility.

James Madison lived to be 85, and died peacefully and painlessly of old age.

Thomas Jefferson died of chronic diarrhea.

James Monroe died of general debility.

John Quincy Adams died of paralysis, the fatal attack overtaking him at 81, in the hall of the house of representatives.

Andrew Jackson's death was caused by consumption and dropsy at the age of 78.

Martin Van Buren's death took place at 80, caused by catarrh of the throat and lungs.

William Henry Harrison's death was occasioned by pleurisy induced by a cold taken on the day of his inauguration.

John Tyler died at 72, from a mysterious disorder like a bilious attack.

James K. Polk died at 54, from weakness caused by cholera.

Zachary Taylor died at the age of 66, from cholera morbus, induced by improper diet.

Millard Fillmore died at 74, from paralysis.

Franklin Pierce died at 65, from inflammation of the stomach.

James Buchanan's death was caused by rheumatism and gout, at 77.

Abraham Lincoln was assassinated by J. Wilkes Booth.

Andrew Johnson died from paralysis.

Ulysses S. Grant died of cancer of the throat.

Rutherford B. Hayes died at 70, from paralysis of the heart.

James A. Garfield was assassinated by Charles J. Guiteau.

Chester A. Arthur died at 56, from Bright's disease.

## MESSAGES OF THE PRESIDENT.

## DESTRUCTION OF THE MAINE.

On the 28th of March, 1898, the president sent the following message to congress:

To the Congress of the United States: For some time prior to the visit of the Maine to Havana harbor our consular representatives pointed out the advantages to flow from the visit of national ships to the Cuban waters. In acquainting the people to the presence of our flag as the symbol of good will and of our ships in the fulfillment of the mission of protection to American interests, even though no immediate need therefor might exist.

Accordingly, on Jn. 24 last, after conference with the Spanish minister, in which the renewal of visits of our war vessels to Spanish waters was discussed and accepted, the peninsular authorities at Madrid and Havana were advised of the purpose of this government to resume friendly naval visits at Cuban ports, and that in that view the Maine would forthwith call at the port of Havana. This announcement was received by the Spanish government with appreciation of the friendly character of the visit of the Maine, and with notification of intention to return the courtesy by sending Spanish ships to the principal ports of the United States. Meanwhile the Maine entered the port of Havana on Jan. 25, her arrival being marked with no special incident besides the exchange of customary and ceremonial visits.

The Maine continued in the harbor of Havana during the three weeks following her arrival. No appreciable excitement attended her stay. On the contrary, a feeling of relief and confidence followed the resumption of the long interruption of friendly intercourse. So noticeable was this immediate effect of her visit that the consular-general strongly urged that the presence of our ships in Cuban waters should be kept up by retaining the Maine at Havana or in the event of her recall by sending another vessel here to take her place.

At 9:40 in the evening of Feb. 15 the Maine was destroyed by an explosion, by which the entire forward part of the cabin was utterly wrecked. In this catastrophe two officers and 258 of her crew perished, those who were not killed outright by her explosion being penned between decks by the tangle of wreckage and drowned by the immediate sinking of the hull. Prompt assistance was rendered by the neighboring vessels anchored in the harbor, aid being especially given by the boats of the Spanish cruiser Alfonso XII. and the Ward line steamer City of Washington, which lay not far distant. The wounded were generously cared for by the authorities of Havana, the hospitals being freely opened to them, while the earliest recovered bodies of the dead were interred by the municipality in a public cemetery in the city. Tributes of grief and sympathy were offered from all official quarters of the island.

The appalling calamity fell upon the people of our country with crushing force, and for a brief time an intense excitement prevailed, which in a community less just and self-controlled than ours might have led to hasty acts of blind resentment. This spirit, however, soon gave way to the calmer processes of reason and to the resolve to investigate the facts and await the material proof before forming a judgment as to

the cause, the responsibility, and, if the facts warranted, the remedy due. This course necessarily recommended itself from the outset to the executive, for only in the light of a dispassionately ascertained certainty could it determine the nature and measure of its full duty in the matter.

The usual procedure was followed as in all cases of casualty or disaster to national vessels of any maritime state. A naval court of inquiry was at once organized, composed of officers well qualified by rank and practical experience to discharge the onerous duty imposed upon them. Aided by a strong force of wreckers and divers, the court proceeded to make a thorough investigation on the spot, employing every available means for the impartial and exact determination of the causes of the explosion. Its operations have been conducted with the utmost deliberation and judgment, and while independently pursued no source of information was neglected and the fullest opportunity was allowed for a simultaneous investigation by the Spanish authorities.

The finding of the court of inquiry was reached, after twenty-three days of continuous labor, on the 21st of March inst. and, having been approved on the 23d by the commander-in-chief of the United States naval force on the North Atlantic station, was transmitted to the executive.

It is herewith laid before the congress, together with the voluminous testimony taken before the court. Its purport is, in brief, as follows:

"When the Maine arrived at Havana she was conducted by the regular government pilot to buoy No. 4, to which she was moored in from five and one-half to six fathoms of water. The state of discipline on board and the condition of her magazines, boilers, coal bunkers and storage compartments are passed in review, with the conclusion that excellent order prevailed and that no indication of any cause for an internal explosion existed in any quarter.

"At 8 o'clock in the evening of Feb. 15 everything had been reported secure and all was quiet.

"At forty minutes past 9 the vessel was suddenly destroyed.

"There were two distinct explosions, with a brief interval between them. The first lifted the forward part of the ship very perceptibly; the second, which was more prolonged, is attributed by the court to the partial explosion of two or more of the forward magazines.

"The evidence of the divers establishes that the after part of the ship was practically intact and sunk in that condition a very few minutes after the explosion. The forward part was completely demolished.

"Upon the evidence of concurrent external cause the finding of the court is as follows:

"At frame 17 the outer shell of the ship, from a point eleven and one-half feet from the middle line of the ship and six feet above the keel when in its normal position, has been forced up so as to be now about four feet above the surface of the water; therefore, about thirty-four feet above where it would be had the ship sunk unimpaired.

"The outside bottom plating is bent into a reversed 'V' shape, the after wing of

which, about fifteen feet broad and thirty-two feet in length (from frame 17 to frame 25), is doubled back upon itself, against the continuation of the same plating extending forward.

"At frame 18 the vertical keel is broken in two and keel bent into an angle similar to the angle formed for the outside plates. This break is about six feet below the surface of the water and about thirty feet above its normal position.

"In the opinion of the court this effect could have been produced only by the explosion of a mine situated under the bottom of the ship, at about frame 18, and somewhat on the port side of the ship.

"The conclusions of the court are: That the loss of the Maine was not in any respect due to fault or negligence on the part of any of the officers or members of her crew.

"That the ship was destroyed by the explosion of a submarine mine, which caused the partial explosion of two or more of her forward magazines; and.

"That no evidence has been obtainable fixing the responsibility for the destruction of the Maine upon any person or persons."

I have directed that the findings of the court of inquiry and the views of the government thereon be communicated to the government of her majesty the queen, and I do not permit myself to doubt that the sense of justice of the Spanish nation will dictate a course of action suggested by honor and the friendly relations of the two governments.

It was the duty of the executive to advise the congress of the result, and in the meantime deliberate consideration is invoked.

WILLIAM M'KINLEY.

Executive Mansion, March 28, 1898.

#### THE WAR MESSAGE.

To the Congress of the United States: Obedient to that precept of the constitution which commands the president to give from time to time the congress information of the state of the union and to recommend to their consideration such measures as he shall judge necessary and expedient, it becomes my duty now to address your body with regard to the grave crisis that has arisen in the relations of the United States to Spain by reason of the warfare that for more than three years has raged in the neighboring island of Cuba.

I do so because of the intimate connection of the Cuban question with the state of our own union and the grave relation the course which it is now incumbent upon the nation to adopt must needs bear to the traditional policy of our government if it is to accord with the precepts laid down by the founders of the republic and religiously observed by succeeding administrations to the present day.

The recent revolution is but the successor of other similar insurrections which have occurred in Cuba against the dominion of Spain, extending over a period of nearly half a century, each of which, during its progress, has subjected the United States to great effort and expense in enforcing its neutrality laws, caused enormous losses to the American trade and commerce, caused irritation, annoyance and disturbance among our citizens, and, by the exercise of cruel, barbarous and uncivilized practices of warfare, shocked the sensibilities and offended the humane sympathies of our people.

Since the present revolution began, in Feb-

ruary, 1896, this country has seen the fertile domain at our threshold ravaged by fire and sword in the course of a struggle unequalled in the history of the island and rarely paralleled as to the number of the combatant and the bitterness of the contest by a revolution of modern times where a dependent people, striving to be free, have been opposed by the power of the sovereign state.

Our people have beheld a once prosperous community reduced to comparative want, its commerce virtually paralyzed, its exceptional productiveness diminished, its fields laid waste, its mills in ruins and its people perishing by tens of thousands from hunger and destitution.

We have found ourselves constrained, in the observance of that strict neutrality which our laws enjoin and which the law of nations commands, to police our own water and watch our own seaports in prevention of any unlawful act in aid of the Cubans.

Our trade has suffered; the capital invested by our citizens in Cuba has been largely lost, and the temper and forbearance of our people have been so sorely tried as to beget a perilous unrest among our own citizens, which has inevitably found its expression from time to time in the national legislature, so that issues wholly external to our own body politic engross attention and stand in the way of that close devotion to domestic advancement that becomes a self-contented commonwealth, whose primal maxim has been the avoidance of all foreign entanglements.

All this must needs awaken and has indeed aroused the utmost concern of the part of this government, as well during my predecessor's administration as my own.

In April, 1896, the evils from which our country suffered through the Cuban war became so onerous that my predecessor made an effort to bring about a peace through the mediation of this government in an way that might tend to an honorable adjustment of the contest between Spain and her revolted colony on the basis of some effective scheme of self-government for Cuba under the flag and sovereignty of Spain. I failed through the refusal of the Spanish government then in power to consider any form of mediation, or, indeed, any plan of settlement which did not begin with the actual submission of the insurgents to the mother country, and then only on such terms as Spain herself might see fit to grant.

The war continued unabated. The resistance of the insurgents was in nowise diminished.

The efforts of Spain were increased, both by the dispatch of fresh levies to Cuba and by the addition to the horrors of the strife of a new and inhuman phase happily unprecedented in the modern history of civilized Christian peoples.

The policy of devastation and concentration inaugurated by the captain-general order of Oct. 21, 1896, in the province of Pinar del Rio, was thence extended to embrace all of the island to which the power of the Spanish arms was able to reach by occupation or by military operations.

The peasantry, including all dwelling in the open agricultural interior, were driven into the garrison towns or isolated places held by the troops. The raising and movement of provisions of all kinds were interdicted. The fields were laid waste, dwell-

ings unroofed and fired, mills destroyed, and, in short, everything that could desolate the land and render it unfit for human habitation or support was commanded by one or the other of the contending parties, and executed by all the powers at their disposal.

By the time the present administration took office, a year ago, reconcentration—so called—had been made effective over the better part of the four central and western provinces—Santa Clara, Matanzas, Havana and Pinar del Rio. The agricultural population, to the estimated number of 300,000 or more, was herded within the towns and their immediate vicinages, deprived of the means of support, rendered destitute of shelter, left poorly clad and exposed to the most unsanitary conditions.

As the scarcity of food increased with the devastation of the depopulated areas of production, destitution and want became misery and starvation. Month by month the death rate increased in an alarming ratio.

By March, 1897, according to conservative estimates from official Spanish sources, the mortality among the reconcentrados from starvation and the diseases thereto incident exceeded 50 per centum of their total number.

No practical relief was accorded to the destitute. The overburdened towns, already suffering from the general dearth, could give no aid. So-called zones of cultivation, established within the immediate area of effective military control about the cities and fortified camps, proved illusory as a remedy for the suffering. The unfortunates, being for the most part women and children, with aged and helpless men enfeebled by disease and hunger, could not have tilled the soil without tools, seed or shelter for their own support or for the supply of the cities.

Reconcentration, adopted avowedly as a war measure in order to cut off the resources of the insurgents, worked its predestined result. As I said in my message of last December, it was not civilized warfare; it was extermination. The only peace it could beget was that of the wilderness and the grave.

Meanwhile the military situation in the island had undergone a noticeable change. The extraordinary activity that characterized the second year of the war, when the insurgents invaded even the hitherto unharmed fields of Pinar del Rio and carried havoc and destitution up to the walls of the city of Havana itself, had relapsed into a dogged struggle in the central and eastern provinces. The Spanish arms regained a measure of control in Pinar del Rio and parts of Havana, but under the existing conditions of the rural country without immediate improvement of their productive situation.

Even thus partially restricted the revolutionists held their own, and their submission, put forward by Spain as the essential and sole basis of peace, seemed as far distant as at the outset.

In this state of affairs my administration found itself confronted with the grave problem of its duty. My message of last December reviewed the situation and detailed the steps taken with a view of relieving its acuteness and opening the way to some form of honorable settlement.

The assassination of the prime minister, Canovas, led to a change of government in Spain. The former administration, pledged

to subjugation without concession, gave place to that of a more liberal party, committed long in advance to a policy of reform involving the wider principle of home rule for Cuba and Puerto Rico.

The overtures of this government, made through its new envoy, Gen. Woodford, and looking to an immediate and effective amelioration of the condition of the island, although not accepted to the extent of admitted mediation in any shape, were met by assurances that home rule, in an advanced phase, would be forthwith offered to Cuba without waiting for the war to end, and that more humane methods should thenceforth prevail in the conduct of hostilities.

Incidentally with these declarations the new government of Spain continued and completed the policy already begun by its predecessor of testifying friendly regard for this nation by releasing American citizens held under one charge or another connected with the insurrection, so that by the end of November not a single person entitled in any way to our national protection remained in a Spanish prison.

While these negotiations were in progress the increasing destitution of the unfortunate reconcentrados and the alarming mortality among them claimed earnest attention. The success which had attended the limited measure of relief extended to the suffering American citizens among them by the judicious expenditure through the consular agencies of the money appropriated expressly for their succor by the joint resolution approved May 24, 1897, prompted the humane extension of a similar scheme of aid to this end and was acquiesced in by the Spanish authorities.

On the 24th of December last I caused to be issued an appeal to the American people, inviting contributions in money or in kind for the succor of the starving sufferers in Cuba, following this on the 8th of January by a similar public announcement of the formation of a central Cuban relief committee, with headquarters in New York city, composed of three members representing the American National Red Cross and the religious and business elements of the community.

The efforts of that committee have been untiring and accomplished much. Arrangements for free transportation to Cuba have greatly aided the charitable work. The president of the American Red Cross and representatives of other contributory organizations have generously visited Cuba and co-operated with the consular-general and the local authorities to make effective distribution of the relief collected through the efforts of the central committee.

Nearly \$200,000 in money and supplies has already reached the sufferers, and more is forthcoming. The supplies are admitted duty free, and transportation to the interior has been arranged, so that the relief, at first necessarily confined to Havana and the larger cities, is now extended through most if not all of the towns where suffering exists. Thousands of lives have already been saved.

The necessity for a change in the condition of the reconcentrados is recognized by the Spanish government. Within a few days past the orders of Gen. Weyler have been revoked; the reconcentrados are, it is said, to be permitted to return to their homes and aided to resume the self-supporting pursuits of peace; public works

have been ordered to give them employment, and a sum of \$600,000 has been appropriated for their relief.

The war in Cuba is of such a nature that short of subjugation or extermination a final military victory for either side seems impracticable. The alternative lies in the physical exhaustion of the one or the other party, or perhaps of both—a condition which in effect ended the ten years war by the truce of Zanjón. The prospect of such a protraction and conclusion of the present strife is a contingency hardly to be contemplated with equanimity by the civilized world, and least of all by the United States, affected and injured as we are, deeply and intimately, by its very existence.

Realizing this, it appeared to be my duty, in a spirit of true friendliness no less to Spain than to the Cubans, who have so much to lose by the prolongation of the struggle, to seek to bring about an immediate termination of the war. To this end I submitted, on the 27th ult., as a result of much representation and correspondence, through the United States minister at Madrid, propositions to the Spanish government looking to an armistice until Oct 1 for the negotiation of peace with the good offices of the president.

In addition, I asked the immediate revocation of the order of reconcentration, so as to permit the people to return to their farms and the needy to be relieved with provisions and supplies from the United States, co-operating with the Spanish authorities so as to afford full relief.

The reply of the Spanish cabinet was received on the night of the 31st ult. It offers, as the means to bring about peace in Cuba, to confide the preparation thereof to the insular department, inasmuch as the concurrence of that body would be necessary to reach a final result. It being, however, understood that the powers reserved by the constitution to the central government are not lessened or diminished.

As the Cuban parliament does not meet until the 4th of May next, the Spanish government would not object, for its part, to accept at once a suspension of hostilities if asked for by the insurgents from the general-in-chief, to whom it would pertain, in such case, to determine the duration and conditions of the armistice.

The propositions submitted by Gen. Woodford and the reply of the Spanish government were both in the form of brief memoranda, the texts of which are before me, and are substantially in the language above given. The function of the Cuban parliament in the matter of "preparing" peace and the manner of its doing so are not expressed in the Spanish memorandum, but from Gen. Woodford's explanatory reports of preliminary discussions preceding the final conference it is understood that the Spanish government stands ready to give the insular congress full powers to settle the terms of peace with the insurgents, whether by direct negotiation or indirectly by means of legislation does not appear.

With this last overture in the direction of immediate peace and its disappointing reception by Spain, the executive was brought to the end of his effort.

In my annual message of December last I said:

"Of the untried measures there remain: Recognition of the insurgents as belliger-

ents, recognition of the independence of Cuba, neutral intervention to end the war by imposing a rational compromise between the contestants, and intervention in favor of one or the other party. I speak not of forcible annexation, for that cannot be thought of. That, by our code of morality, would be criminal aggression."

Thereupon I reviewed these alternatives in the light of President Grant's measured words, uttered in 1875, when after seven years of sanguinary, destructive and cruel barbarities in Cuba he reached the conclusion that the recognition of the independence of Cuba was impracticable and indefensible, and that the recognition of belligerence was not warranted by the facts, according to the tests of public law. I commented especially upon the latter aspect of the question, pointing out the inconveniences and positive dangers of a recognition of belligerence, which, while adding to the already onerous burdens of neutrality within our own jurisdiction, could not in any way extend our influence or effective offices in the territory of hostilities.

Nothing has since occurred to change my view in this regard, and I recognize as fully now as then that the issuance of a proclamation of neutrality, by which process the so-called recognition of belligerence is published, could of itself and unattended by other action accomplish nothing toward the one end for which we labor, the instant pacification of Cuba and the cessation of the misery that afflicts the island.

Turning to the question of recognizing at this time the independence of the present insurgent government in Cuba, we find precedents in our history from an early day. They are well summed up in President Jackson's message to congress Dec. 21, 1836, on the subject of the recognition of the independence of Texas. He said:

"In all the contests that have arisen out of the revolution of France, out of the disputes relating to the crews of Portugal and Spain, out of the separation of the American possessions of both from the European governments, and out of the numerous and constantly occurring struggles for dominion in Spanish America, so wisely consistent with our just principles has been the action of our government that we have under the most critical circumstances avoided all censure, and encountered no other evil than that produced by a transient estrangement of good will in those against whom we have been by force of evidence compelled to decide. It has thus been made known to the world that the uniform policy and practice of the United States is to avoid all interferences in disputes which merely relate to the internal government of other nations, and eventually to recognize the authority of the prevailing party, without reference to our particular interests and views or to the merits of the original controversy."

"But on this, as on every other trying occasion, safety is to be found in a rigid adherence to principle. In the contest between Spain and the revolted colonies we stood aloof and waited until the ability of the new states to protect themselves was fully established, but until the danger of their being again subjugated had entirely passed away. Then, and not until then, were they recognized. Such was our course in regard to Mexico herself."

"It is true that with regard to Texas the civil authority of Mexico had been expelled,

its invading army defeated, the chief of the republic himself captured, and all present power to control the newly organized government of to-day annihilated within its confines. But on the other hand there is in appearance at least an immense disparity of physical force on the side of Texas. The Mexican republic under another executive is rallying its forces under a new leader and menacing a fresh invasion to recover its lost dominion. Upon the issue of this threatened invasion the independence of Texas may be considered as suspended, and were there nothing peculiar in the attitude of the United States and Texas, our acknowledgment of its independence at such a crisis could scarcely be regarded as consistent with that prudent reserve with which we have hitherto held ourselves bound to treat all similar questions."

Thereupon Andrew Jackson proceeded to consider the risk that there might be imputed to the United States motives of selfish interests, in view of the former claim on our part to the territory of Texas and of the avowed purpose of the Texans in seeking recognition of independence as an incident to the incorporation of Texas in the union, concluding thus:

"Prudence, therefore, seems to dictate that we should still stand aloof and maintain our present attitude, if not until Mexico itself or one of the great foreign powers shall recognize the independence of the new government, at least until the lapse of time or the course of events shall have proved beyond cavil or dispute the ability of the people of that country to maintain their separate sovereignty and to uphold the government constituted by them.

"Neither of the contending parties can justly complain of this course. By pursuing it we are but carrying out the long-established policy of our government, a policy which has secured to us respect and influence abroad and inspired confidence at home."

These are the words of the resolute and patriotic Jackson. They are evidence that the United States, in addition to the test imposed by public law as the condition of the recognition of independence by a neutral state—to wit, that the revolted states shall "constitute in fact a body politic, having a government in substance as well as in name, possessed of the elements of stability," and forming de facto, "if left to itself, a state among the nations, reasonably capable of discharging the duties of a state"—has imposed for its own governance in dealing with cases like these the further condition that recognition of independent statehood is not due to a revolted dependency until the danger of its being again subjugated by the parent state has entirely passed away.

This extreme test was in fact applied in the case of Texas. The congress to whom President Jackson referred the question as one "probably leading to war" and therefore a proper subject for "a previous understanding with that body, by whom war can alone be declared, and by whom all the provisions for sustaining its perils must be unrushed," left the matter of the recognition of Texas to the discretion of the executive, providing merely for the sending of a diplomatic agent when the president should be satisfied that the republic of Texas had become "an independent state." It was so recognized by President Van Buren, who

commissioned a charge d'affaires March 7, 1837, after Mexico had abandoned an attempt to reconquer the Texan territory and when there was at the time no bona-fide contest going on between the insurgent province and its former sovereign.

I said in my message of December last: "It is to be seriously considered whether the Cuban insurrection possesses beyond dispute the attributes of statehood, which alone can demand the recognition of belligerency in its favor."

The same requirement must certainly be no less seriously considered when the graver issue of recognizing independence is in question, for no less positive test can be applied to the greater act than to the lesser, while on the other hand the influences and consequences of the struggle upon the internal policy of the recognizing state, which form important factors when the recognition of belligerency is concerned, are secondary, if not rightly eliminable factors when the real question is whether the community claiming recognition is or is not independent beyond peradventure.

Nor from the standpoint of expedience do I think it would be wise or prudent for this government to recognize at the present time the so-called Cuban republic. Such recognition is not necessary in order to enable the United States to intervene and pacify the island.

To commit this country now to the recognition of any particular government in Cuba might subject us to embarrassing conditions of international obligations toward the organization so recognized. In case of intervention our conduct would be subject to the approval or disapproval of such governments, we would be required to submit to its direction and to assume to it the mere reliance of a friendly ally.

When it shall appear hereafter that there is within the island a government capable of performing the duties and discharging the functions of a separate nation, and having as a matter of fact the proper forms and attributes of nationality, such government can be promptly and readily recognized and the relations and interests of the United States with such nation adjusted.

There remain the alternative forms of intervention to end the war, either as an impartial neutral by imposing a rational compromise between the contestants, or as the active ally of the one party or the other.

As to the first, it is not to be forgotten that during the last few months the relation of the United States has virtually been one of friendly intervention in many ways, each not of itself conclusive, but all tending to the exertion of a potential influence toward an ultimate pacific result just and honorable to all interests concerned.

The spirit of all our acts hitherto has been an earnest, unselfish desire for peace and prosperity in Cuba, untarnished by differences between us and Spain and unstained by the blood of American citizens.

The forcible intervention of the United States as a neutral to stop the war, according to the large dictates of humanity and following many historical precedents where neighboring states have interfered to check the hopeless sacrifice of life by interminable conflicts beyond their borders, is justifiable on rational grounds. It involves, however, hostile constraint upon both the parties to the contest as well to enforce a truce as to guide the eventual settlement.

The grounds for such intervention may be briefly summarized as follows:

1. In the cause of humanity and to put an end to the barbarities, bloodshed, starvation and horrible miseries now existing there, and which the parties to the conflict are either unable or unwilling to stop or mitigate. It is no answer to say this is all in another country, belonging to another nation and therefore none of our business. It is specially our duty, for it is right at our door.

2. We owe it to the citizens of Cuba to afford them that protection and indemnity for life and property which no government there can or will afford, and to that end to terminate the conditions that deprive them of legal protection.

3. The right to intervene may be justified by the very serious injury to commerce, trade and business of our people, and by the wanton destruction of property and devastation of the island.

And which is of the utmost importance: The present condition of affairs in Cuba is a constant menace to our peace, and entails upon this government an enormous expense. With such a conflict waged for years in an island so near us and with which our people have such trade and business relations—when the lives and liberty of our citizens are in constant danger and their property destroyed and themselves ruined—where our trading vessels are liable to seizure and are seized at our very door by warships of a foreign nation, the expeditions of filibustering that we are powerless to prevent altogether, and the irritating questions and entanglements thus arising—all these and others that I need not mention, with the resulting strained relations, are a constant menace to our peace and compel us to keep on a semi-war footing with a nation with which we are at peace.

These elements of danger and disorder already pointed out have been strikingly illustrated by a tragic event which has deeply and justly moved the American people.

I have already transmitted to congress the report of the naval court of inquiry on the destruction of the battleship *Maine* in the harbor of Havana during the night of the 15th of February.

The destruction of that noble vessel has filled the national heart with inexpressible horror. Two hundred and fifty-eight brave sailors and marines and two officers of our navy, reposing in the fancied security of a friendly harbor, have been hurled to death, grief and want brought to their homes and sorrow to the nation.

The naval court of inquiry, which it is needless to say commands the unqualified confidence of the government, was unanimous in its conclusion that the destruction of the *Maine* was caused by an exterior explosion—that of a submarine mine. It did not assume to place the responsibility. That remains to be fixed.

In any event the destruction of the *Maine*, by whatever exterior cause, is a patent and impressive proof of a state of things in Cuba that is intolerable. That condition is thus shown to be such that the Spanish government cannot assure safety and security to a vessel of the American navy in the harbor of Havana on a mission of peace and rightfully there.

Further referring in this connection to recent diplomatic correspondence, a dispatch from our minister to Spain of the 26th

ult. contained the statement that the Spanish minister for foreign affairs assured him positively that Spain will do all that the highest honor and justice require in the matter of the *Maine*.

The reply above referred to of the 31st ult. also contained an expression of the readiness of Spain to submit to an arbitration all the differences which can arise in this matter, which is subsequently explained by the note of the Spanish minister at Washington of the 10th inst., as follows:

"As to the question of fact which springs from the diversity of views between the report of the American and Spanish boards, Spain proposes that the fact be ascertained by an impartial investigation by experts, which decision Spain accepts in advance."

To this I have made no reply.

President Grant, in 1875, after discussing the phases of the contest as it then appeared, and its hopeless and apparent indefinite prolongation, said:

"In such event I am of opinion that other nations will be compelled to assume the responsibility which devolves upon them and to seriously consider the only remaining measure possible—mediation and intervention. Owing, perhaps, to the large expanse of water separating the island from the peninsula, the contending parties appear to have within themselves no depository of common confidence to suggest wisdom when passion and excitement have their sway and to assume the part of peacemaker."

"In this view, in the earlier days of the contest, the good offices of the United States as a mediator were tendered in good faith, without any selfish purpose. In the interest of humanity and sincere friendship for both parties, but were at the time declined by Spain with the declaration, nevertheless, that at a future time they would be indispensable. No intimation has been received that in the opinion of Spain that time has been reached. And yet the strife continues, with all its dread horrors and all its injuries to the interests of the United States and of other nations. Each party seems quite capable of making great injury and damage to the other, as well as to all the relations and interests dependent on the existence of peace in the island, but they seem incapable of reaching any adjustment, and both have thus far failed of achieving any success whereby one party shall possess and control the island to the exclusion of the other."

"Under the circumstances, the agency of others, either by mediation or by intervention, seems to be the only alternative which must sooner or later be invoked for the termination of the strife."

In the last annual message of my immediate predecessor during the pending struggle it was said:

"When the inability of Spain to deal successfully with the insurrection has become manifest, and it is demonstrated that her sovereignty is extinct in Cuba for all purposes of its rightful existence, and when a hopeless struggle for its re-establishment has degenerated into a strife which means nothing more than the useless sacrifice of human life and the utter destruction of the very subject matter of the conflict, a situation will be presented in which our obligations to the sovereignty of Spain will be superseded by higher obligations, which we can hardly hesitate to recognize and discharge."

In my annual message to congress December last, speaking to this question, I said: "The near future will demonstrate

whether the indispensable condition of a righteous peace, just alike to the Cubans and to Spain, as well as equitable to all our interests so intimately involved in the welfare of Cuba, is likely to be attained. If not, the exigency of further and other action by the United States will remain to be taken.

"When that time comes that action will be determined in the line of indisputable right and duty. It will be faced, without misgiving or hesitancy, in the light of the obligation this government owes itself, to the people who have confided to it the protection of their interests and honor, and to humanity.

"Sure of the right, keeping free from all offense ourselves, actuated only by upright and patriotic considerations, moved neither by passion nor selfishness, the government will continue its watchful care over the rights and property of American citizens, and will abate none of its efforts to bring about by peaceful agencies a peace which shall be honorable and enduring. If it shall hereafter appear to be a duty imposed by our obligations to ourselves, to civilization and humanity to intervene with force, it shall be without fault on our part and only because the necessity for such action will be so clear as to command the support and approval of the civilized world."

The long trial has proved that the object for which Spain has waged the war cannot be attained. The fire of insurrection may flame or may smolder with varying seasons, but it has not been and it is plain that it cannot be extinguished by present methods.

The only hope of relief and repose from a condition which cannot longer be endured is the enforced pacification of Cuba. In the name of humanity, in the name of civilization, in behalf of endangered American interests, which give us the right and duty to speak and to act, the war in Cuba must stop.

In view of these facts and these considerations, I ask the congress to authorize and empower the president to take measures to secure a full and speedy termination of hostilities between the government of Spain and the people of Cuba, and to secure in the island the establishment of a stable government, capable of maintaining order and observing its international obligations, insuring peace and tranquillity and the security of its citizens, as well as our own, and to use the military and naval forces of the United States as may be necessary for these purposes.

And in the interest of humanity and to aid in preserving the lives of the starving people of the island I recommend that the distribution of food and supplies be continued and that an appropriation be made out of the public treasury to supplement the charity of our citizens.

The issue is now with the congress. It is a solemn responsibility. I have exhausted every effort to relieve the intolerable condition of affairs which is at our doors. Prepared to execute every obligation imposed upon me by the constitution and the law, I await your action.

Yesterday and since the preparation of the foregoing message official information was received by me that the latest decree of the queen regent of Spain directs Gen. Blanco, in order to prepare and facilitate peace, to proclaim a suspension of hostilities, the duration and details of which have not yet been communicated to me. This fact, with every other pertinent consideration, will, I

am sure, have your just and careful attention in the solemn deliberations upon which you are about to enter.

If this measure attains a successful result, then our aspirations as a Christian, peace-loving people will be realized. If it fails, it will be only another justification for our contemplated action.

WILLIAM M'KINLEY.

Executive Mansion, April 11, 1898.

#### FOR A DECLARATION OF WAR.

To the Senate and House of Representatives of the United States of America:

I transmit to the congress for its consideration and appropriate action copies of correspondence recently had with the representative of Spain in the United States, with the United States minister at Madrid, and through the latter with the government of Spain, showing the action taken under the joint resolution approved April 20, 1898, "for the recognition of the independence of the people of Cuba, demanding that the government of Spain relinquish its authority and government in the island of Cuba and to withdraw its land and naval forces from Cuba and Cuban waters, and directing the president of the United States to use the land and naval forces of the United States to carry these resolutions into effect."

Upon communicating with the Spanish minister in Washington the demand which it became the duty of the executive to address to the government of Spain in obedience to said resolution, the said minister asked for his passports and withdrew.

The United States minister at Madrid was in turn notified by the Spanish minister for foreign affairs that the withdrawal of the Spanish representative from the United States had terminated diplomatic relations between the two countries, and that all official communications between their respective representatives ceased therewith.

I recommend to your especial attention the note addressed to the United States minister at Madrid by the Spanish minister for foreign affairs on the 21st inst., whereby the foregoing notification was conveyed. It will be perceived therefrom that the government of Spain, having cognizance of the joint resolution of the United States congress, and in view of things which the president is thereby required and authorized to do, responds by treating the representative demands of this government as measures of hostility, following with that instant and complete severance of relations by its action whereby the usage of nations accompanies an existent state of war between sovereign powers.

The position of Spain being thus made known and the demands of the United States being denied with a complete rupture of intercourse by the act of Spain, I have been constrained, in exercise of the power and authority conferred upon me by the joint resolution aforesaid, to proclaim, under date of April 22, 1898, a blockade of certain ports of the north coast of Cuba lying between Cardenas and Bahia Honda, and of the port of Cienfuegos on the south coast of Cuba; and further, in exercise of my constitutional powers and using the authority conferred upon me by the act of congress approved April 22, 1898, to issue a proclamation, dated April 23, 1898, calling for volunteers in order to carry into effect the said resolution of April 20, 1898.

Copies of these proclamations are hereto appended.

In view of the measures so taken and with a view to the adoption of such other measures as may be necessary to enable me to carry out the expressed will of the congress of the United States in the premises, I now recommend to your honorable body for adoption of a joint resolution declaring that a state of war exists between the United States of America and the kingdom of Spain, and I urge speedy action thereon, to the end that the definition of the international status of the United States as a belligerent power may be made known and the assertion of all its rights and the maintenance of all its duties in the conduct of a public war may be assured.

WILLIAM M'KINLEY.

Executive Mansion, Washington, April 25, 1898.

#### TRIBUTE TO ADMIRAL DEWEY.

To the Congress of the United States: On the 24th of April I directed the secretary of the navy to telegraph orders to Commodore Dewey of the United States navy, commanding the Asiatic squadron, then lying in the port of Hongkong, to proceed forthwith to the Philippine Islands, there to commence operations and engage the Spanish fleet.

Promptly obeying that order the United States squadron, consisting of the flagship Olympia, Baltimore, Raleigh, Boston, Concord and Petrel, with the revenue cutter McCulloch as an auxiliary dispatch boat, entered the harbor of Manila at daybreak on the 1st of May and immediately engaged the entire Spanish fleet of eleven ships, which were under the protection of the fire of the land forts. After a stubborn fight, in which the enemy suffered great loss, these vessels were destroyed or completely disabled and the water battery at Cavite silenced. Of our brave officers and men not one was lost and only eight injured, and those slightly. All of our ships escaped any serious damage.

By the 4th of May Commodore Dewey had taken possession of the naval station at Cavite, destroying the fortifications there and at the entrance of the bay and ravaging their garrisons. The waters of the bay are under his complete control. He has established hospitals within the American lines, where 250 of the Spanish sick and wounded are assisted and protected.

The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare. Outweighing any material advantage is the moral effect of this initial success. At this unsurpassed achievement the great heart of our nation throbs, not with boasting or with greed of conquest, but with deep gratitude that this triumph has come in a just cause, and that by the grace of God an effective step has thus been taken toward the attainment of the wished-for peace. To those whose skill, courage and devotion have won the fight, to the gallant commander and the brave officers and men who aided him, our country owes an incalculable debt.

Feeling as our people feel and speaking in their name, I at once sent a message to Commodore Dewey, thanking him and his officers and men for their splendid achievement and overwhelming victory, and in-

forming him that I had appointed him an acting rear-admiral.

I now recommend that, following our national precedents and expressing the fervent gratitude of every patriotic heart, the thanks of congress be given Acting Rear-Admiral George Dewey of the United States navy for highly distinguished conduct in conflict with the enemy, and to the officers and men under his command for their gallantry in the destruction of the enemy's fleet and the capture of the enemy's fortifications in the bay of Manila.

WILLIAM M'KINLEY.

Executive Mansion, May 9, 1898.

#### SINKING OF THE MERRIMAC.

To the Congress of the United States: On the morning of the 3d of June, 1898, Assistant Naval Constructor Richmond P. Hobson, U. S. N., with a volunteer crew of seven men, in charge of the partially dismantled collier Merrimac, entered the fortified harbor of Santiago, Cuba, for the purpose of sinking the collier in the narrowest portion of the channel and thus interposing a serious obstacle to the egress of the Spanish fleet which had recently entered that harbor. This enterprise, demanding coolness, judgment and bravery amounting to heroism, was carried into successful execution in the face of a persistent fire from the hostile fleet, as well as from the fortifications on shore.

Rear-Admiral Sampson, commander-in-chief of our naval force in Cuban waters, in an official report dated "Off Santiago de Cuba, June 3, 1898," and addressed to the secretary of the navy, referring to Mr. Hobson's gallant exploit, says:

"As stated in a recent telegram before coming here, I decided to make the harbor entrance secure against the possibility of egress of the Spanish ships by obstructing the narrow part of the entrance by sinking a collier at that point. Upon calling upon Mr. Hobson for his professional opinion as to a sure method of sinking the ship, he manifested a most lively interest in the problem. After several days' consideration he presented a solution which he considered would insure the immediate sinking of the ship when he had reached the desired point in the channel. The plan contemplated a crew of only seven men and Mr. Hobson, who begged that it might be intrusted to him.

"As soon as I reached Santiago and had the collier to work upon, the details were commenced and diligently prosecuted, hoping to complete them in one day, as the moon and tide served best the first night after our arrival. Notwithstanding every effort the hour of 4 o'clock in the morning arrived and the preparations were scarcely completed. After a careful inspection of the final preparations I was forced to relinquish the plan for that morning, as dawn was breaking. Mr. Hobson begged to try it at all hazards.

"This morning proved more propitious, as a prompt start could be made. Nothing could have been more gallantly executed. A careful inspection of the harbor from this ship showed that the Merrimac had been sunk in the channel.

"I cannot too earnestly express my appreciation of the conduct of Mr. Hobson and his gallant crew. I venture to say that a more brave and daring thing has not been done since Cushing blew up the Albemarle."

The members of the crew who were with Mr. Hobson on this memorable occasion have already been rewarded for their services by advancement, which, under the provisions of law and regulation, the secretary of the navy was authorized to make, and the nomination to the senate of Naval Cadet Powell, who, in a steam launch, followed the Merrimac on her perilous trip for the purpose of rescuing her force after the sinking of that vessel, to be advanced in rank to the grade of ensign, has been prepared and will be submitted.

Cushing, with whose gallant act in blowing up the ram Albatross during the civil war Admiral Sampson compares Mr. Hobson's sinking of the Merrimac, received the thanks of congress, upon recommendation of the president, by name, and was in consequence, under the provisions of section 1508 of the revised statutes, advanced one grade, such advancement embracing fifty-six numbers. The section cited applies, however, to line officers only, and Mr. Hobson, being a member of the staff of the navy, could not under its provisions be so advanced.

In considering the question of suitably rewarding Assistant Naval Constructor Hobson for his valiant conduct on the occasion referred to I have deemed it proper to address this message to you with the recommendation that he receive the thanks of congress, and, further, that he be transferred to the line of the navy and promoted to such position therein as the president, by and with the advice and consent of the senate, may determine. Mr. Hobson's transfer from the construction corps to the line is fully warranted, he having received the necessary technical training as a graduate of the naval academy, where he stood No. 1 in his class, and such action is recommended partly in deference to what is understood to be his own desire, although, he being now a prisoner in the hands of the enemy, no direct communication on the subject has been received from him, and partly for the reason that the abilities displayed by him at Santiago are of such a character as to indicate especial fitness for the duties of the line.

WILLIAM M'KINLEY.  
Executive Mansion, June 27, 1898.

#### REWARD FOR LIEUT. NEWCOMB.

To the Congress of the United States: On the 11th day of May, 1898, there occurred a conflict in the bay of Cardenas, Cuba, in

which the naval torpedo boat Winslow was disabled, her commander wounded and one of her officers and a part of her crew killed by the enemy's fire.

In the face of a most galling fire from the enemy's guns the revenue cutter Hudson, commanded by First Lieutenant Frank H. Newcomb, United States revenue-cutter service, rescued the disabled Winslow, her wounded commander and remaining crew. The commander of the Hudson kept his vessel in the very hottest fire of the action, although in constant danger of going ashore on account of the shallow water, until he finally got a line made fast to the Winslow and towed that vessel out of range of the enemy's guns, a deed of special gallantry.

I recommend that, in recognition of the signal act of heroism of First Lieutenant Frank H. Newcomb, United States revenue-cutter service, above set forth, the thanks of congress be extended to him and to his officers and men of the Hudson, and a gold medal of honor be presented Lieut. Newcomb, a silver medal of honor to each of his officers and a bronze medal of honor to each of his crew who served with him at Cardenas.

It will be remembered that congress, by appropriate action, recognized the several commanders of ships of war for their services in the battle of Manila, May 1, 1898.

#### CAPT. HODGSON REMEMBERED.

The commander of the revenue cutter Hugh McCulloch, present and in active co-operation with the fleet under Commodore Dewey on that occasion (by executive order under the provisions of section 2775, revised statutes), is the only commander of a national ship to whom promotion or advancement was not and could not be given, because he already held the highest rank known to the revenue-cutter service.

I now recommend that, in recognition of the efficient and meritorious services of Capt. Daniel E. Hodgson, United States revenue-cutter service, who commanded the Hugh McCulloch at the battle of Manila (that officer being now in the 63d year of his age and having served continuously on active duty for thirty-seven years), be placed upon permanent waiting orders on the retired list of the revenue-cutter service on the full-duty pay of his grade.

WILLIAM M'KINLEY.  
Executive Mansion, June 27, 1898.

#### THE PRESIDENT'S SECOND ANNUAL MESSAGE.

To the Senate and House of Representatives: Notwithstanding the added burdens rendered necessary by the war, our people rejoice in a very satisfactory and steadily increasing degree of prosperity, evidenced by the largest volume of business ever recorded.

Manufacture has been productive, agricultural pursuits have yielded abundant returns, labor in the fields of industry is better rewarded, revenue legislation passed by the present congress has increased the treasury's receipts to the amount estimated by its authors, the finances of the government have been successfully administered and its credit advanced to the first rank, while its currency has been maintained at the world's highest standard.

Military service under a common flag and

for a righteous cause has strengthened the national spirit and served to cement more closely than ever the fraternal bonds between every section of the country.

A review of the relation of the United States to other powers, always appropriate, is this year of primary importance in view of the momentous issues which have arisen, demanding in one instance the ultimate determination by arms and involving far-reaching consequences which will require the earnest attention of the congress.

In my last annual message very full consideration was given to the question of the duty of the government of the United States toward Spain and the Cuban insurrection as being by far the most important problem with which we were then called upon to deal. The considerations then ad-

vanced and the exposition of the views then expressed disclosed my sense of the extreme gravity of the situation.

#### TIME GIVEN SPAIN.

Setting aside, as logically unfounded or practically inadmissible, the recognition of the Cuban insurgents as belligerents, the recognition of the independence of Cuba, neutral intervention to end the war by imposing a rational compromise between the contestants, intervention in favor of one or the other party, and forcible annexation of the island, I concluded it was honestly due to our friendly relations with Spain that she should be given a reasonable chance to realize her expectations of reform, to which she had become irrevocably committed. Within a few weeks previously she had announced comprehensive plans, which it was confidently asserted would be efficacious to remedy the evils so deeply affecting our own country, so injurious to the true interests of the mother country as well as to those of Cuba, and so repugnant to the universal sentiment of humanity.

The ensuing month brought little sign of real progress toward the pacification of Cuba. The autonomous administration set up in the capital and some of the principal cities appeared not to gain the favor of the inhabitants nor to be able to extend their influence to the large extent of territory held by the insurgents, while the military arm, obviously unable to cope with the still active rebellion, continued many of the most objectionable and offensive policies of the government that had preceded it.

No tangible relief was afforded the vast numbers of unhappy reconcentrados, despite the reiterated professions made in that regard and the amount appropriated by Spain to that end. The proffered expedient of zones of cultivation proved illusory. Indeed, no less practical nor more delusive promises of succor could well have been tendered to the exhausted and destitute people, stripped of all that made life and home dear and herded in a strange region among unsympathetic strangers hardly less necessitous than themselves.

By the end of December the mortality among them had frightfully increased. Conservative estimates from Spanish sources placed the deaths among these distressed people at over 40 per cent from the time Gen. Weyler's decree of reconcentration was enforced. With the acquiescence of the Spanish authorities a scheme was adopted for relief by charitable contributions raised in this country and distributed, under the direction of the consul-general and the several consuls, by noble and earnest individual effort through the organized agencies of the American Red Cross. Thousands of lives were thus saved, but many thousands more were inaccessible to such forms of aid.

The war continued on the old footing, without comprehensive plan, developing only the same spasmodic encounters, barren of strategic result, that had marked the course of the earlier ten years' rebellion as well as the present insurrection from its start. No alternative save physical exhaustion of either combatant, and therewithal the practical ruin of the island, lay in sight, but how far distant no one could venture to conjecture.

#### DESTRUCTION OF THE MAINE.

At this juncture, on the 15th of February last, occurred the destruction of the battle-

ship Maine, while rightfully lying in the harbor of Havana on a mission of international courtesy and good-will—a catastrophe the suspicious nature and horror of which stirred the nation's heart profoundly.

It is a striking evidence of the poise and sturdy good sense distinguishing our national character that this shocking blow, falling upon a generous people, already deeply touched by preceding events in Cuba, did not move them to an instant, desperate resolve to tolerate no longer the existence of a condition of danger and disorder at our doors that made possible such a deed by whomsoever wrought. Yet the instinct of justice prevailed and the nation anxiously awaited the result of the searching investigation at once set on foot.

The finding of the naval board of inquiry established that the origin of the explosion was external by a submarine mine, and only halted through lack of positive testimony to fix the responsibility of its authorship.

All these things carried conviction to the most thoughtful, even before the finding of the naval court, that a crisis in our relations with Spain and toward Cuba was at hand. So strong was this belief that it needed but a brief executive suggestion to the congress to receive immediate answer to the duty of making instant provision for the possible and perhaps speedily probable emergency of war, and the remarkable, almost unique, spectacle was presented of a unanimous vote of both houses on the 9th of March, appropriating \$50,000,000 for the national defense and for each and every purpose connected therewith, to be expended at the discretion of the president.

That this act of provision came none too soon was disclosed when the application of the fund was undertaken. Our forts were practically undefended. Our navy needed large provision for increased ammunition and supplies and even numbers to cope with any sudden attack from the navy of Spain, which comprised modern warships of the highest type of continental perfection. Our army also required enlargement of men and munitions.

The details of the hurried preparation for the dreaded contingency are told in the reports of the secretaries of war and of the navy, and need not be repeated here. It is sufficient to say that the outbreak of war, when it did come, found our nation not unprepared to meet the conflict.

Nor was the apprehension of coming strife confined to our own country. It was felt by the continental powers, which, on April 6, through their ambassadors and envoys, addressed to the executive an expression of hope that humanity and moderation might mark the course of this government and people, and that further negotiations would lead to an agreement which, while securing the maintenance of peace, would affirm all necessary guarantees for the re-establishment of order in Cuba.

In responding to that representation I also shared the hope that the envoys had expressed that peace might be preserved in a manner to terminate the chronic condition of disturbance in Cuba so injurious and menacing to our interests and tranquillity, as well as shocking to our sentiments of humanity; and, while appreciating the humanitarian and disinterested character of the communication they had made on behalf of the powers, I stated the confidence of this government, for its part, that equal appreciation would be shown for its own

earnest and unselfish endeavors to fulfill a duty to humanity by ending a situation the indefinite prolongation of which had become insufferable.

#### EFFORTS TO AVERT WAR.

Still animated by the hope of a peaceful solution and obeying the dictates of duty, no effort was relaxed to bring about a speedy ending of the Cuban struggle. Negotiations to this object continued actively with the government of Spain, looking to the immediate conclusion of a six months armistice in Cuba with a view to effecting the recognition of her people's right to independence. Besides this, the instant revocation of the order of reconcentration was asked, so that the sufferers, returning to their homes and aided by united American and Spanish effort, might be put in a way to support themselves and by orderly resumption of the well-nigh destroyed productive energies of the island contribute to the restoration of its tranquillity and well being.

Negotiations continued for some little time at Madrid, resulting in offers by the Spanish government which could not but be regarded as inadequate. It was proposed to confide the preparation of peace to the insular parliament, yet to be convened under the autonomous decrees of November, 1897, but without impairment in any wise of the constitutional powers of the Madrid government, which, to that end, would grant an armistice, if solicited by the insurgents, for such time as the general in chief might see fit to fix.

How and with what scope of discretionary powers the insular parliament was expected to set about the "preparation" of peace did not appear. If it were to be by negotiation with the insurgents, the issue seemed to rest on the one side with a body chosen by a fraction of the electors in the districts under Spanish control, and on the other with the insurgent population holding the interior country, unrepresented in the so-called parliament, and defiant at the suggestion of suing for peace.

Grieved and disappointed at this barren outcome of my sincere endeavors to reach a practicable solution, I felt it my duty to remit the whole question to the congress. In the message of April 1, 1898, I announced that with this last overture in the direction of immediate peace in Cuba, and its disappointing reception by Spain, the effort of the executive was brought to an end.

I again reviewed the alternative course of action which I had proposed, concluding that the only one consonant with international policy and compatible with our first historical traditions was intervention as a neutral to stop the war and check the hopeless sacrifice of life, even though that resort involved "hostile constraint upon both the parties to the contest, as well to enforce a truce as to guide the eventual settlement."

The grounds justifying that step were: The interests of humanity, the duty to protect life and property of our citizens in Cuba, the right to check injury to our commerce and people through the devastation of the island, and, most important, the need of removing at once and forever the constant menace and the burdens entailed upon our government by the uncertainties and perils of the situation caused by the unendurable disturbance in Cuba. I said:

"The long trial has proved that the ob-

ject for which Spain has waged the war cannot be attained. The fire of insurrection may flame or may smolder with varying seasons, but it has not been, and it is plain that it cannot be, extinguished by present methods. The only hope of relief and repose from a condition which can no longer be endured is the enforced pacification of Cuba. In the name of humanity, in the name of civilization, in behalf of endangered American interests, which give us the right and the duty to speak, the existing war in Cuba must stop."

In view of all this the congress was asked to authorize and empower the president to take measures to secure a full and final termination of hostilities between Spain and the people of Cuba and to secure in the island the establishment of a stable government, capable of maintaining order and observing its international obligations, insuring peace and tranquillity and the security of its citizens as well as our own, and for the accomplishment of those ends to use the military and naval forces of the United States as might be necessary, with added authority to continue generous relief to the starving people of Cuba.

#### DECISIVE ACTION BY CONGRESS.

The response of the congress, after nine days of earnest deliberation, during which the almost unanimous sentiment of your body was developed on every point save as to the expediency of coupling the proposed action with a formal recognition of the republic of Cuba as the true and lawful government of that island—a proposition which failed of adoption—the congress, after conference, on the 19th of April, by a vote of 42 to 35 in the senate and 311 to 6 in the house of representatives, passed the memorable joint resolution, declaring:

"1. That the people of the island of Cuba are, and of right ought to be, free and independent."

"2. That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters."

"3. That the president of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States, and to call into the actual service of the United States the militia of the several states to such extent as may be necessary to carry these resolutions into effect."

"4. That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and asserts its determination, when that is accomplished, to leave the government and control of the island to its people."

This resolution was approved by the executive on the next day, April 20. A copy was at once communicated to the Spanish minister at this capital, who forthwith announced that his continuance in Washington had thereby become impossible, and asked for his passports, which were given him. He thereupon withdrew from Washington, leaving the protection of Spanish interests in the United States to the French ambassador and the Austro-Hungarian minister.

Simultaneously with its communication to

the Spanish minister, Gen. Woodford, the American minister at Madrid, was telegraphed confirmation of the text of the joint resolution, and directed to communicate it to the government of Spain, with the formal demand that it at once relinquish its authority and government in the island of Cuba and withdraw its forces therefrom, coupling this demand with announcements of the intentions of this government as to the future of the island, in conformity with the fourth clause of the resolution, and giving Spain until noon of April 23 to reply.

The demand, although, as above shown, officially made known to the Spanish envoy here, was not delivered at Madrid. After the instruction reached Gen. Woodford on the morning of April 21, but before he could present it, the Spanish minister of state notified him that upon the president's approval of the joint resolution the Madrid government, regarding the act as "equivalent to an evident declaration of war," had ordered its minister in Washington to withdraw, thereby breaking off diplomatic relations between the two countries and ceasing all official communication between their respective representatives. Gen. Woodford thereupon demanded his passports and quitted Madrid the same day.

#### FORMAL DECLARATION OF WAR.

Spain having thus denied the demand of the United States and initiated that complete form of rupture of relations which attends a state of war, the executive powers authorized by the resolution were at once used by me to meet the enlarged contingency of actual war between Spain and the United States.

On April 22 I proclaimed a blockade of the northern coast of Cuba, including ports on said coast between Cardenas and Bahía Honda, and the port of Cienfuegos on the south coast of Cuba, and on the 23d I called for volunteers to execute the purpose of the resolution.

By my message of April 25 the congress was informed of the situation, and I recommended formal declaration of the existence of a state of war between the United States and Spain. The congress accordingly voted on the same day the act approved April 20, 1898, declaring the existence of such war, from and including the 21st day of April, and re-enacted the provision of the resolution of April 20, directing the president to use all the armed forces of the nation to carry that act into effect.

Due notification of the existence of war as aforesaid was given April 25 by telegraph to all the governments with which the United States maintain relations, in order that their neutrality might be assured during the war.

The various governments responded with proclamations of neutrality, each after its own methods. It is not among the least gratifying incidents of the struggle that the obligations of neutrality were impartially discharged by all, often under delicate and difficult circumstances.

In further fulfillment of international duty, I issued April 26 a proclamation announcing the treatment proposed to be accorded to vessels and their cargoes as to blockades, contraband, the exercise of the right of subjects and the immunity of neutral flags and neutral goods under the enemy's flag. A similar proclamation was made by the Spanish government. In the

conduct of hostilities the rules of the declaration of Paris, including abstention from resort to privateering, have accordingly been observed by both belligerents, although neither was a party to that declaration.

#### RECRUITING OF ARMY AND NAVY.

Our country thus, after an interval of half a century of peace with all nations, found itself engaged in deadly conflict with a foreign enemy. Every nerve was strained to meet the emergency.

The response to the initial call for 125,000 volunteers was instant and complete, as was also the result of the second call of May 25 for 75,000 additional volunteers. The ranks of the regular army were increased to the limits provided by the act of April 25.

The enlisted force of the navy on the 15th of August, when it reached its maximum, numbered 24,123 men and apprentices. One hundred and three vessels were added to the navy by purchase, one was presented to the government, one leased and the four vessels of the International Navigation Company, the St. Paul, St. Louis, New York and Paris, were chartered. In addition to these the revenue cutters and lighthouse tenders were turned over to the navy department and became temporarily a part of the auxiliary navy.

The maximum effective fighting force of the navy during the war, separated into classes, was as follows:

Regular—Four battleships of the first class, one battleship of the second class, two armored cruisers, six coast defense monitors, one armored ram, twelve protected cruisers, three unprotected cruisers, eighteen gunboats, one dynamite cruiser, eleven torpedo boats, fourteen old vessels of the old navy, including monitors.

Auxiliary—Sixteen auxiliary cruisers, twenty-eight converted yachts, twenty-seven converted tugs, nineteen converted colliers, fifteen revenue cutters, four light house tenders and nineteen miscellaneous vessels.

Much alarm was felt along our entire Atlantic seaboard lest some attack might be made by the enemy. Every precaution was taken to prevent possible injury to our great cities lying along the coast. Temporary garrisons were provided, drawn from the state militia. Infantry and light batteries were drawn from the volunteer force. About 12,000 troops were thus employed. The coast signal service was established for observing the approach of an enemy's ships to the coast of the United States, and the life-saving and lighthouse services co-operated, which enabled the navy department to have all portions of the Atlantic coast, from Maine to Texas, under observation.

The auxiliary navy was created under the authority of congress, and was officered and manned by the naval militia of the several states. This organization patrolled the coast and performed the duty of a second arm of defense.

Under the direction of the chief of engineers submarine mines were placed at the most exposed points. Before the outbreak of the war permanent mining casemates and cable galleries had been constructed at all important harbors. Most of the torpedo material was not to be found in the market and had to be specially manufactured. Under date of April 19 district officers were directed to take all preliminary measures, short of the actual attaching of the loaded

mines to the cables, and on April 22 telegraphic orders were issued to place the loaded mines in position.

The aggregate number of mines placed was 1,536 at the principal harbors from Maine to California. Preparations were also made for the planting of mines at certain other harbors, but owing to the early destruction of the Spanish fleet these mines were not placed.

The signal corps was promptly organized and performed service of most difficult and important character. Its operations during the war covered the electrical connection of all coast fortifications and the establishment of telephonic and telegraphic facilities for the camps at Manila, Santiago and in Puerto Rico.

There were constructed 300 miles of line at ten great camps, thus facilitating military movements from those points in a manner heretofore unknown in military administration. Field telegraph lines were established and maintained under the enemy's fire at Manila, and later the Manila-Hongkong cable was reopened. In Puerto Rico cable communications were opened over a discontinued route, and on land the headquarters of the commanding officer were kept in telegraphic or telephonic communication with the division commanders of four different lines of operation.

There was placed in Cuban waters a completely outfitted cable ship, with war cables and cable gear suitable both for the destruction of communications belonging to the enemy and the establishment of our own. Two ocean cables were destroyed under the enemy's batteries at Santiago. The day previous to the landing of Gen. Shafter's corps at Calmanera, within twenty miles of the landing place, cable communications were established and cable stations opened, giving direct communication with the government at Washington. This service was invaluable to the executive in directing the operations of the army and navy.

With a total force of over 1,500 the loss was by disease and field, officers and men included, only five.

#### THE BOND ISSUE.

The national defense under the \$50,000,000 fund was expended in large part by the army and navy, and the objects for which it was used are fully shown in the reports of the several secretaries. It was a most timely appropriation, enabling the government to strengthen its defense and make preparations greatly needed in case of war.

This fund being inadequate to the requirements of equipment and for the conduct of the war, the patriotism of the congress provided the means in the war-revenue act of June 13 by authorizing a 3 per cent popular loan, not to exceed \$400,000,000, and by levying additional imposts and taxes. Of the authorized loan, \$200,000,000 was offered and promptly taken, the subscriptions so far exceeding the call as to cover it many times over, while, preference being given to the smaller bids, no single allotment exceeded \$5,000.

This was a most encouraging and significant result, showing the vast resources of the nation and the determination of the people to uphold their country's honor.

#### DEWEY'S VICTORY AT MANILA.

It is not within the province of this message to narrate the history of the extraor-

dinary war that followed the Spanish declaration of April 21, but a brief recital of its more salient features is appropriate.

The first encounter of the war in point of date took place April 27, when a detachment of the blockading squadron made a reconnaissance in force at Matanzas, shelled the harbor forts and demolished several new works in construction.

The next engagement was destined to mark a memorable epoch in maritime warfare. The Pacific fleet, under Commodore Dewey, had lain for some weeks at Hongkong. Upon the colonial proclamation of neutrality being issued and the customary twenty-four hours' notice being given, it repaired to Mirs bay, near Hongkong, whence it proceeded to the Philippine islands under telegraphed orders to capture or destroy the formidable Spanish fleet then assembled at Manila.

At daybreak on the 1st of May the American force entered Manila bay, and after a few hours' engagement effected the total destruction of the Spanish fleet, consisting of ten warships and a transport, besides capturing the naval station and forts at Cavite, thus annihilating the Spanish naval power in the Pacific ocean and completely controlling the bay of Manila, with the ability to take the city at will. Not a life was lost on our ships, the wounded numbering only seven, while not a vessel was materially injured.

For this gallant achievement the congress, upon my recommendation, fittingly bestowed upon the actors preferment and substantial reward.

The effect of this remarkable victory upon the spirit of our people and upon the fortunes of the war was instant. A prestige of invincibility thereby attached to our arms which continued throughout the struggle. Re-enforcements were hurried to Manila under the command of Maj.-Gen. Merritt and firmly established within sight of the capital, which lay helpless before our guns.

On the 7th day of May the government was advised officially of the victory at Manila, and at once inquired of the commander of our fleet what troops would be required. The information was received on the 15th day of May, and the first army expedition sailed May 25 and arrived off Manila June 30. Other expeditions soon followed, the total force consisting of 641 officers and 15,068 men.

Only reluctance to cause needless loss of life and property prevented the early storming and capture of the city, and therewith the absolute military occupancy of the whole group. The insurgents meanwhile had resumed the active hostilities suspended by the uncompleted truce of December, 1897. Their forces invested Manila from the northern and eastern sides, but were constrained by Admiral Dewey and Gen. Merritt from attempting an assault.

It was fitting that whatever was to be done in the way of decisive operations in that quarter should be accomplished by the strong arm of the United States alone. Obeying the stern precept of war, which enjoins the overcoming of the adversary and the extinction of his power wherever accessible as the speedy and sure means to win a peace, divided victory was not permissible, for no partition of the rights and responsibilities attending the enforcement of a just and advantageous peace could be thought of.

# CAMPAIGN IN CUBA REVIEWED.

Following the comprehensive scheme of general attack, powerful forces were assembled at various points on our coast to invade Cuba and Puerto Rico. Meanwhile naval demonstrations were made at several exposed points. On May 11 the cruiser Wilmington and torpedo boat Winslow were unsuccessful in an attempt to silence the batteries at Cardenas and Matanzas, Worth Bagley and four seamen falling.

These grievous fatalities were, strangely enough, among the very few which occurred during our naval operations in this extraordinary conflict.

Meanwhile the Spanish naval preparations had been pushed with great vigor. A powerful squadron under Admiral Cervera, which had assembled at the Cape Verde Islands before the outbreak of hostilities, had crossed the ocean, and by its erratic movements in the Caribbean sea delayed our military operations while baffling the pursuit of our fleets. For a time fears were felt lest the Oregon and Marietta, then nearing home after their long voyage from San Francisco of over 15,000 miles, might be surprised by Admiral Cervera's fleet, but their fortunate arrival dispelled these apprehensions and lent much-needed reinforcement.

## HEROISM OF HOBSON.

Not until Admiral Cervera took refuge in the harbor of Santiago de Cuba about May 9 was it practicable to plan a systematic military attack upon the Antillean possessions of Spain. Several demonstrations occurred on the coasts of Cuba and Puerto Rico in preparation of the great event. On May 13 the North Atlantic squadron shelled San Juan de Puerto Rico. On May 30 Commodore Schley's squadron bombarded the forts guarding the mouth of Santiago harbor. Neither attack had any material result. It was evident that well-ordered land operations were indispensable to achieve a decisive advantage.

The next act in the war thrilled not alone the hearts of our countrymen but the world by its exceptional heroism.

On the night of June 3 Lieut. Hobson, aided by seven devoted volunteers, blocked the narrow outlet from Santiago harbor by sinking the collier Merrimac in the channel, under a fierce fire from the shore batteries, escaping with their lives as by a miracle, but falling into the hands of the Spaniards.

It is a most gratifying incident of the war that the bravery of this little band of heroes was cordially appreciated by the Spaniards, who sent a flag of truce to notify Admiral Sampson of their safety and to compliment them upon their daring act. They were subsequently exchanged July 7.

## ADVANCE ON SANTIAGO.

By June 7 the cutting of the last Cuban cable isolated the island. Thereafter the invasion was vigorously prosecuted. On June 10, under a heavy protecting fire, a landing of 600 marines from the Oregon, Marblehead and Yankee was effected in Guantanamo bay where it had been determined to establish a naval station. This important and essential port was taken from the enemy after severe fighting by the marines, who were the first organized force of the United States to land in Cuba. The position so won was held despite desperate attempts to dislodge our forces.

By June 16 additional forces were landed

and strongly intrenched. On June 22 the advance of the invading army under Maj.-Gen. Shafter landed at Baiquiri, about fifteen miles east of Santiago. This was accomplished under great difficulties, but with marvelous dispatch. On June 23 the movement against Santiago was begun.

On the 24th the first serious engagement took place, in which the 1st and 10th cavalry and the 1st United States volunteer cavalry, Gen. Young's brigade of Gen. Wheeler's division, participated, losing heavily. By nightfall, however, ground within five miles of Santiago was won.

The advantage was steadily increased. On July 1 a severe battle took place, our forces gaining the outskirts of Santiago. On the 2d El Caney and San Juan were taken after a desperate charge, and the investment of the city was completed. The navy cooperated by shelling the town and the coast forts.

## DESTRUCTION OF CERVERA'S FLEET.

On the day following this brilliant achievement of our land forces, July 3, occurred the decisive naval combat of the war. The Spanish fleet, attempting to leave the harbor, was met by the American squadron under command of Commodore Sampson. In less than three hours all the Spanish ships were destroyed, the two torpedo boats being sunk, and the Maria Teresa, Almirante Oquendo, Viscaya and Cristobal Colon driven ashore. The Spanish admiral and over 1,300 men were taken prisoners, while the enemy's loss of life was deplorably large, some 600 perishing.

On our side but one man was killed, on the Brooklyn, and one man seriously wounded. Although our ships were repeatedly struck, not one was seriously injured.

Where all so conspicuously distinguished themselves, from the commanders to the gunners and the unnamed heroes in the boiler rooms, each and all contributing toward the achievement of this astounding victory, for which neither ancient nor modern history affords a parallel in the completeness of the event and the marvelous disproportion of casualties, it would be invidious to single out any for especial honor.

Deserved promotion has rewarded the more conspicuous actors—the nation's profoundest gratitude is due to all of those brave men who by their skill and devotion in a few short hours crushed the sea power of Spain and wrought a triumph whose decisiveness and far-reaching consequences can scarcely be measured. Nor can we be unmindful of the achievements of our builders, mechanics and artisans for their skill in the construction of our warships.

With the catastrophe of Santiago Spain's efforts upon the ocean virtually ceased. A spasmodic effort toward the end of June to send her Mediterranean fleet under Admiral Camara to relieve Manila was abandoned, the expedition being recalled after it had passed through the Suez canal.

The capitulation of Santiago followed. The city was closely besieged by land, while the entrance of our ships into the harbor cut off all relief on that side. After a truce to allow of the removal of non-combatants protracted negotiations continued from July 3 until July 15, when, under menace of immediate assault, the preliminaries of surrender were agreed upon. On the 17th Gen. Shafter occupied the city.

The capitulation embraced the entire eastern end of Cuba. The number of Spanish

soldiers surrendered was 22,000, all of whom were subsequently conveyed to Spain at the charge of the United States.

The story of this successful campaign is told in the report of the secretary of war, which will be laid before you. The individual valor of officers and soldiers was never more strikingly shown than in the several engagements leading to the surrender of Santiago, while the prompt movements and successive victories won instant and universal applause.

To those who gained this complete triumph, which established the ascendancy of the United States upon land as the fight off Santiago had fixed our supremacy on the seas, the earnest and lasting gratitude of the nation is unsparringly due.

Nor should we alone remember the gallantry of the living; the dead claim our tears, and our losses by battle and disease must cloud any exultation at the result and teach us to weigh the awful cost of war, however rightful the cause or signal the victory.

#### OCCUPATION OF PUERTO RICO.

With the fall of Santiago, the occupation of Puerto Rico became the next strategic necessity. Gen. Miles had previously been assigned to organize the expedition for that purpose. Fortunately he was already at Santiago, where he had arrived on the 11th of July with re-enforcements for Gen. Shafter's army.

With these troops, consisting of 3,415 infantry and artillery, two companies of engineers and one company of the signal corps, Gen. Miles left Guantanamo on July 21, having nine transports conveyed by the fleet under Capt. Higginson, with the Massachusetts (flagship), Dixie, Gloucester, Columbia and Yale, the two latter carrying troops. The expedition landed at Guanica July 25, which port was entered with little opposition. Here the fleet was joined by the Annapolis and the Wasp, while the Puritan and Amphitrite went to San Juan and joined the New Orleans, which was engaged in blockading that port.

The major-general commanding was subsequently re-enforced by Gen. Schwan's brigade of the 3d army corps, by Gen. Wilson with a part of his division, and also by Gen. Brooke with a part of his corps, numbering in all 16,973 officers and men. On July 27 he entered Ponce, one of the most important ports in the island, from which he thereafter directed operations for the capture of the island.

With the exception of encounters with the enemy at Guayama, Hormigueros, Coamo and Yauco, and an attack on a force landed at Cape San Juan, there was no serious resistance. The campaign was prosecuted with great vigor, and by the 12th of August much of the island was in our possession, and the acquisition of the remainder was only a matter of a short time.

At most of the points in the island our troops were enthusiastically welcomed. Protestations of loyalty to the flag and gratitude for delivery from Spanish rule met our commanders at every stage.

As a potent influence toward peace the outcome of the Puerto Rican expedition was of great consequence, and generous commendation is due to those who participated in it.

#### LAST BATTLE OF THE WAR.

The last scene of the war was enacted at Manila, its starting place. On Aug. 15,

after a brief assault upon the works by the land forces, in which the squadron assisted, the capital surrendered unconditionally. The casualties were comparatively few.

By this the conquest of the Philippine islands, virtually accomplished when the Spanish capacity for resistance was destroyed by Admiral Dewey's victory of the 1st of May, was formally sealed.

To Gen. Merritt, his officers and men, for their uncomplaining and devoted services, for their gallantry in action, the nation is sincerely grateful. Their long voyage was made with singular success, and the soldierly conduct of the men, most of whom were without previous experience in the military service, deserves unmeasured praise.

#### LOSSES OF ARMY AND NAVY.

The total casualties in killed and wounded during the war were as follows:

ARMY.	
Officers killed.....	23
Enlisted men killed.....	257
Total.....	280
Officers wounded.....	113
Enlisted men wounded.....	1,464
Total.....	1,577
NAVY.	
Killed .....	15
Wounded .....	67
Died as result of wounds.....	1
Invalided from service.....	6
Total.....	91

It will be observed that while our navy was engaged in two great battles and in numerous perilous undertakings in the blockades and bombardment, and more than 50,000 of our troops were transported to distant lands and engaged in assault and siege and battle and many skirmishes in unfamiliar territory, we lost in both arms of the service a total of 1,948 killed and wounded; and in the entire campaign by land and sea we did not lose a gun or a flag or a transport or a ship, and with the exception of the crew of the Merrimac not a soldier or sailor was taken prisoner.

On Aug. 7, forty-six days from the date of the landing of Gen. Shafter's army in Cuba and twenty-one days from the surrender of Santiago, the United States troops commenced embarkation for home, and our entire force was returned to the United States as early as Aug. 24. They were absent from the United States only two months.

It is fitting that I should bear testimony to the patriotism and devotion of that large portion of our army which, although eager to be ordered to the post of greatest exposure, fortunately was not required outside of the United States. They did their whole duty, and, like their comrades at the front, have earned the gratitude of the nation.

In like manner, the officers and men of the army and of the navy who remained in their departments and stations of the navy, performing most important duties connected with the war, and whose requests for assignment in the field and at sea I was compelled to refuse because their services were indispensable here, are entitled to the highest commendation. It is my regret that there seems to be no provision for their suitable recognition.

#### WORK OF THE RED CROSS.

In this connection it is a pleasure for me to mention in terms of cordial appreciation

the timely and useful work of the American National Red Cross, both in relief measures preparatory to the campaign, in sanitary assistance at several of the camps of assemblage, and later, under the able and experienced leadership of the president of the society, Miss Clara Barton, on the fields of battle and in the hospitals at the front in Cuba. Working in conjunction with the governmental authorities and under their sanction and approval, and with the enthusiastic co-operation of many patriotic women and societies in the various states, the Red Cross has fully maintained its already high reputation for intense earnestness and ability to exercise the noble purposes of its international organization, thus justifying the confidence and support which it has received at the hands of the American people.

To the members and officers of this society and all who aided them in their philanthropic work the sincere and lasting gratitude of the soldiers and the public is due and is freely accorded.

In tracing these events we are constantly reminded of our obligations to the Divine Master for His watchful care over us and His safe guidance, for which the nation makes reverent acknowledgment and offers humble prayer for the continuance of His favor.

#### SIGNING OF THE PROTOCOL.

The annihilation of Admiral Cervera's fleet, followed by the capitulation of Santiago, having brought to the Spanish government a realising sense of the hopelessness of continuing a struggle now becoming wholly unequal, it made overtures of peace through the French ambassador, who, with the assent of his government, had acted as the friendly representative of Spanish interests during the war.

On the 26th of July M. Cambon presented a communication signed by the duke of Almodovar, the spanish minister of state, inviting the United States to state the terms upon which it would be willing to make peace.

On July 30, by a communication addressed to the duke of Almodovar and handed to M. Cambon, the terms of this government were announced, substantially as in the protocol afterward signed.

On Aug. 10 the Spanish reply, dated Aug. 7, was handed by M. Cambon to the secretary of state. It accepted unconditionally the terms proposed as to Cuba, Puerto Rico and an island of the Ladronez group, but appeared to seek to introduce inadmissible reservations in regard to our demand as to the Philippines.

Conceiving that discussion on this point could neither be practicable nor profitable, I directed that in order to avoid misunderstanding the matter should be forthwith closed by proposing the embodiment in a formal protocol of the terms on which the negotiations for peace were to be undertaken.

The vague and inexplicit suggestions of the Spanish note could not be accepted, the only reply being to present as a virtual ultimatum a draft of a protocol embodying the precise terms tendered to Spain in our note of July 30, with added stipulations of detail as to the appointment of commissioners to arrange for the evacuation of the Spanish Antilles.

On Aug. 13 M. Cambon announced his receipt of full power to sign the protocol so submitted. Accordingly, on the after-

noon of Aug. 12, M. Cambon, as the plenipotentiary of Spain, and the secretary of state, as the plenipotentiary of the United States, signed a protocol providing:

"Article 1. Spain will relinquish all claim of sovereignty over and title to Cuba.

"Art. 2. Spain will cede to the United States the island of Puerto Rico and other islands now under Spanish sovereignty in the West Indies, and also an island in the Ladronez, to be selected by the United States.

"Art. 3. The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace which shall determine the control, disposition and government of the Philippines."

The fourth article provided for the appointment of joint commissions on the part of the United States and Spain, to meet in Havana and San Juan, respectively, for the purpose of arranging and carrying out the details of the stipulated evacuation of Cuba, Puerto Rico and other Spanish islands in the West Indies.

The fifth article provided for the appointment of not more than five commissioners on each side, to meet at Paris not later than Oct. 1 and to proceed to the negotiation and conclusion of a treaty of peace, subject to ratification according to the respective constitutional forms of the two countries.

The sixth and last article provided that upon the signature of the protocol hostilities between the two countries should be suspended, and that notice to that effect should be given as soon as possible by each government to the commanders of its military and naval forces.

Immediately upon the conclusion of the protocol I issued a proclamation on Aug. 12 suspending hostilities on the part of the United States. The necessary orders to that end were at once given by telegraph. The blockade of the ports of Cuba and San Juan de Puerto Rico was in like manner raised.

On Aug. 18 the muster-out of 100,000 volunteers, or as near that number as was found to be practicable, was ordered. On Dec. 1 101,165 officers and men had been mustered out and discharged from the service; \$,002 more will be mustered out by the 10th of the month. Also a corresponding number of generals and general staff officers have been honorably discharged from the service.

The military committees to superintend the evacuation of Cuba, Puerto Rico and the adjacent islands were forthwith appointed—for Cuba, Maj.-Gen. James F. Wade, Rear-Admiral William T. Sampson, Maj.-Gen. Matthew C. Butler; for Puerto Rico, Maj.-Gen. John C. Brooke, Rear-Admiral Winfield S. Schley, Brig.-Gen. W. Gordon—who soon afterward met the Spanish commissioners at Havana and San Juan respectively.

The Puerto Rican joint commission speedily accomplished its task, and by Oct. 18 the evacuation of the island was completed. The United States flag was raised over the island at noon on that day. The administration of its affairs has been provisionally intrusted to a military governor until the congress shall otherwise provide.

The Cuban joint high commission has not yet terminated its labors. Owing to the difficulties in the way of removing the large numbers of Spanish troops still in Cuba, the evacuation cannot be completed before the 1st of January next.

Pursuant to the fifth article of the protocol, I appointed William H. Day, lately secretary of state; Cushman K. Davis, William P. Frye and George Gray, senators of the United States, and Whitelaw Reid to be peace commissioners on the part of the United States.

Proceeding in due season to Paris, they there met on the 1st of October five commissioners similarly appointed on the part of Spain. The negotiations have made hopeful progress, so that I trust soon to be able to lay a definitive treaty of peace before the senate, with a review of the steps leading to its signature.

#### MILITARY RULE RECOMMENDED.

I do not discuss at this time the government or the future of the new possessions which will come to us as the result of the war with Spain. Such discussion will be appropriate after the treaty of peace shall be ratified. In the meantime and until the congress has legislated otherwise it will be my duty to continue the military governments which have existed since our occupation and give the people security in life and property and encouragement, under a just and beneficent rule.

As soon as we were in possession of Cuba and have pacified the island it will be necessary to give aid and direction to its people to form a government for themselves. This should be undertaken at the earliest moment consistent with safety and assured success.

It is important that our relations with these people shall be of the most friendly character and our commercial relations close and reciprocal. It should be our duty to assist in every proper way to build up the waste places of the island, encourage the industry of the people and assist them to form a government which shall be free and independent, thus realizing the best aspirations of the Cuban people.

Spanish rule must be replaced by a just, benevolent and humane government, created by the people of Cuba, capable of performing all international obligations, and which shall encourage thrift, industry and prosperity and promote peace and good-will among all of the inhabitants, whatever may have been their relations in the past. Neither revenge nor passion should have a place in the new government.

Until there is complete tranquillity in the island and a stable government inaugurated military occupation will be continued.

#### RELATIONS WITH OTHER NATIONS.

With the exception of the rupture with Spain, the intercourse of the United States with the great family of nations has been marked with cordiality, and the close of the eventful year finds most of the issues that necessarily arise in the complex relations of sovereign states adjusted or presenting no serious obstacle to a just and honorable solution by amicable agreement.

A long-unsettled dispute as to the extended boundary between the Argentine Republic and Chile, stretching along the Andean crests from the southern border of the Atacama desert to Magellan straits, nearly a third of the length of the South American continent, assumed an acute stage in the early part of the year, and afforded to this government an occasion to express the hope that the resort to arbitration, already contemplated by existing conventions between the parties, might prevail despite the grave

difficulties arising in its application. I am happy to say that arrangements to this end have been perfected, the questions of fact upon which the respective commissioners were unable to agree being in course of reference to her Britannic majesty for determination.

A residual difference touching the northern boundary line across the Atacama desert, for which existing treaties provided no adequate adjustment, bids fair to be settled in like manner by a joint commission, upon which the United States minister at Buenos Ayres has been invited to serve as umpire in the last resort.

I have found occasion to approach the Argentine government with a view of removing differences of rate charges imposed upon the cables of an American corporation in the transmission between Buenos Ayres and the cities of Uruguay and Brazil of through messages passing from and to the United States. Although the matter is complicated by exclusive concessions by Uruguay and Brazil to foreign companies, there is strong hope that a good understanding will be reached and that the important channels of commercial communication between the United States and the Atlantic cities of South America may be freed from an almost prohibitory discrimination.

In this relation I may be permitted to express my sense of the fitness of an international agreement whereby the interchange of messages over connecting cables may be regulated on a fair basis of uniformity. The world has seen the postal system developed from an independent and exclusive service into a well-ordered union, of which all countries found the manifold benefits. It would be strange were the nations not in time brought to realize that modern civilization, which owes so much of its progress to the annihilation of space by the electric force, demands that this all-important means of communication be a heritage of all peoples, to be administered and regulated in their common behoof.

A step in this direction was taken when the international convention of 1884 for the protection of submarine cables was signed, and the day is, I trust, not far distant when this medium for the transmission of thought from land to land may be brought within the domain of international concert as completely as is the material carriage of commerce and correspondence upon the face of the waters that divide them.

The claim of Thomas Jefferson Page against Argentina, which has been pending many years, has been adjusted. The sum awarded by the congress of Argentina was \$4,342.55.

The sympathy of the American people has justly been offered to the ruler and the people of Austria-Hungary by reason of the affliction that has lately befallen them in the assassination of the empress-queen of that historic realm.

On Sept. 10, 1897, a conflict took place at Lattimer, Pa., between a body of striking miners and the sheriff of Luzerne county and his deputies, in which twenty-two miners were killed and forty-four wounded. Ten of the killed and twelve of the wounded were Austrian and Hungarian subjects. This deplorable event naturally aroused the solicitude of the Austro-Hungarian government, which, on the assumption that the killing and wounding involved the unjustifiable misuse of authority, claimed reparation for the sufferers. Apart from the

searching investigation and the peremptory action of the authorities of Pennsylvania, the federal executive took appropriate steps to learn the merits of the case, in order to be in a position to meet the urgent complaint of a friendly power.

The sheriff and his deputies, having been indicted for murder, were tried and acquitted, after protracted proceedings, and the hearing of hundreds of witnesses, on the ground that the killing was in the line of their official duty to uphold law and preserve public order in the state. A representative of the department of justice attended the trial and reported its course fully.

With all the facts in its possession, this government expects to reach a harmonious understanding on the subject with that of Austria-Hungary, notwithstanding the renewed claim of the latter, after learning the result of the trial, for indemnity for its injured subjects.

#### INTERNATIONAL EXPOSITIONS.

Despite the brief time allotted for preparation, the exhibits of this country at the universal exposition at Brussels in 1897 enjoyed the singular distinction of a larger proportion of awards, having regard to the number and classes of articles entered, than those of other countries. The worth of such a result in making known our national capacity to supply the world's markets is obvious.

Exhibitions of this international character are becoming more frequent as the exchanges of commercial countries grow more intimate and varied. Hardly a year passes that this government is not invited to national participation at some important foreign center, but often on too short notice to permit of recourse to congress for the power and means to do so. My predecessors have suggested the advisability of providing by a general enactment and a standing appropriation for accepting such invitations and for representation of this country by a commission. This plan has my cordial approval.

#### RESTRICTIONS OF TRADE.

I trust the Belgian restriction on the importations of cattle from the United States, originally adopted as a sanitary precaution, will at an early date be modified so as to admit live cattle under due regulation of their slaughter after landing. I am hopeful, too, of a favorable change in the Belgian treatment of our preserved and salted meats. The growth of direct trade between the two countries, not alone for Belgian consumption and Belgian products, but by way of transit from and to other continental states, has been both encouraging and beneficial. No effort will be spared to enlarge its advantages by seeking the removal of needless impediments and by arrangements for increased commercial exchanges.

The year's events in Central America deserve more than passing mention. A menacing rupture between Costa Rica and Nicaragua was happily composed by the signature of a convention between the parties, with the concurrence of the Guatemalan representative as a mediator, the act being negotiated and signed on board the United States steamer Alert, then lying in Central American waters. It is believed that the good offices of our envoy and commander of

that vessel contributed toward this gratifying outcome.

#### CENTRAL AMERICAN AFFAIRS.

In my last annual message the situation was presented with respect to the diplomatic representation of this government in Central America created by the association of Nicaragua, Honduras and Salvador under the title of the Greater Republic of Central America, and the delegation of their international functions to the diet thereof. While the representative character of the diet was recognized by my predecessor and has been confirmed during my administration by receiving its accredited envoy and granting exequaturs to consuls commissioned under its authority that recognition was qualified by the distinct understanding that the responsibility of each of the component sovereign republics toward the United States remained wholly unaffected.

This proviso was needful inasmuch as the compact of the three republics was at the outset an association whereby certain representative functions were delegated to a tripartite commission rather than a federation possessing centralized powers of government and administration. In this view of their relation and the relation of the United States to several republics, a change in the representation of this country in Central America was neither recommended by the executive nor initiated by congress, thus leaving one of our envoys accredited as heretofore separately to two states of the greater republic, Nicaragua and Salvador, and to a third state, Costa Rica, which was not a party to the compact, while our other envoy was similarly accredited to the union state of Honduras and the now union state of Guatemala. The result has been that the one has presented credentials only to the president of Costa Rica, the other having been received only by the government of Guatemala.

Subsequently the three associated republics entered into negotiations for taking the steps forecast in the original compact. A convention of their delegates framed for them a federal constitution under the name of the United States of Central America and provided for a central federal government and legislature. Upon ratification by the constituent states the 1st of November last was fixed for the new system to go into operation. Within a few weeks thereafter the plan was severely tested by revolutionary movements arising, with a consequent demand for unity of action on the part of the military power of the federal states to suppress them. Under this strain the new union seems to have been weakened through the withdrawal of its more important members.

This government was not officially advised of the installation of the federation and has maintained an attitude of friendly expectancy, while in nowise relinquishing the position held from the outset that the responsibilities of the several states toward us remained unaltered by their tentative relations among themselves.

#### THE NICARAGUA CANAL.

The Nicaragua canal commission, under the chairmanship of Rear-Admiral John G. Walker, appointed July 24, 1897, under the authority of a provision in the sundry civil act of June 4 of that year, has nearly completed its labors, and the results of its exhaustive inquiry into the proper route, the feasibility and the cost of construction of

an interoceanic canal by a Nicaraguan route will be laid before you. In the performance of its task the commission received all possible courtesy and assistance from the governments of Nicaragua and Costa Rica, which thus testified their appreciation of the importance of giving a speedy and practical outcome to the great project that has for so many years engrossed the attention of the respective countries.

As the scope of recent inquiry embraced the whole subject, with the aim of making plans and surveys for a canal by the most convenient route, it necessarily included a review of the results of previous surveys and plans, and in particular those adopted by the Maritime Canal company under its existing concessions from Nicaragua and Costa Rica, so that to this extent those grants necessarily held an essential part in the deliberations and conclusions of the canal commission, as they have held and must needs hold in the discussion of the matter by congress.

Under these circumstances, and in view of overtures made to the governments of Nicaragua and Costa Rica by other parties for a new canal concession, predicated on the assumed approaching lapse of the contracts of the Maritime Canal company with those states, I have not hesitated to express my conviction that considerations of expediency and international policy as between the several governments interested in the construction and control of an interoceanic canal by this route require the maintenance of the status quo until the canal commission shall have reported and the United States congress shall have had the opportunity to pass finally upon the whole matter during the present session, without prejudice by reason of any change in the existing conditions.

Nevertheless, it appears that the government of Nicaragua, as one of its last sovereign acts before merging its powers in those of the newly formed United States of Central America, has granted an optional concession to another association, to become effective on the expiration of the present grant. It does not appear what surveys have been made or what route is proposed under this contingent grant, so that an examination of the feasibility of its plans is necessarily not embraced in the report of the canal commission.

All these circumstances suggest the urgency of some definite action by the congress at this session if the labors of the past are to be utilized and the linking of the Atlantic and Pacific oceans by a practical waterway is to be realized. That the construction of such a maritime highway is now more than ever indispensable to that intimate and ready intercommunication between our eastern and western seabords demanded by the annexation of the Hawaiian Islands and the prospective expansion of our influence and commerce in the Pacific, and that our national policy now more imperatively than ever calls for its control by this government, are propositions which I doubt not the congress will duly appreciate and wisely act upon.

A convention providing for the revival of the late United States and Chilean claims commission, and the consideration of claims which were duly presented to the late commission, but not considered because of the expiration of the time limited for the duration of the commission, was signed May 24, 1897, and has remained un-

acted upon by the senate. The term therein fixed for effecting the change or ratifications having elapsed, the convention falls, unless the time be extended by amendment, which I am endeavoring to bring about, with the friendly concurrence of the Chilean government.

#### AMERICA'S INTERESTS IN CHINA.

The United States has not been an indifferent spectator of the extraordinary events transpiring in the Chinese empire, whereby portions of its maritime provinces are passing under control of various European powers, but the prospect that the vast commerce which the energy of our citizens and the necessity of our staple productions for Chinese uses has built up in those regions may not be prejudiced through any exclusive treatment by the new occupants has obviated the need of our country becoming an actor in the scene.

Our position among nations having a large Pacific coast and a constantly expanding direct trade with the farther orient gives us an equitable claim to consideration and friendly treatment in this regard, and it will be my aim to subserve our large interests in that quarter by all means appropriate to the constant policy of our government.

The territories of Kiaochow, of Wei-Hai-Wei and of Port Arthur and Taiaien Wan, leased to Germany, Great Britain and Russia respectively for terms of years, will, it is announced, be open to international commerce during such alien occupation, and if no discriminating treatment of American citizens and their trade be found to exist or be hereafter developed, the desire of this government would appear to be realized.

In this relation, as showing the volume and value of our exchanges with China and the peculiarly favorable conditions which exist for their expansion in the normal course of trade, I refer to the communication addressed to the speaker of the house of representatives by the secretary of the treasury on the 14th of last June, with the accompanying letter of the secretary of state, recommending an appropriation for a commission to study the commercial and industrial conditions in the Chinese empire and report as to the opportunities for and obstacles to the enlargement of markets in China for the raw products and manufactures of the United States. Action was not taken thereon during the late session. I cordially urge that the recommendation receive your sanction and the consideration which its importance and timeliness merit. Meanwhile there may be just ground for disquietude in view of the unrest and revival of the old sentiment of opposition and prejudice to alien people which pervades certain of the Chinese provinces.

As in the case of the attacks upon our citizens in Szechuan and at Kiating in 1885, the United States minister has been instructed to secure the fullest measure of protection, both local and imperial, for any menaced American interests, and to demand, in case of lawless injury to person or property, instant reparation appropriate to the case.

Warships have been stationed at Tientsin for more ready observation of the disorders which have invaded even the Chinese capital, so as to be in a position to act should need arise, while a guard of marines has been sent to Peking to afford the minister the same measure of authorita-

tive protection as the representatives of other nations have been constrained to employ.

#### DISPUTE OF ITALY AND COLOMBIA.

Following close upon the rendition of the award of my predecessor as arbitrator of the claim of the Italian subject, Cerruti, against the republic of Colombia, differences arose between the parties to the arbitration in regard to the scope and extension of the award, of which certain articles were contested by Colombia, while Italy claimed their literal fulfillment. The award having been made by the president of the United States as an act of friendly consideration and with the sole view to an impartial composition of the matter in dispute, I could not but feel concern at such a miscarriage, and, while unable to accept the Colombian theory that I, in my official capacity, possessed continuing function as arbitrator, with power to interpret or revise the terms of the award, my best efforts were lent to bringing the parties to a harmonious agreement as to the execution of its provisions.

A naval demonstration by Italy resulted in an engagement to pay the liabilities claimed upon their ascertainment; but this apparent disposition of the controversy was followed by a rupture of diplomatic intercourse between Colombia and Italy, which still continues, although fortunately without acute symptoms having supervened. Notwithstanding this, efforts are reported to be continuing for the ascertainment of Colombia's contingent liability on account of Cerruti's debts, under the fifth article of the award.

The claim of an American citizen against the Dominican republic for a public bridge over the Ozama river, which has been in diplomatic controversy for several years, has been settled by expert arbitration and an award in favor of the claimant amounting to about \$90,000. It, however, remains unpaid, despite urgent demands for its settlement according to the terms of the compact.

#### THE PARIS EXPOSITION.

There is now every prospect that the participation of the United States in the universal exposition to be held in Paris in 1900 will be on a scale commensurate with the advanced position held by our products and industries in the world's chief marts.

The preliminary report of Moses P. Handy, who under the act approved July 19, 1897, was appointed special commissioner, with a view to securing all attainable information necessary to a full and complete understanding by congress in regard to the participation of this government in the Paris exposition, was laid before you by message of Dec. 6, 1897, and showed the large opportunities opened to make known our national progress in arts, science and manufactures, as well as the urgent need of immediate and adequate provision to enable due advantage thereof to be taken. Mr. Handy's death soon afterward rendered it necessary for another to take up and complete his unfinished work, and on Jan. 11 last Thomas W. Cridler, third assistant secretary of state, was designated to fulfill that task. His report was laid before you by my message of June 14, 1898, with the gratifying result of awakening renewed interest in the projected display.

By a provision in the sundry civil appropriation act of July 1, 1898, a sum not to

exceed \$650,000 was allotted for the organization of a commission to care for the proper preparation and installation of American exhibits and for the display of suitable exhibits by the several executive departments, particularly by the department of agriculture, the fish commission and the Smithsonian institution, in the representation of the government of the United States. Pursuant to that enactment I appointed Ferdinand W. Peck of Chicago commissioner-general, with an assistant commissioner-general and secretary. Mr. Peck at once proceeded to Paris, where his success in enlarging the scope and variety of the United States exhibit has been most gratifying.

Notwithstanding the comparatively limited area of the exposition site—less than one-half that of the World's Fair at Chicago—the space assigned to the United States has been increased from the absolute allotment of 157,403 square feet reported by Mr. Handy to some 202,000 square feet, with corresponding augmentation of the field for a truly characteristic representation of the various important branches of our country's development.

Mr. Peck's report will be laid before you. In my judgment its recommendations will call for your early consideration, especially as regards an increase of the appropriation to at least \$1,000,000 in all, so that not only may the assigned space be fully taken up by the best possible exhibit in every class, but the preparation and installation be on so perfect a scale as to rank among the first in that unparalleled competition of artistic and inventive production, and thus counterbalance the disadvantage with which we start as compared with other countries whose appropriations are on a more generous scale and whose preparations are in a state of much greater forwardness than our own.

Where our artisans have the admitted capacity to excel, where our inventive genius has initiated many of the grandest discoveries of these later days of the century, and where the native resources of our land are as limitless as they are valuable to supply the world's needs, it is our province, as it should be our earnest care, to lead in the march of human progress and not rest content with any secondary place. Moreover, if this be due to ourselves it is no less due to the great French nation, whose guests we become, and which has in so many ways testified its wishes and hope that our participation shall benefit the place the two peoples have won in the field of universal development.

#### REMOVAL OF TRADE RESTRICTIONS.

The commercial arrangement made with France on May 23, 1898, under the provisions of section 3 of the tariff act of 1897, went into effect on June 1, following. It has relieved a portion of our export trade from serious embarrassment. Further negotiations are now pending under section 4 of the same act, with a view to the increase of trade between the two countries to their mutual advantage.

Negotiations with other governments, in part interrupted by the war with Spain, are in progress under both sections of the tariff act. I hope to be able to announce some of the results of these negotiations during the present session of congress.

Negotiations to the same end with Germany have been set on foot. Meanwhile no effort has been relaxed to convince the

imperial government of the thoroughness of our inspection of pork products for exportation, and it is trusted that the efficient administration of this measure by the department of agriculture will be recognized as a guaranty of the healthfulness of the food staples we send abroad to countries where their use is large and necessary.

I transmitted to the senate on Feb. 10 last information touching the prohibition against the importation of fresh fruits from this country which had then recently been decreed by Germany on the ground of danger of disseminating the San Jose scale insect. This precautionary measure was justified by Germany on the score of the drastic steps taken in several states of the union against the spread of the pest, the elaborate reports of the department of agriculture being put in evidence to show the danger to German fruit-growing interests should the scale obtain a lodgment in that country.

Temporary relief was afforded in the case of large consignments of fruit then on the way by inspection and admission when found non-infected. Later the prohibition was extended to dried fruits of every kind, but was relaxed so as to apply only to unpeeled fruit and fruit waste.

As was expected, the alarm reached to other countries and Switzerland has adopted a similar inhibition. Efforts are in progress to induce the German and Swiss governments to relax the prohibition in favor of dried fruits shown to have been cured under circumstances rendering the existence of animal life impossible.

#### FRIENDSHIP OF GREAT BRITAIN.

Our relations with Great Britain have continued on the most friendly footing. Assenting to our request, the protection of Americans and their interests in Spanish jurisdiction was assumed by the diplomatic and consular representatives of Great Britain, who fulfilled their delicate and arduous trust with tact and zeal, eliciting high commendation. I may be allowed to make fitting allusion to the instance of Mr. Ramsden, her majesty's consul at Santiago de Cuba, whose untimely death after distinguished service and untiring effort during the siege of that city was sincerely lamented.

In the early part of April last, pursuant to a request made at the instance of the secretary of state by the British ambassador at this capital, the Canadian government granted facilities for the passage of four United States revenue cutters from the great lakes to the Atlantic coast by way of the Canadian canal and the St. Lawrence river. The vessels had reached Lake Ontario and were there awaiting the opening of navigation when war was declared between the United States and Spain.

Her majesty's government thereupon, by a communication of the latter part of April, stated that the permission granted before the outbreak of hostilities would not be withdrawn, provided the United States government gave assurance that the vessels in question would proceed direct to a United States port without engaging in any hostile operation. This government promptly agreed to the stipulated condition, it being understood that the vessels would not be prohibited from resisting any hostile attack.

It will give me especial satisfaction if I shall be authorized to communicate to you

a favorable conclusion of the pending negotiations with Great Britain in respect to the Dominion of Canada. It is the earnest wish of this government to remove all sources of discord and irritation in our relations with the neighboring dominion. The trade between the two countries is constantly increasing and it is important to both countries that all reasonable facilities should be granted for its development.

The government of Greece strongly urges the onerousness of the duty here imposed upon the currants of that country, amounting to 100 per cent or more of their market value. This fruit is stated to be exclusively a Greek product, not coming into competition with any domestic product. The question of reciprocal commercial relations with Greece, including the restoration of currants to the free list, is under consideration.

The long-standing claim of Berand Campbell for damages for injuries sustained from a violent assault committed against him by military authorities in the island of Haiti has been settled by the agreement of that republic to pay him \$10,000 in American gold. Of this sum \$5,000 has already been paid. It is hoped that other pending claims of American citizens against that republic may be amicably adjusted.

#### THE AMERICAN FLAG IN HAWAII.

Pending the consideration by the senate of the treaty signed June 16, 1897, by the plenipotentiaries of the United States and the republic of Hawaii, providing for the annexation of the islands, a joint resolution to accomplish the same purpose by accepting the offered cession and incorporating the ceded territory into the union was adopted by congress and approved July 7, 1898. I thereupon directed the United States steamer Philadelphia to convey Rear-Admiral Miller to Honolulu and intrusted to his hands this important legislative act, to be delivered to the president of the republic of Hawaii, with whom the admiral and the United States minister were authorized to make appropriate arrangements for transferring the sovereignty of the islands to the United States.

This was simply but impressively accomplished on the 15th of August last by the delivery of a certified copy of the resolution to President Dole, who thereupon yielded up to the representative of the government of the United States the sovereignty and public property of the Hawaiian islands.

Pursuant to the terms of the joint resolution and in exercise of the authority thereby conferred upon me, I directed that the civil, judicial and military powers theretofore exercised by the officers of the government of the republic of Hawaii should continue to be exercised by those officers until congress shall provide a government for the incorporated territory, subject to my power to remove such officers and fill vacancies. The president, officers and troops of the republic thereupon took the oath of allegiance to the United States, thus providing for the uninterrupted continuance of all the administrative and municipal functions of the annexed territory until congress shall otherwise enact.

Following the further provisions of the joint resolution, I appointed the Hon. Shelby M. Cullom of Illinois, John T. Morgan of Alabama, Robert R. Hitt of Illinois, Sanford B. Dole of Hawaii and Walter B.

Freer of Hawaii as commissioners to confer and recommend to congress such legislation concerning the Hawaiian islands as they should deem necessary or proper. The commissioners having fulfilled the mission confided to them, their report will be laid before you at an early day.

It is believed that their recommendations will have the earnest consideration due to the magnitude of the responsibility resting upon you to give such shape to the relationship of those mid-Pacific lands to our home union as will benefit both in the highest degree, realizing the aspirations of the community that has cast its lot with us and elected to share our political heritage, while at the same time justifying the foresight of those who for three-quarters of a century have looked to the annexation of Hawaii as a natural and inevitable consummation, in harmony with our needs and in fulfillment of our cherished traditions.

The questions heretofore pending between Hawaii and Japan, growing out of the alleged mistreatment of Japanese treaty immigrants, were, I am pleased to say, adjusted before the act of transfer by the payment of a reasonable indemnity to the government of Japan.

Under the provisions of the joint resolution the existing customs relations of the Hawaiian islands with the United States and with other countries remain unchanged until legislation shall otherwise provide. The consuls of Hawaii here and in foreign countries continue to fulfill their commercial agencies, while the United States consulate at Honolulu is maintained for all proper services pertaining to trade and the revenue. It would be desirable that all foreign consuls in the Hawaiian islands should receive new exequaturs from this government.

The attention of congress is called to the fact that our consular offices having ceased to exist in Hawaii, and being about to cease in other countries coming under the sovereignty of the United States, the provisions for the relief and transportation of destitute American seamen in these countries under our consular regulations will in consequence terminate. It is proper, therefore, that new legislation should be enacted upon this subject in order to meet the changed conditions.

#### NEW EXTRADITION TREATIES.

The interpretation of certain provisions of the extradition convention of Dec. 11, 1861, has been at various times the occasion of controversy with the government of Mexico. An acute difference arose in the case of the Mexican demand for the delivery of Jesus Guerrera, who, having led a marauding expedition near the border with the proclaimed purpose of initiating an insurrection against President Diaz, escaped into Texas. Extradition was refused on the ground that the alleged offense was political in its character and therefore came within the treaty proviso of non-surrender.

The Mexican contention was that the exception only related to purely political offenses, and that as Guerrera's acts were admitted with the common crimes of murder, arson, kidnapping and robbery the option of non-delivery became void—a position which this government was unable to admit, in view of the accepted international doctrine and practice in the matter. The Mexican government, in view of this, gave notice Jan. 24, 1898, of the termination of the con-

vention, to take effect twelve months from that date, at the same time inviting the conclusion of a new convention, toward which negotiations are on foot.

In this relation I may refer to the necessity of some amendment of our existing extradition statute. It is a common stipulation of such treaties that neither party shall be bound to give up its own citizens, with the added proviso in one of our treaties, that with Japan, that it may surrender if it see fit. It is held in this country, by an almost uniform course of decisions, that, where a treaty negatives the obligation to surrender, the president is not invested with legal authority to act. The conferment of such authority would be in the line of that sound morality which shrinks from affording secure asylum to the author of a heinous crime. Again, statutory provision might well be made for what is styled extradition by way of transit, whereby a fugitive surrendered by one foreign government to another may be conveyed across the territory of the United States to the jurisdiction of the demanding state. A recommendation in this behalf, made in the president's message of 1888, was not acted upon. The matter is presented for your consideration.

The problem of the Mexican free zone has been often discussed with regard to its inconvenience as a provocative of smuggling into the United States along an extensive and thinly guarded land border. The effort made by the joint resolution of March 1, 1895, to remedy the abuse charged, by suspending the privilege of free transportation in bond across the country of the United States to Mexico, failed of good result, as is stated in report No. 702 of the house of representatives, submitted in the last session, March 11, 1898. As the question is one to be conveniently met by wise concurrent legislation of the two countries looking to the protection of the revenues by harmonious measures operating equally on either side of the boundary, rather than by conventional arrangements, I suggest that congress consider the advisability of authorizing and inviting a conference of representatives of the treasury departments of the United States and Mexico to consider the subject in all its complex bearings, and make report, with pertinent recommendations, to the respective governments for the information and consideration of their congresses.

The Mexican water boundary commission has adjusted all matters submitted to it to the satisfaction of both governments save in three important cases—that of the Chamizal at El Paso, Tex., where the two commissioners failed to agree, and wherein, for this case only, this government has proposed to Mexico the addition of a third member; the proposed elimination of what are known as "bancos," small isolated islands formed by the cutting off of bays in the Rio Grande, from the operations of the treaties of 1854 and 1889, recommended by the commissioners and approved by this government, but still under consideration by Mexico; and the subject of the "equitable distribution of the waters of the Rio Grande," for which the commissioners recommended an international dam and reservoir, approved by Mexico, but still under consideration by this government. Pending these questions it is necessary to extend the life of the commission, which expires Dec. 23 next.

The coronation of the young queen of the Netherlands was made the occasion of fitting congratulations.

#### THE M'CORD CLAIM.

The claim of Victor H. McCord against Peru, which for a number of years has been pressed by this government and has on several occasions attracted the attention of the congress, has been satisfactorily adjusted. A protocol was signed May 17, 1898, whereby, the fact of liability being admitted, the question of the amount to be awarded was submitted to the chief justice of Canada as sole arbitrator. His award sets the indemnity due the claimant at \$40,000.

The government of Peru has given the prescribed notification of its intention to abrogate the treaty of friendship, commerce and navigation concluded with this country Aug. 31, 1887. As that treaty contains many important provisions necessary to the maintenance of commerce and good relations which could with difficulty be replaced by the nomination of renewed provisions within the brief twelve months intervening before the treaty terminates, I have invited suggestions by Peru as to the particular provisions it is desired to annul, in the hope of reaching an arrangement whereby the remaining articles may be provisionally saved.

#### CZAR'S PEACE PROPOSALS.

His majesty the czar having announced his purpose to raise the Imperial Russian mission at this capital to the rank of an embassy, I responded, under the authority conferred by the act of March 3, 1893, by commissioning and accrediting the actual representative at St. Petersburg in the capacity of ambassador extraordinary and plenipotentiary. The Russian ambassador to this country has since presented his credentials.

The proposal of the czar for a general reduction of the vast military establishments that weigh so heavily upon many peoples in time of peace was communicated to this government with an earnest invitation to be represented in the conference which it is contemplated to assemble with a view to discussing the means of accomplishing so desirable a result. His majesty was at once informed of the cordial sympathy of this government with the principle involved in his exalted proposal and of the readiness of the United States to take part in the conference.

The active military force of the United States, as measured by our population, territorial area and taxable wealth, is, and under any conceivable conditions must continue to be, in times of peace, so conspicuously less than that of the armed powers to whom the czar's appeal is especially addressed that the question can have for us no practical importance save as marking an auspicious step toward the betterment of the condition of modern peoples and the cultivation of peace and good-will among them; but in this view it behooves us as a nation to lend countenance and aid to the beneficial project.

The claims of owners of American sealing vessels for seizure by Russian cruisers in Bering sea are being pressed to a settlement. The equities of the cases justify the expectation that a measure of reparation will eventually be accorded in harmony with precedent and in the light of the proved facts.

The recommendation made in my special message of April 27 last is renewed, that appropriation be made to reimburse the master and the owners of the Russian bark *Hans* for wrongful arrest of the master and detention of the vessel in February, 1894, by officers of the United States District court for the southern district of Mississippi. The papers accompanying my said message make out a most meritorious claim and justify the urgency with which it has been presented by the government of Russia.

#### DEATH OF SAMOAN KING.

Malletoa Laupepa, king of Samoa, died Aug. 22 last. According to article 1 of the general act of Berlin, "his successor shall be duly elected according to the laws and customs of Samoa." Arrangements having been agreed upon between the signatories of the general act for the return of Mataafa and the other exiled Samoan chiefs, they were brought from Jaluit by a German war vessel and landed at Apia Sept. 13 last. Whether the death of Malletoa and the return of his old-time rival, Mataafa, will add to the undesirable complications which the execution of the tripartite general act has heretofore developed remains to be seen. The efforts of this government will, as heretofore, be addressed toward a harmonious and exact fulfillment of the terms of the international engagement to which the United States became a party in 1889.

The Cheek claim against Siam, after some five years of controversy, has been adjusted by arbitration, under an agreement signed July 6, 1897, an award of 704,721 ticals (about \$187,987), with release of the Cheek estate from mortgage claims, having been rendered March 31, 1898, in favor of the claimant by the arbitrator, Sir Nicholas John Hannen, British chief justice for China and Japan.

An envoy from Siam has been accredited to this government and has presented his credentials.

Immediately upon the outbreak of the war with Spain the Swiss government, fulfilling the high mission it has deservedly assumed as the patron of the International Red Cross, proposed to the United States and Spain that they should severally recognize and carry into execution as a *modus vivendi* during the continuance of hostilities, the additional articles proposed by the international conference of Geneva, Oct. 20, 1864, extending the effects of the existing Red Cross convention of 1864 to the conduct of naval war. Following the example set by France and Germany in 1870 in adopting such a *modus vivendi*, and in view of the accession of the United States to those additional articles in 1882, although the exchange of ratifications thereof still remained uneffected, the Swiss proposal was promptly and cordially accepted by us and simultaneously by Spain.

This government feels a keen satisfaction in having thus been enabled to testify its adherence to the broadest principles of humanity even amid the clash of war, and it is to be hoped that the extension of the Red Cross compact to hostilities by sea as well as on land may soon become an accomplished fact through the general promulgation of the additional naval Red Cross articles by the maritime powers now parties to the convention of 1864.

The important question of the claim of Switzerland to the perpetual cantonal alle-

glance of American citizens of Swiss origin has not made hopeful progress toward a solution, and controversies in this regard still continue.

#### CLAIMS AGAINST TURKEY.

The newly accredited envoy of the United States to the Ottoman porte carries instructions looking to the disposal of matters in controversy with Turkey for a number of years. He is especially charged to press for a just settlement of our claims for indemnity by reason of the destruction of the property of American missionaries resident in that country during the Armenian troubles of 1895, as well as for the recognition of older claims of equal justness.

He is also instructed to seek an adjustment of the dispute growing out of the refusal of Turkey to recognize the acquired citizenship of Ottoman-born persons naturalized in the United States since 1869, without prior Imperial consent; and in the same general relation he is directed to endeavor to bring about a solution of the question which has more or less acutely existed since 1869 concerning the jurisdictional rights of the United States in matters of criminal procedure and punishment under article 4 of the treaty of 1830. This latter difficulty grows out of a verbal difference, claimed by Turkey to be essential, between the original Turkish text and the promulgated translation.

After more than two years from the appointment of a consul of this country to Erzeroum he has received his exequatur.

#### THE VENEZUELAN ARBITRATION.

The arbitral tribunal appointed under the treaty of February, 1897, between Great Britain and Venezuela, to determine the boundary line between the latter and the colony of British Guiana, is to convene at Paris during the present month. It is a source of much gratification to this government to see the friendly resort of arbitration applied to the settlement of this controversy, not alone because of the earnest part we have had in bringing about the result, but also because the two members named on behalf of Venezuela, Mr. Chief Justice Fuller and Mr. Justice Brewer, chosen from our highest court, appropriately testify the continuing interest we feel in the definitive adjustment of the question according to the strictest rules of justice. The British members, Lord Herschell and Sir Richard Collins, are jurists of no less exalted repute, while the fifth member, and president of the tribunal, M. F. de Martens, has earned a world-wide reputation as an authority upon international law.

The claim of Felipe Scandella against Venezuela for arbitrary expulsion and injury to his business has been adjusted by the revocation of the order of expulsion and by the payment of the sum of \$18,000.

#### BUREAU OF AMERICAN REPUBLICS.

I have the satisfaction of being able to state that the bureau of American republics, created in 1890 as the organ for promoting commercial intercourse and fraternal relations among the countries of the western hemisphere, has become a more efficient instrument of the wise purposes of its founders and is receiving the cordial support of the contributing members of the international union which are actually represented in its board of management. A

commercial directory, in two volumes, containing a mass of statistical matter descriptive of the industrial and commercial interests of the various countries, has been printed in English, Spanish, Portuguese and French, and a monthly bulletin published in these four languages and distributed in the Latin-American countries, as well as in the United States, has proved to be a valuable medium for disseminating information and furthering the varied interests of the international union.

During the last year the important work of collecting information of practical benefit to American industries and trade through the agency of the diplomatic and consular officers has been steadily advanced, and in order to lay such data before the public with the least delay the practice was begun in January, 1898, of issuing the commercial reports from day to day as they are received by the department of state. It is believed that for promptitude as well as fullness of information the service thus supplied to our merchants and manufacturers will be found to show sensible improvement and to merit the liberal support of the congress.

#### CAPTURE OF PRIVATE PROPERTY.

The experiences of the last year bring forcibly home to us a sense of the burdens and the waste of war. We desire, in common with most civilized nations, to reduce to the lowest possible point the damage sustained in time of war by peaceable trade and commerce. It is true we may suffer in such cases less than other communities, but all nations are damaged more or less by the state of uneasiness and apprehension into which an outbreak of hostilities throws the entire commercial world. It should be our object, therefore, to minimize, so far as practicable, this inevitable loss and disturbance. This purpose can probably be best accomplished by an international agreement to regard all private property at sea as exempt from capture or destruction by the forces of belligerent powers. The United States government has for many years advocated this humane and beneficent principle, and is now in position to recommend it to other powers without the imputation of selfish motives. I therefore suggest for your consideration that the executive be authorized to correspond with the governments of the principal maritime powers with a view of incorporating into the permanent law of civilized nations the principle of the exemption of all private property at sea, not contraband of war, from capture or destruction by belligerent powers.

#### CONDITION OF THE TREASURY.

The secretary of the treasury reports that the receipts of the government from all sources during the fiscal year ended June 30, 1896, including \$84,751,223 received from sale of Pacific railroads, amounted to \$405,321,335, and its expenditures to \$443,368,582. There was collected from customs \$149,675,062 and from internal revenue \$170,900,641. Our dutiable imports amounted to \$324,735,479, a decrease of \$68,156,690 over the preceding year, and importations free of duty amounted to \$291,414,175, a decrease from the preceding year of \$30,524,068. Internal revenue receipts exceeded those of the preceding year by \$24,212,068. The total tax collected on distilled spirits was \$92,546,999, on manufactured tobacco \$36,230,522 and on fermented liquors \$39,515,421. We exported merchandise during the year amounting to

\$1,231,482,330, an increase of \$180,488,774 from the preceding year.

It is estimated, upon the basis of present revenue laws, that the receipts of the government for the year ending June 30, 1899, will be \$577,874,607, and its expenditures \$489,874,647, resulting in a deficiency of \$112,000,000.

On the last of December, 1898, there was held in the treasury gold amounting to \$138,441,347, gold bullion amounting to \$138,502,345, silver bullion amounting to \$93,368,250, and other forms of money amounting to \$451,963,981.

On the same date the amount of money of all kinds in circulation or not included in treasury holdings was \$1,326,879,604, an increase for the year of \$165,794,966. Estimating our population at 76,194,000 at the time mentioned, the per capita circulation was \$25.09.

The provisions made for strengthening the resources of the treasury in connection with the war have given increased confidence in the purpose and power of the government to maintain the present standard and have established more firmly than ever the national credit at home and abroad. A marked evidence of this is found in the inflow of gold to the treasury. Its net gold holdings Nov. 1, 1898, were \$239,885,160, compared with \$153,573,147 Nov. 1, 1897, and an increase of net cash of from \$207,756,100 Nov. 1, 1897, to \$300,238,275 Nov. 1, 1898. The present ratio of net treasury gold to outstanding government liabilities, including United States treasury notes of 1890, silver certificates, currency certificates, standard silver dollars and fractional silver coin, Nov. 1, 1898, was 25.35 per cent., as compared with 16.96 per cent. Nov. 1, 1897.

I renew so much my recommendation of December, 1897, as follows:

"That when any of the United States notes are presented for redemption in gold and are redeemed in gold such notes shall be kept and set apart and only paid out in exchange for gold. This is an obvious duty. If the holder of the United States note prefers the gold and gets it from the government he should not receive back from the government a United States note without paying gold in exchange for it. The reason for this is made all the more apparent when the government issues an interest-bearing debt to provide gold for the redemption of United States notes—a non-interest-bearing debt. Surely it should not pay them out again except on demand and for gold. If they are put out in any other way they may return again, to be followed by another bond issue to redeem them—another interest-bearing debt to redeem a non-interest-bearing debt."

This recommendation was made in the belief that such provisions of law would insure to a greater degree the safety of the present standard and better protect our currency from the dangers to which it is subjected from a disturbance in the general business conditions of the country.

In my judgment the present condition of the treasury amply justifies the immediate enactment of the legislation recommended one year ago, under which a portion of the gold holdings should be placed in a trust fund from which greenbacks should be redeemed upon presentation, but when once redeemed should not thereafter be paid out except for gold.

It is not to be inferred that other legislation relating to our currency is not required; on the contrary, there is an obvious

demand for it. The importance of adequate provision which will insure to our future a money standard related as our money standard now is to that of our commercial rivals is generally recognized. The companion proposition that our domestic paper currency shall be kept safe and yet be so related to the needs of our industries and internal commerce as to be adequate and responsive to such needs is a proposition scarcely less important. The subject, in all its parts, is commended to the wise consideration of the congress.

The annexation of Hawaii and the changed relations of the United States to Cuba, Puerto Rico and the Philippines, resulting from the war, compel the prompt adoption of a maritime policy by the United States. There should be established a regular and frequent steamship communication, encouraged by the United States, under the American flag, with the newly acquired islands. Spain furnished to its colonies, at an annual cost of about \$2,000,000, steamship lines communicating with a portion of the world's markets as well as with trade centers of the home government.

The United States will not undertake to do less. It is our duty to furnish the people of Hawaii with facilities under national control for their export and import trade. It will be conceded that the present situation calls for legislation which shall be urgent, durable and liberal.

The part which American merchant vessels and their seamen performed in the war with Spain demonstrates that this service, furnishing both pickets and the second line of defense, is a national necessity and should be encouraged in every constitutional way.

Details and methods for the accomplishment of this purpose are discussed in the report of the secretary of the treasury, to which the attention of the congress is respectfully invited.

In my last annual message I recommended that the congress authorize the appointment of a commission for the purpose of making systematic investigations with reference to the cause and prevention of yellow fever. This matter has acquired an increased importance as a result of the military occupation of the island of Cuba and the commercial intercourse between this island and the United States which we have every reason to expect. The sanitary problems connected with our new relations with the island of Cuba and the acquisition of Puerto Rico are no less important than those relating to finance, commerce and administration. It is my earnest desire that these problems may be considered by competent experts and that everything may be done which the most recent advances in sanitary science can offer for the protection of the health of our soldiers in these islands and of our citizens who are exposed to the dangers of infection from the importation of yellow fever. I therefore renew my recommendation that the authority of the congress may be given and a suitable appropriation made to provide for a commission of experts to be appointed for the purpose indicated.

#### INCREASE OF REGULAR ARMY.

Under the act of congress approved April 26, 1898, authorizing the president, in his discretion, "upon the declaration of war by the congress, or a declaration by the congress that war exists," I directed the in-

crease of the regular army to the maximum of 62,000, authorized by said act.

There are now in the regular army 57,862 officers and men. In said act it was provided "that at the end of any war in which the United States may become involved the army shall be reduced to a peace basis by the transfer in the same arm of the service or absorption by promotion or honorable discharge, under such regulations as the secretary of war may establish, of supernumerary commissioned officers and the honorable discharge or transfer of supernumerary enlisted men; and nothing contained in this act shall be construed as authorizing the permanent increase of the commissioned or enlisted force of the regular army beyond that now provided by the law in force prior to the passage of this act, except as to the increase of twenty-five majors provided for in section 1 hereof."

The importance of legislation for the permanent increase of the army is therefore manifest and the recommendation of the secretary of war for that purpose has my unqualified approval. There can be no question that at this time and probably for some time in the future 100,000 men will be none too many to meet the necessities of the situation. At all events, whether the number shall be required permanently or not, the power should be given to the president to enlist that force if in his discretion it should be necessary, and the further discretion should be given him to recruit within the above limit from the inhabitants of the islands with the government of which we are charged.

It is my purpose to muster out the entire volunteer army as soon as the congress shall provide for the increase of the regular establishment. This will be only an act of justice, and will be much appreciated by the brave men who left their homes and employments to help the country in its emergency.

#### SALE OF UNION PACIFIC.

In my last annual message I stated: "The Union Pacific railway, main line, was sold under the decree of the United States court for the district of Nebraska Nov. 1 and 2 of this year. The amount due the government consisted of the principal of the subsidy bonds, \$27,226,512, and the accrued interest thereon, \$31,311,711.75, making the total indebtedness \$58,448,223.75. The bid at the sale covered the first mortgage lien and the entire mortgage claim of the government, principal and interest."

This left the Kansas Pacific case unconcluded. By a decree of the court in that case an upset price for the property was fixed at a sum which would yield to the government only \$2,500,000 upon its lien. The sale at the instance of the government was postponed first to Dec. 15, 1897, and later, upon the application of the United States, was postponed to Feb. 16, 1898.

Having satisfied myself that the interests of the government required that an effort should be made to obtain a larger sum, I directed the secretary of the treasury, under the act passed March 3, 1887, to pay out of the treasury to the persons entitled to receive the same the amounts due upon all prior mortgages upon the eastern and middle divisions of said railroads out of any money in the treasury not otherwise appropriated. Whereupon the attorney-general prepared a petition, to be presented to the court, offering to redeem said prior liens

in such manner as the court might direct, and praying that thereupon the United States might be held to be subrogated to all the rights of said prior-lien holders, and that a receiver might be appointed to take possession of the mortgaged premises and maintain and operate the same until the court or the congress otherwise directed. Thereupon the reorganization committee agreed that if said petition was withdrawn and the sale allowed to proceed Feb. 16, it would bid a sum at the sale which would realize to the government the entire principal of its debt, \$6,303,000. Believing that no better price could be obtained, and appreciating the difficulties under which the government would labor if it should become the purchaser of the road at the sale, in the absence of any authority by congress to take charge of and operate the road, I directed that upon the guaranty of a minimum bid which should give the government the principal of its debt the sale should proceed. By this transaction the government secured an advance of \$3,803,000 over and above the sums which the court had fixed as the upset price and which the reorganization committee had declared was the maximum which it would pay for the property.

It is a gratifying fact that the result of these proceedings against the Union Pacific system and the Kansas Pacific line is that the government has received on account of its subsidy claim the sum of \$44,751,223.75, an increase of \$18,997,163.75 over the sum which the reorganization committee originally agreed to bid for the property, the government receiving its whole claim, principal and interest, of the Union Pacific, and the principal of its debt on the Kansas Pacific railroad.

Steps had been taken to foreclose the government's lien upon the Central Pacific Railroad company, but before action was commenced the congress passed an act, approved July 7, 1898, creating a commission, consisting of the secretary of the treasury, the attorney-general and the secretary of the interior and their successors in office, with full power to settle the indebtedness to the government growing out of the issue of bonds in aid of construction of the Central Pacific and Western Pacific bond-aided railroads, subject to the approval of the president. No report has yet been made to me by the commission thus created. Whatever action is had looking to a settlement of the indebtedness in accordance with the act referred to will be duly submitted to the congress.

I deem it my duty to call to the attention of the congress the condition of the present buildings occupied by the department of justice. The business of that department has increased very greatly since it was established in its present quarters. The building now occupied by it is neither large enough nor of suitable arrangement for the proper accommodation of the business of the department. The supervising architect has pronounced it unsafe and unsuited for the use to which it is put. The attorney-general, in his report, states that the library of the department is on the fourth floor and that all the space allotted to it is so crowded with books as dangerously to overload the structure. The first floor is occupied by the Court of Claims. The building is of an old and dilapidated appearance, unsuited to the dignity which should attach to this important department.

A proper regard for the safety, comfort and convenience of the officers and employes would justify the expenditure of a liberal sum of money in the erection of a new building of commodious proportions and handsome appearance upon the very advantageous site already secured for that purpose, including the ground occupied by the present structure and adjoining vacant property, comprising in all a frontage of 201 feet in Pennsylvania avenue and a depth of 136 feet.

In this connection I may likewise refer to the inadequate accommodations provided for the Supreme court in the capitol, and suggest the wisdom of making provision for the erection of a separate building for the court and its offices and library upon available ground near the capitol.

#### ADVANCE OF THE POSTAL SERVICE.

The postal service of the country advances with extraordinary growth. Within twenty years both the revenues and the expenditures of the postoffice department have multiplied three-fold. In the last ten years they have nearly doubled. Our postal business grows much more rapidly than our population. It now involves an expenditure of \$100,000,000 a year, numbers 73,000 post-offices and enrolls 200,000 employees. This remarkable extension of a service which is an accurate index of the public conditions presents a gratifying evidence of the advancement of education, of the increase of communication and business activity and of the improvement of mail facilities leading to their constantly augmenting use.

The war with Spain laid new and exceptional labors on the postoffice department. The mustering of the military and naval forces of the United States required special mail arrangements for every camp and every campaign. The communication between home and camp was naturally eager and expectant. In some of the larger places of rendezvous as many as 50,000 letters a day required handling. This necessity was met by the prompt detail and dispatch of experienced men from the established force and by directing all the instrumentalities of the railway mail and postoffice service so far as necessary to this new need. Congress passed an act empowering the postmaster-general to establish offices or branches at every military camp or station, and under this authority the postal machinery was speedily put into effective operation.

Under the same authority, when our forces moved upon Cuba, Puerto Rico and the Philippines they were attended and followed by the postal service. Though the act of congress authorized the appointment of postmasters where necessary, it was early determined that the public interests would be best subserved not by new designations, but by the detail of experienced men familiar with every branch of the service, and this policy was steadily followed. When the territory which was the theater of conflict came into our possession it became necessary to re-establish mail facilities for the resident population, as well as to provide them for our forces of occupation, and the former requirement was met through the extension and application of the latter obligation. I gave the requisite authority, and the same general principle was applied to this as to other branches of civil administration under military occupation. The details are more particularly given in the report of the postmaster-general, and while the work is only just begun it is pleasing to be able to say

that the service in the territory which has come under our control is already materially improved.

#### NAVAL PLANS INDORSED.

The following recommendations of the secretary of the navy relative to the increase of the navy have my earnest approval:

1. Three sea-going, sheathed and coppered battleships of about 13,500 tons trial displacement, carrying the heaviest armor and most powerful ordnance for vessels of their class, and to have the highest practicable speed and great radius of action. Estimated cost, exclusive of armor and armament, \$4,000,000 each.

2. Three sheathed and coppered armored cruisers of about 6,000 tons trial displacement, carrying the heaviest armor and most powerful ordnance for vessels of their class, and to have the highest practicable speed and great radius of action. Estimated cost, exclusive of armor and armament, \$4,000,000 each.

3. Three sheathed and coppered protected cruisers of about 6,000 tons trial displacement; to have the highest practicable speed and great radius of action and to carry the most powerful ordnance suitable for vessels of their class. Estimated cost, exclusive of armor and armament, \$2,150,000 each.

4. Six sheathed and coppered cruisers of about 2,500 tons trial displacement; to have the highest speed compatible with good cruising qualities, great radius of action and to carry the most powerful ordnance suited to vessels of their class. Estimated cost, exclusive of armament, \$1,141,500 each.

I join with the secretary of the navy in recommending that the grades of admiral and vice-admiral be temporarily revived, to be filled by officers who have especially distinguished themselves in the war with Spain.

#### THE TWELFTH CENSUS.

I earnestly urge upon congress the importance of early legislation providing for the taking of the twelfth census. This is necessary in view of the large amount of work which must be performed in the preparation of the schedules preparatory to the enumeration of the population.

#### NAMES ON THE PENSION ROLLS.

There were on the pension rolls June 30, 1898, 993,714 names, an increase of nearly 18,000 over the number on the rolls the same day of the preceding year. The amount appropriated by the act of Dec. 22, 1896, for the payment of pensions for the fiscal year 1898 was \$140,000,000. Eight million seventy thousand eight hundred and seventy-two dollars and forty-six cents was appropriated by the act of March 31, 1898, to cover deficiencies in army pensions and repayments in the sum of \$12,020,332, making a total of \$148,020,332.75 available for the payment of pensions during the fiscal year 1898. The amount disbursed from that sum was \$144,651,879.80, leaving a balance of \$3,431,012.99 unexpended June 30, 1898, which was covered into the treasury.

There were 389 names added to the rolls during the year by special acts passed at the second session of the LVth congress, making a total of 6,488 pensioners by congressional enactments since 1861.

The total receipts of the patent office during the last year were \$1,253,948.440. The expenditures were \$1,081,633.79 leaving a surplus of \$172,314.65.

#### SALE OF GOVERNMENT LANDS.

The public lands disposed of by the government during the year reached \$2,453,000.

896.92 acres, an increase of 614,780.26 acres over the previous year. The total receipts from public lands during the fiscal year amounted to \$2,777,996.18, an increase of \$190,063.90 over the preceding year. The lands embraced in the eleven forest reservations which were suspended by the act of June 4, 1897, again became subject to the operations of the proclamations of Feb. 22, 1897, creating them, which added an estimated amount of 19,951,360 acres to the area embraced in the reserves previously created. In addition, thereto two new reserves were created during the year—the Pine Mountain and Zaca Lake reserve in California, embracing 1,644,594 acres, and the Prescott reserve, in Arizona, embracing 10,240 acres; while the Pecos River reserve in New Mexico has been changed and enlarged to include 120,000 additional acres.

At the close of the year thirty forest reservations, not including those of the Aroonak forest and the Ash-culture reserve in Alaska, had been created by executive proclamations, under section 24 of the act of March 3, 1891, embracing an estimated area of 40,719,474 acres.

The department of the interior has inaugurated a forest system, made possible by the act of July, 1898, for a graded force of officers in control of the reserves. This system has only been in full operation since August, but good results have already been secured in many sections. The reports received indicate that the system of patrol has not only prevented destructive fires from gaining headway, but has diminished the number of fires.

#### FEW INDIAN TROUBLES.

The special attention of the congress is called to that part of the report of the secretary of the interior in relation to the five civilized tribes. It is noteworthy that the general condition of the Indians shows marked progress. But one outbreak of a serious character occurred during the year, and that among the Chippewa Indians of Minnesota, which happily has been suppressed.

While it has not yet been practicable to enforce all the provisions of the act of June 28, 1898, "for the protection of the people of the Indian Territory and for other purposes," it is having a salutary effect upon the nations composing the five tribes. The Dawes commission reports that the most gratifying results and greater advance toward the attainment of the objects of the government have been secured in the last year than in any previous year. I cannot too strongly indorse the recommendation of the commission and of the secretary of the interior for the necessity of providing for the education of the 30,000 white children resident in the Indian Territory.

#### AGRICULTURAL DEVELOPMENT.

The department of agriculture has been active in the last year. Explorers have been sent to many of the countries of the eastern and western hemispheres for seeds and plants that may be useful to the United States, and with the further view of opening up markets for our surplus products. The forestry division of the department is giving special attention to the treeless regions of our country and is introducing species specially adapted to semi-arid regions. Forest fires, which seriously interfere with production, especially in irrigated regions, are being studied, that the losses from this cause may be avoided. The department is inquiring into the use and abuse of water in many states of the west and collecting

information regarding the laws of the states, the decisions of the courts and the customs of the people in this regard, so that uniformity may be secured. Experiment stations are becoming more effective every year. The annual appropriation of \$700,000 by congress is supplemented by \$400,000 from the states. Nation-wide experiments have been conducted to ascertain the suitableness as to soil and climate and states for growing sugar beets. The number of sugar factories has been doubled in the last two years and the ability of the United States to produce its own sugar from this source has been clearly demonstrated.

The weather bureau forecast and observation stations have been extended around the Caribbean sea to give early warning of the approach of hurricanes from the south seas to our fleets and merchant marine.

#### WASHINGTON CITY'S CENTENNIAL.

In the year 1900 will occur the centennial anniversary of the founding of the city of Washington for the permanent capital of the government of the United States by authority of an act of congress approved July 16, 1790. In May, 1800, the archives and general offices of the federal government were removed to this place. On Nov. 17, 1800, the national congress met here for the first time and assumed exclusive control of the federal district and city. This interesting event assumes all the more significance when we recall the circumstances attending the choosing of the site, the naming of the capital in honor of the father of his country and the interest taken by him in the adoption of plans for its future development on a magnificent scale.

These original plans have been wrought out with a constant progress and a signal success even beyond anything their framers could have foreseen. The people of the country are justly proud of the distinctive beauty and government of the capital and of the rare instruments of science and education which here find their natural home.

A movement lately inaugurated by the citizens to have the anniversary celebrated with fitting ceremonies, including, perhaps, the establishment of a handsome permanent memorial to mark so historical an occasion and to give it more than local recognition, has met with general favor on the part of the public. I recommend to congress the granting of an appropriation for this purpose and the appointment of a committee from its respective bodies. It might also be advisable to authorize the president to appoint a committee from the country at large, which, acting with the congressional and District of Columbia committees, can complete the plans for an appropriate national celebration.

#### IN LABOR'S INTEREST.

The alien contract labor law is shown by experience to need some amendment; a measure providing better protection for seamen is proposed; the rightful application of the eight-hour law for the benefit of labor and the principle of arbitration are suggested for consideration and I commend these subjects to the careful consideration of the congress.

The several department reports will be laid before you. They give in great detail the conduct of the affairs of the government during the last year and discuss many questions upon which the congress may be called upon to act.

WILLIAM M'KINLEY.

Executive Mansion, Dec. 5, 1898.

\*Includes scattering, blank and defective votes.

In calculating pluralities in this and the following tables the Bryan-Watson, the Bryan-Watson and the middle-of-the-road votes are combined for the Bryan vote. There was fusion on the electoral ticket of the democrats and populists, and in some states silver republicans. In the following states: Arkansas, California, Colorado, Connecticut, Idaho, Illinois, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Montana, Nebraska, New Jersey, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Utah, Washington, West Virginia, Wisconsin and Wyoming. In some of the states, like Illinois and Kansas, there were Bryan-Watson tickets run by the middle-of-the-road populists.

It has been impossible to separate the populist from the democratic vote in the states in which there was a fusion of those parties. In some of the states, like Illinois, in which the two parties voted for the same electors, but upon separate tickets, county officers, in making returns to the secretaries of state, have combined the votes on electors and it is impossible to say how the vote should be divided. In such cases the vote classed under the head "Bryan-Watson" is no indication of the strength of the people's party, while at the same time it gives too large a vote to the democrats. There is no way of giving, even approximately, the vote of the two parties on presidential electors.

## FOR REPRESENTATIVES IN CONGRESS, 1898.

1. The counties of Ballard, Caldwell, Calhoun, Carlisle, Crittenden, Fulton, Graves, Hickman, Livingston, Lyon, Marshall, McCracken and Trigg.

G. W. Reeves, Rep..... 5,036  
C. K. Wheeler, Dem..... 10,580

2. The counties of Christian, Daviess, Hancock, Henderson, Hopkins, McLean, Union and Webster.

W. T. Fowler, Rep..... 4,463  
H. D. Allen, Dem..... 8,939  
G. W. Jolly, Ind..... 1,641  
Sam James, Peo..... 569

3. The counties of Allen, Butler, Barren, Cumberland, Edmonson, Logan, Monroe, Muhlenberg, Simpson, Todd and Warren.

M. P. Creel, Rep..... 11,748  
J. S. Rhea, Dem..... 14,771  
J. S. Dorsey, Peo..... 394

4. The counties of Breckinridge, Bullitt, Grayson, Green, Hardin, Hart, Larnie, Madison, Meade, Nelson, Ohio, Taylor and Washington.

Charles Blatchford, Rep..... 12,826  
D. H. Smith, Dem..... 16,696  
R. H. Mullin, Peo..... 689

## 5. The county of Jefferson.

Walter Evans, Rep..... 14,202  
Oscar Turner, Dem..... 14,770  
J. H. Holbrook, Ind..... 421  
Albert Schlitz, Soc..... 394

6. The counties of Boone, Campbell, Carroll, Gallatin, Grant, Kenton, Pendleton and Trimble.

W. M. Donaldson, Rep..... 8,962  
A. S. Berry, Dem..... 13,130

7. The counties of Bourbon, Fayette, Franklin, Henry, Oldham, Owen, Scott and Woodford.

T. J. Hardin, Rep..... 6,168  
E. E. Settle, Dem..... 12,904

8. The counties of Anderson, Boyle, Garrard, Jessamine, Lincoln, Madison, Mercer, Rockcastle, Shelby, Spencer and Jackson.

G. M. Davidson, Rep..... 12,206  
G. G. Gilbert, Dem..... 13,047  
W. H. Ziegler, Ind..... 435

9. The counties of Bracken, Bath, Boyd, Carter, Fleming, Greenup, Harrison, Lewis, Lawrence, Mason, Nicholas, Robertson and Rowan.

Sam J. Pugh, Rep..... 16,742  
Mordecai Williams, Dem..... 16,732

10. The counties of Breathitt, Clark, Elliott, Estill, Floyd, Johnson, Knott, Lee, Martin, Magoffin, Montgomery, Morgan, Menefee, Pike, Powell and Wolfe.

W. J. Seitz, Rep. .... 11,402  
T. Y. Fitzpatrick, Dem. .... 12,456

11. The counties of Adair, Bell, Casey, Clay, Clinton, Harlan, Knott, Letcher, Leslie, Laurel, Metcalfe, Owsley, Perry, Pulaski, Russell, Wayne and Whitley.

H. H. Tye, Rep. .... 3,319  
Vincent Boering, Dem. .... 15,706  
J. D. White, Ind. Rep. .... 11,244  
A. J. Beeman, Ind. .... 102

\*Four tickets were voted for state officers—the candidates for governor being Joseph D. Sayers, Dem.; Barnett Gibbs, Pro.; G. H. Royal, Lab. Soc., and H. P. Bailey, Pro. The vote for Royal was small, and that for Bailey comparatively nominal. There was a great falling off in the vote for Gibbs compared with that for Kearby two years ago.

†The vote was for McKinley and Hobart electors, Bryan and Sewall electors, Bryan and Watson electors, Palmer and Buckner electors and Levering and Johnson electors.

‡Three state tickets were voted—headed respectively by Charles A. Cullerson, Dem.; Jerome C. Kearby, Pop. Rep., and Mandolph Clark, Pro., for governor. Fusion was not generally regarded by the populists and republicans, many thousand colored voters supporting Cullerson on account of dissatisfaction with the school provision in the platform of the populists who nominated Kearby.

In 1894 Palmer, Nat. Dem., received 5046 and Levering, Pro., 1736 votes for president.

Counties for which no returns are given are unorganized and held no elections.

VOTE FOR OTHER STATE OFFICERS, 1898.  
The democratic ticket elected is as follows:  
Governor—Joseph D. Sayers.

Lieutenant-Governor—J. N. Browning.  
Attorney-General—Thomas S. Smith.  
Comptroller—R. W. Finley.  
Treasurer—John W. Robbins.

Land Commissioner—George W. Fingen.  
 Superintendent of Public Instruction—J. S. Kendall.  
 Railroad Commissioner—Allison Mayfield.  
 Associate Justice of the Supreme Court—Thomas J. Brown.  
 Judge of the Court of Criminal Appeals—M. M. Brooks.

## FOR REPRESENTATIVES IN CONGRESS, 1898.

1. The counties of Chambers, Freestone, Grimes, Harris, Leon, Madison, Montgomery, Trinity, Walker and Waller.

Blackwell, Rep. .... 1,996  
 T. H. Ball, Dem. .... 21,103  
 J. H. Eagles, Peo. .... 351

2. The counties of Anderson, Angelina, Cherokee, Hardin, Harrison, Houston, Jasper, Jefferson, Liberty, Nacogdoches, Newton, Orange, Panola, Folk, Sabine, St. Augustine, San Jacinto, Shelby, Tyler.

J. A. McAyreal, Rep. .... 4,752  
 S. B. Cooper, Dem. .... 47,631  
 O. H. Russell, Peo. .... 6,044

3. The counties of Gregg, Henderson, Hunt, Rains, Rockwall, Rusk, Smith, Upshur, Van Zandt and Wood.

R. C. DeGraffenried, Dem. .... 19,669  
 H. B. Wood, Peo. .... 12,285

4. The counties of Bowie, Camp, Case, Delta, Franklin, Hopkins, Lamar, Marion, Morris, Red River and Titus.

J. L. Sheppard, Dem. .... 20,724  
 J. L. Whittle, Peo. .... 10,423

5. The counties of Collin, Cooke, Denton, Fannin, Grayson and Montague.

A. W. Acheson, Rep. .... 3,342  
 J. W. Bailey, Dem. .... 23,942  
 W. S. Holt, Peo. .... 5,210  
 J. W. Thomas, Ind. .... 587

6. The counties of Bosque, Dallas, Ellis, Hill, Johnson, Kaufman and Navarro.

A. J. Houston, Rep. .... 8,117  
 R. E. Burke, Dem. .... 31,088  
 T. P. Gore, Peo. .... 9,567

7. The counties of Bell, Brazos, Falls, Limestone, McLennan, Milam and Robertson.

R. Kingsbury, Rep. .... 6,314  
 R. L. Henry, Dem. .... 24,147  
 A. W. Cunningham, Peo. .... 7,737

8. The counties of Brown, Coleman, Comanche, Coryell, Erath, Hamilton, Hood, Lampasas, Mills, Parker, Runnels, Somervell and Tarrant.

A. Springer, Rep. .... 3,311  
 S. W. Lanham, Dem. .... 13,261

N. J. Shand, Peo. .... 6,126

9. The counties of Bastrop, Burleson, Burnet, Caldwell, Hays, Lee, Travis, Washington and Williamson.

A. S. Burleson, Dem. .... 27,228  
 W. Jones, Ind. .... 15,327

10. The counties of Austin, Bexar, Colorado, Fayette, Fort Bend, Galveston, Gonzales, Lavaca and Matagorda.

R. B. Hawley, Rep. .... 17,824  
 W. S. Robson, Dem. .... 16,368  
 J. W. Baird, Peo. .... 2,123

11. The counties of Aransas, Atascosa, Bee, Calhoun, Cameron, De Witt, Dimmitt, Duval, Encinal, Frio, Goliad, Guadalupe, Hidalgo, Jackson, Karnes, LaSalle, Live Oak, McMullen, Nueces, Refugio, San Patricio, Starr, Uvalde, Victoria, Webb, Wharton, Wilson, Zapata and Zavala.

B. L. Crouch, Rep. .... 14,673  
 R. Kieburg, Dem. .... 15,636

12. The counties of Bandera, Bexar, Blanco, Brewster, Buechel, Coke, Concho, Concho, Crane, Crockett, Ector, Edwards, Fole, Gillespie, Gillespie, Irion, Jeff Davis, Kendall, Kerr, Kimble, Kinney, Llano, Mason, Maverick, McCulloch, Medina, Menard, Midland, Pecos, Presidio, San Saba, Schleicher, Sterling, Sutton, Tom Green, Upton and Val Verde.

G. H. Noonan, Rep. .... 8,819  
 J. L. Slayden, Dem. .... 12,680

13. The counties of Andrews, Archer, Armstrong, Bailey, Baylor, Borden, Briscoe, Callahan, Carson, Castro, Childress, Clay, Cochran, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Eastland, El Paso, Fisher, Floyd, Ford, Galena, Garza, Gray, Greer, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hickock, Howard, Hutchison, Jack, Jones, Kent, King, Knox, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Mitchell, Moore, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Farmer, Potter, Randall, Reeves, Roberts, Scurry, Shackelford, Sherman, Stephens, Stonewall, Swisher, Taylor, Terry, Throckmorton, Ward, Wheeler, Wichita, Wilbarger, Winkler, Wise, Yoakum and Young.

Eager, Rep. .... 8,164  
 J. H. Stephens, Dem. .... 22,221

## Events of the Year 1898.

## DOMESTIC.

## JANUARY.

1. The city government of Greater New York inaugurated.
4. The jurisdiction of the federal courts over the five civilized tribes in Indian Territory goes into effect. John D. Rockefeller makes a gift of \$200,000 to Chicago university.
7. William Theodore Durrant hanged at San Quentin prison, California, for the murder of Blanche Lamont. The window-glass manufacturers of the country resume work after a suspension of six months.
8. J. M. McGlesley and Palmer Simpson burned at the stake in Oklahoma for murder.
10. Strikes against wage reduction are begun in cotton mills of New Bedford, Mass., and Burlington, Vt. There was a heavy fall of snow in southern California.
13. A syndicate with a capital of \$15,000,000 secured 15,000 acres of land in California for the culture of the sugar beet and is to erect three sugar factories.
17. Strikes against wage reduction of from 5 to 12 per cent begun in many New England cotton mills. President Dole of the republic of Hawaii arrived at San Francisco from Honolulu, en route to Washington.
21. The National Primary Election league was organized in New York.
22. John W. Griggs of New Jersey nominated for attorney-general of the United States.
23. President Dole of Hawaii arrived at Chicago and was welcomed by the city government.
24. The celebration of the golden jubilee was begun in California.
25. The burning of a grain elevator at East St. Louis, Ill., caused the loss of \$1,500,000. The national monetary convention met at Indianapolis, 400 delegates being present.
26. President Dole of Hawaii arrived at Washington and was promptly visited by Mr. McKinley.
27. The Kentucky house of representatives adopted a resolution asking Senator Lindsay to resign if he cannot support the Chicago democratic platform.
28. The Kentucky senate adopted the same resolution.

## FEBRUARY.

1. A heavy fall of snow interferes with business in Boston and vicinity. Blizzards prevail in the west and in Canada.
4. The consolidation of the Lake Shore & Michigan Southern railway with the New York Central is officially announced.
6. The Roman catholic cathedral at Savannah was burned.
9. At a warehouse fire in Pittsburg, Pa., eighteen lives were lost and property valued at \$1,500,000 was destroyed.
11. Two serious fires occurred in New York city, causing a loss of \$1,000,000.
12. The attorney-general of Missouri decided that it was in violation of the state law to have the Lord's prayer recited by the pupils in the public schools or for the teachers to read from the bible in the open exercises of the schools.

16. The Kansas Pacific railroad was sold at Topeka for \$6,303,000 to Alvin W. Krehb. May wheat bid up to \$1.03½, the highest price reached since 1891.
17. Polo y Bernabe appointed Spanish minister at Washington.
20. Orders were issued for the enlistment of 300 men for the navy to take the places of those lost on the Maine.
22. A mob set fire to the dwelling of F. C. Baker, colored postmaster at Lake City, S. C., murder him and an infant child and seriously injure his wife and two daughters.
26. Seven lives lost at a fire in Charleston, S. C.
27. A large shipment of reindeer arrived in New York from Lapland, en route for Alaska.

## MARCH.

2. The national pure food and drug congress, numbering 200 delegates, met at Washington.
4. The Nicaragua canal commission completed its investigations and will return on the 10th inst.
6. Solicitor-General Fall of New Mexico was removed from office, for neglect of duty, by the governor.
7. The cotton mill strike at Biddeford, Me., ended and work is resumed.
9. The jury in the Latimer (Pa.) riot cases return a verdict of not guilty in the action against Sheriff Martin and his deputies.
10. The Society of Separationists at Zoar, O., decided to disband after more than fifty years of communistic life.
12. At a fire in a lodging house in New York eleven men were burned to death.
14. The strike at the Taunton (Mass.) cotton mills ends and 1,100 operatives resume work.
16. The Ayer building in Wabash avenue, Chicago, burned and more than a dozen lives were lost.
19. The star route criminal cases that have been pending in the United States courts in California since 1882 were dismissed.
20. William Holdeman, ex-county treasurer, was convicted at Goshen, Ind., of embezzling \$20,000 and committed to the penitentiary.
21. Secretary Long changed the names of the two Brazilian cruisers purchased by the government to the New Orleans and Albany.
23. Misastrous floods prevail along the Ohio river and its tributaries.
24. The city council of Chicago has passed an ordinance limiting the height of buildings to ten stories or 130 feet.
25. Nine officials of the city of Brooklyn, N. Y., indicted for corruption and conspiracy regarding the water department fund.
31. An earthquake in California did serious damage to the United States navy yard at Mare Island.

## APRIL.

3. Shawneetown, Ill., flooded by a break in the Ohio river levee and twenty-five lives were lost. Avalanches in the Chilkoot pass, Alaska, cause the death of more than 150 persons.

5. A heavy fall of snow was general over the middle states.
9. The body of Frances E. Willard cremated at Chicago.
12. The plant of the Pennsylvania Plate Glass company at North Irwin, Pa., the largest independent glass works in the country, was burned, involving a loss of \$750,000.
14. A bill substituting electrocution for hanging becomes a law in Massachusetts.
15. Two slight earthquake shocks were felt at San Francisco.
17. An explosion in a grain elevator at the Hoosac tunnel docks at Charlestown, Mass., started a fire which destroyed \$600,000 worth of property.
21. An infernal machine was sent to the president, but its explosion was prevented.
22. Charles E. Smith succeeds James A. Gary as postmaster-general.
25. John Sherman resigns as secretary of state and is succeeded by Judge Day.
26. The powder mills at Santa Cruz, Cal., blew up.
29. The railroad elevator and warehouse at Augusta, Ga., burned, the loss being estimated at \$200,000. An express train on the Southern Pacific road was held up near El Paso, Tex., by four men.
30. Lightning struck the Clipper Gap powder mills near Auburn, Cal., and destroyed them.

## MAY.

6. The Vermont legislature voted \$7 a month additional pay to each soldier, sailor or marine in the service of the government from that state.
8. Miss Helen Gould of New York sent the treasury department her check for \$100,000 for war purposes.
9. Charles H. Allen of Massachusetts appointed assistant-secretary of the navy.
12. The Louisiana constitutional convention closes its session.
24. The queen's birthday was celebrated in many American cities.
30. A reciprocity treaty between France and the United States announced.

## JUNE.

7. A celebration of the semi-centennial of the admission of Wisconsin to the union began at Madison.
11. A new comet discovered by the Lick observatory in California in the constellation of Scorpio.
13. Collapse of the Leiter wheat corner in Chicago.
15. At a methodist conference held at Toronto, Canada, a resolution was passed unanimously favoring an Anglo-American alliance.
16. The amount of the Bering sea award, amounting to \$473,151, was paid by the United States to Great Britain. Members of the Woodworkers' union, to the number of 1,600, struck in Chicago.
19. The entire business portion of Park City, Utah, was burned, the loss amounting to nearly \$1,000,000.
20. The representatives of 5,000 miners at the south made a demand for an increase of wages.
23. Cornell university wins the boat race with Yale and Harvard at New London, Conn.
26. The Clifton house at Niagara Falls burned.
28. Wisconsin's semi-centennial is celebrated at Milwaukee.

## JULY.

2. Pennsylvania won the 'varsity race at Saratoga from Cornell.
3. Stereotypers strike in Chicago, causing the temporary suspension of all the daily papers in the city.
4. The day was celebrated more generally and with more spirit through the entire country than at any time since the beginning of the civil war in 1861.
6. Chicago newspapers again issued regularly, the places of the striking stereotypers having been supplied.
8. Second session of the LVth congress adjourned.
14. Six persons were killed and twenty-six injured by a boiler explosion in the Niagara (N. Y.) starch works.
16. President McKinley has appointed the following commissioners to meet representatives from Canada for the purpose of adjusting the relations between the United States and Canada: Senator Fairbanks of Indiana, Senator Gray of Delaware, Representative Dingley of Maine, John A. Kasson of Iowa and John W. Foster of the District of Columbia.
20. The first bale of new cotton was sold at auction in New York for the benefit of the United States hospital fund and brought \$500.
21. A thunderstorm of unusual severity visited the New England states and did great damage.
27. At an explosion of the Hercules powder works in California five men were killed.

## AUGUST.

1. The convention of the League of American Municipalities was opened in Detroit, Mich., with an address by Gov. Pingree.
8. A considerable portion of Bismarck, capital of North Dakota, was destroyed by fire.
9. A mob at Clarendon, Ark., broke into the jail and took out and lynched three negroes.

15. A destructive tornado killed seven persons in Minnesota.
16. John Hay, ambassador to Great Britain, accepted the secretaryship of state, to succeed William R. Day.
19. Six persons were drowned in a cloudburst near Pittsburg, Pa.
20. Naval parade of Admiral Sampson's fleet in the harbor of New York.
21. At a railroad wreck near Sharon, Mass., seven persons were killed.
24. The Universal Peace union began its annual conference at Mystic, Conn.
25. The American and Canadian joint commission held its first meeting in Quebec.
26. Heavy rainstorms in Puerto Rico caused an inundation which carried away bridges near Ponce, cutting off communications.
31. The government directed the release of the Spanish prisoners at Annapolis, Portsmouth and Norfolk.

## SEPTEMBER.

1. Bids were opened at the naval office for the building of three new warships ordered by congress.
3. The president visited and inspected Camp Wikoff on Long Island. Bids for

- 1,000,000 pounds of smokeless powder opened at the navy department.
4. A serious fire at Owosso, Mich., destroyed property valued at \$200,000.
  6. By the fall of two spans of the Ottawa and New York railway bridge over the St. Lawrence river fourteen workmen were killed and seventeen badly injured.
  8. Restrictions removed from Spanish vessels and they are permitted to enter and clear from American ports.
  9. The Federal Steel company, with a paid-up capital of \$200,000,000, incorporated in New Jersey. The Ocean hotel at Newport, R. I., burned.
  11. The town of Jerome, Ariz., nearly destroyed by fire.
  14. Contracts for building three battleships awarded to the Cramps, the Newport News company and the Union Iron works.
  16. Secretary of State Day resigns his office to accept the chairmanship of the American peace commission.
  17. A new military department embracing Cuba and Puerto Rico is established. By the collapse of a house at Butte, Mont., about twenty persons were killed.
  22. Dr. W. P. Martin, an American missionary, appointed president of the Imperial University of China.
  23. Agoncillo and Lopez, representing Aguinaldo, so-called president of the Philippine republic, arrived in San Francisco in the interest of securing the recognition of independence of the republic.
  25. The wrecking company under Lieut. Hobson succeeded in floating the Spanish cruiser Maria Teresa.
  27. The Philippine commissioners arrive in Washington.
  29. Disastrous and destructive forest fire rages in Colorado, South Dakota and Wisconsin. The sheriff at Pana, Ill., asks the assistance of the governor in controlling the striking miners, and several companies of the guards were called out.

## OCTOBER.

1. The American and Spanish peace commissioners held their first joint meeting in Paris.
2. A hurricane did much damage along the coasts of South Carolina and Georgia. A fire destroying \$1,000,000 worth of property at Colorado Springs, Col. Pana, Ill., placed under martial law.
3. Senator Quay of Pennsylvania gave bail to appear for examination on the charge of conspiring for a misuse of the funds of the People's bank of Philadelphia.
4. Battleship Illinois launched.
5. Six soldiers were killed and nine wounded in a battle with the Indians near Bear Island, Minnesota, one of the killed being Maj. Wilkinson.
8. Joseph Simon elected senator from Oregon, receiving the full republican vote.
9. A panic prevails in Mississippi because of an outbreak of yellow fever.
12. President McKinley visited the Omaha exposition. The battleships Oregon and Iowa sailed from New York for Manila.
13. The troubles in the coal area of Illinois practically over.
14. Gov. Tanner ordered guards at the coal mines at Virden and at the railway approaches at Pana not to permit imported negro miners to enter.
17. The degree of LL. D. was conferred by the University of Chicago on the president.
18. Occupation of Puerto Rico by the United States completed by raising the flag over the forts and public buildings at San Juan. Opening exercises of the Chicago peace jubilee were held at the Auditorium, President McKinley being present.
19. The great parade of the Chicago peace jubilee was reviewed by the president.
21. A severe storm in Texas damaged the cotton crop.
23. Peace jubilee in Philadelphia began.
24. Disgraceful race war at Harpersville, Miss., resulted in twelve deaths—eleven negroes and one white.
28. An expedition of 78 officers and 778 men sailed from San Francisco for Manila.
29. Three slight shocks of an earthquake were felt at Cleveland, O.
30. At a public meeting in San Juan, Puerto Rico, of delegates from the chief towns of the island, resolutions were adopted demanding territorial rights, the cessation of the present military rule and the installation of regular civil government; resolutions were also adopted asking an eight-hour day for the laboring man.
31. The Oregon and Iowa arrive at Bahia, Brazil, en route for Manila. The warship Maria Teresa sailed from Calmanera for Norfolk, Va. The cost of the Spanish war to date is \$164,932,228.

## NOVEMBER.

2. The men in the 6th Virginia colored regiment at Knoxville, Tenn., revolted because Gov. Tyler recently appointed nine white men as company officers.
5. The Maria Teresa, en route to Norfolk, Va., for repairs, was wrecked in a storm off Cat Island. The Nicaragua canal commission has finished its labors and will report in favor of completing the work.
6. An explosion and fire in the capitol building at Washington did much damage to the Supreme court room and other parts of the building.
9. The war investigating commission met in Chicago.
10. The race troubles at Wilmington, N. C., culminated in an encounter in which eight colored men were killed and three whites wounded.
12. The mining difficulties at Virden, Ill., were settled and work resumed.
13. The Oregon and Iowa reached Rio de Janeiro.
15. Capt. McCalla reported that the Maria Teresa, wrecked on Cat Island, cannot be saved.
17. The United States Court of Claims found that the government is indebted to the Indians in New York about \$2,000,000 for lands sold. President Dwight of Yale university resigned.
18. The ship Atlanta wrecked on the coast of Oregon and twenty-eight men were drowned. Three of the Spanish gunboats sunk in Manila harbor reported to be worth raising and saving.
21. Five true bills of indictment found against United States Senator Quay of Pennsylvania for corruption and misuse of state funds. Severe storms and intensely cold weather over Kansas, Missouri, Nebraska, Minnesota and other western states. A strike of the operatives of the cotton mills at Atlanta, Ga., against a reduction of wages, involved 3,000 workmen.

22. Fight between negroes and white caps at Black Rock, Ark., resulted in the death of two whites.
23. Destruction by fire of the Baldwin hotel and theater, San Francisco, resulting in a loss of \$1,500,000 and several lives.
24. The steamers Tampa and Arthur Orr wrecked on Lake Superior.
26. Battleship Wisconsin launched in San Francisco.
27. The most serious storm in New England and along the Atlantic coast known for many years, thirty-five vessels being wrecked in Boston harbor.
28. The Spanish peace commissioners accept the terms demanded by the United States.
29. At a row in a republican club in the 18th ward of Chicago Charles Latimer was shot to death.
30. Dr. Theodore N. Morrison of Chicago elected episcopal bishop of Iowa.

## DECEMBER.

1. President Iglesias of Costa Rica had a conference at the state department with the secretary, presumably relating to the Nicaragua canal.
3. A serious explosion in a coal mine at

Wilkes-Barre, Pa., injured a large number of miners.

4. A severe fire in a New York "sky-scraper" resulted in a loss of \$1,000,000. Severe storm caused much damage in Chesapeake bay and at Baltimore.
5. The concluding session of the LVth congress met. Severe storm in the east, disabling telegraph lines. Gen. Blanco embarks at Havana for Spain. Lincoln theater of Chicago burned.
8. A heavy fall of snow, with a cold wave, visited portions of Texas. The 2d Illinois infantry embarked at Savannah for Havana.
10. Gen. Fitzhugh Lee embarks at Savannah, with his staff, for Havana.
11. Riot in Havana, in which three Cubans were killed and one Spanish officer wounded. The ashes of Columbus were transferred from the Havana cathedral, in which they have long reposed, to the Spanish warship Conde de Venadito for transportation to Spain.
13. A gas tank in New York, the largest in the world, exploded and several persons were killed. Gen. Lee arrived in Havana.

## FOREIGN.

## JANUARY.

1. The French steamer Louis was lost in the Mediterranean with her crew.
3. The British government declared that any Chinese port opened to one nation must be opened to all. The floor of the city hall at London, Ont., gave way, killing twenty persons.
7. The imperial title of the emperor of Korea was recognized by Russia and Japan.
10. The trial of Count Esterhazy, accused of writing letters reflecting on the French army, was begun at Paris.
11. The Count Esterhazy was acquitted.
12. Amboyna, capital of one of the islands of the Moluccas group, destroyed by an earthquake.
17. Serious anti-Dreyfus outbreaks in Paris.
18. Formal complaint was lodged against Emile Zola by the French minister of war.
19. Anti-Semite demonstrations renewed at Paris and in several important cities in France. Bread riots in Ancona, Italy.
22. During a debate in the French chamber of deputies regarding the Dreyfus affair a riot broke out which was suppressed by the troops.
23. Desperate anti-Jewish riots broke out in Algiers, in which two persons were killed.
26. The Austrian and American representatives demanded redress from Turkey for injuries done the American consul at Aleppo by the Turkish authorities, he being an Austrian subject.
29. The Jacobites of London celebrated this as the anniversary of the execution of Charles I. Count William Bismarck wounded Herr Mauback in a duel.

## FEBRUARY.

1. The steamer Channel Queen wrecked off Guernsey and nineteen persons were lost.
7. The trial of M. Zola was begun in Paris.
10. President Cuestas of Uruguay dissolved the Uruguayan assembly and established a provisional government with himself at its head.

13. A demonstration of 30,000 people was made against the punishment of the anarchists confined in Montjuich prison at Barcelona.
15. Lord William Nevill pleaded guilty to a charge of fraud in a London court and was sentenced to five years' penal servitude.
17. An explosion of fire damp in a mine at Hamm, Westphalia, killed sixty men.
20. A requiem service in behalf of the victims of the Maine was held in Berlin.
21. A referendum in Switzerland approved the purchase of the railroads by the government.
22. The Chinese loan of \$80,000,000 arranged with the Hongkong and Shanghai bank of London and the German Asiatic bank.
23. M. Zola was found guilty in his trial in Paris and sentenced to a year's imprisonment and a fine of 1,000 francs.
26. Two men made an attempt to take the life of the king of Greece near Athens.

## MARCH.

1. A severe hurricane devastated New Caledonia and destroyed the French war vessel Loyalty.
2. Prince Albert, heir apparent to the Belgian throne, sailed for the United States to examine its system of government.
4. The anniversary of the adoption of the Italian constitution was celebrated throughout the country.
7. China has agreed to lease Port Arthur and Taitien-Wan to Russia for ninety-nine years. The Korean cabinet resigns because of the lease of Deer Island to Russia.
9. Measures taken to suppress the plague in Bombay, India, cause riots in which the mob is fired upon by the troops.
10. An imperial ukase is issued by the czar ordering the expenditure of \$70,000,000 for war vessels.
12. The declaration of Don Jaime, son of Don Carlos, the Spanish pretender, that he will go to Spain and claim the throne caused considerable excitement at Madrid.

15. A revolt against German rule is inaugurated in Ubeheland in east Africa.
16. A colonial convention held at Melbourne, Australia, adopted the federation bill, which will now go to the various colonial legislatures for action.
18. An English syndicate purchased the Russian Mantascheff petroleum property, valued at \$17,000,000.
19. The parliament of British Columbia ask the imposition of retaliatory duties on lumber and shingles against the United States.

 1-5 mile—\*1 07, F. P. Murray, New York, Oct. 27, 1883.

# THE BLATCHFORD

"NO. 1" STEREOTYPE METAL.

COLUMBIAN STEREOTYPE METAL.

STAR STEREOTYPE METAL.

BLATCHFORD PERFECTION LINOTYPE METAL.

JOINT OFFICES OF  
THE CHICAGO RECORD  
AND

THE CHICAGO DAILY NEWS.

CHICAGO, Dec. 3, 1897.

Messrs. E. W. Blatchford & Co.,  
Fulton and Clinton Streets, City.

Gentlemen: In response to your request we are glad to say that we have used your stereotype metal continuously for several years past and your linotype metal almost continuously since we have used the linotype machines. We would add that both of these metals are giving us entire satisfaction.

Very truly yours, VICTOR F. LAWSON.

**Manufactured Exclusively by**

**E. W. Blatchford & Company,**  
CHICAGO.

 595—Sept. 7, 15 miles to windward and return, east by south off Point Seabright, N. J.: Defender, 4:57:56; Valkyrie III., 5:08:44; Sept. 11, triangular course, 10 miles in each leg, Valkyrie, 3:56:09; Defender, 3:56:56; won by Defender on a foul. Sept. 18, Defender sailed over course and claimed cup and race; claim allowed.

#### YALE RACES AT HENLEY.

The Yale crew visited the Henley regatta during 1896, and on July 7 was defeated by the Leander crew. Yale's crew probably will make it an annual trip.

#### Billiards.

Best run, 3-ball straight-rail game, 2,572; Harvey McKenna, Boston, Mass., Dec. 21, 1887; average, 4.024. At San Francisco in 1893 Jacob Schaefer ran 3,000 at straight-rail game on 4x9 table. Best run, 1-ball carom game, 1,483; J. McDermott, New York, Jan. 8, 1898. Best at champion's game, 3-ball carom, 14,228 lines—528; George Slosson, Paris, France, February, 1882; in America, 351; J. H. Heiser, New York, Feb. 14, 1884. English spot stroke game, 3,306; W. J. Penil, London, England, Nov. 3 to 8, 1890. Fourteen-inch balk-line game, 566; Jacob Schaefer, in a match with Frank Ives and George Slosson, New York, Dec. 16, 1886; 456; Frank Ives, in a match with Jacob Schaefer, Chicago, Nov. 24, 1886 (both these runs made with the "anchor nurse"); 339; Frank C. Ives, Chicago, match with Jacob Schaefer, Dec. 6, 1884 ("anchor nurse" barred). Cushion-carom game—Best run by Frank C. Ives at Boston, April 14, 1894, 85. Eighteen-inch balk-line game, 140; Frank Ives, New York, Dec. 17, 1887; best average, 40; Jacob Schaefer, 400-point game, Chicago, Jan. 21, 1896.

#### Lawn Tennis.

The official rankings for 1898 are as follows:

- Scratch—M. D. Whitman, champion.  
 1-6, 15—L. E. Ware, W. S. Bond, Dwight Davis, C. R. Budlong, E. P. Fischer, G. L. Wrenn, Jr., and R. D. Stevens.  
 2-6, 15—S. C. Millett, G. K. Belden and J. D. Forbes.  
 4-6, 15—H. Ward, George Miles and H. H. Hackett.  
 15—J. C. Davidson, Beals Wright, R. H. Carleton, J. P. Paret, A. Codman, J. A. Allen.  
 15 and 1-6—A. P. Hawes, E. R. Marvin, R. McKittrick, R. Hooker, G. W. Lee, A. L. Williston, H. Cole, W. J. Clothier, E. T. Gross, R. D. Little.  
 15 and 2-6—H. Ewer, C. Whitbeck, H. K. Auchincloss, H. A. Plummer, S. P. Ware, B. S. Harris, H. E. Avery.

#### Trap-Shooting.

The principal trap-shooting trophies are held as follows:  
 DuPont trophy, live birds—Fred Gilbert of Spirit Lake, Iowa.  
 Sportsmen's Review, live birds—Fred Gilbert of Spirit Lake, Iowa.  
 Cast-iron badge, live birds—Rolla Helkes of Dayton, O.  
 E. C. cup, inanimate targets—Rolla Helkes of Dayton, O.

#### Railroading.

All long-distance railway runs were broken in 1896 by both the Lake Shore and New York

Central systems. The following table shows the best runs made in America and Europe. It can be seen that the best run was made by the Lake Shore:

	Lake Shore & Mich. South rn.	N. Y. Central & H. R. R. R.	West Coast Route.
Date.....	1895. Oct. 24.	1895. Sept. 11.	1893. Aug. 23.
Number of cars.....	3	4	3
Weight of cars.....	504,500 lbs.	351,310 lbs.	150,080 lbs.
Starting point.....	100th st., Chicago.	New York.	London.
Finish.....	Buffalo Creek.	East Buffalo.	Aberdeen.
Total dist. in miles.....	510.1	436.32	329.75
Total time in minutes and seconds.....	481m. 7s. 411m. 56s.		512m.
Average speed in miles per hour.....	65.61	63.54	63.34
Total time in motion.....	470m. 23s.	407m. 41s.	505m.
Average speed, deducting stops.....	65.07	64.22	63.93
Length of division on which fastest average speed was made.....	36 miles.	145.6 miles.	141.25 miles.
Average speed on said division.....	72.92 miles.	65.75 miles.	67.30 miles.

Some of the remarkable features of the Lake Shore run are as follows:

- 1 mile at the rate of 92.39 miles per hour.  
 8 miles (Hippley to Westfield) at the rate of 85.41 miles per hour.  
 33 miles (Moorehead to Van Buren) at the rate of 89.96 miles per hour.  
 Prior to this the best runs were as follows:  
 May 9, 1883, the Empire State express on the New York Central & Hudson River railroad, consisting of engine 929, three coaches and a Wagner drawing-room car, made a run of 102 miles in 1h.  
 May 10, 1883, the same train ran 1 mile in 32s., a rate of 112½ miles in 1h.  
 The "Exposition Flyer," an engine and four Wagner coaches, repeatedly made the run from New York to Chicago, 356 miles, in 30h.  
 The record noted on May 10—a mile in 32s.—has been questioned by some railroad men.  
 Oct. 14, 1887, a Holman locomotive in a trial near Cape May, N. J., made 56 1-10 miles in 55 minutes, including starting and stopping. A mile for time was recorded in 42s., and on the run it was claimed that two miles were made in 69s.  
 1 mile—37s., Philadelphia & Reading railroad, Nov. 20, 1892; engine had 8½-foot drivers; train, one combination car, two day coaches and a Pullman car.  
 2 miles—1m. 15s., same train; second mile in 38s.  
 3 miles—1m. 54s., same train; third mile in 38s.  
 5 miles—3m. 25s., same train, five consecutive miles, an average of 87.8 miles an hour; this train also ran five miles on a section having a heavy grade in 4m., an average of 75 miles an hour.  
 1 mile—39 4-5s., Philadelphia & Reading railroad, Aug. 27, 1891; 60½s., during run of special train from West Philadelphia to Jersey City, Sept. 4, 1879.  
 2.1 miles—1m. 10s., engine 336 and an ordinary day coach, P. & R. R. R., Yardley to Trenton Junction, N. J., March 10, 1890.

- 90 miles—1h. 37m. (actual running time 90m.), special extra 963 and two cars, Pennsylvania R. R., Jersey City to Broad street station, Philadelphia, May 6, 1885; 1h. 47m., train 19, engine 733 and six cars, two regular stops, Jersey City, N. J., to Broad street, Philadelphia, Feb. 12, 1889.
- 111 miles—98m., Fontaine engine and two coaches, Amherstburg to St. Thomas, Canada, May 5, 1881; 109m., locomotive, baggage car, one coach and one Pullman palace car, St. Thomas to Amherstburg, Sept. 15, 1877.
- 118 miles—120m., engine No. 10, special palace car, 17 miles (Welland to Victoria) in 14m., St. Thomas to Victoria, Canada, 153 miles, Fontaine engine and two coaches, in 251m., May 5, 1881. The schedule time from London to Bristol, England, 1184 miles, by the train known as "The Flying Dutchman," is 120m.
- 157.74 miles—165m., special train, Niagara Falls to Syracuse, N. Y., March 1, 1876. 153 miles in 178m., West Coast Flyer, London to Crewe, England, Aug. 6, 1888.
- 180.1 miles—182m., exclusive of stops (no time given incl. stops), Chicago & Northwestern, Clarence, Iowa, to West Fortieth street, Chicago, April 22, 1891.
- 228 miles—A Pennsylvania railway train consisting of one Pullman combination car, a parlor car and an observation car made the run from New York to Washington, Nov. 28, 1891, in 4h. 11m. The 11m. was consumed in stops and changing locomotives, making the actual running time 4h., an average of 57 miles an hour.
- 229 miles—4h. 13m., including stops, A. M. Palmer's special theater train, two parlor cars and a Pullman dining car, Pennsylvania

R. R., Jersey City to Washington, D. C., March 10, 1890. Made return trip same day in 4h. 19m.

400 miles—7h. 25m., West Coast Flyer, London to Edinburgh, Scotland, Aug. 6, 1888.

436 1/4 miles—New York to Buffalo, New York Central & Hudson River railroad (actual running time), 7h. 49m., Sept. 14, 1891.

483.7 miles—Council Bluffs to Chicago, April 22, 1891, Jay Gould's special. Average 62.6 miles per hour; actual running time averaged 52.9 miles per hour.

813 miles—23h. (actual running time 19h. 30m.), special train conveying Washington newspaper correspondents from convention, Chicago, Ill., to Washington, D. C., June 7 and 8, 1894.

1,025 miles—Chicago to Denver, Feb. 15, 1897, C. B. & Q. R. R., 1.133 minutes. Actual running time 1.047 minutes, averaging 55.74 miles per hour.

Jersey City to San Francisco, Cal., 83h. 39 m. 16s. Jarrett & Palmer's train combination passenger, mail and baggage car and Pullman hotel car, June 1 to 4, 1876. No stop between Jersey City and Pittsburg, Pa.

### Ocean Steamships.

The Kaiser Wilhelm der Grosse broke all records for average speed by covering the distance from New York to Southampton in 5d., 15h., 10m., July 5, 1893, a total distance of 3,140 miles or 22.56 knots per hour. The Cunarder Lucania still holds the record from Queenstown to New York—5d., 7h., 23m.; average speed per hour, 22.01 knots; greatest day's run, 560 knots, or average speed per day, 25.57 miles; greatest day's run, 645 miles. The Lucania also holds the record from New York to Queenstown—5d., 8h., 48m. Both runs were made in 1894.

ORDERS DELIVERED TO ALL PARTS  
OF THE CITY

CHICAGO

## RATES OF POSTAGE AND MONEY ORDERS.

## DOMESTIC.

**FIRST CLASS.**—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied or fastened in any manner so that it cannot be easily examined, 2 cents per ounce or fraction thereof. A "special delivery" 10-cent stamp when attached to a letter in addition to the lawful postage, shall entitle the letter to immediate delivery at or within one mile of any postoffice. Postal cards, 1 cent each.

**SECOND CLASS.**—All regular newspapers, magazines and other periodicals issued at intervals not exceeding three months; the postage is 1 cent for each pound. A special rate of 1 cent for four ounces is made for all second-class matter mailed by other than publishers or newsdealers.

**THIRD CLASS.**—Embraces printed books, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hectograph or similar process, or by electric pen, are rated as third class; circular matter in imitation of hand or type writing to pass at the third-class rates must be mailed in at least 20 identical copies at a postoffice or station. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is 1 cent for each two ounces or fraction thereof.

**FOURTH CLASS.**—All mailable matter, like merchandise, not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, 1 cent per ounce or fraction thereof, except seeds, roots, cuttings, bulbs, plants and scions, which are 1 cent per two ounces. Limit of weight, four pounds. Full prepayment compulsory. Liquids and other like injurious matter, not admitted, except under some conditions, which may be learned at any postoffice.

**SUGGESTIONS.**—Direct your mail matter to a postoffice, writing the name of the state plainly; and if to a city, add the street and number or postoffice box of the person addressed. Matter not addressed to a postoffice cannot be forwarded. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure the immediate return of all first-class matter to you for correction, if improperly addressed or insufficiently paid; and if it is not called for at destination, it can be returned to you without going to the dead-letter office. If a letter, it will be returned free. Undeliverable second, third and fourth class matter will not be forwarded or returned without a new prepayment of postage. When a return card appears on this matter either the sender or addressee is requested to send the postage. Register all valuable letters and packages. Registry fee, 8 cents, which, with the postage, must be fully prepaid. Limited indemnity on presentation of sufficient proof will be paid in case of loss of contents from registered matter of the first class.

**MONEY-ORDER FEES.**—For domestic money orders in denominations of \$100 or less, the following fees are charged:

For orders for sums not exceeding \$2.50..... 3c  
For over \$2.50 and not exceeding \$5..... 5c  
For over \$5 and not exceeding \$10..... 8c  
For over \$10 and not exceeding \$20..... 10c

For over \$20 and not exceeding \$30..... 12c  
For over \$30 and not exceeding \$40..... 15c  
For over \$40 and not exceeding \$50..... 18c  
For over \$50 and not exceeding \$60..... 20c  
For over \$60 and not exceeding \$75..... 25c  
For over \$75 and not exceeding \$100..... 30c  
An additional fee of 2 cents is charged for each order as a special war tax.

## FOREIGN.

Mail matter may be sent to any country in the Universal Postal Union (which embraces practically every country in the world) either directly or through the intermediary of some postal union state.

**ON LETTERS.**—Five cents for each half ounce or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

On newspapers, books, pamphlets, photographs, sheet music, maps, engravings and similar printed matter, 1 cent for each two ounces or fraction thereof.

**TO CANADA** (including Nova Scotia, New Brunswick, Manitoba and Prince Edward Island).—Letters, 2 cents for each ounce or fraction thereof; books, circulars and similar printed matter, 1 cent for each two ounces or fraction thereof; second-class matter, same as in the United States; samples and merchandise, 1 cent per ounce. Packages must not exceed four pounds six ounces in weight—prepayment compulsory.

**TO MEXICO.**—Letters, postal cards and printed matter, same rates as in the United States; samples, 1 cent per ounce; merchandise other than samples can only be sent by parcel post.

**TO AUSTRALIA** (Except New South Wales, Queensland and Victoria).—Via San Francisco. On letters, 5 cents for each half ounce or fraction thereof; to places excepted above, 12 cents for each half ounce; on newspapers, 2 cents each—prepayment compulsory.

**LIMITS OF SIZE AND WEIGHT.**—Packages of samples of merchandise to the countries named above (except Great Britain, France, Belgium and Switzerland) must not exceed eight and three-fourths ounces, nor measure more than eight inches in length, four in breadth and two in depth; and packages of printed matter must not exceed four pounds six ounces. Packages of merchandise samples to Great Britain, France, Belgium, Switzerland and Argentine Republic are limited to twelve ounces in weight, twelve inches in length, eight in width and four in depth. Packages of printed matter to Germany and Great Britain are limited to two feet in length and one foot in each other dimension.

## INTERNATIONAL MONEY ORDERS.

For sums not exceeding \$10..... 10c  
Over \$10 and not exceeding \$20..... 20c  
Over \$20 and not exceeding \$30..... 30c  
Over \$30 and not exceeding \$40..... 40c  
Over \$40 and not exceeding \$50..... 50c  
Over \$50 and not exceeding \$60..... 60c  
Over \$60 and not exceeding \$70..... 70c  
Over \$70 and not exceeding \$80..... 80c  
Over \$80 and not exceeding \$90..... 90c  
Over \$90 and not exceeding \$100..... \$1

International money orders may be drawn in the United States upon any of the following countries or places:

All countries in North America except Mexico.  
In Central America: Salvador, Honduras and British Honduras only.  
In South America: British Guiana, Chile, Panama (British Postal Agency) only.

### LEGAL HOLIDAYS.

Jan. 1—New Year's day. In all the states except Arkansas, Kentucky, Massachusetts, Mississippi, New Hampshire and Rhode Island.

Jan. 8—Anniversary of the battle of New Orleans. In Louisiana.

Jan. 19—Lee's birthday. In Florida, Alabama, Georgia, North Carolina, South Carolina and Virginia.

Feb. 6—Mardi-Gras. Shrove Tuesday (the day before Ash Wednesday, the first day of Lent). In Alabama and city of New Orleans, Louisiana.

Feb. 12—Lincoln's birthday. In Illinois, Minnesota, New Jersey, New York, Washington.

Feb. 22—Washington's birthday. In all the states except Arkansas, Iowa and Mississippi.

March 2—Anniversary of Texan independence. In Texas.

March 4—Firemen's anniversary. In New Orleans, La.

March—Good Friday (the Friday before Easter). In Alabama, Louisiana, Maryland, Pennsylvania and Tennessee.

April (first Wednesday)—State election day. In Rhode Island.

April 6—Confederate Memorial day. In Louisiana.

April 19—Patriots' day. In Massachusetts.

April 21—Anniversary of the battle of San Jacinto. In Texas.

April 26—Memorial day. In Alabama, Florida and Georgia.

May 10—Memorial day. In North Carolina and South Carolina.

May 20—Anniversary of the signing of the Mecklenburg declaration of independence. In North Carolina.

May 30—Decoration day. In Arizona, California, Colorado, Connecticut, Delaware, Iowa, Illinois, Indiana, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Utah, Vermont, Wisconsin, Washington and Wyoming.

June 3—Jefferson Davis' birthday. In Florida.

July 4—Independence day. In all the states.

July 24—Pioneers' day. In Utah.

Aug. 16—Bennington Battle day. In Vermont.

"September" (first Monday)—Labor day. In Alabama, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland,

Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, Wisconsin and Wyoming.

Sept. 15—Admission day. In California.

Oct. 4—Labor day. In California.

Oct. 15—Lincoln day. In Connecticut.

Oct. 31—Admission in the Union day: Nevada.

Nov. 1—All Saints' day. In Louisiana.

November (generally the Tuesday after the first Monday)—General election day: In Arizona, California, Florida, Idaho, Indiana, Kansas, Maryland, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, South Carolina, Tennessee, Texas, West Virginia, Washington, Wisconsin and Wyoming.

November, the last Thursday in—Thanksgiving day: It is observed in all the states, although in some it is not a statutory holiday.

Nov. 25—Labor day. In Louisiana.

Dec. 25—Christmas day: In all states, and in South Carolina the two succeeding days in addition.

Sundays and fast days (whenever appointed) are legal holidays in nearly all the states.

Abolition day is a legal holiday in Kansas, Minnesota, North Dakota, Wisconsin and Wyoming, the day being set by the governor. In Nebraska, April 22; California, Sept. 9; Colorado, on the third Friday in April; Florida, Feb. 7; Rhode Island, first Friday in April; Texas, Feb. 22; Georgia, first Friday in December; Montana, third Tuesday in April; Utah, first Saturday in April; and Idaho, on Friday after May 1.

Every Saturday after 12 o'clock noon is a legal holiday in New York, New Jersey, Pennsylvania, Maryland and Virginia, and the city of New Orleans, and June 1 to Sept. 30 in Newcastle county, Delaware.

"Labor day was made a national holiday by congress. It is the only strictly national holiday we have, not excepting the Fourth of July. Congress has at various times appointed special holidays, and has recognized the existence of certain days as holidays, but there is no general statute on the subject. The proclamation of the president designating a day of thanksgiving only makes such day a holiday in those states which provide for it by law."

## The Autographic Register ...

is a loss-preventer and labor-saver. There is virtually no expense connected with its use, because it pays not only for itself, but a handsome profit besides, with the money which it saves. The money which it thus saves is clear profit, because it would otherwise be entirely lost.

USED BY THE  
DAILY NEWS  
and RECORD.

Send for circulars and full information.

THE UNITED  
AUTOGRAPHIC  
REGISTER CO.,

186 Monroe-st., Chicago.

# The Affairs of Europe

are faithfully portrayed in the original and exclusive cable dispatches which THE CHICAGO RECORD prints daily from the leading capitals of the old world. This magnificent special service is in process of being greatly extended so as to include every important city in Europe; and it is supplemented by the full regular cable service of The Associated Press.

***The Chicago Record, alone of all American newspapers outside New York city, now prints original and exclusive cable dispatches daily from the leading capitals of Europe.***

## "One of the Cheapest Good Things

of the present day," says the American Grocer, New York, "is THE CHICAGO RECORD COOK BOOK. There is a menu for every day, with recipes gathered from housekeepers in all parts of the United States. It aims to furnish directions for good living adapted to the means of people with moderate incomes. It furnishes instructions for variety in diet, paying due reference to differences in tastes and desires." Mailed postpaid on receipt of \$1.00 by THE CHICAGO RECORD, 151 Madison street, Chicago.

The omission of the circulation figures for December is due to going to press before the end of the month. The circulation for the entire year will be given in all subsequent editions of the Almanac.

## "THE UNPUBLISHED COOKING LORE

of all parts of this vast country," says the Boston Globe, "has been culled and sifted and put together in THE CHICAGO RECORD COOK BOOK. The volume is unique in that it shows how a family may live well at small expense." Mailed postpaid on receipt of \$1.00 by THE CHICAGO RECORD, 181 Madison-st., Chicago.
